Hearing Summary

Date/Time: Tuesday, March 5, 2013, 6:00 PM – Open House, 7:00 PM – Public Hearing
Thursday, March 7, 2013, 6:00 PM – Open House, 7:00 PM – Public Hearing

Location: DeBakey High School, 3100 Shenandoah Street, Houston, TX 77021
Berry Miller Junior High School, 3301 Manvel Road, Pearland, TX 77584

Purpose: To present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County.

Format: An open house session began at 6:00 PM during which project team members were available to interact with the public and answer questions. The open house session was followed by a technical presentation beginning at 7:00 PM. The technical presentation included an overview of the project need and purpose, the project description and geometric design, and findings of the recently completed environmental study that had been conducted. A review of the public involvement process and anticipated schedules were also discussed. The public hearing concluded with a public comment session.

Public Hearing Notice: The public hearing was announced and advertised through a variety of methods. Thirty days prior to the public hearing, Texas Department of Transportation (TxDOT) began engaging in an extensive effort to announce the hearing through mailings and published advertisements. Public hearing notices announcing the public hearing time, location and purpose were mailed to a list of individuals interested in the project (*Appendices A and B*). An informational letter announcing the public hearing time, location and purpose was sent to public officials (*Appendices C and D*). Notice of the public hearing (*Appendix E*) was published in newspapers with local and city-wide circulation, and was posted on TxDOT's website. The notice was published in the Houston Chronicle on February 2, 2013 and February 23, 2013; in La Voz on February 3, 2013, and February 24, 2013; and in the Bay Area Citizen, Friendswood Journal, and Pearland Journal on February 7, 2013 and February 21, 2013. The hearings were announced on Houston TranStar Dynamic Message Signs (DMS) in the corridor on the day of the hearings and on television on ABC Channel 13 (KTRK-TV) and Fox 26 (KRIV-TV) on March 5, 2013.

Attendance: A total of 113 individuals (including six (6) elected officials and two (2) media personnel) registered their attendance at the public hearing held at DeBakey High School. A total of 135 individuals (including nine (9) elected officials and one (1) media personnel) registered their attendance at public hearing held at Berry Miller Junior High School. Representatives from TxDOT and members of the consultant team, AECOM and Knudson, LP, were also in attendance. Copies of the sign-in sheets and speaker cards are included in *Appendices F and G*. Photographs from the public hearing are included in *Appendix H*.

Public Hearing Transcripts: The presentations by the project team and public comment session was recorded and transcribed by Mary Dopico, Certified Shorthand Reporter. The certified transcripts are found in *Appendix I*.

Exhibits/Materials: Informational materials available at the public hearing included a handout and comment form with TxDOT contact information (*Appendix J*). The handout included a project overview

and a project area map. A welcome board, agenda, implementation timeline, needs and purpose board, environmental analysis process, environmental resource map, schematic layout showing the project location and design, typical cross sections (*Appendix J*), draft environmental assessment (*EA*), Corridor Feasibility Study and information regarding right-of-way (*ROW*) acquisition of land and relocation assistance related to the project were available for viewing during the open house session. A Google Earth station was available during the open house. Individuals could identify specific location(s) they wanted to comment on and address their concerns in the appropriate area. During the public hearing, a PowerPoint Presentation was shown to the public (*Appendix K*).

Deadline: Comments received and/or postmarked on or before Thursday, March 21, 2013, are included in this public hearing summary report (*Appendix L*).

Summary of Public Comments: Of the 238 individuals who attended the public hearing, thirteen (13) individuals made verbal comments. Fifty-five (55) people submitted written comments either at the public hearing or by the March 21, 2013 deadline. One (1) individual submitted a verbal comment at the public hearing Google Earth station. Of the fifty-five (55) persons who commented, twenty-three (23) expressed support for the idea of improving highway transportation along SH 288, and nine (9) opposed it. There were three (3) main topics discussed verbally or in written form:

1. Traffic-related comments - Concerns about traffic impacts on area roadways, suggestions regarding design of the proposed project, and needed improvements for frontage roads, intersections, area roadways, and ramps.
2. Preference for rail and transit improvements instead of roadway improvements in the corridor, or in conjunction with the proposed project.
3. Concerns about noise impacts from the proposed project and existing noise in some areas.

Comment and Response Report: The Public Comment period for SH 288 was open from February 2, 2013 to March 21, 2013. During this time, the public was invited to submit comments verbally or in written format. The SH 288 EA was made available to the public at the following locations:

1. TxDOT Houston District Office, 7600 Washington Avenue, Houston, TX 7707.
2. TxDOT Brazoria Office, 1033 East Orange, Angleton, TX 77515.
3. TxDOT SH 288 website - <http://www.txdot.gov/inside-txdot/projects/studies/houston/sh288.html>

As shown in *Appendix M*, Table 1 presents a list of commenters, a summary of the comments for each commenter, and responses developed by the Project Team in coordination with TxDOT.

Copies of the original comments are included in *Appendix L*. To find a commenter's original comment (*in transcript for verbal comments, a print-out for e-mails or a photocopy for letters*), cross-reference the commenter's name (*listed alphabetically in Table 1 of Appendix M*) with his or her assigned "Commenter Number." As shown in *Appendix M*, this Commenter Number is in the first column of the table.

**Notice of Public Hearings
Proposed Roadway Improvements SH 288
US 59 to CR 60, Harris and Brazoria Counties**

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 8, additional general-purpose lanes between IH 610 and BW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled, while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

Two Public Hearings will be conducted. The same information will be presented at both hearings, and both hearings will be conducted in an Open –House format. The meeting will occur at the following locations and times:

**Tuesday, March 5, 2013
6:00 p.m. to 8:00 p.m.
DeBaKey High School Cafeteria
3100 Shenandoah Street
Houston, TX 77021**

**Thursday, March 7, 2013
6:00 p.m. to 8:00 p.m.
Berry Miller Jr. High School
3301 Manvel Road
Pearland, TX 77584**

All interested citizens are invited to attend this hearing. Persons interested in attending the hearing that have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P. O. Box 1386, Houston, TX 77521-1386, or emailed to hou-piowebmail@txdot.gov. Written comments must be received by March 21, 2013 to be included in the public hearing record. Information regarding this project, including the draft Environmental Assessment, is on file at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77077 and TxDOT Brazoria Area Office, 1033 E. Orange, Angleton, TX 77515.

A public hearing summary report will be made available for public viewing at the TxDOT Website <http://txdot.gov/inside-txdot/projects/studies/houston/sh288.html> in the summer of 2013.

Aviso de Audiencia Pública
Mejoras propuestas para la carretera SH 288 desde
US 59 en el Condado de Harris hasta County Road (CR) 60 en el Condado de
Brazoria

El Departamento de Transporte de Texas (TxDOT) realizara dos Audiencia Públicas para presentar los resultados de los estudios preliminares de ingeniería y medioambientales, y las mejoras propuestas para la carretera SH 288 desde US 59 en el Condado de Harris hasta County Road (CR) 60 en el Condado de Brazoria. Las mejoras propuestas incluyen la construcción de carriles de peaje en cada dirección dentro de la median existente entre US 59 y CR 60, mejoramientos del intercambio de IH 610 y Beltway 8, carriles adicionales de uso general entre IH 610 y Beltway 8 y mejor acceso a el Texas Medical Center (TMC). Viajes en los carriles de peaje se cobraron, mientras los carriles existentes y propuestas de uso general no requieren una tarifa. La mejoramiento del SH 288 requeriría aproximadamente 69 acres de derecho de vía adicional de los cuales aproximadamente el 95 por ciento se encuentra actualmente agricultura/uso sin desarrollar, y el cinco por ciento es residencial y comercial / uso industrial.

Dos audenicas publicas se llevaran a cabo. La misma informacion sera presentada en ambas audenias. Un Foro Abierto se conducirá desde 6:00 p.m. a 7:00 p.m. para permitir preguntas y reviso de exhibiciones del proyecto. Una Presentación Formal comenzará puntualmente a las 7:00 p.m., seguido por un periodo para comentario público. La reunion tendra lugar en los siguientes lugares y horarios:

Tuesday, March 5, 2013
6:00 p.m. to 8:00 p.m.
DeBakey High School Cafeteria
3100 Shenandoah Street
Houston, TX 77021

Thursday, March 7, 2013
6:00 p.m. to 8:00 p.m.
Berry Miller Jr. High School
3301 Manvel Road
Pearland, TX 77584

Todas las personas interesadas están invitadas a asistir a las audiencias públicas. Personas interesadas en asistir las reuniones que tienen necesidades especiales de comunicación se exigen contactar el oficial de información pública al (713) 802-5072 por lo menos dos días laborales antes de la audiencia. La oficina de TxDOT están abiertas de lunes a viernes, de 8:00 am a 5:00 pm, excepto los días festivos estatales. La audiencia pública se llevará a cabo en Inglés, todas las solicitudes de intérpretes de lenguaje o otras necesidades especiales de comunicación debe hacerse por lo menos dos días laborales antes de la audiencia pública. TxDOT hará todo el esfuerzo razonable para acomodar estas necesidades.

Los comentarios verbales y escritos por parte del público con respecto a este proyecto se solicitan. Los comentarios pueden ser presentados en la audiencia o por escrito después de la audiencia. Los comentarios escritos pueden enviarse por correo a TxDOT Houston District, Attention: Director of Project Development, P.O. Box 1386, Houston, TX 77251-1386. Sus comentarios también pueden ser enviados por correo electrónico a hou-piowebmail@txdot.gov. Los comentarios escritos deben ser recibidos el 21 de Marzo, 2013 para estar incluido en el registro de la audiencia pública. Informacion relativa a este project, incluyendo la Evaluacion Ambiental preliminar, se encuentra archivada en la oficina del Distrito de TxDOT Houston, Texas 77007 y en la oficina del Area de Brazoria, 1033 E. Orange, Angleton, TX 77515.

Un reporte de la audiencia público estará disponible para el público en el sitio web <http://txdot.gov/inside-txdot/project/studies/houston/sh288.html> en el verano de 2013

Dear «Salutation» «LastName»:

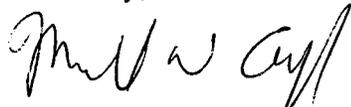

Attached is a notice for the upcoming public hearings for the SH 288 roadway improvements from US 59 in Harris County to CR 60 in Brazoria County, Texas. The public hearings are being held to present the proposed design and to seek comments from local officials and citizens. You, or your representative, are cordially invited to attend. The hearings will be held on two separate dates, but will present the same information:

Tuesday, March 5, 2013
DeBaKey High School Cafeteria
3100 Shenandoah Street
Houston, Texas 77021
6:00 p.m. - 8:00 p.m.

Thursday, March 7, 2013
Berry Miller Jr. High School Cafeteria
3301 Manvel Road
Pearland, Texas 77584
6:00 p.m. - 8:00 p.m.

We are available to meet with you prior to the public hearings to answer any questions that you may have or to review the proposed project. If you have any questions in the interim, please contact Pat Henry at (713) 802-5241.

Sincerely,

Michael W. Alford, P.E.
District Engineer
Houston District

Elizabeth Ann Gonzales
Notary Public in and for the State of Texas

**Notice of Public Hearings
SH 288
US 59 to CR 60, Harris
and Brazoria Counties**

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 8, additional general-purpose lanes between IH 610 and BW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

The public hearings will be held as follows:

Tuesday, March 5, 2013 at
DeBaKey High School Cafeteria, 3100 Shenandoah St., Houston 77021 from 6:00pm - 8:00pm

Thursday, March 7, 2013 at
Berry Miller Jr. High Cafeteria, 3301 Manvel Rd, Pearland 77584 from 6:00pm - 8:00pm

An open house will be held from 6:00 p.m. to 7:00 p.m. to allow for questions and viewing of project exhibits. A formal presentation will begin at 7:00 p.m. followed by a public comment period. Maps and other drawings showing the proposed location and design will be displayed at the hearing and the Environmental Assessment (EA) document will be available for inspection. Information about TxDOT's relocation assistance program and relocation assistance of fee will be discussed. The same information will be presented at both hearings. Representatives from TxDOT and their study team will be available to answer individual questions. Information regarding this project is on file and available for viewing at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007.

All interested persons are invited to attend the hearings. Persons interested in attending who have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two working days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing.

Communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P. O. Box 1386, Houston, TX 77521-1386, or emailed to hou-piowebmail@dot.state.tx.us. Written comments must be received by March 21, 2013 to be included in the public hearing record. A public hearing summary report will be made available for public viewing at the TxDOT website <http://txdot.gov/inside-txdot/projects/studies/houston/sh288.html> in the summer of 2013.

mix of federal and private data — contrasted with Wednesday's government report that the economy contracted at a 0.1 percent annual rate in the last three months of 2012.

The January jobs report, which also showed

chologically," said Peter Cardillo, economist at Rockwell Global Capital in New York. "It attracts smaller investors."

And those investors, until recently, had been shying away from stocks. Since April 2011, investors

the final months of 2012, the recovery was still moving forward. The new figures mean that on average, the economy added 181,000 jobs each month last year, up from the earlier estimate of 153,000.

2011 by 6x to (113) 222-1115. The Houston Independent School District (HISD) will receive lump sum bids, including all forms, schedules and statements from Contractors until 2:00 p.m. Wednesday, February 27, 2013, at the Board Services Office, 4400 West 12th Street, #1C, Houston, Texas 77027. For more information, contact Mr. Earl Finley at (713) 556-9306.

NOTICE OF PUBLIC HEARINGS

SH 285

US 59 to CR 60, Harris and Brazoria Counties

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 285 from US 59 and CR 60 in Harris and Brazoria Counties. The proposed roadway improvements would include construction of toll lanes in each direction with an existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 5, interchange improvements between IH 610 and BW 8, and interchange improvements between IH 610 and the Texas Medical Center. Travel on the toll lanes would be required while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 285 would require approximately 59 acres of additional land, of which approximately 55 percent is currently agricultural and 4 percent is residential and commercial/industrial uses.

JANUARY SALES

Automakers start the year strongly

By Neal Morton

Many automakers in January racked up their strongest monthly performance in years, thanks to the end of fiscal cliff talks in Washington, D.C., and aging fleets of vehicles across the country.

Toyota Motor Corp. again outpaced its competitors with a 27 percent gain in new car and truck sales in January, compared with the same month last year. Ford Motor Co. trailed slightly with a 22 percent gain, while the other Detroit manufacturers, Chrysler Group and General Motors Co., posted 16 percent rises in monthly sales.

Honda Motor Co., the only other foreign automaker to report double-digit growth, recorded a gain of 13 percent.

Hyundai Motor Co., Nissan Auto Co. and Volkswagen saw their January sales rise by single digits.

Chevy trucks line the lot of a dealer in Murrysville, Pa. GM and most other automakers reported gains for January as last year's momentum continued into 2013.

Last month gave the industry its best start to the year since 2008, said Bill Fay, U.S. sales chief for the Toyota brand.

"I think all in our industry were encouraged that the sales pace we saw in the fourth quarter of last year rolled right into

January, exceeding expectations for our industry," Fay said.

IN BRIEF

MOBILE DEVICES

More privacy urged

Online companies may face action by Congress to toughen U.S. privacy standards if they don't do a better job of protecting the privacy of mobile device users, outgoing Federal Trade Commission Chairman Jon

Leibowitz

Leibowitz said Friday. The FTC on Friday released a set of mobile-privacy recommendations for application stores, such as those run by Apple and Google, app developers and online advertising networks. FTC staff "strongly encourages" companies to adopt the nonbinding guidelines, the agency said.

CHEMICALS

LyondellBasell's earnings sink below estimates

Shares of LyondellBasell Industries, the world's largest maker of polypropylene, fell after fourth-quarter earnings trailed analysts' estimates as the loss at the European plastics unit widened. LyondellBasell fell 3.2 percent to \$61.57. Shares of the company, based in Rotterdam and

run from Houston, have gained 7.5 percent in 2013. Net income was \$1.09 a share, compared with a net loss of 38 cents a year earlier, LyondellBasell said Friday.

CONSUMERS

Solution sought after crash of banking site

Bank of America said its online banking website crashed Friday, leaving customers unable to access their accounts.

Bank of America Corp., based in Charlotte, N.C., said it was working on the problem. But it wouldn't elaborate on what caused the outage.

LABOR

Boeing engineers will vote this month on strike

Just when Boeing really needs its engineers, they're voting on whether to strike.

It's bad timing for Boeing. The aircraft maker is working around the clock to solve battery problems that have grounded its 787s around the world, and unionized engineers are a big part of that effort. The vote begins Tuesday and runs through Feb. 19.

TRADEMARKS

This really needs a cracker barrel discussion

Kraft Foods is suing Cracker Barrel Old Country Store over the restaurant chain's plans to

use the "Cracker Barrel" name on packaged ham, bacon and other foods.

Kraft notes that it started using the "Cracker Barrel" name on cheese in 1954. Cracker Barrel Old Country Store, which is based in Lebanon, Tenn., and operates 620 locations around the country, was established in 1969.

A representative for Cracker Barrel Old Country Store wasn't immediately available for comment.

IN OTHER NEWS

The seven-day average yield on money market mutual funds was flat at 0.02 percent in the week that ended Tuesday, according to Money Fund Report. Also still at 0.02 percent were the 30-day average yield, the seven-day compounded and the 30-day compounded yield. The average maturity of portfolios

held by money market mutual funds fell to 47 days from 48.

Merck & Co.'s fourth-quarter profit fell 7 percent to \$1.4 billion because of hits from generic competition and one-time charges, and the company pushed back plans for seeking approval of a key experimental osteoporosis drug.

Weak demand over the holidays for toys like Barbie and Matchbox led Mattel's results to fall short of expectations in the key holiday quarter. A litigation charge also weighed on results and net income fell 17 percent to \$306.5 million.

The launch of the iPhone 5 and the declining popularity of non-smartphones have made Apple the biggest seller of phones in the U.S. for the first time, research firm Strategy Analytics said Friday.

NOTICE OF SALE OF REAL PROPERTY

The Houston Independent School District is offering to the general public an opportunity to submit sealed bids for purchase of certain real estate interests of property listed below. A sealed bid proposal for this property addressed to the Houston Independent School District, Real Estate, will be received at the Board Services Office located on Level 1 of the Hattie Mae White Educational Support Center, 4400 W. 12th Street, Houston, Texas 77027-9201. The bid opening is 2:00 p.m. on March 5, 2013. Real estate brokers will be entitled to receive a commission not to exceed one percent (1%) from the sales proceeds; such broker and commission amount is specifically named and included as part of the successful purchaser's bid in accordance with HISD bid procedures. The minimum bid that will be accepted for this property will be \$750,000.00. Bid proposals must be accompanied by a Bid Security Deposit consisting of a Certified or Cashier's Check in the amount of \$100,000.00. The bid security deposit shall be made payable to the Houston Independent School District. Bid proposals will be subject to automatic rejection if not accompanied by the prescribed form and amount of the bid security deposit. Potential bidders who wish to discuss details of the proposed bid procedures and obtain individual bid packages or general information, or schedule a tour or a meeting are requested to call Gary Harrell, Real Estate Manager for the Houston Independent School District at (713) 556-9288, or you may obtain information and a copy of the offering memorandum by e-mail at gharrell@houstonisd.org. This sale is subject to terms contained in the bid package and subject to approval by the HISD Board of Education, and HISD retains the right to accept any bid proposal or reject any or all bids, regardless of the bid price and to withdraw the property from sale at any time. HISD reserves the right to waive informality in any bid proposal deemed appropriate by HISD. It is the intent of the Houston Independent School District that the qualified bid proposal which results in the highest net proceeds and/or the greatest net benefit to the school district shall prevail.

The following property will be available for bids to purchase:

1. old Kennedy School site - 8.5 acres located at 306 CrossTimbers, Houston, Texas 77060-2011. This property is improved with an elementary school building containing approximately 38,000 square feet.

Notice of Public Hearings

The public hearings will be held as follows:
Tuesday, March 5, 2013 at O'Shay's Pub & Grill, 1100 Shenandoah St., Houston 77021 from 6:00pm - 8:00pm
Thursday, March 7, 2013 at Perry Miller Jr. High School, 7834 Spring Rd., Pearland 77584 from 6:00pm - 8:00pm

An open house will be held from 6:00 p.m. to 7:00 p.m. on Tuesday, March 5, 2013. The purpose of the formal presentation will begin at 7:00 p.m., followed by a public hearing period. Maps and other drawings showing the proposed location and design of the project will be displayed at the hearing, and the Environmental Assessment Report will be available for inspection. Information regarding the project will be available at the hearing. Representatives from TxDOT and their staff will be available to answer individual questions. Information regarding the project is on file and available for viewing at the Board Services Office, 7600 Washington Avenue, Houston, Texas 77027.

All interested persons are invited to attend the hearings. Persons interested in attending who have not yet received notification or accommodation needs are encouraged to contact the district public information officer at (713) 552-5072. If contact is not possible prior to the hearing, TxDOT officials will be available through Friday, from 8:00 a.m. to 5 p.m. excluding state holidays. Comments on the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P.O. Box 1385, Houston, TX 77251-1385, or emailed to hou-powell@dotd.texas.gov. Comments must be received by March 21, 2013 to be included in the public hearing record. A public hearing summary report will be made available for public viewing at the TxDOT website <http://dotgov/inside-txdot/projects/studies/> in the summer of 2013.

Legal Notices

Notice of Public Hearings
SH 288
US 59 to CR 60, Harris and Brazoria Counties

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 8, additional general-purpose lanes between IH 610 and SW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

The public hearings will be held as follows:
Tuesday, March 20, 2013 at DeSazer High School Cafeteria, 3100 Shenandoah St., Houston 77021 from 6:00pm - 8:00pm
Thursday, March 7, 2013 at Berry Miller Jr. High Cafeteria, 3301 Manvel Rd., Pearland 77584 from 6:00pm - 8:00pm

An open house will be held from 8:00 p.m. to 7:00 p.m. to allow for questions and viewing of project exhibits. A formal presentation will begin at 7:00 p.m. followed by a public comment period. Maps and other drawings showing the proposed location and design will be displayed at the hearing, and the Environmental Assessment (EA) document will be available for inspection. Information about TxDOT's relocation assistance program and relocation assistance office will be discussed. The same information will be presented at both hearings. Representatives from TxDOT and their study team will be available to answer individual questions. Information regarding this project is on file and available for viewing at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007.

All interested persons are invited to attend the hearings. Persons interested in attending who have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two working days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P. O. Box 1386, Houston, TX 77521-1386, or emailed to houstonwebmail@dot.state.tx.us. Written comments must be received by March 21, 2013 to be included in the public hearing record. A public hearing summary report will be made available for public viewing at the TxDOT website <http://tdot.gov/inside-hdot/projects/studies/houston/sh288.html> in the summer of 2013.

NEWSPAPER REPRESENTATIVE

Sworn and subscribed to before me, this the 10th Day of February A.D. 2013

Veronica M Tyrone

Notary Public in and for the State of Texas

**Aviso de Audiencia
Pública
SH 288
US 59 a CR 60, Condados
de Harris y Brazoria**

El Departamento de Transporte de Texas (TxDOT) realizará dos Audiencias Públicas para presentar los resultados de los estudios preliminares de ingeniería y medioambientales, y las mejoras propuestas para la carretera SH 288 desde US 59 en el Condado de Harris hasta County Road (CR) 60 en el Condado de Brazoria. Las mejoras propuestas incluyen la construcción de carriles de peaje en cada dirección dentro de la median existente entre US 59 y CR 60, mejoramientos del intercambio de IH 610 y Beltway 8, carriles adicionales de uso general entre IH 610 y Beltway 8 y mejor acceso a el Texas Medical Center (TMC). Viajes en los carriles de peaje se cobraron mientras los carriles existentes y propuestas de uso general no requieren una tarifa. La mejoramiento del SH 288 requeriría aproximadamente 69 acres de derecho de vía adicional de los cuales aproximadamente el 95 por ciento se encuentra actualmente - agricultura/uso sin desarrollar, y el cinco por ciento es residencial y comercial / uso industrial.

Las audiencias públicas se llevarán a cabo de la siguiente manera:

Fecha: Martes, 5 de Marzo 2013

Horario: 6:00pm - 8:00pm
Lugar: Cafeteria de Michael E. DeBaKey High School para Profesionales de salud 3100 Shenandoah Houston, TX 77021

Fecha: Jueves, 7 de Marzo 2013

Horario: 6:00pm - 8:00pm
Lugar: Cafeteria de Berry Miller Jr. High -3301 Manvel Road Pearland, Texas 77584

Un Foro Abierto se conducirá desde las 6:00 pm 7:00 pm para permitir preguntas y reviso de exhibiciones del proyecto. Una presentación formal comenzará puntualmente a las 7:00 pm, seguido por un período de comentario público. Mapas y otros dibujos que muestren la ubicación propuesta y diseño se mostrará en la audiencia pública, y el documento Evaluación Ambiental (EA) estará disponible para su inspección. Información sobre el programa de reubicación de TxDOT y la oficina de asistencia de ayuda para la reubicación serán discutidos. La misma información será presentada en ambas audiencias. Representantes de TxDOT y su equipo estarán disponibles para contestar preguntas individuales. La información relativa a este proyecto, se encuentra archivada y disponible para revisar en la oficina de TxDOT del Distrito de Houston, 7600 Washington Avenue, Houston, Texas 77007.

Todas las personas interesadas están invitadas a asistir a las audiencias públicas. Personas interesadas en asistir las reuniones que tienen necesidades especiales de comunicación se exi-

esquas en abiar las re-
uniones que tienen
necesidades especiales
de comunicación se exi-
gen contactar el oficial de
información pública al
(713) 802-5072 por lo
menos dos días laborales
antes de la audiencia. La
oficina de TxDOT están
abiertas de lunes a vier-
nes, de 8:00 am a 5:00 pm,
excepto los días festivos
estatales. La audiencia
pública se llevará a cabo
en Inglés, todas las solici-
tudes de intérpretes de
lenguaje o otras
necesidades especiales
de comunicación debe
hacerse por lo menos dos
días laborales antes de la
audiencia pública. TxDOT
hará todo el esfuerzo ra-
zonable para acomodar
estas necesidades.

Los comentarios verbales
y escritos por parte del
público con respecto a
este proyecto se solici-
tan. Los comentarios
pueden ser presentados
en la audiencia o por es-
crito después de la audi-
encia. Los comentarios
escritos pueden enviarse
por correo a TxDOT Hous-
ton District, Attention: Di-
rector of Project Develop-
ment, P.O. Box 1386,
Houston, TX 77251-1386.
Sus comentarios también
pueden ser enviados por
correo electrónico a

Notice of Public Hearings
SH 288
US 59 to CR 60, Harris and Brazoria Counties

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 8, additional general-purpose lanes between IH 610 and BW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

The public hearings will be held as follows:

Tuesday, March 5, 2013 at DeBakey High School Cafeteria, 3100 Shenandoah St., Houston 77021

Thursday, March 7, 2013 at Berry Miller Jr. High Cafeteria, 3301 Manvel Rd, Pearland 77584

An open house will be held from 6:00 p.m. to 7:00 p.m. to allow for questions and viewing of project exhibits. A formal presentation will begin at 7:00 p.m. followed by a public comment period. Maps and other drawings showing the proposed location and design will be displayed at the hearing, and the Environmental Assessment (EA) document will be available for inspection. Information about TxDOT's relocation assistance program and relocation assistance office will be discussed. The same information will be presented at both hearings. Representatives from TxDOT and their study team will be available to answer individual questions. Information regarding this project is on file and available for viewing at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007 and Brazoria Area Office, 1033 E. Orange, Angleton, TX 77515

All interested persons are invited to attend the hearings. Persons interested in attending who have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two working days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P. O. Box 1386, Houston, TX 77521-1386, or emailed to hou-piowebmail@txdot.gov. Written comments must be received by March 21, 2013 to be included in the public hearing record. A public hearing summary report will be made available for public viewing at the TxDOT website <http://txdot.gov/inside-txdot/projects/studies/houston/sh288.html> in the summer of 2013.

Notice is hereby given that the Board of Adjustment of the City of Deer Park, Texas, will hold a public hearing at City Hall, 710 East San Augustine Street, Deer Park, Texas at 7:20 p.m. on the 4th day of March, 2013 at which time and place they will hear all persons desiring to be heard on or in connection with any matter or question relating to the request of Fernando Cruz for a three foot (3') variance to the width of the driveway at 1933 Hillshire.

NOTICE OF PUBLIC HEARING
Sandra Watkins, TRMC, CMC
City Secretary
Dated this 19th day of February 2013
PF 02/21

Notice/John Doe aka Junior
Notice: Notice is given to John Doe, aka "Junior" that you have been identified by Danielle M. Dietrich, the natural mother, residing at 8842 E. 36th St., Tucson, Arizona, as a potential father of a child to be born in March 2013 in Pima County, Arizona. You are informed of the following: 1. Danielle M. Dietrich, the natural mother, plans to place the child for adoption. 2. Under sections 8-106 and 8-107, Arizona Revised Statutes, you have the right to consent or withhold consent to the adoption. 3. Your written consent to the adoption is irrevocable once you give it. 4. If you withhold consent to the adoption, you must initiate paternity proceedings under title 25, chapter 6, article 1, Arizona Revised Statutes, and serve the mother within thirty days after completion of service of this notice. 5. You have the obligation to proceed to judgment in the paternity action. 6. You have the right to seek custody. 7. If you are established as the child's father, you must begin to provide financial support for the child. 8. If you do not file a paternity action under title 25, chapter 6, article 1, Arizona Revised Statutes, and do not serve the mother within thirty days after completion of the service of this notice and pursue the action to judgment, you cannot bring or maintain any action to assert any interest in the child. 9. The Indian child welfare act may supersede the Arizona Revised Statutes regarding adoption and paternity. 10. You may wish to consult with an attorney to assist you in responding to this notice. Dated: January 22, 2013. KAREL & WEISS, 3050 North Swan Road, Tucson, AZ 85712, (520) 325-4200, /s/ Elizabeth D. Spiloto, Esq., Attorney for Danielle Dietrich PF 01/31, 02/07, 02/14, 02/21

NOTICE OF SHERIFF'S SALE
THE STATE OF TEXAS
COUNTY OF BRAZORIA

WHEREAS, by virtue of an execution issued out of the County Civil Court at Law No. 1 Harris County, Texas, on the 12th day of December, 2003 in Cause No. 730957701, where the CA NEW PLAN FLOATING RATE PARTNERSHIP, LP was/were Plaintiff, and ABOYOMI T. BALOGUN, was/were Defendants on a judgment rendered in said Court against Defendant and in favor of the said Plaintiff, for the sum of \$26,993.00 Dollars, with interest thereon at the rate of 5% per annum, from the date of judgment, together with all costs of suit; I did on the 30th day of January, 2013, at 11:00 o'clock a.m., levy upon the following described lots, tracts and parcels of land situated in Brazoria County, Texas, as the property of Aboiyomi T. Balogun, to wit:
LOT 74 IN BLOCK 5, OF SUNCREEK RANCH, SECTION TWO (2), A SUBDIVISION IN BRAZORIA COUNTY, TEXAS, ACCORDING TO THE MAP OR PLAT THEREOF, RECORDED IN VOLUME 22, PAGE 197 AND CORRECTIVE PLAT OF SUNCREEK RANCH, SECTION TWO (2) RECORDED IN VOLUME 22, PAGE 383, BOTH OF THE PLAT RECORDS OF BRAZORIA COUNTY, STATE OF TEXAS, ALSO KNOWN AS 16635 PECAN FALL COURT, ROSHARON, TEXAS 77585

and on the 5th day of March, 2013, being the first Tuesday of said month, beginning at the hours of 10:00 o'clock a.m. On the said day, at the Courthouse in Commissioner's Court Room of said County, I will offer for sale and sell at public auction, for cash to the highest bidder, all the right, title, and interest of Aboiyomi T. Balogun in and to said above-described property.

WITNESS my hand this 30th day of January, 2013.
Charles S. Wagner, Sheriff
Brazoria County, Texas
/s/ _____, Deputy
Ronnie Eaton

NOTICE OF SHERIFF'S SALE

Notice of Public Hearings
SH 288
US 59 to CR 60, Harris and Brazoria Counties

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at the 510 and Beltway 8, additional general-purpose lanes between IH 610 and BW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

The public hearings will be held as follows:
Tuesday, March 5, 2013 at DeBakey High School Cafeteria, 3100 Shandoah St., Houston 77021
Thursday, March 7, 2013 at Berry Miller Jr. High Cafeteria, 3301 Marval Rd, Pearland 77584

An open house will be held from 6:00 p.m. to 7:00 p.m. to allow for questions and viewing of project exhibits. A formal presentation will begin at 7:00 p.m. followed by a public comment period. Maps and other drawings showing the proposed location and design will be displayed at the hearing, and the Environmental Assessment (EA) document will be available for inspection. Information about TxDOT's relocation assistance program and relocation assistance office will be discussed. The same information will be presented at both hearings. Representatives from TxDOT and their study team will be available to answer individual questions. Information regarding this project is on file and available for viewing at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007 and Brazoria Area Office, 1033 E. Orange, Angleton, TX 77515

All interested persons are invited to attend the hearings. Persons interested in attending who have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two working days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Written comments may be mailed to the Director of Project Development, Texas Department of Transportation, P. O. Box 1386, Houston, TX 77251-1386, or emailed to hou-powebmail@txdot.gov. Written comments must be received by March 21, 2013 to be included in the public hearing record. A public hearing summary report will be made available for public viewing at the TxDOT website <http://txdot.gov/inside-txdot/projects/studies/houston/sh288.html> in the summer of 2013.

Elizabeth A. Gonzales
Notary Public in and for the State of Texas

**Notice of Public Hearings
SH 288
US 59 to CR 60, Harris
and Brazoria Counties**

The Texas Department of Transportation (TxDOT) will conduct public hearings to present the findings of the preliminary engineering and environmental studies, and the proposed roadway improvements for SH 288 from US 59 in Harris County to County Road (CR) 60 in Brazoria County. The proposed roadway improvements would include construction of toll lanes in each direction within the existing grassy median between US 59 and CR 60, interchange improvements at IH 610 and Beltway 8, additional general-purpose lanes between IH 610 and BW 8, and improved access to the Texas Medical Center. Travel on the toll lanes would be tolled while travel on the existing and proposed general-purpose lanes would not require a toll or fee. The improvement of SH 288 would require approximately 69 acres of additional right of way, of which approximately 95 percent is currently agricultural/undeveloped use, and five percent is residential and commercial/industrial uses.

The public hearings will be held as follows:

Tuesday, March 5, 2013 at DeBaKey High School Cafeteria, 3100 Shenandoah St., Houston 77021

Thursday, March 7, 2013 at Berry Miller Jr. High Cafeteria, 3301 Manvel Rd, Pearland 77584

An open house will be held from 6:00 p.m. to 7:00 p.m. to allow for questions and viewing of project exhibits. A formal presentation will begin at 7:00 p.m. followed by a public comment period. Maps and other drawings showing the proposed location and design will be displayed at the hearing, and the Environmental Assessment (EA) document will be available for inspection. Information about TxDOT's relocation assistance program and relocation assistance office will be discussed. The same information will be presented at both hearings. Representatives from TxDOT and their study team will be available to answer individual questions. Information regarding this project is on file and available for viewing at the TxDOT Houston District Office, 7600 Washington Avenue, Houston, Texas 77007 and Brazoria Area Office, 1033 E. Orange, Angleton, TX 77515.

All interested persons are invited to attend the hearings. Persons interested in attending who have special communication or accommodation needs are encouraged to contact the district public information officer at (713) 802-5072 at least two working days prior to the hearing. TxDOT offices are open Monday through Friday, from 8:00 a.m. to 5 p.m., excluding state holidays. Because the public hearing will be conducted in English, any requests for language interpreters or other special communication needs should be made at least two working days

interpreters or other special communication needs should be made at least two working days prior to the public hearing. TxDOT will make every reasonable effort to accommodate these needs.

Verbal and written comments from the public regarding this project are requested. Comments may be presented at the hearing or in writing after the hearing. Notary Public in and for the State of Texas

**Aviso de Audiencia
Pública
SH 288
US 59 a CR 60, Condados
de Harris y Brazoria**

El Departamento de Transporte de Texas (TxDOT) realizará dos Audiencias Públicas para presentar los resultados de los estudios preliminares de ingeniería y medioambientales, y las mejoras propuestas para la carretera SH 288 desde US 59 en el Condado de Harris hasta County Road (CR) 60 en el Condado de Brazoria. Las mejoras propuestas incluyen la construcción de carriles de peaje en cada dirección dentro de la median existente entre US 59 y CR 60, mejoramientos del intercambio de IH 610 y Beltway 8, carriles adicionales de uso general entre IH 610 y Beltway 8 y mejor acceso a el Texas Medical Center (TMC). Viajes en los carriles de peaje se cobraron mientras los carriles existentes y propuestas de uso general no requirieron una tarifa. La mejoramiento del SH 288 requeriría aproximadamente 69 acres de derecho de vía adicional de los cuales aproximadamente el 95 por ciento se encuentra actualmente agricultura/uso sin desarrollar, y el cinco por ciento es residencial y comercial / uso industrial.

Las audiencias públicas se llevarán a cabo de la siguiente manera:

Martes, 5 de Marzo 2013
en la Cafetería de Michael E. DeBakey High School para Profesionales de salud, 3100 Shenandoah Houston, TX 77021

Jueves, 7 de Marzo 2013
en la Cafetería de Berry Miller Jr. High, 3301 Manvel Road Pearland, Texas 77584

Un Foro Abierto se conducirá desde las 6:00 pm 7:00 pm para permitir preguntas y reviso de exhibiciones del proyecto. Una presentación formal comenzará puntualmente a las 7:00 pm, seguido por un período de comentario público. Mapas y otros dibujos que muestren la ubicación propuesta y diseño se mostrará en la audiencia pública, y el documento Evaluación Ambiental (EA) estará disponible para su inspección. Información sobre el programa de reubicación de TxDOT y la oficina de asistencia de ayuda para la reubicación serán discutidos. La misma información será presentada en ambas audiencias. Representantes de TxDOT y su equipo estarán disponibles para contestar preguntas individuales. La información relativa a este proyecto, se encuentra archivada y disponible para revisar en la oficina de TxDOT del Distrito de Houston, 7600 Washington Avenue, Houston, Texas 77007 y en la oficina del Area de Brazoria, 1033 E. Orange, Angleton, TX 77515.

Todas las personas interesadas están invitadas a asistir a las audiencias públicas. Personas interesadas en asistir las reuniones que tienen necesidades especiales de comunicación se exigen contactar el oficial de información pública al

necesidades especiales de comunicación se exigen contactar el oficial de información pública al (713) 802-5072 por lo menos dos días laborales antes de la audiencia. La oficina de TxDOT están abiertas de lunes a viernes, de 8:00 am a 5:00 pm, excepto los días festivos estatales. La audiencia pública se llevará a cabo en Inglés, todas las solicitudes de intérpretes de lenguaje o otras necesidades especiales de comunicación debe hacerse por lo menos dos días laborales antes de la audiencia pública. TxDOT hará todo el esfuerzo razonable para acomodar estas necesidades.

Los comentarios verbales y escritos por parte del público con respecto a este proyecto se solicitan. Los comentarios pueden ser presentados en la audiencia o por escrito después de la audiencia. Los comentarios escritos pueden enviarse por correo a TxDOT Houston District, Attention: Director of Project Development, P.O. Box 1386, Houston, TX 77251-1386. Sus comentarios también pueden ser enviados por correo electrónico a hou-piowebmail@txdot.gov. Los comentarios escritos deben ser recibidos el 21 de Marzo, 2013 para estar incluido en el registro de la audiencia pública. Un reporte de la audiencia público estará disponible para el público en el sitio web <http://txdot.gov/inside-txdot/project/studies/houston/sh288.html> en el verano de 2013.

HOUSTON (KTRK) -- Residents on Houston's south side are invited to a meeting tonight over proposed highway improvements on highway 288.

The proposal includes toll lanes between Highway 59 and County Road 60 in Rosharon, as well as improved access to the Texas Medical Center. </p>

Tonight's meeting starts at 6pm at the DeBakey High School for Health Professionals on Shenandoah Street.

Take ABC13 with you!

1 P R O C E E D I N G S
2

3 MR. JAMES KOCH: Good evening. My name
4 is James Koch. I am Director of Transportation
5 Planning and Development for the Texas Department of
6 Transportation Houston District. Today's date is March
7 5th, 2013, and the time is 7:00 p.m.

8 At this time please turn off or
9 otherwise silence any personal electronic devices for
10 the remainder of this hearing.

11 On behalf of the Federal Highway
12 Administration and the Texas Department of
13 Transportation, I would like to thank you for your
14 interest and participation in this public hearing.

15 The purpose of this public hearing is
16 to present the proposed improvements along State
17 Highway 288 from U.S. 59 near downtown Houston to
18 County Road 60 near the proposed Grand Parkway in
19 Brazoria County and to gather public input, comments,
20 and/or suggestions you may have regarding the proposed
21 project.

22 This public hearing is being recorded
23 by a certified court reporter for the formal public
24 record.

25 You may have already noticed sign-in

1 tables as you have walked into the building this
2 evening. If you have not already done so, please sign
3 in before you leave tonight. The sign-in sheets allow
4 us to record tonight's participation. Also available
5 at the sign-in tables are handouts that include project
6 information and comment forms for your use at tonight's
7 hearing. Speaker registration cards are also available
8 at the sign-in table for those who wish to make a
9 verbal comment during the public comment session.

10 The public comment session will follow
11 this presentation. We will not answer questions during
12 the presentation or public comment session, but TxDOT
13 representatives and members of our consultant team will
14 be available to answer your questions following the
15 comment period. Please feel free to view the exhibits
16 that are on display tonight in this cafeteria.

17 In addition to tonight's presentation,
18 we will present the same information Thursday night at
19 Berry Miller Junior High School in Pearland, Texas.

20 Please advise one of our staff members
21 if you have a need for Spanish translation of
22 information presented at tonight's hearing.

23 At this point we would like to recognize
24 the elected officials that are in attendance tonight.

25 We have Margaret Jenkins from State

1 Representative Borris Miles' office; Kelly Smith for
2 Commissioner Dude Payne, Brazoria County Precinct 1;
3 Toya Ramirez from Councilmember Melissa Noriega's
4 office; Richard Zientek from Judge Emmett's office;
5 Karen Haller, Councilmember Wanda Adams' office; and
6 Dwight Boykins, candidate for District D.

7 If there are other officials present
8 tonight, please raise your hands to be recognized.

9 Each of you will be given the
10 opportunity to speak prior to the public comment
11 session.

12 Notices of this public hearing were
13 advertised in THE HOUSTON CHRONICLE, LA VOZ, and the
14 Pearland and Friendswood JOURNALS.

15 The project plans and environmental
16 document are available for review at TxDOT's District
17 Office in Houston and the Brazoria Area Office in
18 Angleton.

19 I would like to introduce the people who
20 will be presenting the project information to you this
21 evening. Mr. Patrick Gant of TxDOT's Houston District
22 Office will be presenting the project description and
23 design, followed by Patty Matthews of AECOM, who will
24 be presenting information from the environmental
25 studies that have been conducted.

1 And now I would like to have Mr. Patrick
2 Gant present the proposed construction project
3 information and design.

4 MR. PATRICK GANT: Thank you, Mr. Koch.

5 The proposed roadway improvement being
6 presented tonight will begin at U.S. Highway 59 just
7 south of downtown Houston and end at County Road 60
8 near the proposed Grand Parkway in Brazoria County, a
9 distance of approximately 26 miles.

10 The planning effort for this project
11 began with the State Highway 288 Corridor Feasibility
12 Study that provided recommendations for improvements to
13 the entire State Highway 288 corridor from U.S. 59
14 south of downtown Houston to State Highway 36 in
15 Freeport.

16 The feasibility study, which is
17 available for review, assessed the transportation needs
18 of the corridor, reviewed and analyzed all
19 transportation modal options, developed viable
20 transportation alternatives, and identified the most
21 feasible alternative.

22 Public meetings were conducted for the
23 Feasibility Study and the final completed study was
24 adopted by our Metropolitan Planning Organization, the
25 Houston-Galveston Area Council in October 2005.

1 The Corridor Feasibility Study
2 recommended construction of a four-lane managed lane
3 facility within the existing State Highway 288 as the
4 most feasible alternative. TxDOT determined that the
5 managed lanes would be tolled to provide additional
6 funding for the project, and to allow for faster
7 implementation of the needed improvements.

8 TxDOT then began preparing schematic
9 designs and environmental studies in 2006.

10 Public meetings were held in February
11 2007, where TxDOT presented preliminary plans and
12 gathered public comments.

13 Construction of a four-lane toll
14 facility and other improvements along State Highway 288
15 are estimated to require an investment of 1.4 billion
16 dollars.

17 Due to the high cost of the overall
18 project, TxDOT proposed to construct the proposed
19 improvements in phases.

20 This slide illustrates the existing
21 typical section of State Highway 288.

22 Currently, State Highway 288 has between
23 eight and four main lanes, separated by a wide grassy
24 median.

25 The initial phase of the project

1 proposes to construct a two-lane reversible toll
2 facility in approximately half of the existing grassy
3 median. If funding becomes available, four toll lanes,
4 two in each direction, may be constructed in the
5 initial phase.

6 This phase would be constructed from
7 U.S. 59 in Harris County to the north of State
8 Highway 6 in Brazoria County.

9 The reversible lanes would provide
10 additional capacity in the peak rush hour conditions.
11 Travel would be northbound in the morning and
12 southbound in the afternoon.

13 Over time, the final ultimate phase
14 would be constructed, which would add two additional
15 toll lanes within the existing grassy median from
16 U.S. 59 south to County Road 60. This construction
17 would allow for all-day two-way access for the toll
18 facility.

19 In addition, the ultimate phase proposes
20 to add one additional general purpose lane in each
21 direction from Interstate 610 to Beltway 8.

22 The proposed ultimate phase also adds
23 grade separations at major intersections between State
24 Highway 6 and County Road 60, which would upgrade that
25 segment of 288 to a full freeway.

1 The initial and ultimate phases of the
2 proposed design would include access points into and
3 out of the toll lanes at specific locations.

4 These locations include: U.S. 59, north
5 of Interstate 610, south of Interstate 610, north of
6 Beltway 8, north of FM 518, north of State Highway 6,
7 north of County Road 56, and finally County Road 60.

8 Existing entrance and exit ramps to the
9 general purpose lanes would remain.

10 Travel on the proposed toll lanes would
11 be tolled using an electronic toll collection system.
12 The toll facility would be EZ tag or TxTAG only. No
13 traditional toll booths are proposed. Final tolling
14 zones and tolling prices have not been determined;
15 however, they would conform with existing regional
16 tolling rates.

17 The existing 288 general purpose main
18 lanes would not be tolled.

19 In addition to the toll lane
20 construction, the proposed project includes the upgrade
21 of the Interstate 610 interchange with 288 to
22 accommodate the toll lanes. The ultimate
23 Interstate 610 interchange would be configured to
24 provide a connector to FM 521, also known as Almeda
25 Road, that would provide access to the Texas Medical

1 Center.

2 The proposed project also includes the
3 construction of a new freeway-to-freeway interchange
4 with Beltway 8, the Sam Houston tollway.

5 During the initial reversible phase of
6 the 288 project, four exiting direct connectors are
7 proposed to the Sam Houston Tollway. Once the ultimate
8 toll lanes are added, the four entering direct
9 connectors from the Sam Houston Tollway would be
10 constructed.

11 The initial construction of the two-lane
12 reversible toll facility is anticipated to begin in
13 2014 and be operational by 2017. The estimated project
14 cost for the initial phase is 300 million dollars.

15 The ultimate project is projected to be
16 constructed by 2035.

17 All together, the estimated cost of the
18 entire project is 1.4 billion dollars.

19 This concludes the Project Information
20 and Design portion of the presentation. Now, I would
21 like to turn it over to Ms. Patty Matthews of AECOM to
22 review the environmental studies associated with this
23 project.

24 MS. PATTY MATTHEWS: Thank you,
25 Mr. Gant.

1 I will briefly summarize the
2 environmental studies that have been conducted for the
3 proposed project.

4 A Draft Environmental Assessment, or EA,
5 was prepared for the proposed State Highway 288
6 improvements from U.S. 59 to County Road 60.

7 The environmental assessment document
8 discusses the proposed improvements and need for and
9 the purpose of the proposed project. It documents the
10 alternatives that were considered and evaluates the
11 anticipated potential impacts for the proposed project.
12 It also documents coordination of the public and
13 agencies during the preparation of the EA.

14 The proposed State Highway 288
15 improvements need to be implemented to address
16 congestion, mobility and access to the Texas Medical
17 Center. If additional lanes are not added, the
18 existing State Highway 288 and other area roadways will
19 become more congested and mobility in the corridor will
20 decrease.

21 The purpose of the proposed project is
22 to provide additional roadway capacity to accommodate
23 future traffic demand, improve mobility, and improve
24 access to the Texas Medical Center.

25 A No Build alternative and a Build

1 Alternative were considered.

2 Under the No Build Alternative, the
3 existing State Highway 288 roadway between U.S. 59 and
4 County Road 60 will remain in operation, and only
5 routine maintenance would be conducted per TxDOT
6 guidelines. The No Build Alternative does not satisfy
7 the need for and purpose of the proposed project.

8 After the State Highway 288 Feasibility
9 Study was completed, schematic design alternatives were
10 developed and evaluated. The Build Alternative was
11 developed to avoid and/or minimize adverse impacts to
12 the physical, biological, and human environment. The
13 Build Alternative would provide additional roadway
14 capacity, improve mobility, and provide improved access
15 to the Texas Medical Center, thus satisfying the
16 project needs.

17 The environmental assessment documents
18 the potential impacts of the proposed project.
19 Environmental considerations include human and natural
20 resources, some of which are listed on this slide. I
21 will discuss the potential project impacts to these
22 resources. The complete analysis can be found in the
23 EA document, available here in the room tonight at
24 tonight's hearing and at TxDOT's District Office in
25 Houston and the Brazoria Area Office in Angleton.

1 Most of the project construction would
2 be performed within an exciting roadway right-of-way in
3 previously disturbed areas. The proposed project would
4 not bisect any established neighborhoods or isolate any
5 neighborhoods or communities or directly affect planned
6 development of the area. During construction, there
7 may be short-term increases in traffic congestion and
8 changes in traffic patterns; but when complete, it is
9 expected the proposed project would improve mobility in
10 the area, including access to the Texas Medical Center.

11 The proposed project would require
12 approximately 69 acres of additional right-of-way, of
13 which approximately 65 acres are undeveloped. The
14 Build Alternative would potentially displace one
15 apartment building with seven rental units. Although
16 no businesses are expected to be displaced, the
17 right-of-way requirements include acquisition of
18 parking and loading/storage areas at four businesses
19 that front State Highway 288 and Loop 610. Some
20 utilities and signs may also be impacted depending on
21 final design. Substantial impacts to environmental
22 justice communities are not anticipated to result from
23 the proposed project.

24 Economic impacts related to the proposed
25 improvements could include short-term construction-

1 related employment and income, and long-term employment
2 due to improved movement of persons and goods. There
3 would be permanent removal of up to approximately 69
4 acres of taxable property. Positive economic effects
5 from project construction would be expected at the
6 local, regional, and state-wide levels.

7 The proposed project would accommodate
8 pedestrians and bicyclists at existing and future road
9 crossings.

10 Because the proposed project would be
11 constructed primarily in existing right-of-way, where
12 roads exist, visual and aesthetic qualities in the
13 project area would be mostly unchanged. The project
14 would be developed under TxDOT's Green Ribbon Program
15 which allocates funds for trees and plants within
16 roadway right-of-way.

17 An air quality analysis was performed
18 for both carbon monoxide and mobile source air toxics,
19 or MSAT, and was based on forecast traffic volumes.
20 The proposed project would have a low potential for
21 carbon monoxide and MSAT effects.

22 A traffic noise analysis indicated that
23 the proposed project would result in traffic noise
24 impacts. Noise abatement measures were considered and
25 noise barriers were evaluated for all impacted

1 receivers. For some, barriers would not meet the
2 FHWA's criteria for incorporation in the project.
3 Noise barriers met the criteria at some locations and
4 six preliminary noise walls are proposed. The proposed
5 noise walls would benefit an estimated 17 residences
6 and users of the Presbyterian School Outdoor Education
7 Campus. Noise impact contours showing predicted
8 traffic noise levels were also developed so that future
9 land use along State Highway 288 could be planned in
10 consideration of predicted traffic noise.

11 The proposed project would cross several
12 bayous, streams and water canals. No long-term water
13 quality impacts would be expected as a result of the
14 proposed project. Stormwater control measures and best
15 management practices would be implemented during and
16 after construction to prevent and minimize impacts to
17 water resources.

18 Based on the schematic design, the
19 proposed project could potentially impact approximately
20 four acres of waters of the United States, including
21 wetlands. TxDOT would coordinate with the U.S. Army
22 Corps of Engineers to obtain any required permits.

23 The proposed project crosses several
24 FEMA floodplains. Coordination with the local
25 floodplain administrators would be conducted regarding

1 any potential impacts to floodplains. Needs for
2 stormwater detention to mitigate increased runoff from
3 the roadway would be evaluated during final design.

4 The proposed project would impact almost
5 200 acres of existing, mowed and maintained
6 right-of-way and approximately 65 acres of agricultural
7 vegetation. No direct effects to federally-listed
8 threatened or endangered species, their habitat, or
9 designated critical habitat would be anticipated.

10 The proposed project may impact habitat
11 for two State-listed threatened species -- the
12 white-faced ibis and the Rafinesque's big-eared bat;
13 however, the habitat for both is marginally suitable
14 and would be recreated after completion of
15 construction.

16 The proposed project would not affect
17 archeological historic properties, State archeological
18 landmarks or historic resources. In the event that
19 unanticipated archeological deposits are encountered
20 during construction, work in the immediate area would
21 cease and TxDOT archeological staff would be contacted.

22 The proposed project would require
23 right-of-way from four sites with documented hazardous
24 materials concerns, and is in the vicinity of other
25 sites of concern. Sites estimated to be as high or

1 moderate risks would have further investigation to
2 determine the potential of encountering hazardous
3 materials during construction of the project.

4 The primary indirect effects of the
5 proposed project would be the result of induced
6 development. Potential induced development was
7 forecast by evaluating information gathered from area
8 planners, past and future development trends, and plans
9 developed by the Cities of Pearland and Manvel. The
10 proposed project could affect the timing, location, and
11 type of development that takes place if other factors
12 affecting development do not change.

13 For the cumulative impact assessment,
14 detailed analyses were performed for land use, air
15 quality, water quality, wetlands and other waters of
16 the United States, vegetation and wildlife. These
17 analyses can be found in the Environmental Assessment
18 document.

19 During the environmental process, TxDOT
20 coordinated with many resources agencies and other
21 stakeholders, including the public. Some of these are
22 listed on the slide.

23 What's next in the environmental
24 process?

25 TxDOT will review the verbal and written

1 comments received at the public hearings this week and
2 other written comments received within the public
3 comment period which ends on March 21st, 2013.

4 A summary of the public hearings,
5 including comments and responses, will be submitted to
6 the Federal Highway Administration for review, as well
7 as any changes to the proposed project. A project
8 decision will be requested from FHWA in the Spring of
9 2013. The project decision documents will be posted on
10 TxDOT's website, and will be available for review at
11 TxDOT's Houston District and Brazoria Area Offices. In
12 addition, a notice regarding the availability of these
13 documents will be published in four newspapers, THE
14 HOUSTON CHRONICLE, LA VOZ, PEARLAND JOURNAL and
15 FRIENDSWOOD JOURNAL.

16 Thank you for your attention. I'll now
17 turn it back over to Mr. Koch.

18 MR. JAMES KOCH: Thank you,
19 Ms. Matthews.

20 Now we will begin the public comment
21 session.

22 Only registered speakers will be called
23 upon. Please raise your hand if you would like to
24 speak for the record tonight and have not received a
25 speaker registration card. Our staff has cards for you

1 to fill out.

2 We will collect any additional speaker
3 cards after we hear from our elected officials who are
4 present tonight and wish to make a public comment.

5 Do we have any of our public officials
6 willing to make a comment?

7 (No response.)

8 MR. JAMES KOCH: As a reminder, if you
9 would like to comment but do not wish to comment
10 verbally tonight, or if you wish to comment in more
11 detail, you may submit a written comment. Both written
12 and verbal comments will be considered equally. If you
13 submit your comments in writing, it is not necessary to
14 repeat your comments verbally. Comment forms are
15 available at the sign-in table and are attached to your
16 handout packet. Written comment forms can be turned in
17 tonight or sent by mail, provided they are postmarked
18 by March 21st, 2013. Written comments will also be
19 accepted by e-mail until March 21st, 2013. The
20 appropriate addresses for mailing or e-mailing your
21 comments are provided on the comment form. All
22 comments will be addressed as part of the Final
23 Environmental Assessment that is submitted to FHWA for
24 approval.

25 At this time we'll collect the remaining

1 speaker registration cards.

2 When your name is called, please move to
3 the table by the floor microphone. Use the microphone
4 in the front of the room and please face Mary Dopico,
5 our court reporter, so that we can have an accurate
6 record of your comments.

7 The purpose of this hearing is to
8 receive your input and comments on issues relevant to
9 the project. All verbal, written, and e-mail comments
10 will be addressed as part of the Final Environmental
11 Assessment.

12 Before presenting your comments, please
13 state your name for the record and whom you may
14 represent. Each speaker will be given three minutes to
15 present their comments. A time display on the screen
16 will indicate the start of each speaker's three
17 minutes. The timer will count down your remaining
18 time. When the clock is at zero, your speaking time is
19 over. Once the three-minute period is over, we ask
20 that you allow the next speaker to present their
21 comments. You will not be allowed to give your
22 remaining time to another speaker.

23 Again, we will not respond to questions
24 during this time. TxDOT's representatives and members
25 of the consulting team will be available to answer your

1 questions following the comment session.

2 The names of speakers will be called in
3 the order they were received. The hearing will adjourn
4 after all who have registered to make verbal comments
5 have been heard.

6 The first speaker tonight is
7 Ms. Patricia Allen McGill, followed by Bob Ames.

8 MR. BOB AMOS: Amos.

9 MR. JAMES KOCH: Amos.

10 MS. PATRICIA ALLEN MCGILL: Good
11 evening. My name is Patricia Allen McGill, and I am a
12 resident at the corner of Arbor and 288, on the
13 southbound side of 288.

14 And at this point, the noise is
15 unbearable. And I have looked at the maps and want to
16 know how to effect some changes in that, if there --
17 There don't seem to be very many areas that are covered
18 by noise barriers at this point; and I have had some
19 conversations this evening with Mr. Cooper, and we --
20 as a -- as a neighborhood, we need to know how to
21 effect this process, and would like to get some
22 feedback on who to talk to and what the possibilities
23 are.

24 Thank you.

25 MR. JAMES KOCH: Thank you.

1 Bob Amos, followed by Carolyn Jones.

2 MR. BOB AMOS: Good evening. Bob Amos.
3 I heard about this last night on the news. I had to
4 try to get here.

5 288, bastard stepchild of the freeways.
6 You want to build a toll road there, you've got a
7 captive audience going all the way down to 6. What
8 about frontage roads first?

9 You start construction -- It's already
10 a parking lot.

11 I heard this morning there was a wreck
12 on 290, and they were making a big deal out of it on
13 all the channels. It's a 45-minute delay. I only
14 travel Beltway 8 to 59. It's a 10-mile drive, takes me
15 45 minutes each way twice a day.

16 So where is -- You did not mention
17 frontage roads. And you won't answer the questions, so
18 I guess they're not -- they're not part of this.

19 Improved access to the Medical Center is
20 what this is for. How about improved access to
21 downtown for everyone that lives in Pearland?

22 You said: Who's going to be -- And
23 again, who's going to be in charge? This is a toll
24 road, so the toll road authority is going to be in
25 charge? That again goes back to me. It's a money

1 grab. You've got a captive audience of 100,000 people
2 living down south and no way to get here but 288.

3 Again, I drive 10 miles in the morning
4 and at night, it takes me 45 minutes. God help me if
5 there's a wreck, because now we're parked.

6 No frontage roads. There is no way to
7 get away. There is no other -- There's not a
8 secondary route to go to now.

9 You want to do construction down the
10 middle of 288 to highway, where, 36? How about just
11 doing frontage roads from Highway 6 to 59?

12 Two lanes. This is the only highway in
13 town that doesn't have frontage roads. Toll road?
14 Let's get the frontage road in first, then think about
15 a toll road.

16 And I wish you guys could answer
17 questions instead of just standing there.

18 MR. JAMES KOCH: Okay, sir. Carol Jones
19 followed by Robert Muhammad.

20 MS. CAROLYN JONES: I'm Carolyn Jones,
21 and I live in Manvel.

22 My concern is noise. I happen to live
23 in the South Fork subdivision, and some of those homes
24 are very, very close to the freeway. So if they aren't
25 going to be -- The noise is almost intolerable now.

1 On Thursday I will be at a homeowners' meeting where we
2 will meet with developers who are planning to put
3 senior citizen facilities right there at the corner of
4 County Road 59 and 288 -- a big apartment complex, as
5 well as assisted living. And we do have an Alzheimer's
6 facility there now, so noise is definitely going to be
7 an issue.

8 Now, when I moved out there, we were not
9 a flood control area, but we are -- we have our
10 flooding issues. I'm concerned about right up here at
11 610. We need help already, because you -- if it rains
12 for two hours, you've got to get your boat out and try
13 to paddle across.

14 And I did not hear anything about
15 environmental impacts with regard to drainage. We have
16 some drainage problems already along 288, and adding
17 more concrete, it should probably acerbate that
18 situation.

19 And then personally, for my subdivision,
20 right at County Road 59 and 288, we have water draining
21 off of there now that isn't really being controlled.
22 And you're not going to look at a floodplain map and
23 see this.

24 So I'm hoping that you will get back to
25 us and give us more information about where you're

1 going and how you're going to provide drainage along a
2 freeway that already has a lot of issues in that
3 regard.

4 Thank you very much.

5 MR. JAMES KOCH: Yes, ma'am.

6 Robert Muhammad, followed by Sean
7 Murphy.

8 MR. ROBERT MUHAMMAD: Yes, Robert
9 Muhammed, M-U-H-A-M-M-A-D, Greater Southeast Management
10 District and Muhammad Mosque Number 45 on Old Spanish
11 Trail.

12 I'm going to raise opposition to this --
13 this project initially until these questions are
14 answered -- or not questions but statements.

15 Why is there no multi-modal connectivity
16 or accommodation on this particular facility; such as:
17 Will Park & Rides be allowed to use this or will this
18 all be for automobiles?

19 I don't see anything in the plan
20 initially that tells me about street improvements or
21 connectivity and mobility improvements at the northern
22 end of the project, which would be when the toll road
23 dumps into U.S. Highway 59.

24 I challenge the environmental justice
25 impact study or the results of it, particularly as it

1 affects the greater Third Ward, ZIP code 77004 and
2 77021. I believe there will be economic impacts and
3 other impacts in terms of pedestrian safety; and also
4 it's going to affect public transit, particularly if we
5 drop off -- dump off all that traffic there.

6 I'm concerned about -- We're concerned
7 about the HUD business report. If TxDOT's past history
8 is any indication, what plans do you have for the 300
9 million to 1.4 billion dollars you're about to spend of
10 taxpayer's monies if in your HUD report it shows that
11 black, brown, red, yellow male and female businesses
12 get less business with TxDOT and with the State than
13 white women businesses, per se.

14 There is no exit alternatives for the
15 Texas Medical Center direct connection that's being
16 considered outside of the 610 loop. Why does it have
17 to be inside of the 610 loop? Why can it not be any
18 consideration given to Reed Road, West Bellfort, and
19 connectivity to Metro's regional operation center there
20 where the light rail runs or to using the parking lot
21 at Reliant Center and allowing people to catch rail
22 into the Medical Center?

23 Also, the Texas Medical Center did say
24 they are going to do 10 million square feet of
25 additional office space or space in the Texas Medical

1 Center. That means it's going to expand east and
2 south. And, also, there is a decentralization of the
3 Texas Medical Center. They're building all out. So
4 why are we going to spend all of this money to finish
5 something by 2035 if they're not going -- if they're
6 not even going to be there and still be there in the
7 same configuration they are? Because we're a
8 polycentric city and we need not a focus on just the
9 Medical Center, but the central business district and
10 also access to 610 to the Galleria, which has as much
11 office space as some downtowns in major cities in this
12 country.

13 Thank you.

14 MR. JAMES KOCH: Thank you, sir.

15 Sean Murphy, followed by Hector Moreno.

16 MR. SEAN MURPHY: Good evening. My name
17 is Sean Murphy. I'm the president of the Museum Park
18 Neighborhood Association, which is bound just to the
19 west by Highway 288.

20 I'm very disappointed in this solution
21 from TxDOT. It is your classic TxDOT short-sighted
22 pave-over-everything answer. Why don't you just pave
23 over all of Houston? Would you be happy then?

24 The real answer is public transportation
25 in the form of light rail and Metrorail, and that has

1 been given no consideration at all by your creative
2 people behind the scenes.

3 This is very disappointing. What
4 happens when gas becomes 10 dollars a gallon or 20
5 dollars a gallon in the next oil crisis, and we're
6 stuck without the ability to afford to drive on this
7 gorgeous 12-lane 1.4 billion dollar highway? 1.4
8 billion dollars will buy you a Metrorail all the way up
9 288.

10 Please, for the love of God, have some
11 creativity and consider some other alternative than
12 paving over all of Houston.

13 Thank you.

14 MR. JAMES KOCH: Thank you, sir. Hector
15 Moreno, followed by Ulrike Peto.

16 MR. HECTOR MORENO: Good evening. My
17 name is Hector Moreno. I'm a local resident pretty
18 much at the 59/288 exchange, and a project manager,
19 local architect.

20 I just have some -- some comments
21 regarding partially, I think, the whole notion of light
22 rail. I know that that's been a hot topic as of late.
23 It seems very short-sighted that as you're conveying
24 your ideas, your concepts, even from a PR standpoint,
25 that we're only talking about roads.

1 I heard intra-modal; but the only thing
2 that I'm hearing from you -- and you guys are the --
3 are the eyes and the mouth for TxDOT -- the only thing
4 I'm hearing is paving. That's incom --
5 uncomprehensible.

6 So if there truly is -- and be honest
7 with us -- if there truly is a different story or a
8 larger story that we're not hearing, we need to know
9 that.

10 I also want to talk about -- There was
11 a -- a notion of induced development. You have to
12 understand that 59 has many structures along the way.
13 You have the Medical Center, you have wonderful
14 residential portions through there. You have the south
15 end of Highway 6 going into Pearland.

16 One answer does not fit all, as you well
17 know. And I know you guys are trying to be dynamic in
18 trying to create a lot of synergy; but the induced
19 development that I foresee -- off the top of my head
20 that's happening south of, let's say, 610 may greatly
21 impact north of 610 in a negative way.

22 You're talking about bringing cars to
23 and fro. I think that that's potentially a very
24 negative impact. So, again, take a look at the
25 different junctures along 59 that -- that are not

1 just -- It's not just a matter of getting cars from
2 point A to point B. You're going through a lot of
3 different -- different sections.

4 So, you know, I'm sure you're all
5 earning a nice salary. Use that and invite the public
6 to be part of that design process, because we have
7 ideas and we want the synergy to work. We want the
8 noise reduction. We want there to be easier access.
9 But it seems to me, just what I'm hearing and just what
10 I've seen on the news and looking at your website, that
11 we're only hearing one part of it, and that's the
12 paving. That's the typical TxDOT, you know, mentality
13 that we're hearing.

14 So if it gets any better than that or
15 there's any other concepts that you would like to relay
16 to us, that maybe you may do a better job of doing
17 that.

18 Thank you.

19 MR. JAMES KOCH: Thank you. Ulrike
20 Peto, followed by Yolanda Smith.

21 MS. ULRIKE PETO: My name is Ulrike
22 Peto, and I'm concerned with the noise level on Almeda
23 from OST up until Holly Hall, all residential
24 complexes, mostly adult complexes with people working
25 in the Medical Center, lots of medical students and

1 doctors that work late at night and come home and need
2 to be able to rest and not have the traffic zip by at
3 all times.

4 And I see that on I-10 now are all those
5 nice noise boards up around Campbell and Blalock and
6 Bingle. And so I really propose that along Alameda
7 there should also be those noise boards put up, because
8 these residential complexes are very close to Alameda,
9 just a few feet away.

10 Then, second, was there a study done how
11 the air quality will change with all the fumes coming
12 from all the cars that go by? So in the residential
13 area, we don't want to be breathing in all that poison
14 that is in the air.

15 And I have to -- My next note has
16 already been discussed, but was there ever light rail
17 considered? I just cannot understand that coming from
18 Europe, I am used to light rail. They could have light
19 rail already in all directions.

20 I lived in Munich when they started
21 this -- this light rail and the subway when the Olympic
22 Games came there in '72; and within a few years -- Now
23 you can drive out this light rail up to the lakes 50
24 miles away, and it is beautiful there. So I cannot
25 understand that a city like Houston, with all the money

1 that is here, that we couldn't have light rail already.

2 And what concerns me, also, is the
3 drainage of the water. If there is some flooding -- or
4 are there really some proposals of how to take care of
5 all that rainwater and flooding? Thank you.

6 MR. JAMES KOCH: Thank you, ma'am.

7 Yolanda Smith.

8 MS. YOLANDA SMITH: Good evening. I'm
9 Yolanda Smith. I'm from the NAACP Houston Branch, and
10 I'm representing our Economic Development Committee.
11 And I want to touch on one of the things that Minister
12 Robert Muhammad spoke on or touched on in his comments.

13 Our concerns is the economic opportunity
14 that exists in this plan. You mentioned that there was
15 a 1.4 billion dollar budget. So my question is: What
16 economic opportunities -- opportunities exist regarding
17 HUD and community participation; and what is TxDOT's
18 process to ensure that participation occurs, especially
19 given the improvement work will occur in minority
20 communities. And is there -- Will there be a
21 monitoring process, a process for community outreach
22 for your HUD participation and -- as well as increasing
23 participation and how might the organizations that
24 obviously will be affected and the communities will be
25 affected, how might they be a part of your process and

1 plan?

2 Thank you.

3 JAMES KOCH: All right. I want to thank
4 each of you for your comments tonight.

5 If you would like to comment in writing,
6 you may do so by completing a written comment form.
7 The form may be completed tonight or you may mail or
8 e-mail your comments, which must be received or
9 postmarked by March 21st, 2013. The appropriate
10 address for mailing or e-mailing your comments is
11 provided on the comment form.

12 All comments will be considered equally.
13 If you provided comments verbally, it is not
14 necessarily -- necessary to repeat your comments in
15 writing. Your comments will be included in the Public
16 Hearing Summary Report and will be a part of the
17 official record of the completed Final Environmental
18 Assessment.

19 On behalf of the Federal Highway
20 Administration and TxDOT, I would like to thank you for
21 your interest and participation in this public hearing.

22 We would also like to thank DeBakey High
23 School for the use of this facility.

24 If there are no further comments, we
25 will close the hearing.

1 Thank you for your attendance and input.
2 Please drive safely. It is 7:43 p.m. and the hearing
3 is adjourned.

4 (The deposition concluded at 7:43 p.m.)

3

4 REPORTER'S CERTIFICATION

5

6 I, Mary C. Dopico, Certified Shorthand Reporter in
7 and for the State of Texas, do hereby certify that the
8 facts stated by me in the caption hereto are true; that
9 the foregoing proceedings were taken by me in machine
10 shorthand and later transcribed from my machine
11 shorthand notes to typewritten form by me.

12

13 I further certify that the above and foregoing
14 proceedings, as set forth in typewriting, are a full,
15 true and correct transcript of the proceedings had at
16 the time of taking said proceedings.

17

18 I further certify that I am neither attorney or
19 counsel for, nor related to or employed by any of the
20 parties to the action in which these proceedings are
21 being taken, and further that I am not a relative or
22 employee of any attorney or counsel employed by the
23 parties hereto, or financially interested in the
24 action.

2

3 MR. JAMES KOCH: We're going to go ahead
4 and get started if everybody could find a seat, please.

5 Good evening. My name is James Koch. I
6 am Director of Transportation Planning and Development
7 for the Texas Department of Transportation Houston
8 District. Today's date is March 7th, 2013, and the time
9 is 7:04 p.m.

10 At this time please turn off or otherwise
11 silence any personal electronic devices for the
12 remainder of this hearing.

13 On behalf of the Federal Highway
14 Administration and the Texas Department of
15 Transportation, I would like to thank you for your
16 interest and participation in this public hearing.

17 The purpose of this public hearing is to
18 present the proposed improvements along State
19 Highway 288 from U.S. 59 near downtown Houston to County
20 Road 60 near the proposed Grand Parkway in Brazoria
21 County and to gather public input, comments, and/or
22 suggestions you may have regarding the proposed project.

23 This public hearing is being recorded by
24 a certified court reporter for the formal public record.

25 You may have noticed sign-in tables as

1 you have walked into the building this evening. If you
2 have not already done so, please sign in before you
3 leave tonight. The sign-in sheets allow us to record
4 tonight's participation. Also available at the sign-in
5 tables are handouts that include project information and
6 comment forms for your use at tonight's hearing.
7 Speaker registration cards are also available at the
8 sign-in table for those who wish to make a verbal
9 comment during the public comment session.

10 The public comment session will follow
11 this presentation. We will not answer questions during
12 the presentation or public comment session, but TxDOT
13 representatives and members of the consulting team will
14 be available to answer your questions following the
15 comment period. Please feel free to view the exhibits
16 that are on display tonight in this room.

17 In addition to tonight's presentation, we
18 presented at the same information Tuesday at DeBakey
19 High School in Houston, Texas.

20 Please advise one of our staff members if
21 you have a need for Spanish translation of information
22 presented at tonight's hearing.

23 At this point we would like to recognize
24 the elected officials that are in attendance tonight.

25 We have Keith Ordeneaux, from Pearland

1 City Council; Ms. Dolores Martin, Mayor of Manvel; Matt
2 Sebesta, County Commissioner Precinct 2; Denny Myers,
3 Iowa Colony City Council; Larry Stanley, County
4 Commissioner Precinct 4; Tom Reid, Mayor City of
5 Pearland; Buck Stevens, Constable Precinct 3; Stacy
6 Adams, County Commissioner; and Ed Thompson, State
7 Representative House District 29.

8 If there are other elected officials
9 present tonight, please raise your hand to be
10 recognized. Each of you will be given an opportunity to
11 speak prior to the public comment session. Thank you.

12 Notices of this public hearing were
13 advertised in THE HOUSTON CHRONICLE, LA VOZ, and the
14 Pearland and Friendswood JOURNALS.

15 The project plans and environmental
16 document are available for review at TxDOT's District
17 Office in Houston and the Brazoria Area Office in
18 Angleton.

19 I would like to introduce the people who
20 will be presenting the project information to you this
21 evening. Mr. Patrick Gant of TxDOT's Houston District
22 Office will be presenting the project description and
23 design, followed by Ms. Patty Matthews of AECOM, who
24 will be presenting information from the environmental
25 studies that have been conducted.

1 And now I would like to have Mr. Patrick
2 Gant present the proposed construction project
3 information and design.

4 MR. PATRICK GANT: Thank you, Mr. Koch.

5 The proposed roadway improvement being
6 presented tonight will begin at U.S. Highway 59 just
7 south of downtown Houston and end at County Road 60 near
8 the proposed Grand Parkway in Brazoria County, a
9 distance of approximately 26 miles.

10 The planning effort for this project
11 began with the State Highway 288 Corridor Feasibility
12 Study that provided recommendations for improvements to
13 the entire State Highway 288 corridor from U.S. 59 south
14 of downtown Houston to State Highway 36 in Freeport.

15 The feasibility study, which is available
16 for review, assessed the transportation needs of the
17 corridor, reviewed and analyzed all transportation modal
18 options, developed viable transportation alternatives,
19 and identified the most feasible alternative.

20 Public meetings were conducted for the
21 Feasibility Study and the final completed study was
22 adopted by our Metropolitan Planning Organization, the
23 Houston-Galveston Area Council, in October 2005.

24 The Corridor Feasibility Study
25 recommended construction of a four-lane managed lane

1 facility within the existing State Highway 288 as the
2 most feasible alternative. TxDOT determined that the
3 managed lanes would be tolled to provide additional
4 funding for the project and to allow for faster
5 implementation of the needed improvements.

6 TxDOT then began preparing schematic
7 designs and environmental studies in 2006.

8 Public meetings were held in February
9 2007, where TxDOT presented preliminary -- preliminary
10 plans and gathered public comments.

11 Construction of a four-lane toll facility
12 and other improvements along State Highway 288 are
13 estimated to require an investment of 1.4 billion
14 dollars.

15 Due to the high cost of the overall
16 project, TxDOT proposed to construct the proposed
17 improvements in phases.

18 This slide illustrates the existing
19 typical section of State Highway 288.

20 Currently, State Highway 288 has between
21 eight and four main lanes, separated by a wide grassy
22 median.

23 The initial phase of this project
24 proposes to construct a two-lane reversible toll
25 facility in approximately half of the existing grassy

1 median. If funding becomes available, four toll lanes,
2 two in each direction, may be constructed in the initial
3 phase.

4 This phase would be constructed from
5 U.S. 59 in Harris County to the north of State Highway 6
6 in Brazoria County.

7 The reversible lanes would provide
8 additional capacity in the peak rush hour conditions.
9 Travel would be northbound in the morning and southbound
10 in the afternoon.

11 Over time, the final ultimate phase would
12 be constructed, which would add two additional toll
13 lanes within the existing grassy median from U.S. 59
14 south to County Road 60. This construction would allow
15 for all-day two-way access for the toll facility.

16 In addition, the ultimate phase proposes
17 to add one additional general purpose lane in each
18 direction from Interstate 610 to Beltway 8.

19 The proposed ultimate phase also adds
20 grade separations at major intersections between State
21 Highway 6 and County Road 60, which would upgrade that
22 segment of 288 to a full freeway.

23 The initial and ultimate phases of the
24 proposed design would include access points into and out
25 of the toll lanes at specific locations.

1 These locations include: U.S. 59, north
2 of Interstate 610, south of Interstate 610, north of
3 Beltway 8, north of FM 518, north of State Highway 6,
4 north of County Road 56, and County Road 60.

5 Existing entrance and exit ramps to the
6 general purpose main lanes would remain.

7 Travel on the proposed 288 toll lanes
8 would be tolled using an electronic toll collection
9 system. The toll facility would be EZ tag or TxTAG
10 only. No traditional toll booths are proposed. Final
11 tolling zones and tolling prices have not been
12 determined; however, they would conform with existing
13 regional tolling rates.

14 The existing 288 general purpose main
15 lanes would not be tolled.

16 In addition to the toll lane
17 construction, the proposed project includes the upgrade
18 of the Interstate 610 interchange with 288 to
19 accommodate the toll lanes. The ultimate Interstate 610
20 interchange would be configured to provide a connector
21 to FM 521, also known as Almeda Road, that would provide
22 access to the Texas Medical Center.

23 The proposed project also includes the
24 construction of a new freeway-to-freeway interchange
25 with Beltway 8, the Sam Houston tollway.

1 During the initial reversible phase of
2 the 288 project, four exiting direct connectors are
3 proposed to the Sam Houston Tollway. Once the ultimate
4 toll lanes are added, the four entering direct
5 connectors from the Sam Houston Tollway would be
6 constructed.

7 The initial construction of the two-lane
8 reversible toll facility is anticipated to begin in 2014
9 and be operational by 2017. The estimated project cost
10 for the initial phase is 300 million dollars.

11 The ultimate project is projected to be
12 constructed by 2035.

13 All together, the estimated cost for the
14 entire project is 1.4 billion dollars.

15 This concludes the Project Information
16 and Design portion of the presentation. Now, I would
17 like to turn it over to Ms. Patty Matthews of AECOM to
18 review the environmental studies associated with this
19 project.

20 MS. PATTY MATTHEWS: Thank you, Mr. Gant.

21 I will briefly summarize the
22 environmental studies that have been conducted for the
23 proposed project.

24 A Draft Environmental Assessment, or EA,
25 was prepared for the proposed State Highway 288

1 improvements from U.S. 59 to County Road 60.

2 The environmental assessment document
3 discusses the proposed improvements and the need for and
4 the purpose of the proposed project. It documents the
5 alternatives that were considered and evaluates the
6 anticipated potential impacts from the proposed project.
7 It also documents coordination with the public and
8 agencies during the preparation of the EA.

9 The proposed State Highway 288
10 improvements need to be implemented to address
11 congestion, mobility and access to the Texas Medical
12 Center. If additional lanes are not added, the existing
13 State Highway 288 and other roadways will become more
14 congested and mobility in the corridor will decrease.

15 The purpose of the proposed project is to
16 provide additional roadway capacity to accommodate
17 future traffic demand, improve mobility, and improve
18 access to the Texas Medical Center.

19 A No Build alternative and a Build
20 Alternative were considered.

21 Under the No Build Alternative, the
22 existing State Highway 288 roadway between U.S. 59 and
23 County Road 60 would remain in operation, and only
24 routine maintenance would be conducted per TxDOT
25 guidelines. The No Build Alternative does not satisfy

1 the need for and the purpose of the proposed project.

2 After the State Highway 288 Feasibility
3 Study was completed, schematic design alternatives were
4 developed and evaluated. The Build Alternative was
5 developed to avoid and/or minimize the impacts to the
6 physical, biological, and human environment. The Build
7 Alternative would provide additional roadway capacity,
8 improve mobility, and provide improved access to the
9 Texas Medical Center, thus satisfying the project needs.

10 The environmental assessment documents
11 the potential impacts of the proposed project.

12 Environmental considerations include human and natural
13 resources, some of which are listed on this slide. I
14 will discuss the potential impacts to these resources.
15 The complete analysis can be found in the EA document
16 available in the open house area of tonight's hearing,
17 and at TxDOT's District Office in Houston, the Brazoria
18 Area Office in Angleton, and also on TxDOT's website.

19 Most of the project construction would be
20 performed within an existing roadway right-of-way in
21 previously disturbed areas. The proposed project would
22 not bisect any established neighborhoods or isolate any
23 neighborhoods or communities or directly affect planned
24 development of the project area. During construction,
25 there may be short-term increases in traffic congestion

1 and changes in traffic patterns; but when complete, it
2 is expected the proposed project would improve mobility
3 in the area, including access to the Texas Medical
4 Center.

5 The proposed project would require
6 approximately 69 acres of additional right-of-way, of
7 which approximately 65 acres are undeveloped. The Build
8 Alternative would potentially displace one apartment
9 building with seven rental units. Although no
10 businesses are expected to be displaced, the
11 right-of-way requirements include acquisition of parking
12 and loading and storage areas at four businesses that
13 front State Highway 288 and Interstate 610. Some
14 utilities and signs may also be impacted depending on
15 final design. Substantial impacts to environmental
16 justice communities are not anticipated to result from
17 the proposed project.

18 Economic impacts related to the proposed
19 improvements could include short-term construction-
20 related employment and income, and long-term employment
21 due to improved movement of persons and goods. There
22 would be permanent removal of up to approximately 69
23 acres of taxable property. Positive economic effects
24 from project construction would be expected at the
25 local, regional, and state-wide levels.

1 The project would accommodate pedestrians
2 and bicyclists at existing and future road crossings.

3 Because the proposed project would be
4 constructed primarily in existing right-of-way, where
5 roads exist, visual and aesthetic qualities in the
6 project area would be mostly unchanged. The project
7 would be developed under TxDOT's Green Ribbon Program
8 which allocates funds for trees and plants within the
9 roadway right-of-way.

10 An air quality analysis was performed for
11 both carbon monoxide and mobile source air toxics, or
12 MSATs, and was based on forecast traffic volumes. The
13 proposed project would have a low potential for carbon
14 monoxide and MSAT effects.

15 A traffic noise analysis indicated that
16 the proposed project would result in traffic noise
17 impacts. Noise abatement measures were considered and
18 noise barriers were evaluated for all impacted
19 receivers. For some, barriers would not meet the
20 Federal Highway Administration's criteria for
21 incorporation in the project. Noise barriers met the
22 criteria at some locations and six preliminary noise
23 walls are proposed. The proposed noise walls would
24 benefit an estimated 17 residences and users of the
25 Presbyterian School Outdoor Education Campus. Noise

1 No direct effects to federally-listed threatened or
2 endangered species, their habitat, or designated
3 critical habitat would be anticipated.

4 The proposed project may impact habitat
5 for two State-listed threatened species -- the
6 white-faced ibis and the Rafinesque's big-eared bat;
7 however, the habitat for both is marginally suitable and
8 would be recreated after completion of construction.

9 The proposed project would not affect
10 archeological historic properties, State archeological
11 landmarks or historic resources. In the event that
12 unanticipated archeological deposits are encountered
13 during construction, work in the immediate area would
14 cease and TxDOT archeological staff would be contacted.

15 The project would require right-of-way
16 from four sites with documented hazardous materials
17 concerns, and is in the vicinity of other sites of
18 concern. Sites estimated to be as high or moderate
19 risks would have further investigation to determine the
20 potential of encountering hazardous materials during
21 construction of the project.

22 The primary indirect effects of the
23 proposed project would be the result of induced
24 development. Potential induced development was forecast
25 by evaluating information gathered from area planners,

1 past and future development trends, and plans developed
2 by the Cities of Pearland and Manvel. The proposed
3 project could affect the timing, location, and type of
4 development that takes place if other factors affecting
5 development do not change.

6 For the cumulative impact assessment,
7 detailed analyses were performed for land use, air
8 quality, water quality, wetlands and other waters of the
9 United States, vegetation and wildlife. These analyses
10 can be found in the EA document.

11 During the environmental process, TxDOT
12 coordinated with many resources agencies and other
13 stakeholders, including the public. Some of these are
14 listed on this slide.

15 What's next in the environmental process?

16 TxDOT will review the verbal and written
17 comments received at the public hearings this week and
18 other written comments received within the comment
19 period which ends on March 21st, 2013.

20 A summary of the public hearings,
21 including comments and responses, will be submitted to
22 the FHWA for review, as well as any changes to the
23 proposed project. A project decision will be requested
24 from the Federal Highway Administration in the Spring of
25 2013. The project decision documents will be posted on

1 TxDOT's website, and will be available for review at
2 TxDOT's Houston District and Brazoria Area Offices. In
3 addition, a notice regarding the availability of these
4 documents will be published in four newspapers, THE
5 HOUSTON CHRONICLE, LA VOZ, the PEARLAND JOURNAL and
6 FRIENDSWOOD JOURNAL.

7 Thank you for your attention. I'll now
8 turn it back over to Mr. Koch.

9 MR. JAMES KOCH: Thank you, Ms. Matthews.
10 Now we will begin the public comment
11 session.

12 Only registered speakers will be called
13 upon. Please raise your hand if you would like to speak
14 for the record tonight and have not received a speaker
15 registration card. Our staff has cards for you to fill
16 out.

17 We will collect any additional speaker
18 cards after we hear from our elected officials who are
19 present tonight and wish to make a public comment.

20 Would any of our elected officials wish
21 to make a comment?

22 (No response.)

23 MR. JAMES KOCH: As a reminder, if you
24 would like to comment but do not wish to comment
25 verbally tonight, or if you wish to comment in more

1 detail, you may submit a written comment. Both written
2 and verbal comments will be considered equally. If you
3 submit your comments in writing, it's not necessary to
4 repeat your comments verbally. Comment forms are
5 available at the sign-in table and are attached to your
6 handout packet. Written comment forms can be turned in
7 tonight or sent by mail, provided they are postmarked by
8 March 21st, 2013. Written comments will also be
9 accepted by e-mail until March 21st, 2013. The
10 appropriate addresses for mailing or e-mailing your
11 comments are provided on the comment form. All comments
12 will be addressed as part of the Final Environmental
13 Assessment that is submitted to FHWA for approval.

14 At this time we will collect the
15 remaining speaker registration cards.

16 When your name is called, please move to
17 the table by the floor microphone where there are
18 several reserved seats. Use the microphone in the front
19 of the room and please face Mary Dopico, our court
20 reporter, so that we can have an accurate record of your
21 comments.

22 The purpose of this hearing is to receive
23 your input and comments on issues relevant to the
24 project. All verbal, written, and e-mail comments will
25 be addressed as part of the Final Environmental

1 Assessment.

2 Before presenting your comments, please
3 state your name for the record and whom you may
4 represent. Each speaker will be given three minutes to
5 present their comments. A time display on the screen
6 will indicate the start of each speaker's three minutes.
7 The timer will count down your remaining time. When the
8 clock is at zero, your speaking time is over. Once the
9 three-minute period is over, we ask that you allow the
10 next speaker to present their comments. You will not be
11 allowed to give your un-used time to another speaker.

12 Again, we will not respond to questions
13 during this time. TxDOT's representatives and members
14 of the consulting team will be available to answer your
15 questions following the comment session.

16 The names of speakers will be called in
17 the order they were received. The hearing will adjourn
18 after all who have registered to make verbal comments
19 have been heard.

20 The first speaker tonight is Melanie
21 Oldham. The second one will be Caye Hauser. And the
22 third one will be Erik Pitoniak.

23 MS. MELANIE OLDHAM: Hello. Good
24 evening. My name is Melanie Oldham; and I'm from here
25 in Brazoria County, from Angleton. I have been a

1 healthcare professional for 30 years, and I've been a
2 trained public health environmental advocate as of '02.
3 I actually went to Angleton and I read the Environmental
4 Assessment this week, and I have some questions and
5 concerns.

6 First, Houston, Galveston, Brazoria,
7 we've been a severe non-attainment county for a long
8 time; but we had good news and bad news this summer.
9 In, I believe, June or July, EPA classified us as
10 marginal non-attainment. The bad news is in mid-June,
11 we only had three ozone monitors in Brazoria County; but
12 in mid-June, we had the highest readings in the state at
13 Manvel, Texas, the park, and Tom Bass Park in Pearland.

14 And the rates are supposed to be, I
15 believe, 80 to 85. They were in the 136 range, 120.
16 And so we do have some issues with ozone.

17 The American Lung Association has given
18 Brazoria County, for the last ten years, an F because of
19 the number of days we exceed the ozone range. This is
20 important if you or your loved ones have breathing
21 problems, COPD, asthma.

22 We down in southern Brazoria County, we
23 have a lot of what we call toxic relief inventory
24 facilities that report on a regular basis, and we have a
25 lot of EOCs coming out. We have, as far as Freeport, we

1 have a lot of NOx and marine activity. So my first
2 comment again was ozone that in June THE HOUSTON
3 CHRONICLE reported that -- the article read, "Worst Smog
4 in Eight Years in Brazoria County." So we do have some
5 issues we need to look at, health issues.

6 The next point is have we looked
7 carefully at the cumulative impact of this project? I
8 know the HCAD transportation committee and this
9 committee that's done a great job looked at everything.
10 Brazoria County is booming. Dow Chemical's announced
11 three new plants, BASF one, Chevron Phillips one, the
12 Port of Freeport, which I attend their meetings, they're
13 this close to getting their approval to deepen and widen
14 their channel.

15 And according to the Port Commissioners,
16 once we get deepened and widened, and next year the
17 Panama Canal Commission opens. The truck traffic will
18 go from 800 a day to 4,000 a day trucks in and out of
19 Brazoria County, out of the port.

20 The Port Commissioners say the reason we
21 need this road is because the only way to get these
22 trucks out is through Highway 36 and Highway 288. So
23 with all this increase in trucks, we're going to have a
24 lot of diesel soot, a lot of benzene, a lot of ozone.
25 And I would respectfully ask the environmental

1 assessment team look at the new things that have come up
2 with the cumulative impacts.

3 Also, it states somewhere in the
4 Environmental Assessment, we need a traffic air quality
5 analysis. Because not only will we have cars, we're
6 going to have a heck of a lot of trucks going back and
7 forth, going out to Beltway 8 and around the other
8 routes.

9 Again, the modelers didn't say how they
10 did their modeling, but that might be something that
11 they could go back and add these factors in, how it's
12 going to affect our health here in southern Brazoria
13 County.

14 I know you looked at CO2, but you also
15 mentioned MSAT, which is the mobile sources that we're
16 concerned about.

17 One thing, also we might consider an
18 Environmental Impact Statement, which is little more
19 detailed report, that would look at a lot of different
20 factors, or add to the Environmental Assessment on all
21 this new information. And not only -- You know,
22 decide -- We need this project. I'm not against it.
23 You know, get the traffic through -- by Pearland. We
24 need an evacuation route. But what are we going to do
25 with those 4,000 trucks a day in and out of the Port of

1 Freeport? And are we going to have a bidding process
2 where we hire companies and operators that use clean
3 fuel -- best practices? And do we have any truck
4 electrification truck stops, where all these trucks can
5 stop up and down 288 and not idle and put out, you know,
6 diesel soot and things that will harm our lungs and
7 cause premature heart attacks?

8 I don't know how much time I have.

9 MR. JAMES KOCH: Ms. Oldham, your time is
10 up.

11 MS. MELANIE OLDHAM: Okay. I wanted to
12 talk about EVPs, but it is a private/public partnership,
13 I believe; and we don't know who the private parter will
14 be at this point. Thank you.

15 MR. JAMES KOCH: Kay Hauser.

16 MS. CAYE HAUSER: Hi. My name is Caye
17 Hauser. I live at 2807 Honeysuckle. Mailing address is
18 Rosharon, but we're about five minutes from the new --
19 from the new mall, which is County Road 59 and 48,
20 thereabouts.

21 My concern is the traffic. I've been out
22 there 35 years plus, and that was before 288 was built.
23 We were told in the first process of the 288 corridor,
24 first project, that we would have feeder streets. We
25 only have a few sections of 288 that have feeder

1 streets, to get rid of some of this congestion, and to
2 allow people to get on and off.

3 So what that leads into is widening under
4 County Road 59, widening County Road 518. In the
5 mornings, 518, the congestion is getting onto 288. So
6 if that's going to be a toll road right there, that
7 feeder street is already a problem, and that's one of
8 the only feeder streets that we -- on both sides,
9 between 518 and the beltway, that we have feeder
10 streets. That's already congested on and off the
11 freeway.

12 There was so many wrecks that they had to
13 move the entrance to get off on 518 back some and move
14 the entrance up because they continued to have wrecks on
15 there. So, you know, traffic's a big problem for us.

16 You know, I know that when we had the
17 Park & Ride thing that came up there at South Fork, they
18 said they would widen County Road 59 to take some of
19 this congestion off of 59, because we've got South Fork,
20 we've got Silver Lake coming across to 521 going into
21 Highway 6, going that way. We have people going both
22 directions.

23 But coming here tonight, 59 backed up
24 there at Kirby, which is the mall, beside the mall
25 there, there was 20 cars at that stop sign. 20. That's

1 ridiculous.

2 So we really need to see about the
3 traffic congestion. That road needs to be widened. It
4 was supposed to when that -- If the Park & Ride came
5 through, I was one of the ones that voted not for the
6 Park & Ride. I didn't want all that congestion. And
7 now we're going to have a lot more, having the beltway
8 come up.

9 I like the idea of a beltway, but I don't
10 know what we need to do as far as the congestion. The
11 feeder streets would have been a good suggestion, but
12 that didn't happen. So I don't -- I don't know what
13 else to do unless to say let's widen underneath 518,
14 make that a little bit more feasible to get onto the
15 freeway, widen under 59. Four or five cars at the most
16 is all that gets through on 59, County Road 59, and
17 turns north and goes onto the 288. So that's a problem.

18 Thank you.

19 MR. JAMES KOCH: Okay. Thank you.

20 Next we have Erik Pitoniak. Erik will be
21 followed by Randy Naquin.

22 MR. ERIK PITONIAK: Hello. My name is
23 Erik Pitoniak. I live on the north end of this project.
24 I was at another meeting on Monday or whenever you had
25 one. I'm just representing myself.

1 Can you hear me all right?

2 I'll just kind of summarize. I put
3 comments in. I don't want to duplicate too much. But I
4 notice that a tag will be required for the toll lanes.
5 Of course they will catch fly-bys. I was wondering
6 if -- I know it's not a question and answer thing; but
7 why wasn't it considered to do a tolling option like
8 they have on the George Bush Turnpike, where they take
9 the picture of the license plate and they just bill you
10 if you don't have a tag, for infrequent users and that
11 sort of thing. I think that should be considered.

12 I'm in support of the project in general.
13 I just hope there's coordination between the other
14 project, with the MacGregor connector to the -- or
15 whichever street is finally decided upon to the Medical
16 Center. I hope there is a connector on -- inbound into
17 the Medical Center there.

18 And I notice there's a lack of outbound
19 connectors both at Alameda and at MacGregor and OST. And
20 I think it should be -- that should be considered,
21 either as part of this project or a project and some
22 coordination between the two.

23 Again, I'm in favor of this. I think
24 overall our air quality's getting better over the last
25 decade, despite our increase in population. And with

1 the -- with the new ozone standard, we have to obtain a
2 lower ozone standard now, so I'm confident it's not
3 going to spike dramatically.

4 That's all my comments. Thank you.

5 MR. JAMES KOCH: Thank you, sir.

6 Randy Naquin. Randy will be followed by
7 Robert Philbrook.

8 MR. RANDY NAQUIN: Good afternoon. My
9 name is Randy, Randy Naquin; and I'm a CPA and I work in
10 the Pearland area. And I recall in 1988 coming out here
11 to -- taking 288 to -- it's called Eddie's Country
12 Ballroom, going to Southwick, playing golf, you know,
13 trying to stay in shape, you know. And I'm a bicyclist.

14 You know, and my dad used to work on
15 automobiles. And I've been around them all my life.
16 And they're a great mode of transportation, but I kind
17 of have a dream, you know, and my dream is different.

18 And, you know, this is a -- a forum that
19 we can talk and we can be ourselves and I really
20 appreciate you guys giving us this presentation; but I
21 was dreaming of a rail line from Houston to County
22 Road 60. And I was thinking of the noise that I hear
23 when I come out of my house -- because I live in Silver
24 Lake. And the noise right now is pretty bad. You know?
25 And it's only like four lanes, maybe five lines.

1 And I'm thinking of 12 lanes, how that's
2 going to sound. Really, is it going to be like birds
3 singing in the morning? It's really loud already. And
4 I don't think barriers can help that.

5 And I don't want to be a negative person,
6 because you can come up here and say all the bad things
7 about people and what they're doing, but that's not what
8 I'm about. I'm thinking of the positive.

9 You know there's some bicycle trails
10 they're going to build on 518. You know, they could
11 connect Silver Lake with Shadow Creek Shopping Center.
12 You cannot get across there on a bicycle. It's not
13 pedestrian friendly. It's not made for pedestrians.

14 People look at me when I go to a store on
15 my bicycle and stuff. Boy, this guy's pretty smart.
16 You know, he's taking a bicycle to go, what, 100 feet
17 from where I live to go to the store. I don't think
18 that's a bad idea.

19 So I can go the other way on the bicycle,
20 but I have a different plan. You know, I'm thinking in
21 terms of -- of how we move people effectively. How do
22 we move people from one mode to another place? You
23 know, and as far as paying, you know, I pay a lot for
24 gasoline. I'm on a budget. I'm a money man. I'm a
25 CPA. I know about money.

1 It's going to cost me \$5 to take a toll
2 road to get to Houston. I just filled up my car. I
3 just put \$4 of gas in my car. Wow! It's going to hurt
4 my budget, you know. So, you know, I'm thinking about
5 all these things and I really appreciate you guys, you
6 know, having a proposal, having a public forum.

7 We was fortunate enough to have this
8 advertised in the PEARLAND JOURNAL, HOUSTON CHRONICLE;
9 and, you know, you only live once. You only get
10 opportunity to speak once sometimes. So I appreciate
11 the opportunity being on the record and saying my dream.
12 And my dream may not be compatible, but I still have it.

13 Thank you.

14 MR. JAMES KOCH: Robert Philbrook.

15 MR. ROBERT PHILBROOK: Can everybody hear
16 me? Okay.

17 I'm con -- I'm convinced that the --
18 that this alternative is best for the solving our
19 problem.

20 I hear you folks talk about increased
21 traffic going to TMC. And I've gone to TMC as a
22 patient; and my -- from my experience, the people who
23 are working there don't park there. They park at Smith
24 Lands. They drive to Smith Lands, they park and then
25 they commute. So the idea that you're building

1 something to handle the people that are working at the
2 TMC -- I seriously doubt -- These are people who
3 basically want to commute by rail there because they
4 can't afford the parking that's down there. And because
5 it's such a congested area, they don't have the option
6 of building lots of new buildings down there.

7 I also have doubts about your air quality
8 impact. You're trying to tell me the increase in all
9 this traffic and we're not going to have an increase in
10 air quality or air -- decrease in the air quality?

11 You know, Houston, for many years has
12 always been the subject of problems with air quality.
13 Now you're taking 288 with lots more traffic, it's got
14 to have an adverse impact.

15 For example, I'm about three-quarters of
16 a mile from there. Have you done any basic benchmarking
17 on that, and then extrapolating what that would mean? I
18 haven't seen any -- any discussion on that, other than
19 the statement that you could increase traffic so much
20 and not have a real impact on the air quality.

21 And the same for noise. Have you come
22 out to my neighborhood, put something in and benchmarked
23 that noise and then extrapolated that out to an increase
24 of the traffic that you're expecting? I haven't seen
25 any discussions on that.

1 And I have no clear evidence that
2 commuter rail would not be a better solution to this in
3 terms of cutting down on air pollution, traffic,
4 congestion and long-term growth and a better part for
5 all of us that are involved.

6 So I think building roads and adding more
7 traffic is the least desirable solution to this problem
8 that we have of moving more people up 288 and now and in
9 the future.

10 Thank you.

11 MR. JAMES KOCH: Thank you, sir.

12 I want to thank each of you for your
13 comments tonight.

14 If you would like to comment in writing,
15 you may do so by completing a written comment form. The
16 form may be completed tonight or you may mail or e-mail
17 your comments, which must be received or postmarked by
18 March 21st, 2013. The appropriate address for mailing
19 or e-mailing your comments is provided on the comment
20 form.

21 All comments will be considered equally.
22 If you provided comments verbally, it's not necessary to
23 repeat your comments in writing. Your comments will be
24 included in the Public Hearing Summary Report and will
25 be a part of the official record of the completed Final

1 Environmental Assessment.

2 On behalf of the Federal Highway
3 Administration and TxDOT, I would like to thank you for
4 your interest and participation in this public hearing.

5 We would also like to thank Berry Miller
6 Junior High School for the use of this facility.

7 If there are no further comments, we will
8 close the hearing.

9 Thank you for your attendance and input.
10 Please drive safely. It is 7:45 p.m. and the hearing is
11 adjourned.

5 REPORTER'S CERTIFICATION

6

7 I, Mary C. Dopico, Certified Shorthand Reporter in
 8 and for the State of Texas, do hereby certify that the
 9 facts stated by me in the caption hereto are true; that
 10 the foregoing proceedings were taken by me in machine
 11 shorthand and later transcribed from my machine
 12 shorthand notes to typewritten form by me.

13 I further certify that the above and foregoing
 14 proceedings, as set forth in typewriting, are a full,
 15 true and correct transcript of the proceedings had at
 16 the time of taking said proceedings.

17 I further certify that I am neither attorney or
 18 counsel for, nor related to or employed by any of the
 19 parties to the action in which these proceedings are
 20 being taken, and further that I am not a relative or
 21 employee of any attorney or counsel employed by the
 22 parties hereto, or financially interested in the action.

23 GIVEN UNDER MY HAND AND SEAL OF OFFICE this the
 24 19th day of March, 2013.

Page intentionally left blank

Texas Department of Transportation

Welcomes you to the

Public Hearing

for the

**Proposed SH 288 Improvements
from**

**US 59 to County Road 60
in Harris and Brazoria Counties, Texas**

Existing SH 288 Mainlanes Will Not Be Tolled

Agenda

6 p.m. - 7 p.m. Open House

- Review the meeting handout, informational boards, design schematics, and Draft EA document.
- Visit with the project team at the exhibit boards, and Environmental table. The Draft EA is available for review at the Environmental table.
- Visit TxDOT staff at the Right-of-Way (ROW) table, for information about the ROW acquisition process.

7 p.m. Public Hearing

- Presentation
- Comment Session

How to Comment

- Write comments on the form in your packet and place in the comments box at this hearing.
- Mail written comments to the address provided on the comment form, postmarked by March 21, 2013.
- Email comments by March 21, 2013 to:
hou-piowebmail@txdot.gov
- Sign up to speak during tonight's comment session.
Sign up at the registration table.
These guidelines will be used:
 - Speakers will be called in the order registered.
 - Comments are limited to 3 minutes; unused time may not be given to another speaker.
 - Comments should be relevant to the proposed SH 288 project.

Implementation Timeline

- **Initial Phase - Two reversible toll lanes, from US 59 to SH 6**
 - **Begin Construction 2014**
 - **Operational by 2017**
 - **Estimated Construction Cost - \$300 Million**
 - * **If funding becomes available, four toll lanes (two-way) may be constructed in the initial phase.**

- **Ultimate Phase - Four toll lanes, from US 59 to CR 60**
 - **Operational by 2035**
 - **Total Estimated Project Cost - \$1.4 Billion**

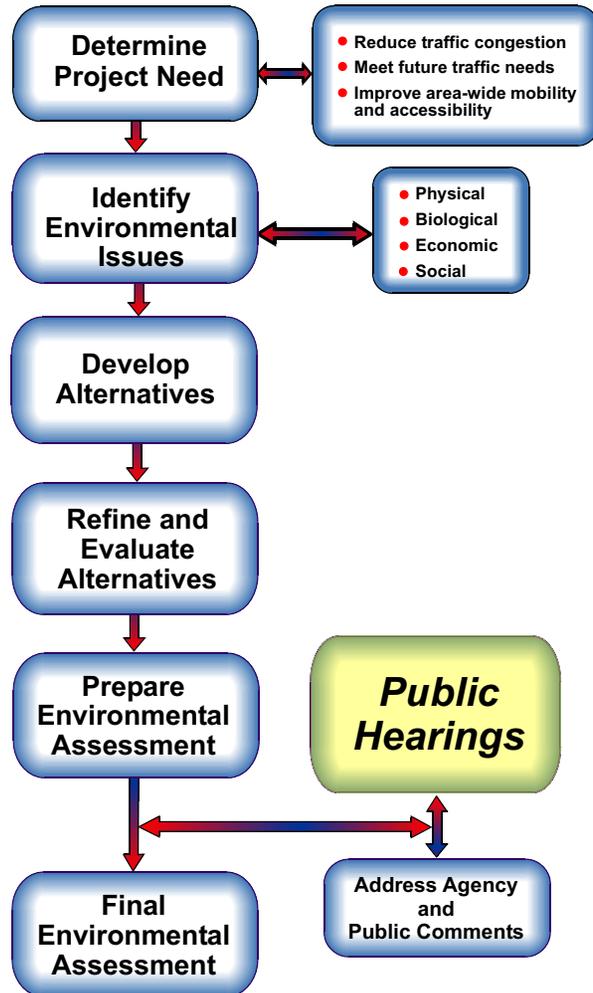

Need for Proposed Improvements

- **Population increases in the SH 288 corridor will result in increased traffic**
 - *Projected population increase:
60% from 2005 to 2025**
- **Residential and commercial development is projected to increase**
- **Employment is projected to increase**
- **Mobility is projected to deteriorate, and congestion would be at unacceptable levels as traffic increases**
 - *Projected traffic increase:
32% - 74% on SH 288 from 2011- 2035**

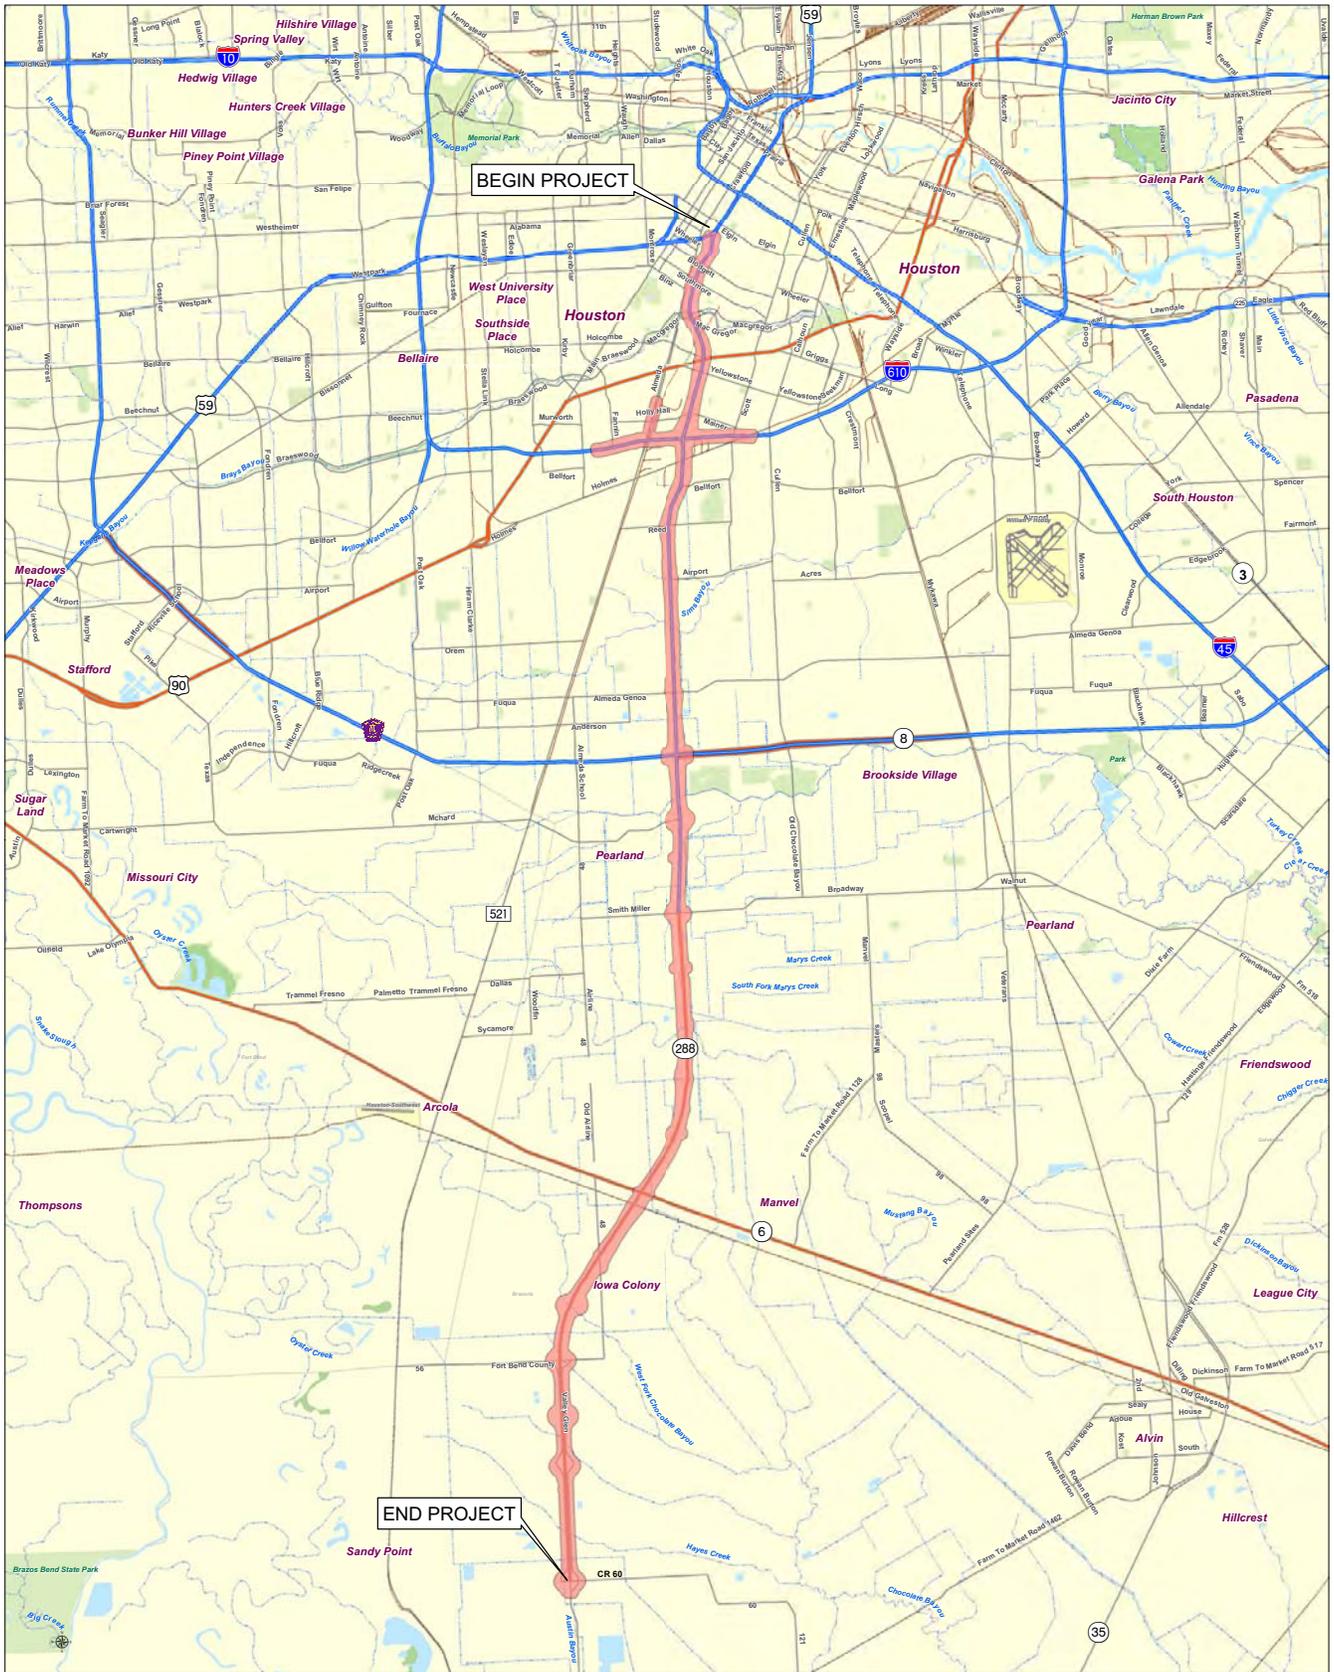

Purpose of Proposed Improvements

- **Provide additional roadway capacity**
- **Improve mobility in the project area**
- **Improve access to the Texas Medical Center**

Environmental Analysis Process

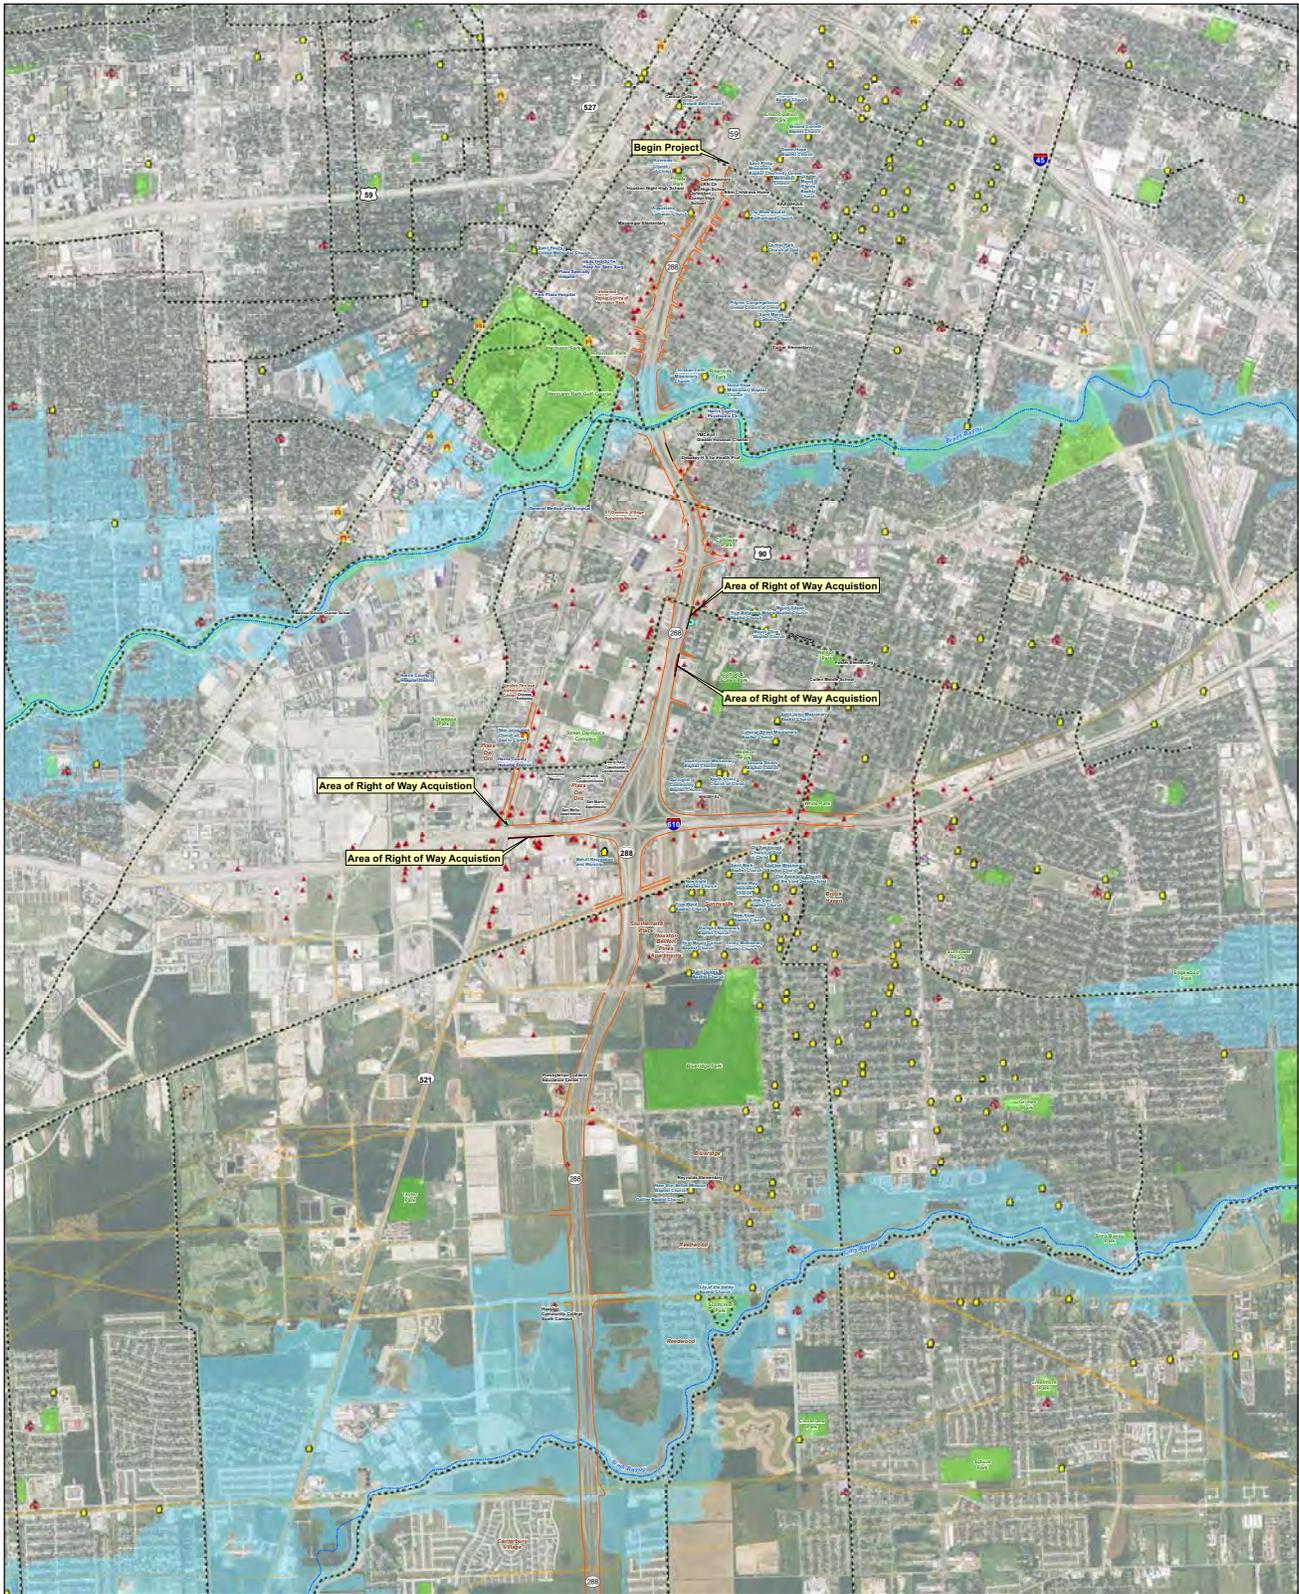

- Public Hearings
- Comment Period - Ends March 21, 2013
- Prepare Public Hearing Summary Report
- Prepare Final Environmental Assessment
- Environmental Decision - Estimated Summer 2013

Public Hearing / Audiencia Pública

SH 288: US 59 to CR 60

SH 288: Proposed SH 288 Toll Lane Project / Proyecto propuesto de peaje para SH 288

March 5, 2013 – DeBakey High School, 3100 Shenandoah Street, Houston, TX 77021

March 7, 2013 – Berry Miller Junior High School, 3301 Manvel Road, Pearland, TX 77584

Agenda / Orden del Día

Welcome to the Public Hearing for State Highway 288 (SH 288) from US 59 to CR 60. The purpose of this hearing is to solicit comments on the proposed project and the Draft Environmental Assessment (EA).

Bienvenido a la Audiencia Pública para la carretera estatal 288 (SH 288) desde US CR 59 hasta 60. El propósito de esta audiencia es para solicitar comentarios sobre el proyecto propuesto y el plan preliminar de la Evaluación Ambiental (EA).

Tonight's Schedule

6-7 p.m. Open House

- Review the meeting handout, informational boards, design schematics, and Draft EA document.
- Visit with the project team at the exhibit boards, and Environmental table. The Draft EA is available for review at the Environmental table.
- Visit TxDOT staff at the Right-of-Way (ROW) table for information about the ROW acquisition process.

7 p.m. Public Hearing

- Presentation
- Comment Session

How to Comment

- Write comments on the form in your packet and place in the comments box at this hearing.
- Mail written comments to the address provided on the comment form, postmarked by March 21, 2013.
- Email comments by March 21, 2013 to: hou-piowebmail@txdot.gov
- Sign up to speak during tonight's comment session. Sign up at the registration table. These guidelines will be used:
 - Speakers will be called in the order registered.
 - Comments are limited to 3 minutes; unused time may not be given to another speaker.
 - Comments should be relevant to the proposed SH 288 project.

Programa de Esta Noche

6-7 p.m. Forro Abierto

- Revise el folleto de la reunión, tableros informativos, esquemas de diseño, y el documento preliminar del EA.
- Visite con el equipo del proyecto en los tableros de exhibición, y la mesa del Medio Ambiente. El proyecto de evaluación ambiental está disponible para su consulta en la mesa de Medio Ambiente.
- Visite el personal de TxDOT en la mesa de derecho de vía (ROW) para obtener información sobre el proceso de adquisición de derecho de vía.

7 p.m. Audiencia Pública

- Presentación
- Sesión de comentarios

Cómo realizar un comentario

- Escriba sus comentarios en el formulario en su paquete y colóquelo en la caja de comentarios en esta audiencia.
- Envíe sus comentarios por escrito a la dirección indicada en el formulario, con matasellos en o antes del 21 de Marzo de 2013.
- Envié sus comentarios por correo electrónico en o antes de 21 de Marzo, 2013 a: hou-piowebmail@txdot.gov
- Inscribirse para hablar durante la sesión de comentario de esta noche. Inscribirse en la mesa de registro. Estas guías se utilizarán:
 - Los participantes serán llamados en el orden de registro.
 - Comentarios están limitadas a 3 minutos, el tiempo no utilizado no puede ser dado a otro participante.
 - Comentarios deben ser relevantes al proyecto propuesto para la carretera SH 288.

Study Area / Área de Estudio

Harris and Brazoria Counties

Limits: US 59 to CR 60

Existing Right-of-Way Width: Varies, typical 300 to 350 feet

Proposed Typical Section: Ultimate Phase: Four-Lane

Toll Facility within the existing SH 288 median;

Interim Phase: Two-Lane Reversible Toll Facility from US 59 to SH 6 (see figures in this handout, and exhibits on display at hearing);

Type of Facility: Tollway, with existing lanes to remain free.

Los condados de Brazoria y Harris

Límites: US 59 hasta CR 60

Amplitud de Derecho de vía existentes: Varía, típicamente de 300 a 350 pies

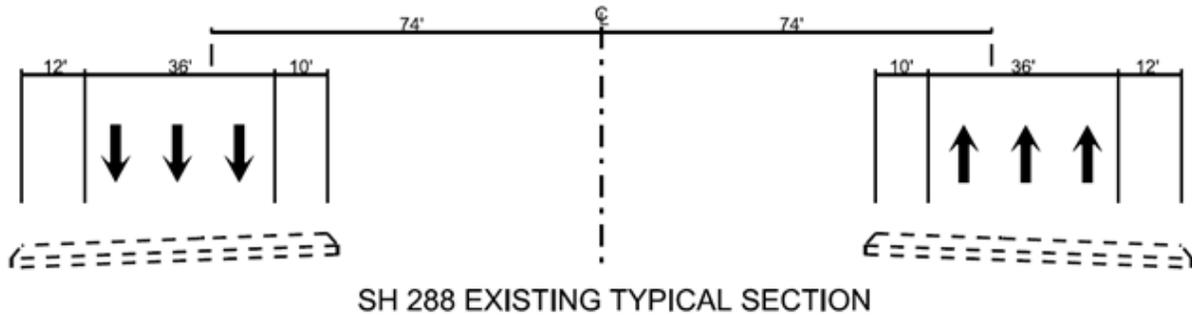

La Típica Sección Propuesta: Última fase: Instalación de cuatro carriles de cuota dentro de la mediana existente de SH 288;

Fase Provisional: Dos-carriles reversibles de cuota desde US 59 a SH 6 (ve figuras en este folleto, y exposiciones que se exhiben en la audiencia);

Tipo de instalación: Autopista de cuota, con carriles existentes para permanecer libre.

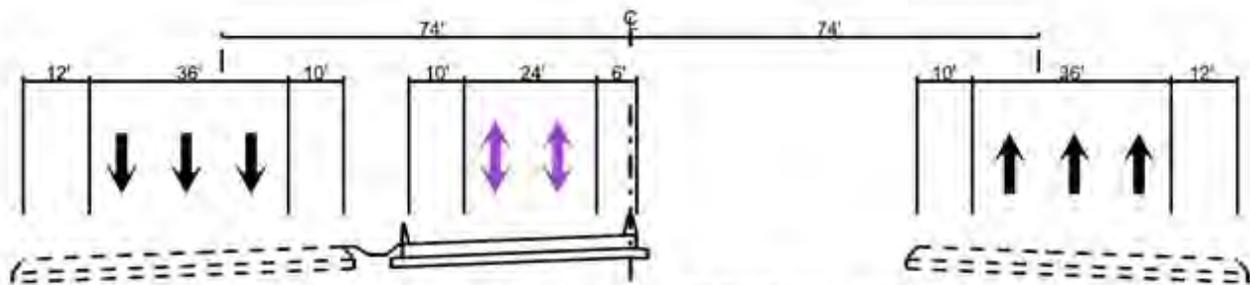

Typical Sections / Secciones Típicas

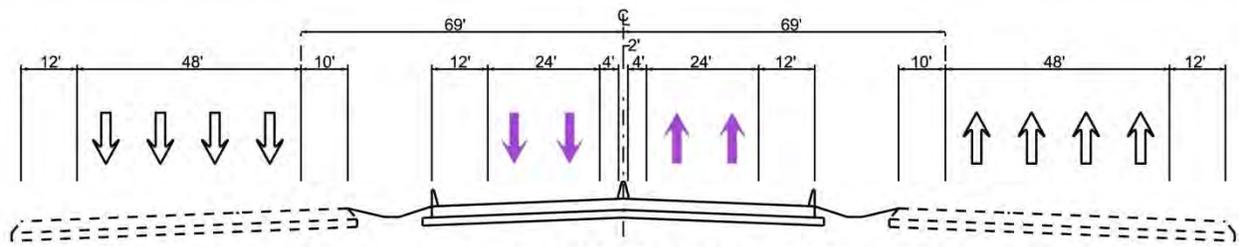

Existing Conditions / Condiciones Existentes

- US 59 to IH 610 – 8 Main Lanes / US 59 a IH 610 - 8 carriles principales
- IH 610 to FM 518 – 6 Main Lanes / IH 610 a FM 518 - 6 carriles principales
- FM 518 to CR 60 – 4 Main Lanes / FM 518 a CR 60 - 4 carriles principales

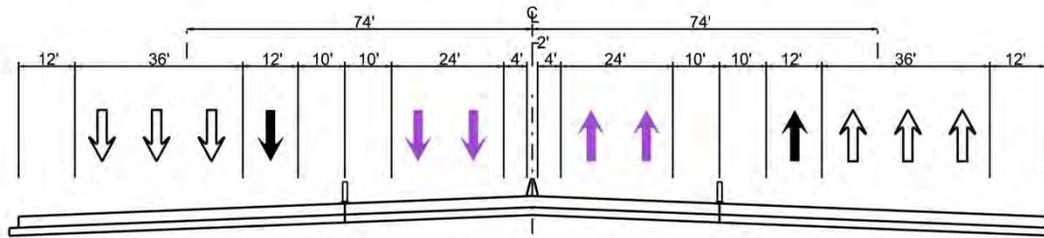

Initial Phase / Fase Inicial

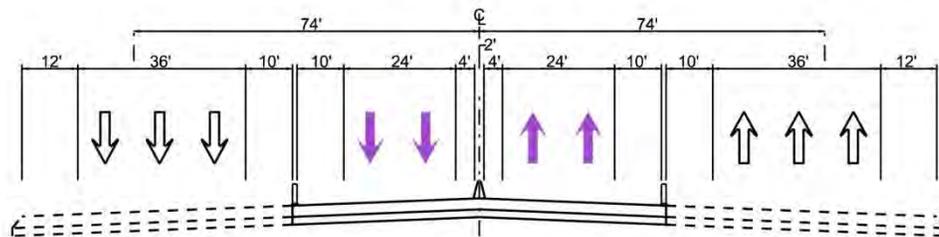

- US 59 to North of SH 6 / US 59 al norte de SH 6
- Two-lane Toll Facility / Dos carriles de instalación de cuota
- Reversible for Rush Hour Conditions / Reversible para las condiciones de la hora pico
- Northbound in the Morning / Hacia el norte por la mañana
- Southbound in the Afternoon / Hacia el sur en la tarde

Ultimate Phase / Fase Final

- Two additional toll lanes, US 59 to SH 6 / Dos carriles de cuota adicionales, US 59 a SH 6
- Four-lane toll facility, SH 6 to CR 60 / Instalación de cuatro carriles de cuota, SH 6 a CR 60
- Two additional general purpose lanes, one in each direction, IH 610 to BW 8 / Dos carriles adicionales de proposito general, una en cada dirección, IH 610 a BW 8
- Grade separations at major intersections, SH 6 to CR 60 / Puentes en las intersecciones principales, SH 6 a CR 60

Environmental Analysis Process

Proceso de Análisis Ambiental

Implementation Timeline

- Initial Phase – Two reversible toll lanes, from US 59 to SH 6
 - Begin Construction 2014
 - Operational by 2017
 - Estimated Construction Cost- \$300 Million
 - If funding becomes available, four toll lanes (two-way) may be constructed in the initial phase.
- Ultimate Phase – Four toll lanes, from US 59 to CR 60
 - Operational by 2035
 - Total Estimated Project Cost - \$1.4 Billion

Calendario de Implementación

- Fase Inicial - Dos carriles de peaje reversibles, de US 59 a SH 6
 - Iniciar Construcción 2014
 - Operacional para el 2017
 - Estimación del Costo de la Construcción - \$ 300 Millones
 - Si los fondos estén disponibles, cuatro carriles de cuota (en ambos sentidos) podrán ser construido en la fase inicial.
- Fase Final - Cuatro carriles de cuota, de US 59 a CR 60
 - Operacional para 2035
 - Total estimado de costos del proyecto - \$1.4 billones

Proposed SH 288 Project Limits

US 59
(south of downtown
Houston)
to
County Road (CR) 60
(in Brazoria County)

SH 288 Corridor Feasibility Study

- A Study of the Entire SH 288 Corridor
 - US 59 to SH 36 in Freeport
- Assessed Transportation Needs
- Analyzed All Modes of Transportation
- Developed Viable Alternatives
- Identified Most Feasible Alternative
- Completed and Adopted in 2005

Project History

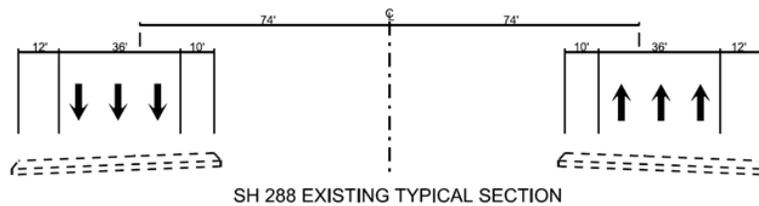

- Most Feasible Alternative
 - Four-Lane Managed Lane Facility within existing SH 288
- Began Schematic & Environmental Studies – 2006
- Public Meetings Held – February 2007

Project Design

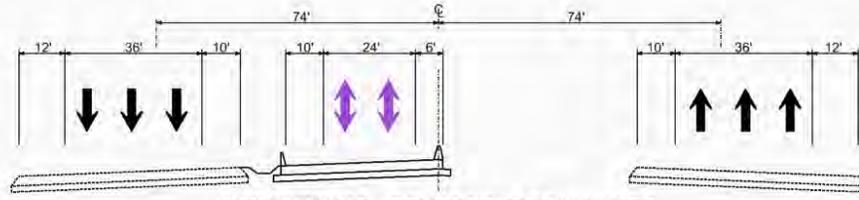

- Ultimate Construction of a Four-Lane Toll Facility with other Improvements
- Estimated Investment of \$1.4 Billion
- Proposed Phased Construction

Project Design – Existing

- US 59 to IH 610 – 8 Main Lanes
- IH 610 to FM 518 – 6 Main Lanes
- FM 518 to CR 60 – 4 Main Lanes

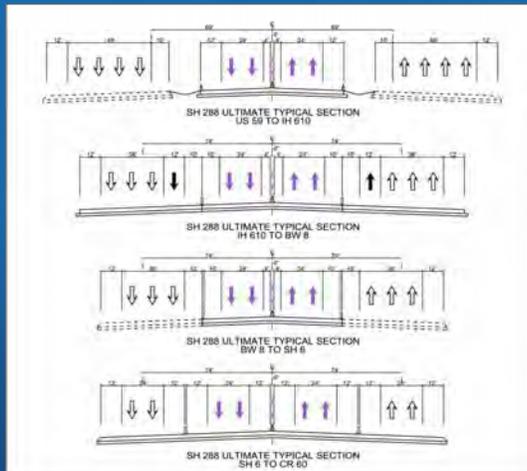

Project Design – Initial Phase

INITIAL PHASE - REVERSIBLE TOLL LANES

- US 59 to North of SH 6
- Reversible for Rush Hour Conditions
- Northbound in the Morning
- Southbound in the Afternoon

Project Design – Ultimate Phase

Project Design - Access

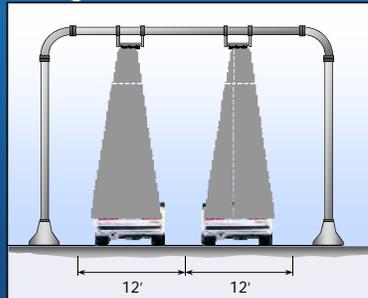

Access Points for Toll Lanes

- US 59
- North of IH 610
- South of IH 610
- North of Beltway 8
- North of FM 518
- North of SH 6
- North of CR 56
- CR 60

Tolling

- Electronic Toll Collection System
- EZ Tag or TxTAG Only – No Traditional Toll Booths
- Final Toll Prices have Not Been Determined
- Existing Lanes would Not Be Tolled

Project Design - Interchanges

- Upgrade Interchange at IH 610 to Accommodate Toll Lanes
 - Ultimate Phase - Connector from SH 288 to FM 521/Almeda Road, to improve access to Texas Medical Center
- Construct New Interchange at Beltway 8/Sam Houston Tollway
 - Reversible Phase includes 4 direct connectors
 - Ultimate Construction includes 8 direct connectors

Implementation Timeline

- Initial Phase
 - Begin Construction 2014
 - Operational by 2017
 - Construction Cost Estimate of \$300 Million
- Ultimate Phase
 - Operational by 2035
 - Total Estimated Project Cost: \$1.4 Billion

Environmental Studies

Draft Environmental Assessment

- Need and Purpose
- Alternatives
- Anticipated Impacts
- Coordination

Need for Proposed Improvements

The proposed SH 288 improvements need to be implemented to address:

- Congestion
- Mobility
- Access to the Texas Medical Center

Purpose of Proposed Improvements

The Purpose of the proposed project:

- Provide additional roadway capacity
- Improve mobility
- Improve access to the Texas Medical Center

Alternatives

- No Build Alternative
- Build Alternative
 - Schematic design alternatives were developed and evaluated
 - Avoids and/or minimizes potential adverse impacts

Environmental Considerations

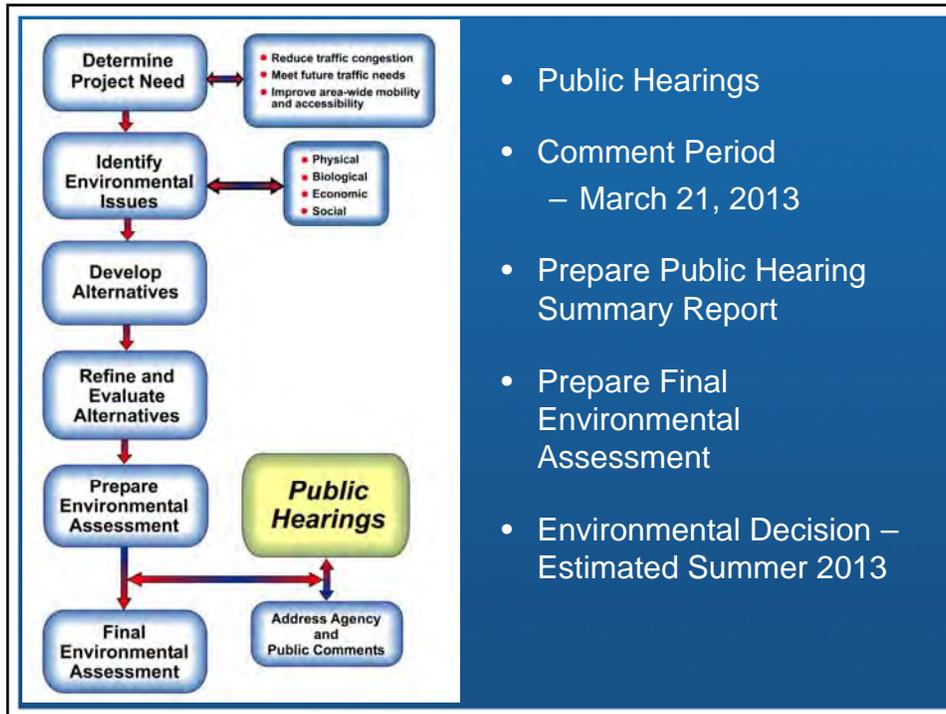

- Land Use
- Soils and Farmland
- Social Resources
 - Community Cohesion
 - Displacements and Relocations
 - Environmental Justice
- Economics
- Pedestrians and Bicycles
- Air Quality
- Noise
- Water Quality
- Wetlands/Waters of the U.S.
- Floodplains
- Vegetation and Wildlife
- Threatened and Endangered Species
- Cultural Resources
 - Archeological Sites
 - Historic Resources
- Hazardous Materials
- Visual and Aesthetic Qualities
- Indirect and Cumulative Effects

Stakeholder Coordination

- U.S. Army Corps of Engineers
- Texas Parks and Wildlife Department
- Texas Historical Commission
- Harris and Brazoria Counties
- Cities: Houston, Pearland, Manvel
- Neighborhood Associations
- Schools
- Churches
- Businesses
- Texas Medical Center

Comments (Comentarios):

If proposed 'Noise Barriers' do not affect my property and area of concern - how do I get consideration for relief or remedy?

During construction please and thereafter if need be, how do we seek remedy for our increased 'traffic' issues affecting our area of interest.

Overall, do you support or oppose the idea to improve highway transportation along SH 288?

En general, ¿apoyan o se oponen a la idea de mejorar el transporte a lo largo de la autopista SH 288?

Support / Apoyar _____ Oppose / Oponerse a _____ No Opinion / No tengo opinión _____

Comments (Comentarios):

Handwritten comments: Would consider making "all" frontage roads at BW 8 & SH288 interchange one way. Understood local business will not agree. Trying to determine some storm water up front would help ROW acquisition cost. Much needed project, Great seeing it come to light.

Subject: Opposed to Direct Connect Through Museum Park

To Whom It May Concern:

I am opposed to the toll road direct connect to be going through Museum Park. I do not think it makes any sense to go through a residential area, let alone the park!

Also, there is already an exit for Old Spanish Trail and it already goes straight to the medical center. It just needs to be updated a little bit and there is no need to completely rebuild a road for the same purpose this exit is being built for.

Subject: comments on SH288 (59 to Hwy 6) improvements

Hello,

My husband and I were unable to attend the public hearings on the proposed improvements to SH288, extending from 59 to Hwy 6. We are in strong support of these roadway improvements – they are desperately needed. It is our feeling that main lane access/toll way access should be the priority, easing congestion from south of Beltway 8 into Downtown. I have read in the *Houston Chronicle* about a proposed flyover from 288 into the Texas Medical Center – while there is no doubt that this will eventually be beneficial; however, if priority is giving to main lane access (as described above) and then to updating/redesigned the 610/288 interchange, then Texas Medical Center access will in fact be improved – while also alleviating the most **painful** congestion on 288.

Thank you and we look forward to seeing this project kick off!

Kindly,
Katie Daggett

Subject: SH 288 Comment

I understand the Texas Department of Transportation has proposed a Highway 288 expansion project, including a direct connector ramp set to exit onto Alameda Road. I am extremely disappointed because the proposed expansion stands to have long-term adverse impacts on Houston residents' quality of life and endangers one of the southwest United States' premier green spaces in an attempt to decrease suburban commuters' short-term travel times minutely. This proposed project also conflicts with Houston lawmakers' recent move to make the city more pedestrian and bicycle friendly and in no way will resolve the greater Houston region's long-term transportation issues.

Comment received for SH 288 from Jennifer Doerre (jenniferdoerre@yahoo.com).

A Houston METRORail expansion along the Highway 288 corridor would help alleviate traffic concerns to a far greater extent than highway expansion. Additional lanes draw more vehicles to the road, which is a direct departure from Houston lawmakers' decision in March to loosen parking requirements in the city center, especially along rail corridors such as the Texas Medical Center. Funneling even more vehicles to an area allowed to further reduce its parking requirements will only increase transit times in the Texas Medical Center. Also, many commuters to the Texas Medical Center park in satellite lots and take the rail to their respective workplaces. The Houston METRORail has the second-highest ridership per track mile of any rail system in the United States, according to the transit agency's figures. This proposed project shows TxDOT has failed to investigate the Highway 288 corridor adequately.

A direct connector exiting onto Alameda Road would provide a great disservice to the region. A section of Houston's historic 445-acre Hermann Park sits along Alameda Road a short distance beyond the proposed direct connector's exit location. The direct connector would increase the number of vehicles traveling on a roadway adjacent to a park that sees an estimated 5.5 million visitors annually, according to the park's Web site. Additional vehicles traveling at high rates of speed will severely decrease Hermann Park's long-term vitality and endanger park-goers. Also, the smaller Peggy Park sits alongside Alameda Road. Peggy Park, which contains a children's play area and basketball courts, sees frequent use. Additional vehicle traffic would greatly decrease the park's vibrancy.

If the project must move forward, I urge TxDOT to construct sound barriers along the length of the project in an attempt to block noise emitted from the additional vehicles traveling on the highway. Sound barriers would allow city dwellers who have been adversely affected by the project to live more peacefully. Also, TxDOT should attempt to replant the many trees in the current right-of-way along the sides of Highway 288 in an attempt to beautify the area surrounding the highway.

Comments (Comentarios):

I am strongly opposed to the addition of toll lanes to SH 288. There is a great need for the highway expansion but toll roads are absurd. We already pay gas tax and other state and government taxes. To pay an additional charge to drive on previously free road is outrageous. Yes I am aware that the toll roads are in addition to the current free roads but very few actually went to pay additional money which will leave the rest of us sitting in the old lanes deep in traffic with just a trickle of people using the toll lanes. I would much prefer an increase in taxes rather than a permanent toll road that will forever collect money and profit and not brought back into the community. I would also be for further development of public transportation either metro and or light rail.

Overall, do you support or oppose the idea to improve highway transportation along SH 288?

En general, ¿apoyan o se oponen a la idea de mejorar el transporte a lo largo de la autopista SH 288?

Comments (Comentarios):

SB exit ramp at Sta 2710+00 should be moved further North to avoid the existing SB queue from the FM 518 signal. Include the widening of FM 518 under the proposed bridge widening to help congestion along FM 518 as well as on the East and west service roads. FM 518 currently has a traffic demand exceeding its capacity.

Subject: SH288 Public Hearing Comments

My comment form is attached but I included my written comments in this email so they are easier to read:

This project is greatly needed to provide capacity along the SH288 corridor. I am in full support of the project and would like to see it completed in the full four-lane configuration as soon as possible. It is vital to the economic prosperity of the Texas Medical Center, south Harris County, the City of Pearland, and Brazoria County. With the planned expansion of the Texas Medical Center and the Port of Freeport this freeway expansion is absolutely necessary. As part of the project, the FM518 intersection with SH288 needs to be significantly expanded to accommodate the increase in traffic that the toll facility will draw to that intersection to access the toll road south of BW8. In addition, you need to seriously consider an additional access point between FM518 and BW8 or the traffic at FM518 will overwhelm the intersection, whether expanded or not,. Alternatively, FM518 could be reconstructed with 6-8 lanes between SH288 and Cullen (FM865) to provide the additional capacity on FM518 necessary for the additional traffic the toll facility will draw to FM518.

Thank you,

THE BEST BUSINESS OPPORTUNITY IN HOUSTON IS DUE SOUTH.

March 21, 2013

Director of Project Development
Texas Department of Transportation
P.O. Box 1386
Houston, TX 77251-1386

To whom it may concern:

On behalf of the Board of Directors of the Pearland Economic Development Corporation, an organization dedicated to promoting economic vibrancy in the City of Pearland, I am writing to express our organization's unanimous support for the proposed improvements on SH 288 from US 59 to County Road 60 and preference for the full four-lane configuration.

SH 288 is strategically situated between various economic engines of the Gulf Coast Region. This strategic location has led to explosive growth in Pearland during the last decade. From 2000 to 2010, Pearland's population grew by 142% to 91,252 residents, making our community the 15th fastest growing city in the US and the fastest growing city in the Houston metropolitan area.

The continued growth has made SH 288 a major transportation artery for our community and the region. To the north of Pearland, Gulf Coast residents use this road to access The Texas Medical Center and Downtown Houston. To the south, the Port of Freeport has been the recipient of multibillion-dollar investments that will transform southern Brazoria County in the years to come. Companies such as *DOW Chemical* and others are actively expanding their presence in the area. The continued growth of these economic engines to the north and south will continue to tax the capacity of SH 288 from US 59 to County Road 60, as an ever-increasing number of residents and businesses come to rely on this road.

One major concern we have is that the FM 518 intersection with SH288 must be significantly expanded to accommodate the increased volume that the proposed toll lanes will draw to this specific intersection, as users try to access the toll lanes. Since the only access point for our community is located south of FM 2234, FM 518 will draw significant traffic to a roadway that is already overcapacity. The current configuration will necessitate additional capacity improvements on FM 518 from the intersection of SH 288 to FM 865/Cullen Boulevard.

The Pearland Economic Development Corporation's Board of Directors believes that the proposed four lane configuration improvements on SH 288 from US 59 to County Road 60 are essential to support, encourage and sustain the economic vibrancy of not only the City of Pearland but also the Gulf Coast Region. Failure to improve SH 288 from US 59 to County Road 60 would seriously inhibit the full economic potential of our region.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles Gooden, Jr.", is written over a light blue circular stamp.

Charles Gooden, Jr.
Chair

Why not rail? It's more 21st Century.
I think we should improve transportation along this corridor, but I think it needs to be a more forward looking plan. We should build with the environment in mind, and develop a system that helps visitors navigate the city easily + efficiently.

With the disruption to traffic to do this project, perhaps a commuter rail is a much better idea and should be considered before approval of this project

Comment: I understand the Texas Department of Transportation has proposed a Highway 288 expansion project, including a direct connector ramp set to exit onto Almeda Road. I am extremely disappointed because the proposed expansion stands to have long-term adverse impacts on Houston residents' quality of life and endangers one of the southwest United States' premier green spaces in an attempt to decrease suburban commuters' short-term travel times minutely. This proposed project also conflicts with Houston lawmakers' recent move to make the city more pedestrian and bicycle friendly and in no way will resolve the greater Houston region's long-term transportation issues.

A Houston METRORail expansion along the Highway 288 corridor would help alleviate traffic concerns to a far greater extent than highway expansion. Additional lanes draw more vehicles to the road, which is a direct departure from Houston lawmakers' decision in March to loosen parking requirements in the city center, especially along rail corridors such as the Texas Medical Center. Funneling even more vehicles to an area allowed to further reduce its parking requirements will only increase transit times in the Texas Medical Center. Also, many commuters to the Texas Medical Center park in satellite lots and take the rail to their respective workplaces. The Houston METRORail has the second-highest ridership per track mile of any rail system in the United States, according to the transit agency's figures. This proposed project shows TxDOT has failed to investigate the Highway 288 corridor adequately.

A direct connector exiting onto Almeda Road would provide a great disservice to the region. A section of Houston's historic 445-acre Hermann Park sits along Almeda Road a short distance beyond the proposed direct connector's exit location. The direct connector would increase the number of vehicles traveling on a roadway adjacent to a park that sees an estimated 5.5 million visitors annually, according to the park's Web site. Additional vehicles traveling at high rates of speed will severely decrease Hermann Park's long-term vitality and endanger park-goers. Also, the smaller Peggy Park sits alongside Almeda Road. Peggy Park, which contains a children's play area and basketball courts, sees frequent use. Additional vehicle traffic would greatly decrease the park's vibrancy.

If the project must move forward, I urge TxDOT to construct sound barriers along the length of the project in an attempt to block noise emitted from the additional vehicles traveling on the highway. Sound barriers would allow city dwellers who have been adversely affected by the project to live more peacefully. Also, TxDOT should attempt to replant the many trees in the current right-of-way

along the sides of Highway 288 in an attempt to beautify the area surrounding the highway.

Have drainage studies been done at 610 where flooding regularly occurs and at County Road 59 in Brazoria County will there be a public meeting to communicate plans (drainage) for these areas?

Overall, do you support or oppose the idea to improve highway transportation along SH 288?

En general, ¿apoyan o se oponen a la idea de mejorar el transporte a lo largo de la autopista SH 288?

Subject: SH 288 Comment

Below comment was received from Nathaniel Lukefahr, 4707 Montclair Hill Lane, Fresno, Tx.77545

I understand the Texas Department of Transportation has proposed a Highway 288 expansion project, including a direct connector ramp set to exit onto Alameda Road. I am extremely disappointed because the proposed expansion stands to have long-term adverse impacts on Houston residents' quality of life and endangers one of the southwest United States' premier green spaces in an attempt to decrease suburban commuters' short-term travel times minutely. This proposed project also conflicts with Houston lawmakers' recent move to make the city more pedestrian and bicycle friendly and in no way will resolve the greater Houston region's long-term transportation issues.

A Houston METRORail expansion along the Highway 288 corridor would help alleviate traffic concerns to a far greater extent than highway expansion. Additional lanes draw more vehicles to the road, which is a direct departure from Houston lawmakers' decision in March to loosen parking requirements in the city center, especially along rail corridors such as the Texas Medical Center. Funneling even more vehicles to an area allowed to further reduce its parking requirements will only increase transit times in the Texas Medical Center. Also, many commuters to the Texas Medical Center park in satellite lots and take the rail to their respective workplaces. The Houston METRORail has the second-highest ridership per track mile of any rail system in the United States, according to the transit agency's figures. This proposed project shows TxDOT has failed to investigate the Highway 288 corridor adequately.

A direct connector exiting onto Alameda Road would provide a great disservice to the region. A section of Houston's historic 445-acre Hermann Park sits along Alameda Road a short distance beyond the proposed direct connector's exit location. The direct connector would increase the number of vehicles traveling on a roadway adjacent to a park that sees an estimated 5.5 million visitors annually, according to the park's Web site. Additional vehicles traveling at high rates of speed will severely decrease Hermann Park's long-term vitality and endanger park-goers. Also, the smaller Peggy Park sits alongside Alameda Road. Peggy Park, which contains a children's play area and basketball courts, sees frequent use. Additional vehicle traffic would greatly decrease the park's vibrancy.

If the project must move forward, I urge TxDOT to construct sound barriers along the length of the project in an attempt to block noise emitted from the additional vehicles traveling on the highway. Sound barriers would allow city dwellers who have been adversely affected by the project to live more peacefully. Also, TxDOT should attempt to replant the many trees in the current right-of-way along the sides of Highway 288 in an attempt to beautify the area surrounding the highway.

Comments (Comentarios):

Current noise levels are high on Alameda Road (West) and Holly Hall (North). Our Condominium community faces both streets. We would anticipate increased noise levels would accompany increased traffic flow when Alameda Road is made into a freeway exit ramp or entrance feeder to 610.

We would ask you to provide sound walls on both sides of our condominium property, i.e, the One Montreal Place Condominium Community, entrance located at 2120 EL PASEO ST, ZIP 77054.

Comments (Comentarios): Light Rail, Light Rail

Please take into account current gridlock conditions related to Reliant Stadium, i.e., the Houston Livestock Rodeo, Super Bowl, major conventions, etc.

Please address these realities in your design planning.

Please consider the air quality impacts on the densely populated residential areas bordered by Fannin, Holly Hall, El Paseo, Alameda Road.

Comments (Comentarios):

I strongly oppose putting down toll roads to solve the problem with the 288 congestion. My concern is that it will become the toll-road congestions from 288 on Beltway 8 heading Beltway-8 west. ~~we~~ we actually paid to get on the toll road to be stuck in traffic!! ~~but~~ we don't need some unbearable situation to be the same with 288 if we put down toll roads. I don't understand we also not put more roads & put in frontage road. we need more lanes & frontage on Hwy 288!! We need direct access to Beltway 8 East & West from Hwy 288!!

What type of environmentally friendly solutions ~~will~~ will be used in the construction of this toll road. For example porous pavement, concrete that reflects heat & keeps the city cooler, etc.

Judy Myers

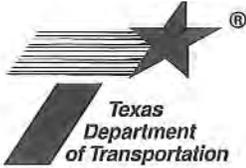

2511 County Rd 62 Rosharon, TX 77583 Acceleration lane from Rodeo Palms Parkway is deceiving to drivers on 288 traveling south that want to exit SH 6. The guard rail at this location causes a conflict because drivers assume the acceleration lane is a deceleration lane for SH 6. The drivers often run in to the guardrail at this location because they are unable to regain their place in traffic. Ms. Myers suggests that the acceleration lane / deceleration lane extend from Rodeo Palms Parkway to SH 6.

Comments (Comentarios):

I was dreaming of a metro-state partnership to run a next/fast RAIL Line down from downtown Houston to CR 60. The rail line is by far the superior/efficient/environmentally safe mode to transport people from the south of Houston to the Greater Houston Area. We all need to re think the lifestyle - cheapest way to accomplish the transportation in this area of the country. If this is not going to pass the values test of the transportation dept, it would be good to consider buses. If this is not a viable alternative, we can either work w/ existing roads. The proposal I consider the least acceptable is the...

Comments (Comentarios):

PLEASE CONSIDER ADDING FEEDER OR FRONTAGE ROADS ALONG THE EXPANDED HWY 288.

WITHOUT THESE FRONTAGE ROADS, TRAFFIC WOULD BE CLOGGED UP & INTO NEIGHBOURHOODS ALONG HWY 288. AN EXAMPLE OF SUCH PROBLEM IS THE TRAFFIC BETWEEN FM518 & CR. 59 ALONG HWY 288.

Overall, do you support or oppose the idea to improve highway transportation along SH 288?

Comments (Comentarios):

TxDOT personnel are either misguided or delusional. The congestion on 288 is already unacceptable! Improvements need to occur now! We cannot afford to wait until 2035. Improvements should have occurred well before now, but the issue only just recently gained interest once Caucasians started moving back into the inner city.

Our names are Melanie Oldham and Paul Houston...we want to comment on the SH 288 project from US59 to CR60 in Brazoria Co where we reside, re: the environmental studies (EA)....I

Melanie made some comments at the public hearing held in Pearland Tx on March 7, 2013,

1. The EA appears to be limited and doesn't contain all current information that could effect this project. Can an Environmental Impact Statement be completed by TxDOT?
2. The cumulative impact study list in the EA must be expanded because there is a lot of recently announced projects in Brazoria Co which would occur about the same time frame as this project...in Freeport Tx DOW Chemical announced building 3 new plants, BASF 1 new plant and Chevron Phillips a new plant, Port Freeport Widening project and other new projects in the next few years...these projects not included in EA?
3. Brazoria Co had been a severe non attainment county with the HGB area for a long time until June 2012 when EPA made HGB a marginal area with ozone , but later that month Manvel Texas and Pearland Tx in Brazoria Co had the highest ozone readings in Texas with Manvels ozone monitor reading 136ppb....Brazoria co needs to pay attention to all projects planned because the projects will put out additional VOCs and NOx,,,OZONE Will all projects including this project fit in our HGB SIP? Melanie Oldham 979-481-2723....thank you

Comments (Comentarios):

More Signage for Pearland from both sides. Would like to see Freeport changed to Pearland until south of Pearland when traveling South. With over 100,000 people more people are looking for Pearland than Freeport.

Subject: Hwy 288 - Toll Road Project (Comments from Brad S. Owens)

Comments regarding the proposed SH288 Toll Lane Project:

I attended the DeBaKey High School Town Hall meeting on the topic of the SH 288 Toll Lane Project. I have lived in Pearland since 1994, and in 2004 we purchased a home in the Lakes at Country Place subdivision. Our home is located in one of the cul-de-sacs that backs up the SH288 service road on the west side of our subdivision.

I am in favor of increasing the traffic flow options up and down SH288. I am also in favor of our local leaders, urban developers, and TxDOT to consider mass transit options for SH 288 (rail or bus service) at this time as well (not just a massive cement barricaded Toll lane project that is only used during the week). Although the additional proposed Toll lanes will help to move traffic in and out of Houston, they are also very limiting. I lived in Seattle, WA for a few years where the "diamond lane" concept was used for faster travel and to encourage carpooling. It was such a simple and effective process. We should carefully consider future light rail and bus service mass transit options that might also need the current grass middle section of SH 288. Planning for future generations is essential. The mass transit options, physically remove automobiles from the road, reduce gasoline consumption, reduce environmental impact, are much quieter than automobiles, etc.

During the SH 288 Town Hall meeting, I was appalled to learn that there are no proposed sound barriers planned for any of the subdivision in Pearland. This is ridiculous and arrogant! My neighborhood (Lakes at Country Place) is plagued with toxic road noise that is OVER the decibel limit of Noise Abatement Criteria. The SH 288 road noise permeates our backyards, or homes, and our families. There are 50+ homes located on the west side of our subdivision that have been dealing with this problem for years. As a result of the increased traffic flow on SH 288, the noise level gets worse each year. The noise has even decreased the value of my home, it has made home sales difficult, and makes it extremely difficult to carry on a verbal conversations with my children in our backyard.

The Lakes at Country Place subdivision currently needs noise abatement walls on the west side where we back up to the SH 288 service road. The proposed Toll Lane project will make this need even more apparent. The current lanes of SH 288 between BW 8 to FM 2234 need larger cement barricades on the outside of their lanes. The "Bellaire Barriers" (tall sound barrier along 610 in the Bellaire area) would work very well in our area of Pearland. If the Toll Lane project comes to fruition, the Toll Lanes that pass from BW 8 to FM 2234 need tall sound "Bellaire" barriers as well.

In 2006, I wrote a letter to TxDOT inquiring about noise abatement for the Lake at Country Place. In the response letter, Pat Henry indicated to me that TxDOT was developing plans to construct toll lanes in the middle of SH288 and that project would make our neighborhood eligible for noise abatement. Our neighborhood and my neighbors have been patient since 2006 on this topic. Please do not disappoint. Please consider noise abatement/sound barriers for the west side of our subdivision. Our neighborhood IS the closest neighborhood to SH 288 and the SH 288 service roads in all of Pearland.

Sincerely,

Brad S. Owens

Comments (Comentarios): Was ever light rail considered?
I understand that there will be an exit ramp onto Alameda. Between Holly Hall and El Paseo are residential complexes that front Alameda. Hopefully there are soundproof walls planned to be erected alongside the residential complex. I hope this project will not end up a behemoth dividing a neighborhood.

Comments (Comentarios): all these exit ramps pouring traffic into residential neighborhoods. Traffic on S. MacGregor Way increased tremendously since 288 was constructed. Riverside is a purely residential neighborhood and now we have to deal with glass bottles and trash thrown out of car windows that pass thru the street.

Comments (Comentarios):

I noticed during the presentation that either ~~an~~ HCTRA EZTAGS or a TxTAGS will be required to use the toll lanes. I think that TxDOT/HCTRA should consider also allowing for those without such a tag to use the tollroad using a system similar to the PGBT (Tx Hwy 199) in Dallas, whereby, a vehicle would be tolled using a camera system which would ~~be~~ send a bill to the car owner's address. This would benefit the project by slightly increasing revenues (especially since those billed by this method would be charged a higher rate). This would greatly benefit infrequent users of the tollway, ESPECIALLY for those who might have an appointment or emergency of a medical nature where they need to quickly get to the Texas Medical Center, and they could do so without incurring a steep fine from HCTRA. This technology exists and is proven to be successful in the DFW area. It should be included in this project and eventually on other Houston area tollways.

Comments (Comentarios):

I support this project. I support it being tolled. I would strongly urge TxDOT to take a second look at a NB 288 toll lane direct connector exit to downtown or the east or south end of midtown - and include this in Phase 2 of this project if environmental regs allow. There is already lane imbalance in this area, with 11 lanes northbound (4 from I-45, 4 from 288, 3 from 59) turning into 7 lanes northbound (3 on I-45 - Pierce, 4 on 59). Adding two more lanes to 13 NB, will create more imbalance and congestion. I would encourage collaboration between this project and the NB 288 to MacGregor WB project; currently, to my knowledge, there is no proposed outbound direct connector from the Texas Medical Center area to southbound 288. I would recommend that TxDOT install a tolled direct connector either from SB Alameda to I-610 EB to TX288 - or from EB MacGregor to TX288 SB or from EB Old Spanish Trail to SB TX288.

Comments (Comentarios):

I encourage TxDOT to investigate the use of Low Impact Development drainage concepts for the proposed expansion of SH 288. The proposed corridor is plagued with drainage issues in certain areas, and the public is sensitive to drainage concerns. Low Impact Development techniques such as raingardens/bioswales, vegetated swales, engineered soil filters, linear detention have all been proven to provide drainage peak flow reduction, improved Storm Water Quality benefits, more efficient land use, and aesthetic benefits.

Comments (Comentarios):

Handwritten comment: Lane addition to alleviate current extreme congestion on SH-288 should receive very high priority. The proposed project need to be addition of 4 lanes (2 lanes each way) compared to 2 reversible lanes.

Subject: Improvements for SH 288

TXDOT is going in the wrong direction regarding SH 288. It does NOT need a toll road from Highway 59 south to CR 60, but an additional lane added from State Highway 6 south to Lake Jackson. This would help to relieve the congestion.

Subject: Hwy 288

Who came up with the sorry excuse for improvements for Hwy 288?

The first thing you want is to stick a toll road down the median that will always be a toll even though taxpayers have already paid to build it. More thievery from the TXDOT is all that is just as all the other toll roads. Look at IH 69 that is wasting money so Mexico has easy access to bring in drugs and illegals.

Not one of the engineers want to hear anything from the public? A couple of the ideas can be good if done correctly.

Improved access to the Medical Center: 2 lane overpass exiting Hwy 288 and 1 lane exiting IH 610.

Additional general purpose lanes between IH 610 and Beltway 8 will not do much good unless you raise the speed to 65 mph and ticket anyone driving under 50 mph. Take away the speed traps and give the Hwy back to DPS. Plus stopping at Beltway 8 is not the right answer. Carry the lanes on through State Hwy 518 in Pearland preferably to State Hwy 6. Do this part first to allow commuters drivability while all the other is so messed up which will happen due to the worthless contractors.

Tom Sawyer
Needville, Texas

Thank you for holding your recent public hearing regarding the proposed SH 288 upgrades. My first comment is that traffic congestion at 288 and FM 518 is very high, and any steps that could be taken to alleviate this congestion would be much appreciated.

For example, if possible, please consider elevating highway 288 at the Hughes Ranch Road intersection just north of 518 (to allow cross traffic an extra avenue between 518 and McHard). Traffic on Hughes Ranch Road on the east side of 288, and traffic on the west side of 288 at this location (coming from Shadow Creek Ranch) is increasing and is likely to increase as the area grows, and I believe that elevating 288 at this location to allow traffic to cross 288 would help reduce congestion at 518. Many people who currently would cross 288 at Hughes Ranch must now instead pass through the 518 intersection, which further congests that intersection.

My other comment is that congestion at the Beltway 8 intersection is high. While recent expansion of some of the feeder lanes at that area has helped, significant backups still occur on the feeder lanes as traffic exits from one roadway to the next, especially westbound on BW8 turning southbound on 288. Please accelerate construction of the direct connectors if at all possible, especially BW8 westbound turning south onto 288, which seems far worse than the other directions.

Thank you for your consideration.

Subject: Proposed Toll Roads Pearland to Medical Center on 288

Monday through Friday, I commute from Pearland to the Medical Center during peak traffic. It is no simple task to navigate all the traffic and I say a prayer when I arrive safely at my office. I am not certain what the best solution or solutions for managing the 288 traffic would be but we need to begin somewhere and if step one is to implement toll roads then I am happy that at least something is being done for traffic management. I do think we need some type of mass transportation to help alleviate the congestion on 288 by getting some of the cars off the road and providing another means for these people to commute. Again I am thankful for any assistance with the traffic on 288.

Subject: Comments on 288 Improvements

In a recent article in the Houston Chronicle I read about the hearings to improve 288 and access to the TX Medical Center. One of the key items I see that backs up 288 on the outbound commute is the exit from the TX Medical Center to get on 288 & 610. Traffic merging on to 288/610 Juncture must quickly cross 2 lanes of traffic to get onto 288. In the improvements if there was a way to have a 288 only access and 610 only access, I believe it would greatly improve traffic flow in 610/288 corridor.

Thank you.

Subject: Tol road through Museum district - BAD IDEA!

Our family is opposed to the direct connect from the toll road to be going through Museum Park. Why would you want to go through a park & residential area in the first place? Additionally, anyone traveling north on 288 will end up going past the medical center to get to the medical center.

It would seem a better and more cost effective idea to improve Old Spanish Trail (OST) Old Spanish Trail, because it already goes straight to the medical center!

Cheers!

Comment: I understand the Texas Department of Transportation has proposed a Highway 288 expansion project, including a direct connector ramp set to exit onto Almeda Road. I am extremely disappointed because the proposed expansion stands to have long-term adverse impacts on Houston residents' quality of life and endangers one of the southwest United States' premier green spaces in an attempt to decrease suburban commuters' short-term travel times minutely. This proposed project also conflicts with Houston lawmakers' recent move to make the city more pedestrian and bicycle friendly and in no way will resolve the greater Houston region's long-term transportation issues.

A Houston METRORail expansion along the Highway 288 corridor would help alleviate traffic concerns to a far greater extent than highway expansion. Additional lanes draw more vehicles to the road, which is a direct departure from Houston lawmakers' decision in March to loosen parking requirements in the city center, especially along rail corridors such as the Texas Medical Center. Funneling even more vehicles to an area allowed to further reduce its parking requirements will only increase transit times in the Texas Medical Center. Also, many commuters to the Texas Medical Center park in satellite lots and take the rail to their respective workplaces. The Houston METRORail has the second-highest ridership per track mile of any rail system in the United States, according to the transit agency's figures. This proposed project shows TxDOT has failed to investigate the Highway 288 corridor adequately.

A direct connector exiting onto Almeda Road would provide a great disservice to the region. A section of Houston's historic 445-acre Hermann Park sits along Almeda Road a short distance beyond the proposed direct connector's exit location. The direct connector would increase the number of vehicles traveling on a roadway adjacent to a park that sees an estimated 5.5 million visitors annually, according to the park's Web site. Additional vehicles traveling at high rates of speed will severely decrease Hermann Park's long-term vitality and endanger park-goers. Also, the smaller Peggy Park sits alongside Almeda Road. Peggy Park, which contains a children's play area and basketball courts, sees frequent use.

Additional vehicle traffic would greatly decrease the park's vibrancy.

If the project must move forward, I urge TxDOT to construct sound barriers along the length of the project in an attempt to block noise emitted from the additional vehicles traveling on the highway. Sound barriers would allow city dwellers who have been adversely affected by the project to live more peacefully. Also, TxDOT should attempt to replant the many trees in the current right-of-way along the sides of Highway 288 in an attempt to beautify the area surrounding the highway.

Subject: SH 288 - (US 59 to CR 60)

I am opposed to the direct connect from the toll road to be going through Museum Park. It doesn't make sense to go through a park & residential area. Furthermore, why would anyone traveling north on 288 go past the medical center to get to the medical center?

Old Spanish Trail has an exit already that would only need modification and not rebuilding, it has the capacity for expansion, and most importantly – it goes straight to the medical center!

If TxDOT really wants to ease congestion for commuters getting to the medical center, they really need to consider alternate modes of transportation – such as expanding the light rail.

TABLE 1
SH 288 (US 59 to CR 60)
Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response	
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other			
1	V	Amos, Bob					x				x			x	Wants frontage roads first, before toll lanes in the middle of SH 288. Wants improved access to downtown, not just to Texas Medical Center (TMC). Is concerned about the current level of traffic and the lack of an alternate when traffic is heavy and accidents cause hold-ups.	SH 288 is a limited-access highway, and frontage roads are not proposed. The proposed project would improve mobility on SH 288 from US 59 to CR 60, and provide a connector to Almeda Road for better access to the Texas Medical Center. TxDOT, and Harris and Brazoria Counties have implemented roadway improvements in the SH 288 corridor, and have plans for other roadway improvements, including widening FM 865 and CR 48. These and other improved and planned roadways in the project vicinity will provide additional capacity and improved mobility in the area.
2	W	Babineaux, Constance							x		x				Concerned with noise - how to be considered for relief or remedy. How to seek remedy for increased traffic during construction and after.	The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. Most of the construction activities for the proposed toll lanes will be in the middle of the existing SH 288 lanes. A separate study being conducted by TxDOT, for the North Houston Highway Improvement Project, is evaluating the US 59/SH 288 and US 59/IH 45 interchanges (more information can be found on the project website: www.IH45northandmore.com).
3	W	Balmos, David	x												Supports project.	Comment noted.
4	W	Bennett, Eric	x			x								x	Supports project. Consider making all frontage roads at BW 8 and SH 288 interchange one-way. Determine storm water up front would help right-of-way acquisition cost.	Comment noted.
5	W	Busa, Jaclyn		x										x	Opposed to direct connect from toll road going through Museum Park and residential area. Should improve Old Spanish Trail instead; would only need to be updated and not rebuilt.	The proposed project includes improved access to the Texas Medical Center via Almeda Road. Your question is about a separate TxDOT project, and your comment will be considered by TxDOT as input for the other project.
6	W	Butler, Chad	x								x				Supports project. Please build, need traffic relief.	Comment noted.
7	W	Castille, Brian	x								x	x			Supports project. Get the project going and improve mobility for all that use the SH 288 corridor.	Comment noted.

TABLE 1
SH 288 (US 59 to CR 60)
Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response	
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other			
8	W	Confidential							x					x	Requests a noise barrier along portions of SH 288. In noise analysis, consider emergency vehicles, helicopters, motor cycles, street racing, noise from nearby development, and nearby recreation areas. Consider noise and other changes that would occur with interchanges at intersections of highways 45, 288, and 59. The historical analysis needs work. Consider opportunity for development over SH 288 in northern section of the project.	The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners, and noise barriers are proposed where found to be both feasible and reasonable, per TxDOT and FHWA guidelines (see Section XXIII of the Environmental Assessment). The proposed SH 288 project would not adversely impact parks. The evaluation of potential impacts to historic resources was conducted in accordance with applicable regulations and agreements with the State Historic Preservation Office (see Section XVI of the Environmental Assessment). Comment noted (regarding possible development over SH 288).
9	W	Daggett, Katie	x											x	Supports the project. Main lane access/toll way access should be the priority, easing congestion from south of Beltway 8 into Downtown, and then to updating/redesigned the IH 610/SH 288 interchange.	Comment noted.
10	W	Doerre, Jennifer		x			x	x	x					x	Area needs rail not highway. Concerned with park impacts; noise and air impacts. Requests sound barriers and trees.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The proposed SH 288 project would not adversely impact parks or air quality. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners, and noise barriers are proposed where found to be both feasible and reasonable, per TxDOT and FHWA guidelines. Because the proposed project would be constructed primarily in existing right-of-way, where roads exist, visual and aesthetic qualities in the project area would be mostly unchanged. The project would be developed under TxDOT's Green Ribbon Program, which allocates funds for trees and plants within roadway right-of-way. Within the existing and proposed right-of-way, TxDOT will preserve as many trees as possible, and will also plant trees as part of the landscaping.

SH 288 (US 59 to CR 60)
Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other		
11	W	Douglas, Josh		x			x	x						Does not want tolls. Wants more public transportation - METRO or light rail.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. Without tolling, there would be significant delay in building this project. Tolls enhance the existing "collect taxes-as-you-go" method of financing transportation projects which is not keeping pace with the growing travel demand in Texas. Tolls will be collected for three basic reasons: (1) pay for a road that can't be built soon enough with available resources, (2) pay for the continued maintenance and operation of roadway, and (3) pay for other needed transportation improvements in the area. The existing lanes would not be tolled.
12	W	Duncan, Thomas	x								x		x	Supports project. Southbound existing ramp at Station 2710+00 should be moved farther north to avoid the existing southbound queue from FM 518. Include widening of FM 518 under the proposed bridge to help congestion along FM 518 and the east and west service roads. FM 518 has a traffic demand exceeding its capacity.	Comment noted. FM 518 widening is a separate project.
13	W	Epperson, Trent	x								x			SH 288 and FM 518 intersection needs to be significantly expanded to accommodate increased traffic; also consider an additional access point in between FM 518 and BW 8.	Comment noted.
14	W	Gooden, Charles Jr., on behalf of the Pearland Economic Development Corporation	x								x			Supports project. Prefers four-lane configuration, needed to support, encourage and sustain economic vibrancy of City of Pearland and the Gulf Coast Region. FM518 intersection with SH 288 must be significantly expanded to accommodate increased volume that proposed toll lanes will draw to this intersection. Additional capacity needed on FM 518 from SH 288 to FM 865/Cullen Boulevard.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners, and noise barriers are proposed where found to be both feasible and reasonable, per TxDOT and FHWA guidelines. The traffic noise analysis conducted for the area of The Lakes at County Place, which is located north and south of McHard Road on the east side of SH 288, indicates that both existing (in 2015) and projected traffic levels (in 2035) result in noise levels above the noise abatement criteria, resulting in a traffic noise impact (per TxDOT's guidelines), and noise abatement measures were evaluated. proposed noise barriers were modeled and could not achieve the required minimum reduction of 7 dB(A) at the receivers. This analysis is documented in Section XXIII of the Environmental Assessment. Widening FM 518 at SH 288 is not part of this project.

COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other		
15	W	Goudeau, Analisa						x						Wants rail instead of proposed project.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.
16	W	Griffin, Suezette	x					x						Supports project but wants rail considered first, because of disruption to traffic to do the project.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.
17	W	Guilbot, Carla		x			x	x	x				x	Area needs rail not highway. Concerned with park impacts; noise and air impacts. Requests sound barriers and trees.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The proposed SH 288 project would not adversely impact parks or air quality. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners, and noise barriers are proposed where found to be both feasible and reasonable, per TxDOT and FHWA guidelines. Because the proposed project would be constructed primarily in existing right-of-way, where roads exist, visual and aesthetic qualities in the project area would be mostly unchanged. The project would be developed under TxDOT's Green Ribbon Program, which allocates funds for trees and plants within roadway right-of-way. Within the existing and proposed right-of-way, TxDOT will preserve as many trees as possible, and will also plant trees as part of the landscaping.
18	W	Hahnke, Karen				x					x			Consider flooding inside Loop 610 and at the loop, and other traffic issues. Link to US 59 South causes significant backup and needs to be included in plan.	Drainage design will be performed during final design of the proposed project, and would be in accordance with current TxDOT policies and standards. The project would be designed to prevent inundation at recurrence intervals of at least 100 years, inundation of the roadways being acceptable, without causing significant damage to the roadway, stream, or other property. The proposed project would not increase the base flood elevations to a level that would violate applicable floodplain regulations and ordinances. A separate study being conducted by TxDOT, for the North Houston Highway Improvement Project, is evaluating the US 59/SH 288 and US 59/IH 45 interchanges (more information can be found on the project website: www.IH45northandmore.com).
19	V	Hauser, Caye									x			Concerned with traffic; would like to see frontage roads included - as was to be included during first process for SH 288; also would like to see widening both FM 518 and CR 59.	SH 288 is a limited-access highway, and frontage roads are not proposed. Brazoria County has plans to widen CR 59 from the Fort Bend/Brazoria county line to SH 288.

SH 288 (US 59 to CR 60)
Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response	
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other			
20	W	Hauser, Caye & Gerard	x								x			x	Supports project. Other comments: Widen FM 518 under the overpass (choke point). Widen FM 518 to Pearland. What happened to CR 48 expansion from Hwy 6 to FM 2234? What about SH 288 traffic exiting onto CR 59? What happened to CR 59 expansion from 288 to Fort Bend county line? What about new 4 way stop sign at CR 59 and Kirby? (CR 59 traffic currently backs up to SH 288) What is going to be done about excess traffic from 288 expansion to intersecting roadways to include CR 59 to FM 521? What happened to the original SH 288 corridor proposal to add feeder streets?	Widening FM 518 at SH 288 is not part of this project. Many of the projects you are asking about are being developed by the County. It is expected that adding lanes to SH 288 will reduce congestion in the area. SH 288 is a limited-access highway, and frontage roads are not proposed.
21	W	Jones, Carolyn				x									Concerned about drainage and flooding at IH 610 and CR 59. Will there be a public meeting to communicate plans (drainage) for these areas?	Drainage design will be performed during final design of the proposed project, and would be in accordance with current TxDOT policies and standards. The project would be designed to prevent inundation at recurrence intervals of at least 100 years, inundation of the roadways being acceptable, without causing significant damage to the roadway, stream, or other property. The proposed project would not increase the base flood elevations to a level that would violate applicable floodplain regulations and ordinances. Although there will not be a public meeting during final design, there could be a meeting with affected property owners (MAPO) who may be affected by proposed drainage improvements.
22	V	Jones, Carolyn				x			x						Concerned about increased noise (South Fork subdivision - homes close to the freeway) and drainage problems and flooding around IH 610 and along SH 288. How will drainage be provided.	The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. Drainage design will be performed during final design of the proposed project, and would be in accordance with current TxDOT policies and standards. The project would be designed to prevent inundation at recurrence intervals of at least 100 years, inundation of the roadways being acceptable, without causing significant damage to the roadway, stream, or other property. the proposed project would not increase the base flood elevations to a level that would violate applicable floodplain regulations and ordinances.

23	W	Lukefahr, Nathaniel						x					x	<p>Impacts to quality of life and parks - Hermann Park and Peggy Park. Funneling more vehicles to an area allowed to further reduce its parking requirements (City, TMC) will increase transit times in the TMC. Also, many commuters to the Texas Medical Center park in satellite lots and take the rail to their respective workplaces. TxDOT has failed to investigate the Highway 288 corridor adequately. Construct sound barriers along the length of the project. Replant trees in the current right-of-way along the sides of Highway 288. A Houston METRORail expansion along the Highway 288 corridor would help alleviate traffic concerns to a far greater extent than highway expansion.</p>	<p>The proposed SH 288 project would not impact parks. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. Because the proposed project would be constructed primarily in existing right-of-way, where roads exist, visual and aesthetic qualities in the project area would be mostly unchanged. The project would be developed under TxDOT's Green Ribbon Program, which allocates funds for trees and plants within roadway right-of-way. Within the existing and proposed right-of-way, TxDOT will preserve as many trees as possible, and will also plant trees as part of the landscaping. The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.</p>
24	W	Lytle, MM	x						x					<p>Current noise levels are high on Alameda Road (west) and Holly Hall (north); anticipate increased noise levels with increased traffic flow when Alameda Road is made into a freeway exit ramp or entrance feeder to IH 610. Provide sound walls on both sides of condominium property, Montreal Place condominium community. Light rail. Take into account current gridlock conditions related to Reliant Stadium. Consider air quality impacts in residential areas bordered by Fannin, Holly Hall, El Paseo, Alameda Road. Note: comments are from 2 comment forms.</p>	<p>The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. The traffic noise analysis conducted for the multi-family residential development located west of Alameda Road between Holly Hall and Hepburn Street shows that existing and projected traffic levels (in 2035) would be below the noise abatement criteria; therefore, the proposed project would not result in a traffic noise impact, and noise abatement measures were not evaluated. The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The air quality analysis is documented in the Environmental Assessment (Sections XXIV and XXVIII). The cumulative impacts assessment in the EA considered reasonably foreseeable projects within resource study areas, and included evaluation of direct, indirect, and cumulative impacts to air quality. The proposed action is consistent with the area's financially constrained 2035 Regional Transportation Plan (RTP) Update, as amended, and the 2013-2016 Transportation Improvement Program (TIP) for the Houston-Galveston Transportation Management Area (TMA). The RTP and the TIP were found to conform to the Texas Commission on Environmental Quality (TCEQ) State Implementation Plan (SIP) by FHWA on January 25, 2011 and November 1, 2012, respectively. These transportation plans conform to air quality goals. Also, the project has been determined to generate minimal air quality impacts related to mobile source air toxics (MSAT) emission and has not been linked with any special MSAT concerns.</p>

SH 288 (US 59 to CR 60)
Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other		
25	V	McGill, Patricia Allen							x					Resident at the corner of Arbor and SH 288, on the southbound side of SH 288. Current noise level is unbearable and is concerned about the noise. There don't seem to be many areas with noise barriers shown on the maps, and need to know how to effect the process and who to talk to.	The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with the guidelines, noise abatement was considered for adjacent property owners. The traffic noise analysis included evaluating the potential noise impacts of the proposed project in the area of Arbor Street and SH 288. On the southbound side of SH 288, there would be noise impacts, as defined by FHWA's regulations, at residences north and south of Arbor Street. Proposed noise barriers were modeled for all residences. Noise barriers would meet FHWA's minimum noise reduction criteria for the residences from south of Arbor Street to Wichita Street, but not north of Arbor Street (except between Ruth Street and Rosewood Street) due to the number of cross streets between receivers (residences) that would cause the noise barriers to be ineffective. Your comment is considered by TxDOT during the project development process.
26	W	Miller, Tho Tran		x			x						x	Opposed tolls on SH 288, thinks it will cause congestion from SH 288 to westbound BW 8. Tolls are not needed. Need frontage roads and more lanes on SH 288, and direct access to BW 8 eastbound and westbound from SH 288.	Without tolling, there would be significant delay in building future projects. Tolls enhance the existing "collect taxes-as-you-go" method of financing transportation projects which is not keeping pace with the growing travel demand in Texas. Tolls will be collected for three basic reasons: (1) pay for a road that can't be built soon enough with available resources, (2) pay for the continued maintenance and operation of roadway, and (3) pay for other needed transportation improvements in the area. The existing lanes would not be tolled. Construction of direct connectors at the SH 288/BW 8 interchange would result in reduced congestion on the existing roads at the interchange. SH 288 is a limited access highway; additional frontage roads are not proposed.
27	W	Mladineo, Fernando	x										x	What environmentally friendly solutions are planned, such as porous pavement, concrete that reflects heat.	TxDOT plans to utilize a "next generation" concrete that has a noise reducing surface.
28	V	Moreno, Hector						x	x				x	Concerned that the improvements in the SH 288 corridor do not include rail; concerned about the induced development that may occur south of IH 610 that may impact north of IH 610 in a negative way; would like noise reduction	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. 29	V	Muhammad, Robert		x										x	Concerns are: lack of multi-modal connectivity and accommodations; lack of park and ride options; street improvements, connectivity and mobility improvements at the northern terminus at US 59; conclusions regarding impacts to environmental justice communities in the EA (particularly Third Ward, zip code 77004 and 77021); pedestrian safety; use of minority and disadvantaged business contractors during construction of the project; connection to TMC - why no option south of IH 610, possibly connecting to light rail or Reliant Center. Why spend money on this project when TMC is decentralizing.	METRO (Metropolitan Transit Authority) coordinates park and ride facilities in the area. A separate study being conducted by TxDOT, for the North Houston Highway Improvement Project, is evaluating the US 59/SH 288 and US 59/IH 45 interchanges (more information can be found on the project website: www.IH45northandmore.com). The Environmental Assessment includes analysis of the proposed project's potential impacts to environmental justice populations and communities, in Section VII and subsection B.5 of Section XXVIII. The proposed project addresses current and future traffic volumes associated with the Texas Medical Center. As per federal law (49 CFR Part 26), TxDOT is required to include a percentage of Disadvantaged Business Enterprises (DBE) when available in all department contracts receiving federal funding. As per state law (Texas Administrative Code, Title 34, Part 1, Chapter 20, Subchapter B, Rule §20.14), TxDOT is required to include a percentage of Historically Underutilized Businesses (HUB) when available in all department contracts receiving state funding.
30	W	Murphy, Sean		x				x	x					x	Note: includes comments on 2 comment forms. Rail connectivity to TMC; noise barriers needed along the project length; landscape enhancements along the project corridor. Why no light rail?	The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. Public Hearing and Comment Period
COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other		
33	W	Nadji, Foad						x						Rail and highway are needed; consider provisions for rail.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.
34	W	Naquin, Randall						x						Prefers fast rail over toll road from Downtown Houston to CR 60. Least expensive and most environmentally safe solution needed. Buses are next best option. Toll roads are the least acceptable idea. Does not support this project but does support idea of discussing alternative modes of transport.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.
35	V	Naquin, Randall						x	x					Would like to see rail from Houston to CR 60; concerned about noise in the Silver Lake area.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. The Silverlake single-family residential areas are not located adjacent to the project ROW. Noise impacts were evaluated for an adjacent multi-family complex located between the project ROW and the Silverlake area, and the predicted noise level and a traffic noise impact would not occur at that location.
36	W	Ngo, Kevin	x								x		x	Supports project. Consider adding feeder roads added along SH 288. Without frontage roads, traffic would be clogged up into neighborhoods along the highway. An example of such problem is the traffic between FM 518 and CR 59 along SH 288.	SH 288 is a limited-access highway; frontage roads are not proposed. Construction of the proposed project is expected to improve mobility in the area.
37	W	No name provided	x									x		Congestion on SH 288 is unacceptable, can't wait until 2035. Does not think the completed project can wait until 2035.	The initial phase of the project (two-lane toll facility from US 59 to SH 6) is proposed to be constructed between 2014 and 2017. The ultimate phase of the project (completion of the four-lane toll facility from US 59 to CR 60, and interchange improvements) would be built in phases as funding permits. If funding becomes available, four toll lanes (two-way) may be constructed in the initial phase.
38	W	No name provided	x											Supports project.	Comment noted.

39	W	No name provided	x									x		Supports project. Please start tomorrow.	Comment noted.
40	V	Oldham, Melanie								x	x		x	Primarily concerned with air quality and cumulative impacts due to SH 288 as well as Port of Freeport expansion, including truck traffic; consider doing an environmental impact statement, which is more detailed report, to look at different factors - or add new information to the Environmental Assessment; would like to see the traffic air quality analysis completed; would TxDOT have a selection process that hires contractors that use clean fuel - best practices. We don't know who the private partner will be for a private/public partnership on this project.	The air quality analysis documented in the Environmental Assessment (Sections XXIV and XXVIII) included modeling of vehicle emissions for the proposed project, including a mix of types of automobiles, trucks, and other mobile sources. The cumulative impacts assessment in the EA considered reasonably foreseeable projects within resource study areas, and included evaluation of direct, indirect, and cumulative impacts to air quality. The proposed action is consistent with the area's financially constrained 2035 Regional Transportation Plan (RTP) Update, as amended, and the 2013-2016 Transportation Improvement Program (TIP) for the Houston-Galveston Transportation Management Area (TMA). The RTP and the TIP were found to conform to the Texas Commission on Environmental Quality (TCEQ) State Implementation Plan (SIP) by FHWA on January 25, 2011 and November 1, 2012, respectively. These transportation plans conform to air quality goals. Also, the project has been determined to generate minimal air quality impacts related to mobile source air toxics (MSAT) emission and has not been linked with any special MSAT concerns. FHWA determined that an EA would be prepared to evaluate the potential impacts of the proposed project. No potential significant impacts have been defined, and an Environmental Impact Statement (EIS) is not required. The air quality analysis performed is the same analysis that would have been conducted for an environmental impact statement. Construction equipment use for project construction would be required to meet federal emissions standards. The financing method for the proposed project has not been determined.
41	W	Oldham, Melanie and Paul Houston								x			x	Consider preparing an EIS instead of an EA; Cumulative impacts in EA revised to address major projects in Brazoria County that will impact traffic and air quality; summer 2012 ozone readings indicate extreme ozone problems, does this project comply with the SIP?	FHWA determined that an EA would be prepared to evaluate the potential impacts of the proposed project. No potential significant impacts have been defined, and an Environmental Impact Statement (EIS) is not required. The air quality analysis performed is the same analysis that would have been conducted for an environmental impact statement. The cumulative impacts assessment in the EA considered reasonably foreseeable projects within resource study areas, and included evaluation of cumulative impacts to air quality. The proposed action is consistent with the area's financially constrained 2035 Regional Transportation Plan (RTP) Update, as amended, and the 2013-2016 Transportation Improvement Program (TIP) for the Houston-Galveston Transportation Management Area. The RTP and the TIP were found to conform to the Texas Commission on Environmental Quality (TCEQ) State Implementation Plan (SIP) by FHWA on January 25, 2011 and November 1, 2012, respectively.
42	W	Ordeneaux, Keith	x										x	Supports project. Need more signage for Pearland from both sides or roadway. Travelling south, Freeport sign needs to change to Pearland until south of Pearland. More people are looking for Pearland than Freeport.	Comment noted.

43	W	Owens, Brad						x	x					x	Would like "Diamond Lane"/HOV options that aren't divided by cement barriers; please consider mass transit and rail options; noise barriers for Pearland, specifically the subdivision Lakes at Country Place; corresponded with Pat Henry in 2006 and was told noise abatement would be considered	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners, and noise barriers are proposed where found to be both feasible and reasonable, per TxDOT and FHWA guidelines. The traffic noise analysis conducted for the area of The Lakes at County Place, which is located north and south of McHard Road on the east side of SH 288, indicates that both existing (in 2015) and projected traffic levels (in 2035) result in noise levels above the noise abatement criteria, resulting in a traffic noise impact (per TxDOT's guidelines), and noise abatement measures were evaluated. proposed noise barriers were modeled and could not achieve the required minimum reduction of 7 dB(A) at the receivers. This analysis is documented in Section XXIII of the EA.
44	W	Peto, Ulrike	x					x	x						Supports project. Was light rail considered. Concerned about noise between Holly Hall and El Paseo, where there are residential complexes that front Alameda; hopes for soundproof walls along the residential complex. Does not want project to divide a neighborhood.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. The traffic noise analysis conducted for the multi-family residential development located west of Alameda Road between Holly Hall and Hepburn Street shows that existing and projected traffic levels (in 2035) would be below the noise abatement criteria; therefore, the proposed project would not result in a traffic noise impact, and noise abatement measures were not evaluated. The proposed project would not divide neighborhoods.
45	W	Peto, Ulrike						x			x				Exit ramps pour traffic into residential neighborhoods. Wants rail instead of proposed project.	There are no proposed changes to exit ramps. A separate study being conducted by TxDOT, for the North Houston Highway Improvement Project, is evaluating the US 59/SH 288 and US 59/IH 45 interchanges (more information can be found on the project website: www.IH45northandmore.com). The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.

46	V	Peto, Ulrike				x		x	x	x				<p>Is concerned about the noise level on Almeda from Old Spanish Trail to Holly Hall; would like noise barriers; concerned about air quality; would like to see light rail as an option along the SH 288 corridor; concerned about drainage and flooding.</p>	<p>The noise analysis conducted for the proposed project was performed in accordance with FHWA regulations and TxDOT guidelines. Noise abatement measures were evaluated in accordance with FHWA regulations in 23 CFR 772.13(c), and following TxDOT's "Guidelines for Analysis and Abatement of Highway Traffic Noise." FHWA has approved TxDOT's noise guidelines. In accordance with guidelines, noise abatement was considered for adjacent property owners. The traffic noise analysis conducted for the multi-family residential development located west of Almeda Road between Holly Hall and Hepburn Street shows that existing and projected traffic levels (in 2035) would be below the noise abatement criteria; therefore, the proposed project would not result in a traffic noise impact, and noise abatement measures were not evaluated. The proposed action is consistent with the area's financially constrained 2035 Regional Transportation Plan (RTP) Update, as amended, and the 2013-2016 Transportation Improvement Program (TIP) for the Houston-Galveston Transportation Management Area. The RTP and the TIP were found to conform to the Texas Commission on Environmental Quality (TCEQ) State Implementation Plan (SIP) by FHWA on January 25, 2011 and November 1, 2012, respectively. The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. Drainage design will be performed during final design of the proposed project, and would be in accordance with current TxDOT policies and standards. The project would be designed to prevent inundation at recurrence intervals of at least 100 years, inundation of the roadways being acceptable, without causing significant damage to the roadway, stream, or other property. The proposed project would not increase the base flood elevations to a level that would violate applicable floodplain regulations and ordinances.</p>
47	V	Philbrook, Robert						x	x	x			x	<p>People who work at TMC don't park there; they park and commute by rail. Doesn't agree with air quality analysis - increase in traffic would decrease air quality, has benchmarking been done? Concerned about noise, have you benchmarked noise in his neighborhood? Consider rail as an alternative.</p>	<p>The proposed project addresses current and future traffic volumes associated with the Texas Medical Center. The air quality and noise analyses conducted for the proposed project were performed in accordance with FHWA regulations and TxDOT guidelines. The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.</p>

No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other			
48	W	Pitoniak, Erik	x				x				x			x	<p>Note: includes comments on 2 comment forms. Supports project and tolling it. Suggests considering a northbound SH 288 toll lane direct connector exit to downtown, or the east or south end of midtown, and to include this in the second phase of the project if environmental regulations allow. There is a lane imbalance in this area. Encourages collaboration between this project and the northbound SH 288 to MacGregor westbound project. There is not proposed outbound direct connect from the TMC area to southbound SH 288; recommends installing a tolled direct connector from southbound Alameda to I-610 eastbound to SH 288 or from eastbound MacGregor to SH 288 eastbound or from eastbound Old Spanish Trail to southbound SH 288.</p>	<p>A separate study being conducted by TxDOT, for the North Houston Highway Improvement Project, is evaluating the US 59/SH 288 and US 59/IH 45 interchanges (more information can be found on the project website: www.IH45northandmore.com). TxDOT is coordinating planning efforts for this project and the SH 288 direct connector to the Texas Medical Center (north of IH 610). This project includes a direct connector from southbound Alameda Road to eastbound IH 610.</p>
49	V	Pitoniak, Erik	x				x							x	<p>In favor of the project. Would like the billing for the tolls to be done similar to George Bush Turnpike where infrequent users' tags are photographed and billed rather than requiring a toll tag; concerned with lack of outbound connectors at Alameda, MacGregor and Old Spanish Trail.</p>	<p>TxDOT is coordinating planning efforts for this project and the SH 288 direct connector to the Texas Medical Center (north of IH 610). This project includes a direct connector from southbound Alameda Road to eastbound IH 610. As of now, plans are to require users of the toll lanes to have EZ TAG or TX TAG.</p>
50	W	Preston, Jerry	x			x								x	<p>TxDOT should investigate Low Impact Development drainage concepts. Corridor has many drainage issues and is a sensitive issue with the public. Suggests rain gardens, bioswales, vegetated swales, engineered soil filters, linear detention to provide peak drainage flow reduction, improved storm water quality benefits, more efficient land use, and aesthetic benefits.</p>	<p>Storm water control measures and best management practices (BMPs) would be implemented during and after construction of the project to prevent and minimize impacts to water resources. During construction, BMPs may include, but not be limited to, silt fences, hay bales, and seeding or sodding o excavated areas. Permanent BMPs may include a combination of storm water retention, vegetated drainage ditches, seeding of disturbed areas of soils with native species of grasses, shrubs, or trees in accordance with TxDOT's specification "Seeding for Erosion Control". Drainage design will be performed during final design of the proposed project, and would be in accordance with current TxDOT policies and standards. The project would be designed to prevent inundation at recurrence intervals of at least 100 years, inundation of the roadways being acceptable, without causing significant damage to the roadway, stream, or other property. The proposed project would not increase the base flood elevations to a level that would violate applicable floodplain regulations and ordinances.</p>
51	W	Rodrigo, Mahendra	x								x				<p>Supports project. Lane addition to alleviate extreme congestion on SH 288 should receive very high priority. Project need to be addition of 4 lanes (2 each way) compared to 2 reversible lanes.</p>	<p>Comment noted. The interim phase includes the 2-lane reversible toll lanes; the 4-lane, two-way toll facility is the ultimate proposed project. If funding becomes available, four toll lanes (two-way) may be constructed in the initial phase.</p>

COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response	
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other			
52	W	Rutan, Sharon		x										x	SH 288 toll road not needed from Hwy 59 south to CR 60. Need lane added from SH 6 to Lake Jackson to relieve congestion.	Comment noted.
53	W	Sawyer, Tom		x										x	Who came up with proposed improvement for SH 288? Toll road will always be a toll road, though taxpayers have already paid to build it. Proposed project improvements will not help. Need 2 lane overpass exiting SH 288 and 1 lane exiting IH 610 for improved access to TMC. Additional general purpose lanes between IH 610 and BW 8 will not do much good unless you raise the speed limit to 65, and ticket those going under 50. Take away speed traps and give the highway back to DPS. Stopping at BW 8 will not help (general purpose lanes); carry lanes through FM 518 in Pearland, preferably to SH 6. Do this first to help commuter traffic.	The "SH 288 Corridor Feasibility Study", completed in 2005 by TxDOT with input from other agencies and the public, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies. The proposed project includes a connector from SH 288 to Alameda Road, to provide improved access to the Texas Medical Center. TxDOT is coordinating planning efforts for this project and the SH 288 direct connector to the Texas Medical Center (north of IH 610). Comments noted (regarding suggested speed limits and design).
54	V	Smith, Yolanda												x	Would like to see that minority owned businesses are utilized as contractors on the project; would like to be made aware of the level of participation of minority contractors for the project - what is TxDOT's process to ensure that participation occurs and how is it monitored.	As per federal law (49 CFR Part 26), TxDOT is required to include a percentage of Disadvantaged Business Enterprises (DBE) when available in all department contracts receiving federal funding. As per state law (Texas Administrative Code, Title 34, Part 1, Chapter 20, Subchapter B, Rule §20.14), TxDOT is required to include a percentage of Historically Underutilized Businesses (HUB) when available in all department contracts receiving state funding.
55	W	Weaver, Gregg									x			x	Please consider elevating SH 288 at Hughes Ranch Road; congestion at BW 8 is bad, consider accelerating construction of the direct connectors.	Comment noted.
56	W	Weeks, Susan	x								x				Supports project and proposed toll roads for SH 288 traffic management. Mass transportation is needed too.	The "SH 288 Corridor Feasibility Study", completed in 2005, documented the development and evaluation of various transportation improvement alternatives that were considered along the SH 288 corridor from US 59 to SH 36. The selected Most Feasible Alternative included ultimate development of a multimodal corridor that would accommodate and encourage automobile, transit, and bicycle/pedestrian traffic. The proposed SH 288 roadway improvements are one element of the Most Feasible Alternative. Implementation of rail and other transit improvements in the corridor is dependent on other agencies.

COMMENTS AND RESPONSES

Commenter			Opinion			Type of Comment or Concern								Specific Comment Summary	Response
No.	Written (W) or Verbal (V)	Name	Support	Oppose	No Opinion	Drainage	Tolls	Rail	Noise	Air Quality	Traffic	Schedule	Other		
57	W	Wich, Fred									x		x	Regarding access to TMC - traffic merging at SH 288/IH 610 is a problem - need "only" access for each to improve flow.	The proposed connector at Alameda Road would result in direct access to and from SH 288 and IH 610.
58	W	Williams, Joel											x	Opposed to direct connect from toll road going through Museum Park. Why go through a park and residential area? Anyone going north on SH 288 will go past the medical center. It would be more cost effective to improve Old Spanish Trail, because it goes straight to the medical center.	The proposed project includes improved access to the Texas Medical Center via Alameda Road. Your question is about a separate TxDOT project, and your comment will be considered by TxDOT as input for the other project.
59	W	Williams, Lindsay						x	x		x		x	Note: includes comments on 1 comment form and 1 email. Opposed to direct connect from toll road going through Museum Park. North on SH 288 will take drivers past TMC. Should improve Old Spanish Trail instead. Area needs rail not highway. Concerned with park impacts; noise and air impacts. Requests sound barriers and trees. Consider expanding light rail.	The proposed project includes improved access to the Texas Medical Center via Alameda Road. Your question is about a separate TxDOT project, and your comment will be considered by TxDOT as input for the other project. METRO is responsible for the light rail projects in the area.
60	W	Wu, Louis			x						x			Will there be disruption to traffic flow along the SH 288 project for the 22 years (to 2035).	It is not expected that there would be continuous construction along SH 288. The initial phase of the project (two-lane toll facility from US 59 to SH 6) is proposed to be constructed between 2014 and 2017. The ultimate phase of the project (completion of the four-lane toll facility from US 59 to CR 60, and interchange improvements) would be built in phases as funding permits.
61	W	Zomper, Larry	x											Supports project.	Comment noted.
