

## Asphalt Binders

**NOTE: Refresh the page to view the most current list.**

Tex-545-C, “Asphalt Binder Quality Program,” provides the requirements and procedures for the Construction Division, Materials and Pavements Section (CST/M&P) to inspect and approve asphalt binders and related products at the source of manufacture.

The following producers are pre-qualified in accordance with Tex-545-C. Producers who do not appear on this list may not supply asphalt binders for use on TxDOT projects. Materials provided by producers on this list must still provide current TxDOT lab numbers with all shipments.

For more information, contact the Construction Division's Asphalt, Chemical, and Calibration Branch at (512) 506-5818.
