

Draft Texas Transportation Plan 2050 Goals and Objectives

Enhance Safety

- Design and build infrastructure to reduce crashes and lessen crash severity
- Improve incident response times
- Promote safe driving, bicycling, and pedestrian activities
- Coordinate with law enforcement

Maintain our Infrastructure

- Preserve structural integrity
- Provide smooth roads
- Keep transit fleet running and devices operating
- Reduce long-term costs
- Mitigate asset risks
- Integrate resilience into planning and project considerations

Optimize Movement

- Reduce congestion
- Improve travel time reliability
- Connect the system across modes
- Implement technology and alternative strategies that reduce peak demand
- Ensure freight can move efficiently
- Strengthen connections from population clusters to job and economic activity centers

Protect and Preserve the Human and Natural Environment

- Protect cultural, natural, and historic resources
- Enhance communities' quality of life through infrastructure and design choices
- Incorporate environmental resource considerations early in the planning process
- Minimize adverse impacts from construction and use

Efficiently Deliver the Right Projects

- Reduce user costs
- Maintain sustainable funding
- Improve analytic capabilities to maximize the value of investments
- Fairly distribute transportation benefits and costs

Invest in People

- Value our employees
- Communicate effectively with customers
- Be accountable and transparent in decision-making
- Solicit feedback from the public and stakeholders
- Inform the public and stakeholders on costs, funding, and investment tradeoffs
- Improve coordination with all planning partners and stakeholders
