

Bridge Bearings (Elastomeric)

NOTE: Refresh the page to view the most current list.

The following producers are pre-qualified in accordance with Item 434, “Elastomeric Bridge Bearings,” to supply elastomeric bridge bearings of the type and durometer shown.

The Department reserves the right to conduct random sampling and testing of materials from pre-qualified producers and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant or the project site. The Materials and Pavements Section of the Construction Division reserves the right to test samples to verify compliance with Item 434.

For more information, contact CST/M&P’s Structural Materials Branch at (512) 506-5924.

◆ 50 Durometer Bearing Pads
