Subject: Re: A Finding of No Significant Impact

Mr. Tolbert:
Any present or earlier version of the Draft Environmental Assessment (Draft EA) for the proposed expansion of Transmountain Road (LP 375) from I 10 to the Franklin Mountains State park is a work in progress and subject to change. The present form of the Draft EA is a preliminary or draft document that is being used for review, comment, and coordination purposes between TxDOT, other state agencies, and the Federal Highway Administration (FHWA). Comments on the draft EA from the state agencies and FHWA are in process. The FHWA have not released the Draft EA for further processing or public review. As soon as the draft document is released for further processing by FHWA, TxDOT will inform El Paso City Council members, and the Mayor, and publish the availability of the document in local papers.

>>> "Jim H. Tolbert" <jimhtolbert@elp.rr.com> 12/21/2010 4:35 PM >>>
A "Finding of No Significant Impact" – that's the summary of the ("an") Environmental Assessment of the Transmountain Road project. The published findings are dated November 2010 and the cover page contains the logos of the Federal Highway Administration and TxDOT – but not the word "Draft". For now I have published images of the summary and the cover page although I've been told that the report is not meant for release yet. However, without the word "Draft" all of us can wonder whether TxDOT has a final report and is just waiting – perhaps timing their next move with that of the PSB and the Mayor of the City of El Paso in an effort to promote the development along Transmountain Road – development that will give you views like those shown here.

I say Mayor, because recent email exchanges obtained through an Open Records Request reveal that the idea for the propaganda video put out by EPWU/PSB was not the idea of anyone at EPWU. It was done at the request of John Cook, the Mayor of our city, El Paso, Texas!

In an email dated October 29, 2010 at 4:40 p.m. from Ed Archuleta to City Manager, Joyce Wilson, Archuleta writes:

> ". . . the Mayor requested that we produce a short video, which Christina [Montoya – the Marketing and Communications Director for EPWU] did, to acquaint those that have difficulty looking at a map and picturing the area in question and may not have the time or inclination to actually go look at it."

Archuleta goes on to say:

> "The video is very revealing in that we are talking about hillside development and not mountain development the way some would spin it."

Really? Here are some Google Earth views of the area along with a visual of how PSB's sprawl will look.

Also, read this excellent and informative post by Rick LoBello that explains why there are many more reasons for saving the corridor besides scenery and elevation. By the way, his post seems to have brought out some PSB muscle just as some totally inappropriate muscle was used to try to get some of my friends to "control" me and my blog. (More on that revelation later.)

Folks, we are dealing with forces that act in the dark and out of public view. These forces believe that people need to be coerced and brought in line. Rezoning 792 acres as Natural Open Space will not cause the $80 million dollars for a

roads project to go away. It will mean that there will be a few modifications including moving Paseo del Norte, assuring safer access to the Tom Mays Unit and providing animal corridors.

Sign the petitions. It is time that El Pasoans speak out with truth. (Petitions and instructions are found in the top right hand column of www.elpasonaturally.blogspot.com.)

Finally, an introduction of the ordinance to rezone land along Transmountain passed City Council this morning. Such passage is a formality but it does mean that January 11, 2011 is the set date for voting on that ordinance. Circle that date!

Dear Mr. Tolbert:

Upon review of the initiative petition filed with me on March 1, 2011, titled:

> *"The undersigned ask that the El Paso City Council pass the following ordinance: 'The City of El Paso shall preserve, in it's natural state and in perpetuity, all of the acreage in the land legally described as "Parcel 1 – Nellie D. Mundy Survey 246, City of El Paso, El Paso County, Texas, and Parcel 2 – a portion of S.J. Larkin Survey, Abstract 10070, Tract 1, City of El Paso, El Paso County, Texas, and Parcel 3 – a portion of S.J. Larkin Survey, Abstract 10070, Tract 1-A, City of El Paso, El Paso County, Texas.' The City shall take all steps necessary to preserve this land and to prevent it from being developed with either private development or major public roadways. (This land is also known as "the West Transmountain Scenic Corridor.")"*

I find that the petition does not contain the number of signatures required under Article III, Section 3.11 of the City Charter of El Paso.

Subject: Transmountain Petitions received from Mr.James Tolbert

Good afternoon,

Attached are the two letters which were sent to Mr. James Tolbert regarding his two petitions.
Mr. Tolbert's petitions did not contain the number of signatures required under Article III, Section 3.11 of the City Charter of El Paso.

Respectfully,

Brian A. Heller
Assistant Municipal Clerk
City Clerk's Office
(915) 541-4447

Texas Department of Transportation-Loop 375 (Transmountain West) Public Hearing
Attn: Mr. Antonio Uribe, Jr., P.E., District Design
13301 Gateway Blvd. West
El Paso, Texas 79928

Mr. Uribe,

I am submitting this letter as part of the public hearing regarding the Transmountain project. I am also emailing a digital copy to Mr. Gregory Punske of the FHWA.

Many El Pasoans favor the preservation of land in what is called the Scenic Transmountain Corridor – land owned by the City of El Paso and managed by the Public Service Board. We believe that the El Paso City Council failed to preserve this land as Natural Open Space because they believed that the money for the Transmountain project would go away if they kept the land in its natural state.

As a result of Council's failure to act, we have circulated four separate petitions calling for the preservation of the Scenic Corridor or of all the land in the Westside Plan and have requested that no major roads such as Paseo del Norte be built through the Corridor. Instead we have urged moving Paseo west toward the current proposed site for Plexxar Road. Nearly 1900 citizens of El Paso signed two petitions presented to the Municipal Clerk. 2100+ people signed an earlier statement of desire to preserve all of the land. Another 1248 people have responded online.

Although we believe that Transmountain Road requires improvement to handle traffic safely and efficiently, we believe that not all alternatives have been considered by TxDOT and that TxDOT has been deaf to public comment and values.

We raise the following concerns about the TxDOT plan:

1. There is no safe entrance to the State Park. In fact, it will get worse. Now you will have to make a left turn across two lanes of traffic going 70 mph off the mountain. Want to see how that works? See this video.

2. There are many problems with TxDOT's public relations video for this project. They touted to City Council and the Open Space Advisory Board how nice the mountain will look. Several problems to note while viewing the video:

    - The video shows no commercial or residential development. Of course, open space looks great! But the plan (especially if land isn't preserved in the Scenic Corridor won't look anything like this. Elpasonaturally has posted this picture online of what that scene of the mountain will really look like.)

- Note the flyover (like the one on the Patriot Freeway at Fred Wilson) at I-10. TxDOT has never truly disclosed this.

- Yes you can see the mountains in their video since there camera isn't at road level but rather hovers above. Take a helicopter ride and you can see the mountains too once TxDOT is done and commercial and residential development takes off. Otherwise, people will view big box stores and the fast food joints.

- Plexxar wasn't on any earlier map of the Westside Master Plan.

- Finally, Paseo del Norte will slice through deep arroyos and steep hills.

3. There is no wildlife crossing except possibly through proposed residential land going from non-State Park land to non-State Park land.

4. And, again, there is the public desire and value to preserve open space.

5. The proximity of Paseo to Plexxar violates AASHTO standards.

It is never too late to plan a project of this size to consider alternatives and to listen to the public. We sincerely hope that you will do just that. We believe that further study is required and that there cannot be a FONSI granted at this time.

Sincerely,

Jim Tolbert

Initiative Petition

The undersigned ask that the El Paso City Council pass the following ordinance:

The City of El Paso shall preserve, in its natural state and in perpetuity, all of the acreage in the land legally described as "Parcel 1 - Nellie D. Mundy Survey 246, City of El Paso, El Paso County, Texas, and Parcel 2 - a portion of S.J. Larkin Survey, Abstract 10070, Tract 1, City of El Paso, El Paso County, Texas, and Parcel 3 - a portion of S.J. Larkin Survey, Abstract 10070, Tract 1-A, City of El Paso, El Paso County, Texas." The City shall take all steps necessary to preserve this land and to prevent it from being developed with either private development or major public roadways. (This land is also known as "the West Transmountain Scenic Corridor.")
