

South 10-mile Comprehensive Project

The South10 project would add an express lane in each direction and address all remaining safety and mobility improvements proposed under the Mobility35 program. Two alternatives are being considered, a build alternative consisting of express lanes with direct transit accommodation and a no-build alternative. The build alternative would provide bus transit access to and from the express lanes with dedicated bus-only ramp access in specific locations.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Open House

Stop by any time between 5:30 - 7 p.m. to review materials, ask questions, and submit comments.

Tuesday, July 12, 2016
W.B. Travis High School
