Polymeric Materials for Patching Spalls in Concrete Pavement

Material Producer List
Materials and Tests Division (MTD)
Polymeric Materials for Patching Spalls in Concrete Pavement

The following products are pre-qualified in accordance with DMS-6170, “Polymeric Materials for Patching Spalls in Concrete Pavement.”

The Department reserves the right to conduct random sampling of pre-qualified materials for testing and to perform random audits of test reports. Department representatives may sample material from the manufacturing plant, the project site, and the warehouse. MTD reserves the right to test samples to verify compliance with DMS-6170.

For more information, contact MTD’s Rigid Pavements and Concrete Materials Section at (512) 506-5858.
