

Finding of No Significant Impact for a State Project

Proposed Action: Park Road 22 Bridge

Project Limits: Whitecap Boulevard to SH 361 (Commodores Drive)

City: Corpus Christi **County:** Nueces **State:** Texas

TxDOT CSJ(s): 0617-02-064

In accordance with 43 T.A.C. Part 1, Chapter 2, Subchapter D, Section 2.83, the Texas Department of Transportation (TxDOT) has determined that Park Road (PR) 22 Bridge project, from Whitecap Boulevard to SH 361 (Commodores Drive), will not have a significant impact on the human or natural environment. The project proposes to construct two bridges (northbound and southbound) within the existing right-of-way of the TxDOT-owned PR 22 facility over a United States Army Corps of Engineers (USACE) permitted third-party canal. The proposed project is located on Padre Island in Corpus Christi, Nueces County, Texas.

This Finding of No Significant Impact (FONSI) for the Preferred Alternative is based on the final Environmental Assessment dated July 2016 and the entire project record. This decision documents the selection build alternative, presented in the final EA as the Preferred Alternative, which is described as:

The bridges would consist of three precast concrete arch spans comprised of two 12-foot lanes with 10-foot inside and outside shoulders with one foot railings for an overall bridge width of 46 feet. A 34-foot depressed median would be maintained. The total length of the proposed bridge would be approximately 128 feet. Additional roadway improvements include the addition of dedicated turn lanes at the proposed Azores Drift Drive and Nemo Court, near the south end of the project.

A Notice of Availability of the draft EA was issued on March 7, 2016.

A public hearing for this project was held on April 7, 2016.

No changes to the draft EA were made as a result of comments received on the draft EA during the posted comment period or from comments made at the public hearing.

Public Hearing Documentation has been prepared and is available for review on request.

The final EA and reports contained in the file of record have been independently evaluated by TxDOT and determined to adequately and accurately discuss the need, purpose, alternatives, environmental issues, impacts of the proposed project, and appropriate mitigation measures. These documents provide sufficient evidence and analysis for determining that preparation of an Environmental Impact Statement is not required. These documents are incorporated by reference into this decisional document.

Based upon TxDOT's review and consideration of the analysis and evaluation contained in the EA for this project, and after careful consideration of all social, economic, and environmental factors, including input from the public involvement process, TxDOT hereby issues this FONSI for the Park Road 22 Bridge project from Whitecap Boulevard to SH 361 (Commodores Drive).

Finding of No Significant Impact for a State Project

TxDOT will ensure adherence and completion of all project commitments described in the final EA July 2016, Section 5.0. TxDOT will ensure that any and all local, state, or federal permit requirements and conditions are met and otherwise complied with.

Carlos Juch

TxDOT Environmental Affairs Division Director

Environmental Document Certification Form

Reset Form

Project Name: PR 22 Bridge Project

Control Section Job Number (CSJ): 0617-02-064

Document Type: EA EIS FONSI

Document Stage: Draft Final

This checklist shall be used to certify that an environmental document is ready for public review (draft documents) or approval (final documents).

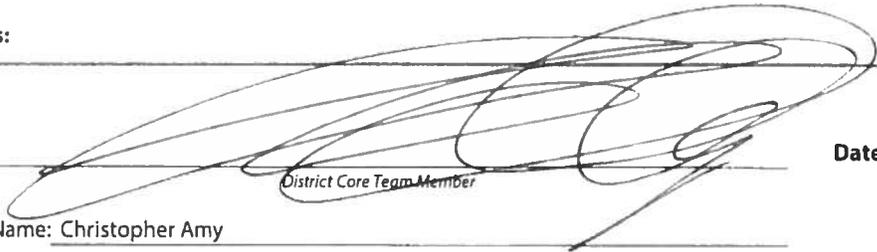

When all required items are satisfactorily completed, the District and ENV representatives will sign this form indicating the environmental document is certified and may proceed to public review or is ready for final approval.

This project meets all the following requirements:

- A. A project scope has been completed for the project.
- B. The document has been determined to be administratively complete.
- C. The document meets the requirements of technical review (43 TAC §2.49) as required to date.
- D. The required public participation has been completed as required to date.
- E. All consultation and coordination required for the environmental decision is complete and appropriately documented (for final environmental documents).
- F. Legal Review or Legal Sufficiency Review has been completed, as required.
- G. Current funding has been reviewed, and is as follows:
