

**NOTICE OF PUBLIC MEETING FOR THE PROPOSED  
GRAYSON COUNTY TOLLWAY  
GRAYSON COUNTY, TEXAS**

The Texas Department of Transportation (TxDOT), Paris District with support from the Grayson County Regional Mobility Authority (GCRMA) will host a Public Meeting (in Open House format) on Thursday, November 18, 2010 from 5:00 pm to 8:00 pm at the Sherman Municipal Ballroom located at 405 North Rusk Street, Sherman, Texas, 75090. The Open House Public Meeting will present preliminary alternative alignments for a proposed Grayson County Tollway from Farm-to-Market (FM) Road 121 south of Gunter to US 75 in Denison. The Grayson County Tollway is intended to improve transportation efficiency along the extension of the Dallas North Tollway through Grayson County, providing access to the North Texas Regional Airport, and then connecting to US 75 north of Denison, Texas. The length of the proposed tollway would be approximately 33 miles (including built sections of SH 289 through a recent pass-through financing agreement). The project is currently listed in Transportation Outlook 2035, the Sherman-Denison Metropolitan Planning Organization's (MPO) Metropolitan Transportation Plan (MTP).

The purpose of the proposed facility is to accommodate residential and commercial development in Grayson County, relieve traffic congestion along US 75 through the cities of Sherman and Denison, link the proposed centers of development within Grayson County, as well as provide a transportation system that connects Grayson County to the northern edge of the expanding Dallas-Fort Worth (DFW) metropolitan area. The study associated with this tollway project includes identifying, developing and evaluating alignments for engineering and toll feasibility, and providing environmental documentation for the proposed project in accordance with the National Environmental Policy Act (NEPA) guidelines to assess potential social, environmental, and economic effects. A decision on a locally preferred alternative design would be subject to the approval by the TxDOT Design Division and the Federal Highway Administration (FHWA).

The Open House Public Meeting will display preliminary project exhibits showing potential tollway alignments and right-of-way needs. No verbal presentation is scheduled; however, TxDOT staff and their consultants will be available to answer questions at the Public Meeting regarding preliminary alignments and the next steps in the project development process. TxDOT will also receive formal public comments about the proposed project alignments at this meeting.

All interested persons are invited to attend this Public Meeting to discuss the proposed project with TxDOT personnel. Written and verbal comments from the public regarding the proposed project are requested at the Public Meeting. Following the Public Meeting, written comments may be submitted to the following address:

Texas Department of Transportation  
Attn: Noel Paramanatham, P.E.,  
3904 US 75 South  
Sherman, TX 75090

Written comments submitted after the Open House Public Meeting must be postmarked on or before Monday, November 29, 2010, to be included in the Public Meeting Record. In addition, comments can be emailed to [Noel.Paramanatham@txdot.gov](mailto:Noel.Paramanatham@txdot.gov) or Faxed to (903) 813-0134.

Persons requiring special communication or accommodation needs should contact the TxDOT Public Information Office at (903) 737-9213 at least two (2) working days prior to the Public Meeting. Because the Public Meeting will be conducted in English, any request for language interpreters or other special communication needs should also be made at least two (2) working days prior to the meeting. TxDOT will make all reasonable efforts to accommodate these needs.
