

## Epoxy Powder Coating Sources

**NOTE: Refresh the page to view the most current list.**

The following producers are prequalified to provide green epoxy resin powder in accordance with “DMS-8130, Epoxy Powder Coating for Reinforcing Steel.” This Specification describes the procedure for prequalification.

Prequalification samples must be submitted annually. Sampling of epoxy powder coatings will be in accordance with Tex-738-I, “Sampling Epoxy Powder Coating for Reinforcing Steel.”

The Department reserves the right to conduct random sampling of prequalified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. The Materials and Pavements Section of the Construction Division reserves the right to test samples to verify compliance with DMS-8130.

If you have any questions about these materials, please call (512) 506-5887.
