

Railroad Signal Maintenance Payment Program

The subject state-funded program provides annual maintenance payments to railroad companies to assist in the maintenance of active warning devices at highway-rail grade crossings located on the State Highway System. The funding assistance is provided based on the type of active warning device in place as of August 31st of the current fiscal year. The current payment schedule is as follows:

- Must be ON - SYSTEM (county roads and city streets are not eligible).
- Must have active signals in place during the fiscal year payment is being made for.
- If installed after payment year, they will be added to the next fiscal year payment program.

(example: for 2009 Program, must have been in place as of August 31, 2010). Payments must be made prior to the next fiscal year.

Mast flashers, \$300 per crossing

Cantilever flashers, \$400 per crossing

Gates with mast or cantilevers flashers, \$800 per crossing
