

Concrete Evaporation Retardants

Material Producer List

Construction Division – Materials & Pavements Section

Concrete Evaporation Retardants

The following evaporation retardants are pre-qualified in accordance with DMS-4650, “Hydraulic Cement Concrete Curing Materials and Evaporation Retardants.”

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, terminal, shipping container, and concrete plant. CST/M&P reserves the right to test samples to verify compliance with DMS-4650.

For more information, contact the Construction Division’s Rigid Pavements and Concrete Materials Branch at (512) 506-5858.
