

Hazardous Materials in Project Development

Purchase of Service Specifications

For More Information

A TxDOT standard specification index is available from TxDOT's Crossroads General Services Division (GSD) intranet web page http://crossroads/org/gsd/tssi_num.htm. The site includes electronic versions of the following standard specifications:

- ◆ 910-38-06 Inspect, Sample and Test for Asbestos Containing Materials and Monitor Abatement Projects, October 2003
- ◆ 926-30-40 Excavate, Test, Backfill, Transport, and Dispose of Petroleum Contaminated Soils, September 2002
- ◆ 926-45-40 Incident Response Service, February 2004
- ◆ 968-78-65 Removal of Petroleum Storage Tank Systems(s), June 2005.

Districts should first contact their purchasing staff for more information on possible district-wide specifications and/or purchasing procedures.
