

Comments for Consideration in Future Bicycle Planning  
Texas Department of Transportation - Austin District  
Thursday, April 3, 2014

The TxDOT Austin District has begun a process to further gain information about how bicyclists use State System roadways (usually identified as US, FM, RM or Loop). Please assist Austin District staff by being as specific as possible with location information, including road/route name, cross streets or other landmarks, and county name. Feel free to use the maps in the center of the room.

What are some current challenges or barriers to cycling on the state roadway system?

What types of bicycle accommodations help you feel safe and comfortable while cycling on state roadways? Consider providing examples of specific locations on state roadways where you feel safest and most comfortable cycling.

List your top 3 priority issues to for bicycling on the state system?

Please be as specific as possible with location information, including road/route name, cross streets or other landmarks, and county name. Feel free to use the maps in the center of the room.

Which state roads do you currently bicycle on?

If there were no funding or logistical constraints, please list the top 3 state roadways where you would improve bicycle facilities. For these three locations, what types of bicycle accommodations would you recommend?
