## 16. Geotechnical Investigation Plan

---

The Geotechnical Investigation Plan for NTE Segments 2-4 consists of a series of reports, one for each Segment. Each report contains the following elements:

- A. Site Vicinity Map and Plans of Borings
- B. Key to Terms and Symbols used on TxDOT Logs and Wincore Boring Logs
- C. Wincore Logs by Others
- D. Generalized Subsurface Profiles
- E. Summary of Laboratory Test Results
- F. Particle Size Distribution Reports
- G. Unconsolidated Undrained Triaxial Compression Test Results
- H. Unconfined Compression Test Results

The following reports are appended behind this page:

- 16.1 Segment 2E Geotechnical Investigation
- 16.2 Segment 3A Geotechnical Investigation
- 16.3 Segment 3B Geotechnical Investigation
- 16.4 Segment 3C Geotechnical Investigation
- 16.5 Segment 4 Geotechnical Investigation
