

# Highway Closure Report Fiscal Year 2018

---

Section 224.034, Texas Transportation Code (as added by Senate Bill 312, 85R, 2017).

## BACKGROUND

Senate Bill 312 from the 85<sup>th</sup> Regular Legislative Session (2017), included a new provision on highway closures during certain periods. When a proposed improvement will require the closing of a highway, the Texas Department of Transportation (TxDOT) will need to coordinate the closure with public officials from municipalities affected by the closure. The construction contract must contain a provision identifying the days that a highway may not be closed. In addition, TxDOT must determine the estimated economic impact of the closure during periods of increased travel on holidays and other periods of high commercial activity. This change in law became effective September 1, 2017.

*Sec. 224.034. HIGHWAY CLOSURES DURING CERTAIN PERIODS. (a) If a proposed improvement of the state highway system requires the closing of a highway, the department shall, before entering into a contract for the proposed improvement, coordinate the highway closure by communicating in person or by telephone call, e-mail, or other direct method of communication with public officials from municipalities affected by the closure to avoid any adverse economic impact on the municipalities during:*

- (1) periods of increased travel on the state highway system, including major state and federal holidays and school holidays; and*
- (2) other periods of high commercial activity in the state, including limited periods in which certain items are exempted from the sales tax imposed by Chapter 151, Tax Code.*

*(b) A contract for the proposed improvement of the state highway system that requires the closing of a highway as described by Subsection (a) must include a provision identifying the days on which the highway may not be closed.*

*(c) The department shall submit an annual report to the governor, the lieutenant governor, the speaker of the house of representatives, and each member of the legislature detailing all highway closures during periods listed in Subsection (a) and the estimated economic impact of those closures.*

In November of 2017, TxDOT's created internal guidelines for how to handle road closures under the new requirements. It was determined that during the project development phase of each project the following processes are recommended at the TxDOT District level:

- Maintain a database of key dates / special events for which roadway closures are prohibited under the provisions of Section 224.034, Texas Transportation Code. This includes ramp closures.
- Coordinate between the Public Officials of Municipalities and the District's Public Involvement Officer(s) to identify and confirm specific key dates / special events which could affect the specific project.
- Once these key dates/special events are confirmed, they should be documented in the project's Design Summary Report.

[space intentionally left blank]

During the development of plans, specifications and estimates, it is required that “Special Provision 007-010” be added to the letting documents which states:

*“If the construction of the project requires the closing of a highway, as directed, coordinate the closure with the Engineer and work to ensure all lanes and ramps possible are available during peak traffic periods before, during, and after significant traffic generator events to avoid any adverse economic impact on the municipalities during:*

- Dates or events as shown on the plans, and*
- Other dates as directed.”*

In addition, general notes are required for all projects stating that either no significant traffic generator or events had been identified or specifying when road closures would be prohibited.

If a road closure during the specified key dates / special events is unavoidable, an Economic Analysis is required. Should this happen, the TxDOT District would begin coordination with the Transportation Planning and Programming Division to provide:

- Description of the project.
- Description of the road closure.
- Dates of the closure location.
- Information on the key dates/special events.

## **FISCAL YEAR 2018**

During the twelve month period from September 1, 2017, to August 31, 2018, there were 99 projects that contained lane closure restrictions. Through project planning and scheduling, TxDOT and its contractors avoided any lane closures on these projects during specified times. As a result, there was no need for an economic analysis.

*For informational purposes (see attached project list).*

Project List (projects that contained lane closure restrictions, pursuant to Section 224.034, Texas Transportation Code, Fiscal Year 2018)

District	County	Highway	Location Description	Work Description	Contract Let Month	Lanes Closure restriction dates	Unscheduled closure on restricted date*
San Antonio	Bexar	US 281	North of San Antonio	Expand To 6 Lane Expressway With Frontage Roads -4 General Purpose & 2 HOV Lanes	Jul-18	<b>Peak Hours (5am to 9pm Mon thru Thurs and 5am Fri thru 3am Sat); sales tax holiday 8/10-8/12; Labor Day weekend 9/1-9/3; election days; Thanksgiving week 11/21-11/25; 12/15-1/1; Texas Valero Open 4/3/19-4/8/19; Easter weekend 2019; Fiesta week 2019; Memorial weekend 2019</b>	None to date
