

Loop 1604 Western Extension Project

Project Information

The purpose of the project is to upgrade Loop 1604 in Northwest San Antonio from FM 471 (Culebra Road) to SH 16 (Bandera Road) with the intent to improve safety and mobility, enhance system continuity and foster economic development. The project includes an option to provide interchange improvements at Loop 1604 and SH 151.

Improvements

The proposed \$82 million base project provides the following improvements:

- A four-lane expressway section
- New overpasses at Shaenfield Road, New Guilbeau Road and Braun Road
- Frontage roads
- City street connections
- Tie-in transitions to existing Loop 1604

The proposed \$44 million option provides the following improvements:

- Loop 1604/SH 151 interchange improvements, including a south-to-east direct connector

No additional right-of-way is anticipated for the proposed improvements.

Base Project Schedule

- Final RFP issued April 2013
- Contract conditionally awarded August 2013
- Construction began March 2014
- Construction expected to be complete by fall 2016
