2.0 PUBLIC MEETING SUMMARY

Meeting Date & Location: Lone Star College, Tomball Campus
30555 Tomball Parkway, Tomball, Texas 77375
Tuesday, December 8, 2015
5:30 pm to 7:30 pm

Meeting Purpose: The purpose of this Public Meeting was to solicit public input on proposed design changes to SH 249 from FM 2920 to Hardin Store Road since the project received environmental clearance on October 12, 1990. The proposed design changes would: 1) improve corridor mobility by reducing traffic congestion, increasing mobility and creating a useable network compatible with growth, development and future traffic demands and 2) improve safety by upgrading major facilities to current design standards and separating through-traffic and local traffic.

Meeting Format: This meeting consisted of an open house format with exhibits and handouts. Exhibits included various informational displays detailing the project purpose/objectives, roadway considerations and schematic design changes which were displayed on easels and available for the public to view. Representatives from TxDOT, Harris County Toll Road Authority (HCTRA), Montgomery County Toll Road Authority (MCTRA) and the consulting team were available to discuss the proposed SH 249 Design Changes with the public and answer questions. A written comment area was furnished with tables, chairs, comment forms, pens and a comment box for depositing the comments at the meeting.

One notification letter which included the Public Notice (in English and Spanish) and a corresponding project location map

were mailed to adjacent property owners and Home Owners Associations approximately 30 days prior to the Public Meeting. The notification letter provided information about the upcoming Public Meeting to individuals within the project area. A notification letter was also mailed to elected officials (see Section 5.0 Notification Letters).

Meeting Summary:

No formal presentation was given at the Public Meeting. Project exhibits for the proposed SH 249 Design Changes were available throughout the meeting; all attendees were provided with an opportunity to view the exhibits and handouts. Representatives from TxDOT, HCTRA, MCTRA and the consulting team were available to respond to the questions from the public regarding the proposed project. Additional ROW is proposed to accommodate the design changes within the project limits.

Twenty individuals completed comment forms at the Public Meeting, one individual mailed a comment form to TxDOT and no electronic comments were received. Of the 21 total comments, 47.6 percent are in support of the project, 19.1 percent are opposed to the project, and 33.3 percent are undecided or did not express a clear indication as to whether they are in support of or opposed to the proposed project (see Appendix B – Comment Forms and Appendix D – Comment/Response Table).

National Environmental Policy Act

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by Texas Department of Transportation pursuant to 23 U.S.C 327 and a Memorandum of Understanding dated December 16, 2014, and executed by Federal Highway Administration and Texas Department of Transportation.

Location Map for Proposed Design Changes

Project Background

An Environmental Assessment (EA) was completed for the original SH 249 project design from Beltway 8 to FM 1774. A Finding of No Significant Impact (FONSI) was received from the Federal Highway Administration (FHWA) on October 12, 1990. The original SH 249 project was designed as a non-tolled 6-lane to 8-lane highway facility with two 3-lane frontage roads.

The project was re-evaluated for design changes on selected areas of the SH 249 highway facility in 1993, 1996, 1999, 2002 and 2007. The 2007 design changes included a tolled highway facility for the SH 249 main lanes. One segment of the SH 249 highway facility has been completed while one segment is still awaiting approval of the final design prior to construction:

- Completed – SH 249: From Beltway 8 to FM 2920. Construction of this segment is completed as both a non-tolled highway facility (Beltway 8 to Spring-Cypress Road) and a tolled highway facility for the main lanes and a non-tolled roadway facility for the frontage roads (north of Spring-Cypress Road to FM 2920).
- Proposed – SH 249: From FM 2920 to FM 1774 in Pinehurst. This segment would be constructed as a new tolled highway facility for the main lanes and a non-tolled roadway facility for the frontage roads. This segment is currently being re-evaluated for design changes, from FM 2920 to Hardin Store Road, which would include acquisition of approximately 15.8 acres of additional right-of-way. No residential or commercial displacements are anticipated.

Proposed Design Changes

- Changes in ramp configuration.
- The addition of a continuous overpass from Brown Road to Baker Road and an overpass at Zion Road. These design changes would result in the addition of approximately 0.2 acre of right-of-way.
- The addition of floodplain mitigation and approximately 5.8 acres of detention in Harris County near Spring Creek.
- The addition of floodplain mitigation and approximately 9.8 acres of detention in Montgomery County.

Need and Purpose

Need:

- Increased congestion due to population and economic growth.
- Increased congestion due to competing uses (i.e., through-traffic and local traffic).
- Increased traffic volumes create safety concerns for the traveling public.

Purpose:

- Improve corridor mobility by reducing traffic congestion, increasing mobility and creating a useable network compatible with growth, development and future traffic demands.
- Improve safety by upgrading major facilities to current design standards and separating through-traffic and local traffic.

SH 249 Project Timeline

- **Public Meeting for Proposed Design Changes** – December 8, 2015
- **Final Design Change Approval** – mid 2016
- **Construction**
 - Estimated bid date in late 2016
 - Approximately 2 years to construct the highway facility

COMMENTS (COMENTARIOS): Please investigate removal of the large

"Decker Cats Estates" neighborhood sign at 249 and

Hardin Store Road

This sign made sense when Hardin Store was NOT a

thru street (15 years ago)

Currently, it is both an eyesore and a hazard to

traffic navigation.

COMMENTS (COMENTARIOS): I do not support this project as proposed. Too much land is being taken for a tollroad having a minimal environmental impact, taking as little land as possible, and no toll road will increase support for this project. NO toll road, please.

COMMENTS (COMENTARIOS): I HAVE CONCERNS FOR THE EXIT RAMP NORTHBOUND FOR BAKER, ZION RD AND THE CONFLICT IT HAS WITH THE MERGING OF FM 249 BUSIARSS NORTHBOUND. THE FM 249 BUSIARSS NORTHBOUND NEEDS ITS OWN DEDICATED FEEDER LANE. MERGING WILL CREATE AN ENVIRONMENT FOR MANY ACCIDENTS TO HAPPEN

COMMENTS (COMENTARIOS):

Utmost care must be taken to properly expand the wetlands in an ecologically sound manner. Also, the bridge over Spring Creek is a bird sanctuary and that must be handled properly. Finally, the southern most portion of the southbound frontage road takes too much land. It should match in distance from the main lanes what is planned for the rest of the span across the college boundary.

COMMENTS (COMENTARIOS): I understand the need for quality roads and the value of tollways in their construction and maintenance. However, a temporary no-build proposal should be administered to resolve escalating concerns. Among those concerns are wetlands and the installation of perpetual tolls. It is no secret that these tolls will ~~go away~~ not be taken away. I proposed a new idea to avoid inconvenience of tolls for those peoples inexperienced in their whereabouts or cause. My proposal involves collaboration with insurance companies to help relieve people of toll perpetuation and effectively remove its extended...

Congestion	Babe Ellis, Board of Director for Tomball Hill HOA Traffic behind my home is already bad, 31101 Stella Lane, I was very disappointed to learn there would be no noise suppressed.	Comment acknowledged.	Comment Form at Public Meeting		✓	
Roadway Design, Access	Sofia M. Ojeda, Engineering Consultant smojeda@lan-inc.com Please provide through email or link to TxDOT website of the schematic layout as a PDF document.	The schematic layout and exhibit boards which were on display at the Public Meeting can be viewed on the following website: http://www.txdot.gov/inside-txdot/get-involved/about/hearings-meetings/houston/120815.html . ---	John Vaughan Just want Tomball to grow and prosper.	Comment acknowledged.	Comment Form at Public Meeting	✓		
---	Michael Hereford Please investigate removal of the large "Decker Oaks Estates" neighborhood sign at 249 and Hardin Store Road. This sign made sense when Hardin Store was not a thru-street (15 years ago). Currently, it is both an eyesore and a hazard for traffic navigation.	Comment acknowledged. Drainage and flooding issue	Barbara Tague, City of Tomball, Chairman Planning and Zoning Commissions Need to research drainage and flooding in areas of exits and entrances at the Montgomery and Harris County lines. Re: Floods '94 and previous years impact on 2978, 2920 and downtown. Please call me Tomball 713-851-8737	A drainage study has been completed for this project and floodplain mitigation was required. Approximately 5.8 acres of floodplain mitigation in Harris County and approximately 9.8 acres of floodplain mitigation in Montgomery County are proposed included in the design changes for this project. Such floodplain mitigation would accommodate for fill within the floodplain.	Comment Form at Public Meeting	✓		
Roadway Design	--- I do not support this project as proposed. Too much land is being taken for a tollroad. Having a minimal environmental impact, taking as little land as possible, and not toll road will increase support for this project. No toll road, please.	Comment acknowledged.	Comment Form at Public Meeting		✓	
Roadway Design, Access	Larry Morris Support the raised section going over Brown Road. Like the exit ramps to Brown Road both ways. Hoping that 45 vs. 70 speed limit will keep people on tollway vs exiting 2920 to skip charge – intersection at 249 and 2920 is a jammed up mess now. Not looking forward to 2 years of construction.	Comment acknowledged.	Comment Form at Public Meeting	✓		
Congestion, Access	Julius Michka I have concerns for the exit ramp Northbound for Baker, Zion Rd and the conflict it has with the merging of FM 249 Business Northbound. The FM 249 Business Northbound needs its dedicated feeder lane. Merging will create an environment for many accidents to happen.	Comment acknowledged.	Comment Form at Public Meeting			✓
---	Rachel CYR and Brian Young No comment	---	Comment Form at Public Meeting		✓	
Congestion	Russell Hill Right now Montgomery County residents contribute to congestion at 249 and 2920. Additional off ramps from Southbound 249 into Tomball will only make matters worse, the bypass does not and apparently will not bypass Tomball.	Comment acknowledged.	Comment Form at Public Meeting			✓
Noise	Tim Lavergne Our home is on Hwy 249 on North side of Zion Rd. in Tomball Hills and the traffic noise at my home is already loud and with Access Rd. even closer with the proposed plan, has myself asking about a sound barrier. The new access rd. will be within feet of my house.	A preliminary noise analysis was completed to determine if noise barriers would be reasonable and feasible within the project area. It was determined that, for example, due to the number of breaks in a proposed noise barrier (due to driveways/roadways) that the impact to sound levels would not be feasible and reasonable for this project. No sound barriers are proposed for this project.	Comment Form at Public Meeting			✓
---	Nelson Foeltner Just staying updated.	---	Comment Form at Public Meeting			✓
	Tom Colle What are the plans (if any) and timing for widening FM 1774 from North of the 249 intersection to where it has been widened South of Magnolia. There is currently a 2 lane bottleneck that includes the light at Pinehurst where 149 and FM 1774 separate.	The TxDOT District Office or Area Office may be contacted to discuss SH 249 which extends beyond the limits discussed in the Public Meeting (FM 2920 to Hardin Store Road). COMMENT CATEGORY	COMMENTS	TxDOT RESPONSE	FORMAT RECEIVED; COMMENT, MAIL OR EMAIL	SUPPORT	OPPOSE	UNDECIDED
Congestion	David Parsons Should relieve current congestion on 249 once the project is completed in approximately 2018 or 2019.	Comment acknowledged.	Comment Form at Public Meeting	✓		
Congestion, Noise	J. Cooper Traffic is already bad at times; it will be worse and noise will increase.	Comment acknowledged.	Comment Form at Public Meeting		✓	
Roadway Design	Tom Crofoot I am concerned about the widening of the Zion Rd. entrance into Tomball Hills.	Comment acknowledged.	Comment Form at Public Meeting	✓		
Environmental Impacts	Ira Goldknopf, Professor at LSC Tomball Utmost care must be taken to properly expand the wetlands in an ecological sound manner. Also, the bridge over Spring Creek is a bat sanctuary and that must be handled properly. Finally, the southernmost portion of the Southbound frontage road takes too much land. It should match in distance from the main lanes. What is planned for the rest of the space across from the college boundary?	The National Environmental Policy Act (NEPA) requires that environmental investigations are conducted/completed and environmental clearances are received prior to construction of the proposed roadway project. Comment acknowledged.	Comment Form at Public Meeting			✓
---	Dianne E. King Hopefully this project will improve the flow of traffic. We would like to see an EZ tag store around Tomball. Not everyone has access to a computer. A store would encourage people to buy their tags.	Comment acknowledged.	Comment Form at Public Meeting	✓		
---	Mark A. Brown This forum was well designed. Plenty of people (Engineers and others) to answer questions. Multiple points of information. People were knowledgeable.	Comment acknowledged.	Comment Form at Public Meeting	✓		
Land Acquisition & Noise	Janice Lavergne I am concerned about payment for the land being taken from my property. I am concerned about a sound barrier wall to protect my family from traffic noise and pollution. Concerned about my property value dropping or being impossible to sell. I am hoping to get some information concerning my concerns. I hope to hear soon from people who can help me get answer and some help to resolve issues that I have.
