## Material Producer List

Materials and Tests Division

## Warm-Mix Asphalt

The following Warm-Mix Asphalt (WMA) additives and processes are pre-approved for use on Department projects. For more information, contact the Materials and Tests Division's (MTD) Flexible Pavements Section at **(512) 506-5217**.

Approval requires the submittal of documentation from a minimum of three Department construction projects using the WMA technology in the State of Texas.

Documentation must include a mixture design with mechanical property test results, including Hamburg Wheel-Tracking test results, and Quality Control/Quality Assurance (QC/QA) test results measured during production. The following information must be included with the documentation:

- Contact name, telephone number, an email address;
- Product name and supplier;
- Dates of construction for each project;
- Control-Section-Job (CSJ) Number for each project, if available; and
- Location and highway for each project submitted.

Allow for 60 days to process the approval request, after submitting complete documentation to MTD.
