

PROJECT DEVELOPMENT PROCESS

LEGEND

	PROJECT INITIATION		PRIORITY 2 PROJECTS - PS&E and ROW Clearance
	LONG RANGE PROJECTS - Schematics and Environmental Impact		PRIORITY 1 PROJECTS - TIP / STIP

Project development for major capacity improvement projects can vary from 3 to 20 years, or more, depending on required environmental and ROW processes; 6 to 10 years is considered typical.
 * Commitments occur in pre-construction, construction and post-construction phases and must be monitored to ensure items are being carried throughout project completion.

ENV Commitments Are Met/Monitored *
