REVISED DECEMBER 2006

AN EQUAL EMPLOYMENT OPPORTUNITY PROGRAM
U.S. DEPARTMENT OF LABOR
OFFICE OF FEDERAL CONTRACT COMPLIANCE
WASHINGTON, D.C. 20210

July 29, 1968

MEMORANDUM

TO: Contract Compliance Officers

FROM: Ward McCready
Acting Director

The Texas Highway-Heavy Branch of the Associated General Contractors has committed itself and its 235 contractor members, beginning this month, to a positive program of recruitment, training, and up-grading of minority groups for the construction industry. The 235 members of the Branch now employ approximately 22,000 workmen of whom some 70% are of minority groups, about evenly divided among Negroes and Mexican-Americans. The 70% minority representation throughout the labor force also exists among the machine operator and other higher-paying skills.

The Affirmative Action program of the Branch is: (1) to seek, employ, and train as many minorities as may be available and to continue this program so long as the economic situation warrants, (2) to immediately recruit and hire 350 minorities evenly divided among Negroes and Mexican-Americans and place them in a training program consisting of 24 skilled trades, of which 85% of the trainees are to become machine operators.

This Office recommends that agencies find participation by a bidder in this program constitutes acceptable affirmative action with respect to the 24 skills covered in the Training Program. Therefore, a statement of such participation should be accepted in lieu of that portion of a required affirmative action plan which would otherwise be directed to these job categories. However, if the low bidder intends to use construction craftsmen in other categories usually described as the mechanical crafts (electrical, ironwork, plumbing, pipefitting, sheetmetal), the usual determination for affirmative action programs will apply, unless similar multi-employer programs have been accepted by this Office.
Mr. Robert W. Norris  
Staff General Counsel  
Texas Highway-Heavy Branch  
Associated General Contractors  
P. O. Box 1609  
Austin, Texas 78767

Dear Mr. Norris:

This is with further reference to your June 6 letter and subsequent conversations with members of my staff regarding the approval of your On-the-Job Training Program, which we understand complies with the standards established by the Office of Federal Contract Compliance.

Our review for Davis-Bacon purposes indicates that the proposed training program conforms with the criteria outlined in our All-Agency Memorandum No. 74, dated August 28, 1967, and subsequent policy statements regarding bona fide youth, poverty and similar manpower training programs. Accordingly, the program is approved.

As indicated in our discussions, we will continue to follow our present policy of not incorporating trainee rates into any wage determinations issued by this office.

Yours sincerely,

Charles Donahue  
Solicitor
October 3, 1972

Mr. Tom Johnson
Texas Chapter
Associated General Contractors
P.O. Box 2185
Austin, Texas 78767

Dear Mr. Johnson:

This office is in receipt of a letter from the Assistant Secretary for Manpower, U. S. Department of Labor, allowing highway-heavy contractors to utilize the on-job training program which was approved by the Secretary of Transportation to satisfy their Order 72-2(2) on highway-heavy type construction.

It was pointed out that your on-job training program parallels the objectives of 29 CFR 5a and therefore, participation in the program exempts participating contractors from the requirements of 29 CFR 5a on highway-heavy type construction. As you know, highway-heavy construction is defined as construction such as dams, streets, utilities, site grading, air fields and similar type construction.

Should any awarding agencies have any questions about the applicability of this training program, I hope they will not hesitate to contact this office.

Sincerely,

[Signature]
Truman Branscum
Regional Director
March 21, 1972

Mr. Thomas L. Johnson
Executive Secretary
AGC, Texas Highway-Heavy Branch
P. O. Box 2185
Austin, Texas

Dear Mr. Johnson:

On March 10, 1972, I met with Mr. Nathaniel Pearson, Assistant Director of the Office of Federal Contract Compliance, for the purpose of discussing the Manpower Development and Training Programs sponsored by AGC, Highway-Heavy Branches, in the southwestern states.

In our discussions, Mr. Pearson indicated that prior to these programs receiving approval from OFCC as an approved Department of Labor Affirmative Action Program, they had to be updated in the following manner:

1. The starting pay of a trainee must be increased to 70% of the prevailing wage rate of a journeyman in the particular trade for which the trainee is being trained.

2. A specific numerical goal for the number of minorities to be trained must be established on a yearly basis.

3. A formal monthly reporting system to the Regional Director must be established.

4. Minority community involvement must be continued, and minority group referral sources must be utilized.

I am in receipt of your letter of March 20, 1972, in which your Association agrees to these requirements. My office feels that the numerical

TO: HEADS OF ALL AGENCIES

FROM: George L. Holland
Director

SUBJECT: Approval of Texas Heavy-Highway Plan

The Office of Federal Contract Compliance has granted approval to the Texas Heavy-Highway Plan as an acceptable voluntary plan.

The following crafts are utilized by the Texas Heavy-Highway Industry:

- Electricians
- Painters
- Carpenters
- Operating Engineers
  1. Operators
  2. Mechanics
- Pipefitters and Plumbers
- Ironworkers
- Cement Masons

A copy of the Plan will be forwarded to your Office.
In Reply Refer To: 4506-14

Mr. Thomas L. Johnson  
Executive Secretary  
Associated General Contractors  
P. O. Box 2185  
Austin, Texas 78767

Dear Mr. Johnson:

The Office of Federal Contract Compliance is granting approval to the Texas Heavy-Highway Plan as an acceptable voluntary plan.

The following crafts are utilized by the Texas Heavy-Highway Industry:

- Electricians  
- Ironworkers  
- Cement Masons  
- Operating Engineers
  1. Operators  
  2. Mechanics  
- Pipefitters and Plumbers  
- Painters  
- Carpenters

We look forward to a successful plan and continued progress in the area of equal employment opportunity.

Sincerely,

George L. Holland  
Director

ON THE JOB TRAINING PROGRAM
AGC OF TEXAS
HIGHWAY, HEAVY UTILITIES AND INDUSTRIAL BRANCH

A NOTE TO TRAINEES

Welcome to the AGC of Texas On the Job Training Program. This program was initiated to increase the participation of minorities, women and disadvantaged persons in the construction skilled trades on TxDOT Federal-aid construction projects. It gives eager, hardworking individuals a means to learn new skills and earn higher wages. The training time is cut just as short as possible, so each trainee must apply himself or herself to the fullest extent. While this may sound difficult, the rewards are great. After successful completion of your training, you will become a skilled employee and your wages will reflect your new expertise.

Your employer welcomes you into this training program and looks forward to making you more valuable to the operation of the business. With hard work and effort you will see your wages rise, which will in turn help raise the standard of living for you and your family.

The job classifications listed herein contain outlines of what you should expect from your training. Each of the training curricula serves as a general guideline. As contractors expect different things from their employees, it is the employer’s decision how to handle your training and when to graduate you from the program. Keep in mind, however, that the hours listed are a maximum, and you shall not be kept in the training program for longer than the maximum number of hours.

We hope the AGC of Texas On-the-Job Training Program will be a fresh start in your career, and enable you to increase your knowledge, pay and value to your employer. With your best effort and your employer’s best knowledge and help, let’s begin.
CONTRACTORS'/SUPERVISORS' QUICK GUIDE
TO PROGRAM PROCEDURES

The contractor shall begin assigning and scheduling OJT training by February 15 of each year. At least one trainee shall begin training by March 15.

Within seven days of intent to begin training, the contractor shall electronically submit to AGC an AGC OJT Enrollment Request Form AND mail a hard copy signed by the trainee and a contractor representative. AGC will review the request and send a letter to the contractor confirming or rejecting trainee enrollment. If approved, a copy of the letter will be forwarded to the affected area engineer(s). AGC will forward an electronic version of the enrollment request to TxDOT's Office of Civil Rights.

The contractor is required to furnish each trainee with a copy of the program schedule. AGC will provide these to the contractor for distribution.

Each week thereafter the contractor shall electronically submit a Weekly Reporting Form both to AGC and the affected area engineer(s), regardless of whether training occurred for that week.

If a trainee is transferred to another project, the contractor shall advise the new and previous area engineers in sufficient time to allow for TxDOT trainee interviews.

Upon completion or termination of training, the Contractor must notify the area engineer(s) and AGC within seven business days by noting it on the Weekly Reporting Form. AGC shall supply a copy of the final form to TxDOT's Office of Civil Rights (OCR). Graduation ceremonies are encouraged and AGC will furnish the contractor with a diploma and wallet card to be given to the trainee upon graduation.

As a peripheral measure, outreach and recruitment opportunities will be facilitated by AGC. Two joint meetings will be scheduled by AGC of Texas each year to review training and recruitment effort. Before a recruitment meeting, AGC will send letters to TxDOT, FHWA, and member contractors requesting ideas for recruitment events, invitee lists, and other related participation.

Annual Outreach Reporting Forms detailing recruitment meetings and outreach events shall be retained by AGC and shall list participants (to include organizations, and federal and state officials) and potential recruits from the outreach efforts. They will also document all assistance given from FHWA and TxDOT and requested by AGC and member contractors. The Reporting Forms will be available to FHWA and TxDOT by request.

AGC shall retain training records for a period of three years following completion of the contract work. Such records shall be made available at reasonable times and places for inspection by authorized representatives of TxDOT and the Federal Highway Administration.
**Policy Statement**

The Associated General Contractors (AGC) of Texas has reinstated its On-the-Job Training (OJT) Program in accordance with regulations of the U.S. Department of Transportation at 23 CFR Part 230, Subpart A, Equal Employment Opportunity on Federal and Federal-aid Construction Contracts (including Supportive Services). The program is designed to increase participation of minority groups, disadvantaged persons and women in all phases of the highway construction industry.

**Nondiscrimination in Programs and Activities**

Federal nondiscrimination programs require that Federal-aid recipients, sub recipients, and Contractors prevent discrimination and ensure nondiscrimination in all of their programs and activities, whether those programs and activities are federally funded or not. The factors prohibited from serving as a basis for action or inaction which discriminates include race, color, national origin, sex, age or disability. The efforts to prevent discrimination must address, but not be limited to a program’s impacts, access, benefits, participation, treatment, services, contracting opportunities, training opportunities, investigation of complaints, allocation of funds, prioritization of projects, and the functions of right-of-way, research, planning, and design.

Additionally, the Contractor is to assure that applicants are employed, and that employees are treated during employment, without regard to their race, religion, sex, color, national origin, age, or disability. Such action shall include: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship, pre-apprenticeship, and/or on-the-job training.

Authorities for non-discrimination include but are not limited to: Title VI and Title VII of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, the Age Discrimination Act of 1967 and 1975, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and Title 23, United States Code, Section 324.

For Equal Employment Opportunity, also see the FHWA 1273 incorporated into each contract and subcontract to the lowest tier as required by 23 CFR Part 633.102.

**Supportive Services**

The primary purpose of the supportive services is to increase the effectiveness of approved on-the-job training programs, particularly their effectiveness in providing meaningful training opportunities for minorities, women, and the disadvantaged on Federal-aid highway projects.

Outreach and recruitment opportunities will be facilitated by AGC. Two joint meetings will be scheduled by AGC of Texas each year to review training and recruitment effort. Before a recruitment meeting, AGC will send letters to TxDOT, FHWA, and member contractors requesting ideas for recruitment events, invitee lists, and other related topics.
Under the Texas Business Opportunity and Workforce Development Center, opportunities are available to assist trainees, the workforce of Disadvantaged Business Enterprises, and Contractors. Assistance may vary, but may include the purchase of tools, a stipend for the trainee, transportation assistance, recruiting, counseling, acquisition of special equipment, day care assistance, etc. Additional information may be obtained from the Texas Business Opportunity and Workforce Development Center at 512-486-5500.

**Contractor Annual Goal Methodology**

To determine the annual trainee goal, the Texas Department of Transportation (TxDOT) will consider the average of the Contractor’s previous three fiscal year earnings on Federal-aid contracts.

The following table depicts the annual trainee goal methodology. TxDOT will notify Contractors by January 15th of each year by certified mail of their annual trainee goal.

<table>

</table>

**Contractor Responsibilities**

Within 30 days of TxDOT annual notification, the Contractor shall assign and schedule trainees to begin their training on a TxDOT Federal-aid highway construction project(s) or show good faith efforts as to why the goal cannot be achieved.

The Contractor may provide training to a trainee on any project that they are a prime contractor or subcontractor. The contractor may also provide training to a trainee through the use of a subcontractor that is currently working for the contractor.

The number of trainees shall be distributed among the work classifications on the basis of the Contractor’s needs and the availability of journeymen in the various classifications within a reasonable area of recruitment.

The Contractor will advise employees and applicants for employment of available training programs and entrance requirements for each.
The Contractor will periodically review the training and promotion potential of minorities, women and disadvantaged employees and will encourage eligible employees to apply for such training and promotion.

**Contractor Good Faith Efforts**

Within 30 days of the annual notification, the Contractor must develop an action plan to fill the assigned training slots. Within 60 days of the annual notification, one or more of the trainees must begin their training on the project(s). Should the Contractor not have any individuals enrolled and undergoing training by that time, the following information must be provided in writing to AGC.

1. The Contractor’s written action plan.
2. A listing of recruitment sources used for minority, women, and disadvantaged individuals, such as minority, women and disadvantaged organizations, associations, newspapers, flyers etc.
3. A copy of the applicant log that shows name of the applicant, address, phone number, gender, race, date of application, and reason for non-hire as a trainee.
4. The Metropolitan Statistical Area(s) used for outreach and recruitment where each of the Contractor’s projects is located.

AGC will forward the information to TxDOT’s Office of Civil Rights Contract Compliance Section:

**Contractor Reporting Requirements**

The Contractor is required to notify AGC by electronically submitting a Contractor OJT Enrollment Request Form within seven (7) business days of intent to assign trainees to a project. In addition, a hard copy, signed by the trainee and a contractor representative, must be sent via mail to the AGC Chapter Office at 300 Barton Springs Road/Austin, TX 78704, Attn: OJT documents. AGC will provide a copy of the enrollment request to TxDOT’s Office of Civil Rights (OCR).

Upon receipt of the Contractor OJT Enrollment Request Form, AGC will, within 5 business days, either approve or deny the request and notify the Contractor of the decision in writing. If the request is approved, AGC will notify the applicable TxDOT Area Engineer(s) and OCR confirming the trainee enrollment.

By Wednesday of each week the Contractor will report on the previous week’s OJT activity by electronically submitting an OJT Weekly Reporting Form to AGC and to the applicable Area Engineer. If there are no hours worked during the week, the Contractor’s weekly report will reflect no hours.

If a trainee is transferred to another project, the Contractor must notify both the Area Engineer on the previous project and the Area Engineer the trainee is being transferred to.

Upon completion or termination of training, the Contractor must notify the area engineer(s) and AGC within seven business days by noting it on the Weekly Reporting Form. AGC shall
supply a copy of the final form to TxDOT’s Office of Civil Rights (OCR). Graduation ceremonies are encouraged and AGC will furnish the contractor with a diploma and wallet card to be given to the trainee upon graduation. 

**Trainee Requirements**

No employee will be employed as a trainee in any classification in which he/she has successfully completed a training course leading to journeyman status, or in which he/she has been employed as a journeyman.

**Determination of Trainee Participation**

Credit will be allowed toward the Contractor’s annual goal for the year in which the trainee entered training. The Contractor’s annual goal will only be credited once for each trainee and only for the year the trainee entered into training.

Credit will be allowed for each trainee employed on the contract and who is currently enrolled or becomes enrolled in an approved training program.

Credit will be allowed should the Contractor train, certify and advance the trainee to journeyman worker status upon successful demonstration of the required proficiency standards.

No credit will be allowed for any trainee involuntarily terminated by the Contractor unless the Contractor can clearly justify the action. When a trainee is terminated for any reason, the Contractor is required to make a good faith effort to replace the trainee within 30 days of the termination. The replacement trainee need not be in the same classification code as the terminated trainee.

No credit will be allowed when the Contractor fails to provide the required training or evidences a lack of good faith effort in meeting the requirements of this program.

**Trainee Wage Rates**

The trainee will be paid at minimum an established percentage of the prevailing wage of the area. The percentage varies by classification and by amount of time spent in training. The wage rates for each classification are listed in the classification descriptions, located in this booklet.

**Contractor’s Compliance**

A Contractor will be determined to be in compliance upon demonstration that the requirements of the OJT Program have been met. A Contractor that has failed to meet the requirements of the OJT Program shall be in material breach of their contracts. In such an instance, the Department reserves the right to terminate the contract, assess liquidated damages, or other such remedy or remedies as the Department deems appropriate.

**Monitoring**
Pursuant to 23 CFR Part 230.113(f)(5), the Area Engineer's Office will receive on a weekly basis the OJT Weekly Reporting Form, which will contain sufficient statistical data and narrative content to enable evaluation of both progress and problems.

Area Office personnel will conduct labor interviews and wage rate monitoring utilizing the Construction Division's Labor Standards Review Form. The Department may conduct interviews of trainees on a quarterly or annual basis to verify their training status and/or progress toward completing their training programs.

To ensure that trainee goals of the Contractor's Federal-aid assisted contracts are complied with, the Department will monitor the Contractor's recruitment efforts, training and hiring. This will be accomplished by a review of the Contractor OJT Enrollment Request Form and the OJT Weekly Reporting Form.

The Department will continually monitor the Contractor's OJT progress through an OJT database developed and maintained by TxDOT. The OJT database will consist of information obtained from the Contractor's reporting forms.

**Annual Report**

On an annual basis, TxDOT will publish and forward to FHWA a report on the achievement of the Department's annual training goal. (OJT Annual Report Form, Appendix C)

In the event TxDOT does not achieve the annual training goal, TxDOT shall inform the FHWA in writing by January 31st the specific reasons the goal was not achieved and the steps TxDOT took in their methodology to adjust future goals.

**Records**

Pursuant to 23 CFR Part 230.1 13(f)(6), Contractors will keep track of trainees receiving training on Federal-aid highway construction projects. The Contractor will conduct a six month follow-up review of the employment status of each graduate who completes an on-the-job training program on a Federal-aid highway construction project subsequent to the effective date of the contract for supportive services.

Pursuant to 23 CFR Part 230.1 13(f)(9), Contractors and subcontractors will make available to the Department and FHWA access to all records upon request.

The Contractor shall retain the original training records for a period of three years following completion of the contract work and such records shall be available at reasonable times and places for inspection by authorized representatives of the Department and the Federal Highway Administration. AGC will retain trainee records for all Contractors using the AGC OJT Program.

The Contractor shall furnish each trainee with a copy of the training schedule that will be followed. The Contractor will provide each trainee with a certificate showing the type and length of training satisfactorily completed. These documents can be obtained from AGC upon request.
APPENDIX A

Special Provision
SPECIAL PROVISION

000---807

On-the-Job Training Program

1. Description. Texas Department of Transportation’s (TxDOT’s) program to meet the requirements of the Federal-aid Highway Act of 1970 and 23 CFR (Code of Federal Regulations) Part 230, Subpart A. The objective is to develop skill improvement programs to provide opportunities for unskilled workers, particularly minorities, women, and disadvantaged persons, to acquire training in the skilled construction trades.

2. Trainee Assignment. TxDOT’s Office of Civil Rights will allocate training assignments to prequalified contractors based on the past contract volume of Federal-aid work performed with TxDOT. TxDOT will notify each contractor who has met the volume of work threshold at the beginning of each reporting year and advise them of the number of trainees they are expected to support.

3. Program Requirements. Contractors found to have reached the level(s), as identified in the TxDOT On-The-Job Training (OJT) program document, are required to fulfill all of the requirements of the OJT program at no additional cost to the department other than contractor requested reimbursement of $0.80 per hour for a trainee.

The contractors are required to compensate the trainee at least 60% of the appropriate minimum journeyman’s rate specified in the contract for the first half of the training period, 75% for the third quarter of the training period and 90% for the last quarter of the training period.

Contractors will promptly notify pertinent project engineers of the trainee’s work location in sufficient time to allow for observation or interviews.

The program document is available through the TxDOT Office of Civil Rights Contract Compliance Section at 125 E. 11th Street, Austin, Texas 78701.

4. Non-Compliance. A contractor’s failure to comply with the requirements of this Special Provision shall constitute a material breach of this contract. In such a case, the department reserves the right to terminate the contract, assess liquidated damages, or such other remedy or remedies as the department deems appropriate.

APPENDIX D

Federal Regulation 23CFR Part 230
§ 230.111 Implementation of special requirements for the provision of on-the-job training.

(a) The State highway agency shall determine which Federal-aid highway construction contracts shall include the "Training Special Provisions" (appendix B) and the minimum number of trainees to be specified therein after giving appropriate consideration to the guidelines set forth in § 230.111(c). The "Training Special Provisions" shall supersede section 7(b) of the Special Provisions (appendix A) entitled "Specific Equal Employment Opportunity Responsibilities." Minor wording revisions will be required to the "Training Special Provisions" in areas having "Hometown" or "Imposed Plan" requirements.

(b) The Washington Headquarters shall establish and publish annually suggested minimum training goals. These goals will be based on the Federal-aid apportioned amounts and the minority population. A State will have achieved its goal if the total number of training slots on selected federally aided highway construction contracts which have been awarded during each 12-month period equals or exceeds the State's suggested minimum annual goal. In the event a State highway agency does not attain its goal during a calendar year, the State highway agency at the end of the calendar year shall inform the Administrator of the reasons for its inability to meet the suggested minimum number of training slots and the steps to be taken to achieve the goal during the next calendar year. The information is to be submitted not later than 30 days from the end of the calendar year and should be factual, and should not only indicate the situations occurring during the year but show the project conditions at least through the coming year. The final determination will be made on what training goals are considered to be realistic based on the information submitted by a State.

(c) The following guidelines shall be utilized by the State highway agency in selecting projects and determining the number of trainees to be provided training therein:

1. Availability of minorities, women, and disadvantaged for training.

2. The potential for effective training.

3. Duration of the contract.

4. Dollar value of the contract.

5. Total normal work force that the average bidder could be expected to use.

6. Geographic location.

7. Type of work.

8. The need for additional journeymen in the area.

9. Recognition of the suggested minimum goal for the State.

10. A satisfactory ratio of trainees to journeymen expected to be on the contractor's work force during normal operations (considered to fall between 1:10 and 1:4).

(d) Training programs which are established shall be approved only if they meet the standards set forth in appendix B with regard to:

1. The primary objectives of training and upgrading minority group workers, women and disadvantaged persons.

2. The development of full journeymen.

3. The minimum length and type of training.

4. The minimum wages of trainees.

5. Trainees certifications.

6. Keeping records and furnishing reports.

(e)(l) Training programs considered by a State highway agency to meet the standards under this directive shall be submitted to the FHWA division Administrator with a recommendation for approval.

(f)(l) Apprenticeship programs approved by the FHWA division Administrator will be exempt from the minimum wage rate provisions of section 113 of title 23 U.S.C. Approval, however, shall not be given to training programs which provide for employment of trainees at wages less than those required by the Special Training Provisions. (Appendix B.)

Mentoring and Job Training

1 INTRODUCTION

Small businesses are essential to economic competitiveness in the transportation industry. Therefore, the Developer has created a Small Business Mentor Protégé Program to provide opportunities for small businesses to participate in public-private partnerships in the areas of design and construction.
DEFINITION OF TERMS

Historically Underutilized Businesses (HUBs) — Any business so certified by the Texas Buildings and Procurement Commission (TB&PC) (formerly the General Services Commission).

Small Business Enterprises (SBEs) — Any business certified as a DBE and/or HUB or otherwise so certified by TxDOT.

Developer Mentor (Mentor) — Employees from the Developer.

Developer Protégé (Mentor Protégé) — DBEs/ HUBs/ SBEs that sign an agreement with the Developer to participate in the Developer-Small Business Mentor Protégé program.

Session — A series of meetings for the Developer-Small Business Mentor Protégés.
3. PROGRAM GOALS

The Developer's Small Business Mentor Protégé Program provides an opportunity to selected Small Business Mentor Protégés to learn about the Developer's business opportunities and its business practices. Mentor Protégés will receive information to assist them in bidding and performing on the Developer's contracts by working directly with the Developer and appropriate subcontractors gaining valuable on-the-job training during a one (1) year mentoring period.

The Small Business Mentor Protégé Program will offer participants the opportunity to enhance their business skills by focusing on fundamental construction business tenets:

1. Schedule and scheduling
   a) Short-term and long-term scheduling
   b) How to schedule
   c) Progressing a schedule
   d) Keeping on schedule
   e) Identifying and applying appropriate resources
   f) Schedule recovery

2. Creating a cost budget and measuring costs
   a) Establishing a budget with appropriate cost codes
   b) Monitoring the budget by conducting weekly review of cost reports
   c) Anticipating necessary changes to the budget
   d) Adjusting the budget
   e) Identifying changed conditions

3. Measuring cash flow and profitability
   a) Cash in vs. Cash out
   b) Relationship of cash flow to profitability

4. Understanding the role of bonds and insurance

5. Clarifications to the contract documents, when requested by the Mentor Protégé

6. Human resources

7. Project safety

The Developer will introduce the Mentor Protégés to key Developer staff and to TxDOT's project staff and provide networking opportunities with those individu-
als. Developer Mentors, in collaboration with the Developer's staff, subcontractors, bonding agents, and other applicable parties, will meet with the Mentor Protégés during regularly scheduled meetings and will work individually with the Mentor Protégés as needed to achieve program goals. The Developer will publish Developer Bulletins that identify the firms participating in the Mentor Protégé program in order to improve awareness of the program and to achieve program goals.
ELIGIBILITY

To be eligible for the program, the small business must have been certified by the State of Texas as a DBE, HUB, or SBE for at least one consecutive year and must perform a category of work or supply a type of material that adds value to the project (e.g., design services, concrete supplier, rebar tier). Firms interested in participating in the program must submit a Small Business Mentor Protégé application to the Developer. The Developer will offer participation in the program to each DBE, HUB, or SBE that has an active role in the project, and will endeavor to maintain a minimum of five (5) active participants at any one time during the design and construction phase of the project. A total of two (2) active participants will be mentored during the operation and maintenance period after Service Commencement. The actual number of Protégés participating in the program will depend on the total number of candidate firms working on the project that express interest in the program.

Once selected by the Developer, the Mentor Protégé must sign a Mentor Protégé agreement (to be developed by Developer) to commit the necessary time and efforts needed for the successful training. This is a voluntary program and either party may withdraw at any time by providing notice outlining the reason for withdrawal from the program (a courtesy copy will be provided to TxDOT). Upon completion of the one year (1) program, the Developer will provide each Mentor Protégé with a Certificate of Completion.
PUBLIC OUTREACH

The Developer has identified the following list of available resources to locate and solicit DBEs, HUBs, and SBEs:

I. Owner provided subcontractor listings

II. Texas Unified Certification Program (TUCP) directory

III. Procurement Marketing and Access Network (PRO-Net) of the Small Business Administration (SBA);

IV. The Developer's Internal Vendor Database — created from letters of introduction, pre-qualification documents, and personal interviews with small, small disadvantaged, women-owned, HUB Zone, and service disabled veteran enterprise representatives;

V. The Blue Book of Building and Construction, regional directories of building and construction vendors;

VI. MBE Contractor Directory — compiled and maintained by the Associated General Contractors of America;

VII. Office of Small and Disadvantaged Business Utilization Specialist;

VIII. National Directories

- National Directory of Women-Owned Businesses
- National Directory of Minority-Owned Business Firms
- Smoke Signals
- The Business Women's Network Directory
- National Center of American Indian-Owned Businesses

IX. Databases

- Minority Business Development Agency (MBDA)
- GSA's Office of Enterprise Development Vendor Profile Database
- Databases Established by Various Government Agencies

X. Publications

- Small Business Resource Guide
- Federal Acquisition Report
- Washington Business Journal's Book of Lists
- Minorities in Business Daily
- Local Newspaper and Trade Publications
XI. Trade and Professional Associations
- National Foundation for Women Business Owners (INFWBO)
- National Minority Supplier Development Council, Inc.
- National Association of Minority Contractors
- National Center for American Indian Enterprise Development
- National Business League
- Latin American Management Association
- The National Black Business Council, Inc.
- Hispanic Business Professional Women Association

XII. Texas Department of Transportation
- Education and Outreach, including the Learning, Information, Networking, Collaboration (LINC) Mentor – Protégé Program
- Small Business Briefings
The Developer Small Business Mentor Protégé program aims to provide effective mentoring to DBEs/HUBs/SBEs that have already been selected as subcontractors for the project. The Developer will make best efforts to mentor the Protégés while the Protégés are working on the project, attending project meetings, and participating in project discussions, allowing Protégés to gain an understanding of the conduct of project operations and receive one-on-one training opportunities. The intent of this approach is to provide actual project experience.

Each Mentor Protégé will be invited to participate in project meetings through which the Mentor Protégé will gain practical experience related to project operations. Meeting topics may include planning strategies, schedule reviews, budgeting and cost tracking, subcontractor interface coordination, insurance, bonding, safety (including safety task assessments), celebratory events, and quality reviews. The various meetings are held either at the project office or at the particular field site, as applicable.

This approach will provide the Mentor Protégé with practical, hands-on project operations experience, which has been shown to provide the most successful method of providing training—actual, real-time experience.
A. Mentor Protégé:

The Mentor Protégé is responsible for complying with the Mentor Protégé Agreement, as described below:

- Attend and be on-time for all meetings related to the Program.
- Perform assignments given by the Mentor.
- Hold the Developer, including its employees, or agents harmless from any claim, suit, action, or demand of Mentor Protégé or Mentor Protégé’s creditors, or any other person arising out of the Mentor Protégé Agreement.

B. Mentor

A Developer Mentor is assigned to each Mentor Protégé and will perform the mentoring activities described in this Program plan. The Mentor is responsible to ensure the Mentor Protégé receives and understands the information presented during the meetings. The Mentor will have regular contact with each Mentor Protégé to respond to any questions that the Mentor Protégés may have regarding the Program.

The Mentor will complete a monthly report for each Protégé that outlines topics covered, progress towards completion, and recommended future training. The Mentor will submit each monthly report to the Developer’s DBE Liaison Manager and TxDOT by the 10th working day of the following month.
