General

The Department reserves the right to conduct random sampling and testing and visual inspections of materials from approved steel fabricators. Department representatives may sample and inspect material at the fabrication shop or the project site. The Materials and Tests Division (MTD) reserves the right to test samples to verify compliance with Item 441.

The fabricator’s monogram stamp is only to be placed on TxDOT-inspected product. This stamp should not be placed on product for which TxDOT has not provided Quality Assurance inspection.

Misuse of the approved fabricator’s monogram stamp may result in plant disqualification in accordance with DMS-7370, Section 4.4.

For more information, contact MTD’s **Prefabricated** Structural Materials Section at (512) 506-5924.
