Material Producer List

Construction Division – Materials & Pavements Section

Multipolymer Pavement Markings

The following products are pre-qualified for use whenever multipolymer pavement markings are specified.

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. CST/M&P reserves the right to test samples to verify compliance with the specification requirements for multipolymer pavement markings.

For more information, contact the Construction Division's Coatings and Traffic Materials Branch at (512) 506-5870.
