The hearing will cover the ultimate SH 121 project corridor, as well as the proposed construction of a “Super 2” interim facility. The “Super 2” is one lane in each direction with passing lanes at certain intervals. The project will also be built with all electronic toll gantries to compliment the North Texas Tollway Authority’s (NTTA) existing system requirements. TxDOT is environmentally clearing the SH 121 corridor in Johnson County, and NTTA is proposing to build the corridor. A project update is available at www.ntta.org.
