**Jefferson-Orange-Hardin Regional Transportation Study (JOHRTS)
Transportation Planning Committee (TPC)
Resolution adopting the Conformity Determination for the
JOHRTS FY 2007 METROPOLITAN TRANSPORTATION PLAN – 2030 and the JOHRTS FY
2006-2008 REVISED JOHRTS TRANSPORTATION IMPROVEMENT PROGRAM and the
JOHRTS FY 2008 – 2011 "Draft" TRANSPORTATION IMPROVEMENT PROGRAM**

Conformity determination for The JOHRTS FY 2007 Metropolitan Transportation Plan – 2030 (MTP-2030) and the JOHRTS FY 2006 – 2008 Revised Transportation Improvement Program (TIP) and the FY 2008 – 2011 "Draft" Transportation Improvement Program. The JOHRTS FY 2007 Metropolitan Transportation Plan has met the requirements for Volatile Organic Compound (VOC) and Nitrogen Oxide (NOx) reductions set forth in the Environmental Protection Agency's (EPA) final rule on conformity. The JOHRTS FY 2006 – 2008 Revised Transportation Improvement Program and the JOHRTS FY 2008 – 2011 "Draft" Transportation Improvement Program has been developed from the projects included in the conforming JOHRTS FY 2007 Metropolitan Transportation Plan -2030. As such, the JOHRTS FY 2006 – 2008 Revised Transportation Improvement Program and the JOHRTS FY 2008 – 2011 "Draft" has met the requirements for the VOC and NOx reduction set forth in the EPA final rule on conformity.

Therefore, the JOHRTS FY 2007 MTP-2030 and the JOHRTS FY 2006 – 2008 Revised TIP, and the JOHRTS FY 2008 – 2011 "Draft" TIP:

- (i) are consistent with the most recent estimates of mobile source emissions, and
- (ii) with respect to ozone and carbon monoxide nonattainment areas, contribute to annual emissions reductions consistent with the 1990 Clean Air Act Amendments (CAAA) Sections 182(b)(1) and 187(a)(7).

It is therefore shown that the South East Texas Regional Planning Commission Metropolitan Planning Organization's JOHRTS FY 2007 MTP-2030, the JOHRTS FY 2006-2008 Revised TIP and the JOHRTS FY 2008 – 2011 "Draft" TIP are in conformity under the 1990 CAAA.

Beamon Minton, Commissioner, Orange County
"Acting" Chairperson, JOHRTS Transportation Planning Committee

John Barton, P.E. District Engineer
Texas Department of Transportation – Beaumont District

Introduction

Photo courtesy of Marc Shepherd

The South East Texas Regional Planning Commission (SETRPC) was designated as the Metropolitan Planning Organization (MPO) for Jefferson, Orange, and Hardin Counties by the Governor of Texas in 1974. Therefore, the SETRPC-MPO provides a decision-making forum for southeast Texas that is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process. The main purpose of the SETRPC-MPO is to develop and maintain all transportation plans for the Jefferson Orange Hardin Regional Transportation Study (JOHRTS) area.

The SETRPC-MPO's short-range transportation plan is the Transportation Improvement Program (TIP), which presents the various highway and transit projects that are expected to be let for construction or implementation within the next four years. With the passage and implementation of the recent transportation legislation, Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), the TIP is expanded to now include four years of projects and programs for construction and/or implementation. All regional transportation projects and programs are required to be identified and prioritized in the TIP; in order to be eligible for Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) funds.

Given that the JOHRTS area is considered a marginal ozone nonattainment area, the TIP must also conform to federal air quality standards, and therefore the SETRPC-MPO coordinates with federal, state, and local agencies in order to attain these standards. One requirement is to revise the TIP every two years as part of the regional air quality conformity analysis – consequently, the existing JOHRTS FY 2006-2008 Revised TIP is replaced with the JOHRTS FY 2008-2011 TIP.

In accordance with 23 CFR 450.334, the Texas Department of Transportation (TxDOT) and the SETRPC-MPO are to certify that the transportation planning process addresses the major issues in the JOHRTS area and complies with federal regulations. This certification is provided as Attachment 2.

TIP Structure

The JOHRTS FY 2008 - 2011 TIP is the short-range implementation portion of the *Metropolitan Transportation Plan* (MTP).¹ Developed through coordinated federal, state, and local efforts, the MTP

¹ A detailed explanation of the MTP structure is found in Chapter 1 of the JOHRTS 2007 MTP – 2030.

incorporates all regional transportation projects and programs that are expected to be completed within the next 20-25 year period.

For the TIP, the SETRPC-MPO is required to conduct public involvement activities during TIP developments and updates. These revisions must also be reviewed and adopted by the JOHRTS Transportation Planning Committee (TPC), the MPO's policy committee that ensures that all transportation plans and programs are consistent with the goals and objectives for the JOHRTS area.

The JOHRTS FY 2008-2011 TIP contains the following items required for receiving federal and state funding: a constrained project listing and financial plan. The TIP project listing is also divided into the following six components:

- Federally Funded Highway Projects
- Federally Funded Transit Projects
- State Funded Highway Projects
- Locally Funded Regionally Significant Projects
- Right-of-Way and Environmental Studies
- Feasibility Studies

JOHRTS Area Description

The JOHRTS area consists of Jefferson, Orange, and Hardin Counties in southeast Texas. Urban areas in the region include the Cities of Beaumont, Port Arthur, Orange, Port Neches, Groves, Nederland, Taylor Landing, Bridge City, West Orange, Pinehurst, Pine Forest, Bevil Oaks, Rose Hill Acres, China, Nome, Vidor, Rose City, Silsbee, Kountze, Lumberton, and Sour Lake.

Population

With the first release of Census 2000 data, the population of the JOHRTS region totaled to 385,090 persons; with 252,051 persons in Jefferson County, 84,966 persons in Orange County, and 48,073 persons in Hardin County. The percent change between the 1990 and 2000 Census shows that Hardin County had the largest increase with a 16.3% growth in population; while Jefferson and

METROPOLITAN TRANSPORTATION PLAN

Orange Counties had a 5.3% and 5.5% growth respectively.² Future population forecasts show an increased growth for Orange and Hardin Counties, while Jefferson County is expected to show a relatively constant population growth.

Employment and Industry

The economy of the JOHRTS region primarily consists of industries and other basic employment sector types. However, employment forecasts show that basic sector employment is expected to decrease slightly in southeast Texas. In contrast, retail and service employment sectors have improved within the last few years, and are expected to increase in the future.³

Currently, the JOHRTS area has the following types of industries: petrochemical operations; port facilities and maritime shipping operations; marine construction and repair; railway operations and railcar repair facilities; forestry; correctional facilities; agriculture; sand, salt, sulphur, and gravel mining.

Land Use

Commercial and industrial regions are the predominant land uses in the urbanized areas. The surrounding fringes of the urban areas contain large tracts of typically detached single-family households. The urban areas also have large concentrations of retail malls, shopping centers, car dealerships, medical facilities, and other related services. The rural land uses consist primarily of agriculture, aquaculture, and forestry uses. Small residential developments and industrial operations are also scattered throughout the rural areas in the region.

Federal and State Requirements

In August 2005, Congress enacted the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU). SAFETEA-LU builds upon the principles, values, and achievements of ISTEA and TEA-21 to create a safer, simpler, and smarter program for improving the safety of the surface transportation system. SAFETEA-LU is designed to preserve funding flexibility; simplify programs and continue efforts for streamlining project delivery; and make the programs smarter by expanding financing options,

² Source: Census 2000 data tables provided by the Texas State Data Center, July 2002.

³ Detailed information on population and employment is located in Chapter 2 of the 2007 JOHRTS MTP – 2030.

encouraging private sector participation, and increase oversight and accountability of public fund expenditures.

The JOHRTS FY 2008-2011 TIP incorporates the federal policies and regulations stated in SAFETEA-LU, including public involvement, fiscal responsibility, consideration of SAFETEA-LU planning factors, and adherence to state air quality implementation plans. The JOHRTS FY 2008-2011 TIP also adheres to state regulations that mandate compliance with the Americans with Disabilities Act (ADA).

SAFETEA-LU Planning Factors

All transportation projects and programs must address the SAFETEA-LU planning factors; in order to provide a safe, energy-efficient, and environmentally sound movement of persons and goods on the regional transportation system. These planning factors consist of:

- ❖ Support the economic vitality of the United States, the States and metropolitan areas, especially by enabling global competitiveness, productivity, and efficiency
- ❖ Increase the safety of the transportation system for motorized and nonmotorized users
- ❖ Increase the security of the transportation system for motorized and nonmotorized users
- ❖ Increase the accessibility and mobility of people and for freight
- ❖ Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns
- ❖ Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight
- ❖ Promote efficient system management and operation and
- ❖ Emphasize the preservation of the existing transportation system.

TIP Financial Summary

Transportation legislation mandates fiscal responsibility in the preparation of all transportation plans and programs. In particular, the TIP is required to include a financial summary (see Attachment 1) that outlines the source and amount of expected funds for all submitted projects. FHWA and FTA funding requirements also mandate that all highway and transit projects receiving federal, state, or locally-significant funding be identified and prioritized in the TIP. A project may not be included in the TIP if full funding cannot be reasonably anticipated before the project is let for construction or implementation.

Public Involvement

The SETRPC-MPO develops and maintains the *Public Participation Plan (PPP)*, which provides the public an opportunity to contribute ideas and voice opinions on the preparation of all transportation plans and programs. The JOHRTS PPP complies with SAFETEA-LU and includes the Title VI Environmental Justice (EJ) principles on providing opportunities for potentially disadvantaged persons to participate in the planning process.⁴

As part of developing and updating the TIP, the SETRPC-MPO is required by federal regulations (23 CFR §1410.212, §1410.316, and §1410.324) to provide the following public involvement activities (which are also listed in the JOHRTS PPP).

For TIP Amendments or Updates:

- All TIP amendments and updates require a thirty-day public review and comment period
- Formal public meetings are required when non-exempt projects are added to or deleted from the TIP.

For New TIP Developments:

- The JOHRTS TIP must contain the current public participation process for TIP developments and revisions
- Mandatory public meetings are held during the development of a new TIP, and EJ criteria must be considered when planning these meetings.

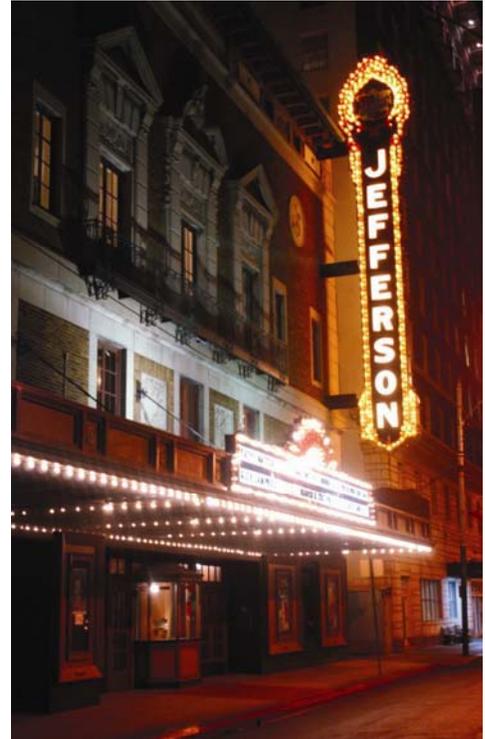

Photo courtesy of the Beaumont Conventions and Visitors Bureau

Air Quality Standards

In southeast Texas, the petrochemical facilities, power plants, automobiles, and vegetation produce volatile organic compound (VOC) and nitrogen oxide (NO_x) emissions that contribute to the formation of ozone, a harmful gas that degrades the quality of the air and damages the atmosphere. The JOHRTS area currently produces enough VOC and NO_x emissions that exceed National Ambient Air Quality Standards (NAAQS) for ozone levels, and consequently the JOHRTS area is classified as a marginal nonattainment area for ozone.

The 1990 Clean Air Act Amendments (CAAA) require that nonattainment areas adopt a structured planning approach with milestone years for attaining federal clean air standards; including a 2007 attainment deadline for reducing ozone emissions to permissible levels. As a result, the SETRPC-MPO promotes the development of transportation projects and programs that reduce VOC and NO_x emissions and therefore decreases the formation of ozone.

⁴ The JOHRTS PPP was approved by the JOHRTS TPC on February 1, 2007 after a 45-day public comment period and a series of public meetings. The JOHRTS PPP is included in the JOHRTS 2007 MTP – 2030 as Appendix A.

Americans with Disabilities Act

The SETRPC-MPO also promotes projects and programs that provide quality transportation services to disabled persons in southeast Texas (for example, paratransit services and pedestrian improvements). South East Texas Transit (SETT) intends to purchase at least one paratransit vehicle each year, and anticipates a modest increase in operating funds between 2008 and 2011 to accommodate increased demand for its services.

Beaumont Municipal Transit (BMT) and Port Arthur Transit (PAT) will continue to enhance their

paratransit services. Capital purchases for paratransit services in the JOHRTS area include BMT's purchase of an alternative-fueled paratransit van and the replacement of six PAT paratransit vehicles. Both BMT and PAT will consider replacing or purchasing paratransit vehicles upon receiving additional transit funds from the FTA.

TIP Project Selection Process

Project Sources:

The TIP Project Selection Process (PSP) is considered a subset of the JOHRTS Project Selection Process, which is a coordinated effort between the SETRPC-MPO and regional agencies to identify and prioritize projects during each four-year MTP cycle.⁵ All non-exempt projects are included in the MTP conformity analysis, and therefore, projects submitted into the TIP can only be selected from the following sources:

- From *last fiscal year's* projects of the previous TIP
- Projects that have not let for construction can also be advanced from earlier fiscal years of the previous TIP (as long as they remain within the same MTP network year)
- Projects from the financially constrained component of the MTP and to maintain validity of the conformity analysis must remain within the same MTP network year
- From the Texas Department of Transportation's (TxDOT) ten-year *Unified Transportation Program* (UTP), including environmental and feasibility studies. Added-capacity type projects however, must be included in the financially constrained component of the MTP and to maintain conformity validation must remain within the same MTP network year
- Additional *exempt projects* from local governments, transit agencies, and other member agencies (see Attachment 4 for a listing on types of exempt projects).

⁵ A detailed description of the JOHRTS PSP can be found in Appendix C of the 2007 JOHRTS MTP – 2030.

Selection Criteria:

All selected projects need to be in compliance with the current JOHRTS MTP conformity determination, and also satisfy the following criteria:

- Be consistent with the JOHRTS area long-range goals as defined in the current MTP
- Have a committed match-funding source and cost estimate by the project sponsor
- Federal and state-funded projects must be located on a TxDOT / FHWA approved functional classification system
- Classified as an exempt project under 40 CFR §93.126-27.

Submittal Content:

Projects that are selected during a TIP update or through quarterly revisions need to include the following information:

- MPO Project ID (identification) number
- Control-Section-Job (CSJ) number
- Project name / location and limits
- Brief description of project
- Funding category and number
- Project costs (includes federal, state, local, and contributions funds)
[Also list federal and state funds that are apportioned by different funding sources]
- Model network year (list exempt projects as “XX”)
- Let and Revision dates
- Project phase (if available).

Amendments:

TIP revisions are typically conducted on a quarterly basis by either adding conforming MTP or exempt projects or modifying existing projects in the TIP (23 CFR §1410.326). Changes that **require** a TIP revision include:

- Adding federally funded projects

-
- Adding regionally significant state funded projects
 - Modifying project costs that exceed 50% of the total cost
 - Changes to project limits or scope of work for federally funded projects
 - Changing the funding source of the project
 - Changes in grantees for FTA 5310 projects.

Changes that **do not require** a TIP revision include:

- Updating TxDOT's CSJ number for the project
- Updating the project's let date however, to maintain validity of the conformity analysis, this date change must not affect the MTP network
- Modifying project costs that are less than 50% of total cost
- Changes to project limits or scope of work for a state funded project for exempt projects **and** that do not affect the MTP network for maintaining conformity validation
- Modifying the project cost estimate without altering the limits or scope
- Moving a project from one state funding category to another.

Project Listing Information

Control-Section-Job Number

A project identification number assigned by TxDOT for projects included in the UTP or their Project Development Program.

Project ID Number

The MPO's assigned project identification number for the database tracking of all transportation projects listed in the JOHRTS MTP and TIP. The following information provides a description of the Project ID numbers (with the first five digits as a constant identifier for project tracking, while the last three digits may be modified during the PSP).

Columns 1 & 2 (94026-F15) list the year a project was first submitted into the MTP Project Selection Process.

Columns 3, 4, & 5 (94026-F15) represent a sequential number during the submittal year (number assigned to the project from the MPO's key list).

Column 6 (94026-F15) identifies the primary funding source of the project: Federal [F], State [S], Local [L], and Transit [T].

Columns 7 & 8 (94026-F15) reveal the network year for the projected completion of the project. Exempt projects that are not modeled are coded as 'XX'. Although a project that includes adding a continuous left turn lane is considered exempt, these projects are able to be modeled and may have a network year noted.

Funding Category

Refer to Attachment 3 for a description of the funding categories used to classify federal and state funding of transportation projects and programs.

Let and Revision Dates

For database tracking of project readiness and funding capabilities. The Let Date determines when a project or program is ready for construction or implementation, while the Revision Date marks when a project or program is adopted into the state's short-range implementation plan.

Phase

Describes the current development phase(s) of a transportation project or program: Preliminary Engineering [E], Right of Way Acquisition [R], Construction [C], and Transfer [T].

Exempt Projects

As previously mentioned, certain transportation plans and projects can be categorized as "Exempt" if they meet the criteria listed in Attachment 4. Therefore in the project listings, an "E" is placed next to these plans and projects that are considered exempt in this TIP (whether they are eligible for the transportation networks or not).

Previous TIP Progress

Completed Projects:

- 27th Street @ Helena Avenue – Improve intersection
- Main Avenue from Gulfway Drive to SH 73 – Overlay roadway surface and improve shoulders
- Jade Avenue Extension from FM 365 to Spur 93 Phase I - Construct new two-lane facility from Spur 93 south 0.5 miles
- 23rd Street from College Street to Washington Blvd. – Reconstruct roadway and add continuous left turn lane
- New Southeast Texas Regional Visitor Information Center
- Delaware Street from Dowlen Road to Major Drive – Construct four lane divided facility
- IH-10 from Neches River to DeWitt Road – Widen freeway from four to six lanes
- Phelan Boulevard from FM 364 to West of Westbrook High School – Widen roadway to four lanes
- Beauxart Garden Road from US 69 to Holmes Road – Widen roadway to four lanes with continuous left turn lane.

Roadway Rehabilitation

- FY 2006 District-wide Seal Coat Program
- FM 421 from US 69 to US 96 – Add left turn lane and overlay roadway
- SH 87 from 16th Street to BU 90Y – Rehab roadway
- US 96 from BU 96F to 1.5 Miles South – Overlay roadway
- US 69 from BNSF RR to Sulphur Plant Rd. – Install median barrier
- FM 1442 from 0.1 Miles North of FM 105 to 3.4 Miles South – Overlay roadway
- SH 62 from Newton Co. Line to FM 2802 – Mill and overlay roadway
- US 69 from 4.5 Miles N of FM 421 to 0.2 Miles North of FM 421 – Add left turn lane and overlay roadway
- US 69 from 1.3 Miles North of Cypress Creek to 1 Mile South of Cypress Creek – Overlay roadway
- SH 87 from Newton Co. Line to IH-10 – Overlay roadway
- SH 124 from FM 364 to 6.4 Miles South – Overlay roadway
- SH 326 from 2.7 Mi N of Jefferson Co Line to 4.2 Mi S of Hardin Co Line – Overlay roadway
- FM 92 from FM 1122 to FM 418 – Overlay roadway
- IH-10 from Chambers Co Line to 0.6 Mi East of FM 365 – Plane and overlay roadway
- IH- 10 from 0.4 Mi E of SH 62 to Little Cypress Creek – Install median barrier
- BU 96F from BNSF RR to Lindsey Dr. – Mill and overlay roadway
- IH-10 at Brooks Rd. – Overlay roadway
- FM 1132 from FM 105 to SH 12 – Overlay roadway
- FM 364 from 0.1 Mi N of IH 10 to SH 124 – Overlay roadway
- FM 365 from 1.3 Mi W of Spur 93 to Spur 93 – Overlay roadway
- FM 418 from US 69 to FM 92 – Rehab roadway
- US 69 from IH-10 to Tram Rd – Mill and overlay roadway
- US 69 from Spurlock Rd. to 39th Street – Mill and overlay roadway
- SH 73 from SH 82 to 0.2 Mi East of FM 366 – Repair pavement and overlay
- IH-10 at US 69 N Interchange – Replace armor joints
- IH-10 from Walden Rd. to 2.3 Mi East – Overlay roadway
- SH 62 from FM 105 to SH 87 – Rehab roadway
- SH 124 from 0.1 Mi South of FM 365 to SH 73 - Rehab roadway
- US 69 from Village Creek to FM 418 – Rehab roadway and add shoulders
- SH 327 from 2.3 Mi West of BU 96F to BU 96F – Resurface roadway
- IH-10 at SH 62 – Mill and overlay roadway
- SH 73 from Bridge City to 0.2 Mi E of FM 366 – Rehab roadway
- IH-10 at Boyt Rd. and Smith Rd. – Overlay roadway
- FM 787 from FM 1293 to FM 770 – Overlay roadway
- SH 105 from 0.5 miles West of SH 326 to 0.4 miles East – Rehab roadway
- SH 105 from 0.8 miles West of SH 326 to 0.3 miles East – Rehab roadway
- IH-10 from Womack Road to SH 87 (frontage roads) – Overlay roadway
- BU 90Y from IH-10 to SH 87 – Mill and overlay roadway
- FM 92 from Tyler County Line to FM 1122 – Mill and overlay roadway

- SH 326 from SH 105 to UP Railroad Overpass – Mill and overlay roadway
- Pearl Street from College Street to Calder Avenue – Resurface roadway.

Current Projects:

The previous TIP projects that are currently under construction or implementation, and are categorized by the following general project types:

Added Roadway Capacity

- FM 364 from Humble Road to IH-10 – Reconstruct from two to four lanes with continuous left turn lane
- IH-10 from DeWitt Road to FM 105 – Widen freeway from four to six lanes
- IH-10 from FM 105 to East of KCS Railroad – Widen freeway from four to six lanes
- US 69 from SH 347 to Spurlock Rd. – Add frontage roads to highway.

New Roadway Facilities

- US 69 from Airport Road to Nederland Avenue – Construct new two lane frontage road.

Roadway Rehabilitation

- FY 2007 District-wide Seal Coat Program
- SH 12 from Evangeline Lane to Newton County Line – Pavement repair and overlay
- SH 105 Liberty County Line to FM 770 – Restore roadway
- SH 62 from FM 2802 to 4.6 miles South – Rehab roadway
- FM 787 from FM 787 to 6 miles East – Restore roadway and add shoulders
- FM 365 from SH 124 to Garner Road – Overlay roadway
- FM 365 from Sun Avenue to near KCS Railroad – Add continuous left turn lane
- US 90 at Bond Road – Construct left turn lanes
- FM 365 at LaBelle Road – Construct left turn lanes
- SH 87 from SH 82 to Southern Pacific Railroad – Mill and overlay roadway
- FM 365 from Garner Road to Rodair Gully – Mill and overlay roadway.

Surface Transportation Safety Improvements

- FM 421 from 4.7 miles East of SH 326 to US 69 – Minor roadway widening
- US 69 from SH 347 to FM 365 – Install Concrete Safety Barriers
- US 69 from 0.3 miles South of Dowlen Road to IH-10 – Install safety cable barrier
- US 69 from Sulphur Plant Road to SH 347 – Install safety cable barrier
- FM 1131 from Jasper County Line to 3.9 miles South – Minor roadway widening
- FM 1130 from FM 1136 to SH 62 – Minor roadway widening
- FM 1130 from FM 1136 to SH 62 – Replace box culverts.

Bicycle and Pedestrian Improvements

- Western Avenue at West Orange Elementary and Intermediate – Construct sidewalks
- Thomas Boulevard from Houston Avenue to Lee Avenue – Construct sidewalks.

Bridge Improvements

- CR 437 at Jackson Creek – Replace bridge
- CR 115 at Dry Creek – Replace bridge
- Durdin St. at Drain - Replace bridge
- SH 87 at Intracoastal Bridge – Repair steel beams
- SH 82 at MLK Bridge – Repair steel beams.

Planned Projects:

The previous TIP projects that are planned for construction or implementation, and are categorized by the following general project types:

Added Roadway Capacity

- Main Avenue from SH 73 to 39th Street – Reconstruct to two lanes with continuous left turn lane.

MPO SELF-CERTIFICATION

In accordance with 23 CFR Part 450.334 and 450.220 of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users, the Texas Department of Transportation, and the South East Texas Regional Planning Commission Metropolitan Planning Organization for the Jefferson, Orange, Hardin Regional Transportation Study Area hereby certify that the transportation planning process is addressing the major issues in the metropolitan planning area and is being conducted in accordance with all applicable requirements of:

- (1) 23 U.S.C. 134, 49 U.S.C. 5303, and this subpart;
- (2) In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- (3) Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- (4) 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- (5) Section 1101(b) of the SAFETEA-LU (Pub. L. 109-59) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in USDOT funded projects;
- (6) 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- (7) The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, and 38;
- (8) The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- (9) Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender; and
- (10) Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities.

FUNDING CATEGORIES

The following categories are being developed as part of the new 2002 Unified Transportation Plan by the Texas Department of Transportation (TxDOT). These categories are useful in assigning federal and state funds to particular transportation construction and implementation projects in accordance with the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA) and the Transportation Equity Act for the 21st Century (TEA-21).

- 1** **Consolidated Rehabilitation:** rehabilitation and preventative maintenance of the existing state highway system, including the Interstate Highway main lanes, frontage roads, and structures; along with all signs, pavement markings, and striping.
- 2** **Metropolitan Area Corridor Projects:** added capacity and other mobility projects on major state highway system corridors that serve the mobility needs of MPOs in Transportation Management Areas (TMA).
- 3** **Urban Area Corridor Projects:** added capacity and other mobility projects on major state highway system corridors that serve the mobility needs of non-TMA MPOs in Urban Areas.
- 4** **Statewide Connectivity Corridor Projects:** added capacity and other mobility projects on major state highway system corridors that serve the mobility needs of statewide connectivity between urban and metropolitan areas.
- 5** **Congestion Mitigation Air Quality:** addresses attainment of national ambient air quality standards in current non-attainment areas, and restricts funding towards any projects that add capacity for single-occupant vehicles.
- 6** **Consolidated Structures Rehabilitation:** replacement or rehabilitation of eligible bridges on and off the state highway system, and railroad grade crossings and underpasses along the state highway system.
- 7** **STP Metropolitan Mobility & Rehabilitation:** various transportation needs within metropolitan area boundaries that are selected by the TMA-classified MPO.*
- 8** **STP Safety:** includes both safety-related projects based on accident data and installation of automatic railroad warning devices at selected railroad crossings on and off the state highway system.*
- 9** **STP Enhancements:** includes projects above and beyond typical transportation improvements; recommended by local government entities and selected by the Transportation Commission.*
- 10** **Miscellaneous:** various projects including construction and rehabilitation of roadways within and adjacent to state parks and wildlife refuges; landscaping development projects such as right-of-way development, rest and picnic area

development, and environmental mitigation activities; and remaining railroad crossing surfaces and automatic device maintenance needs.

- 11** **District Discretionary:** various projects on the state highway system selected at the district's discretion, and also off system urban and rural mobility projects in coordination with the MPO.
- 12** **Strategic Priority:** Commission-selected projects that promote economic development, provide system continuity with adjoining states and Mexico, and address other various strategic needs.
- FTA 5307** Federal grant funds for transit projects in urbanized areas with a population of 50,000 or more persons; for Beaumont Municipal Transit and Port Arthur Transit.**
- FTA 5309** Discretionary grant funding program that is available to regional transit agencies from the TxDOT state offices about every 2-3 years.**
- FTA 5310** Federal grant funds available to regional transit agencies to provide transportation services to the elderly and disabled (paratransit service).**
- FTA 5311** State transit funds provided to rural transit providers (under 50,000 population); for South East Texas Transit.**

* Denotes Surface Transportation Program (STP) projects

** Denotes Federal Transit Administration

EXEMPT PROJECT CRITERIA

This attachment provides a table of projects and programs that are considered exempt from being submitted as part of a transportation conformity determination analysis. The following criteria describe the exemption status for these types of projects and programs.

40 CFR Part 93: Transportation Conformity Rule

§93.126 Exempt Projects

“Notwithstanding the other requirements of this subpart, highway and transit projects of the types listed in Table 2 are exempt from the requirement that a conformity determination be made. Such projects may proceed toward implementation even in the absence of a conforming transportation plan and TIP. A particular action of the type listed in Table 2 is not exempt if the MPO in consultation with other agencies (see §93.105(c)(1)(iii)), the EPA, and the FHWA (in the case of a highway project) or the FTA (in case of a transit project) concur that it has potentially adverse emissions impacts for any reason. States and MPOs must ensure that exempt projects do not interfere with TCM implementation.”

Table 2. Exempt Projects

SAFETY

Railroad/highway crossing
 Hazard elimination program
 Safer non-Federal-aid system roads
 Shoulder improvements
 Increasing sight distance
 Safety improvement program
 Traffic control devices and operating assistance other than signalization projects
 Railroad/highway crossing warning devices
 Guardrails, median barriers, crash cushions
 Pavement resurfacing and/or rehabilitation
 Pavement marking demonstration
 Emergency relief (23 U.S.C.125)
 Fencing
 Skid treatments
 Safety roadside rest areas
 Adding medians
 Truck climbing lanes outside the urbanized area
 Lighting improvements
 Widening narrow pavements or reconstructing bridges (no additional travel lanes)
 Emergency truck pullovers

MASS TRANSIT

Operating assistance to transit agencies
 Purchase of support vehicles
 Rehabilitation of transit vehicles¹
 Purchase of office, shop, and operating equipment for existing facilities
 Purchase of operating equipment for vehicles (e.g., radios, fireboxes, lifts, etc.)
 Construction or renovation of power, signal, and communications systems

Construction of small passenger shelters and information kiosks
 Reconstruction or renovation of transit buildings and structures (e.g., rail or bus buildings, storage and maintenance facilities, stations, terminals, and ancillary structures)
 Rehabilitation or reconstruction of track structures, track, and tracked in existing rights-of-way
 Purchase of new buses and rail cars to replace existing vehicles or for minor expansions of the fleet¹
 Construction of new bus or rail storage/maintenance facilities categorically excluded in 23 CFR 771

AIR QUALITY

Continuation of ride-sharing and vanpooling promotion activities at current levels
 Bicycle and pedestrian facilities

OTHER

Specific activities which do not involve or lead directly to construction, such as:

- Planning and technical studies
- Grants for training and research programs
- Planning activities conducted pursuant to titles 23 and 49 U.S.C.
- Federal-aid systems revisions

Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to the action

Noise attenuation

Advance land acquisition (23 CFR 712 or 23 CFR 771)

Acquisition of scenic easements

Plantings, landscaping, etc.

Sign removal

Directional and informational signs

Transportation enhancement activities (except rehabilitation and operation of historic transportation buildings, structures, or facilities)

Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity changes

¹In PM₁₀ nonattainment or maintenance areas, such projects are exempt only if they are in compliance with control measures in the applicable implementation plan.

§93.127 Projects Exempt from Regional Emissions Analysis

“Notwithstanding the other requirements of this subpart, highway and transit projects of the types listed in Table 3 are exempt from regional emissions analysis requirements. The local effects of these projects with respect to CO or PM₁₀ concentrations must be considered to determine if a hot-spot analysis is required prior to making a project-level conformity determination. Such projects may then proceed to the project development process even in the absence of a conforming transportation plan and TIP. A particular action of the type listed in Table 3 is not exempt if the MPO in consultation with other agencies (see §93.105(c)(1)(iii)), the EPA, and the FHWA (in the case of a highway project) or the FTA (in case of a transit project) concur that it has potential regional impacts for any reason.”

Table 3. Projects Exempt from Regional Emissions Analysis

Intersection channelization projects

Intersection signalization projects at individual intersections
Interchange reconfiguration projects
Changes in vertical and horizontal alignments
Truck size and weight inspection stations
Bus terminals and transfer points

§93.128 Traffic Signal Synchronization Projects

“Traffic signal synchronization projects may be approved, funded, and implemented without satisfying the requirements of this subpart. However, all subsequent regional emissions analyses required by §93.118 and §93.119 for all transportation plans, TIPs, or projects not from a conforming plan and TIP must include such regionally significant traffic signal synchronization projects.”
