FY 2008-2011 Transportation Improvement Program

Approved By Transportation
Policy Committee
April 25th, 2007

Metropolitan Planning Organization
Wichita Falls | Pleasant Valley | Lakewood City

Wichita Falls Metropolitan Planning Organization

FY 2008 – FY 2011 Transportation Improvement Program

**Prepared by:
Wichita Falls Metropolitan Planning Organization**

Participating Agencies:

**City of Wichita Falls
City of Pleasant Valley
City of Lakeside City
Texas Department of Transportation
Wichita Falls Transit System**

In cooperation with:

**U.S. Department of Transportation
Federal Highway Administration
Federal Transit Administration**

Public Meeting Dates: April 4, 2007; April 17, 2007; April 25, 2007

Approved by Transportation Policy Committee: April 25, 2007

Amended by Transportation Policy Committee:

INTRODUCTION

The United States Department of Transportation through the Federal Highway Administration and the Federal Transit Administration requires the development of a Transportation Improvement Program (TIP). The TIP identifies transportation improvement projects which have evolved from a continual, comprehensive, and cooperative planning process and are in the Wichita Falls 2005-2030 Metropolitan Transportation Plan.

A. PURPOSE

SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) requires that the metropolitan transportation planning process include the development of a Transportation Improvement Program (TIP). The TIP provides a short-range planning document that coordinates the transportation projects of the City of Wichita Falls, City of Pleasant Valley, City of Lakeside City Wichita County, the Texas Department of Transportation, and the Wichita Falls Transit System within the Metropolitan Planning Area. SAFETEA-LU (Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users) was enacted on August 10, 2005 and requires the Metropolitan Planning Organizations (MPO) to provide for consideration of projects and strategies that will serve to advance eight (8) transportation planning factors:

Support Economic Vitality of the metropolitan area, especially by enabling global, competitiveness, productivity, and efficiency.

Both short and long range planning process and projects support the economic vitality of the MPO area by improving transportation infrastructure. Projects such as the Kell West Main Lanes will enhance accessibility and safety to ensure efficient movement of people and goods. The nearing completion of the Falls Flyover will open a new venue for retail, commercial and housing developments as well as allowing for more efficient movement of traffic throughout the central portion of the City.

Increase safety of transportation system for motorized and non-motorized users.

Safety of the transportation system is a high priority in the Metropolitan Planning Area. During the update of the 2005-2030 Metropolitan Transportation Plan, the MPO devised a new MPO Identification Legend that would help the reader understand and locate projects intended for safety. The Falls Flyover Interchange will include the latest innovations in safety for motorists as it becomes a part of the Kell and Central Freeway system. Dynamic Message Signs were installed, in two locations on Central Freeway, several years ago to warn motorists of any unsafe conditions they might encounter.

Street improvement projects take into account the proper cross sections that include curb and gutter as well as sidewalks and possible bicycle lanes. Additionally, Intelligent Transportation System (ITS) projects will improve the performance and the operation and maintenance of the transportation network providing increased security and safety as well as efficiency. Rehabilitation projects such as the Safe Routes to School projects will also provide increased security and safety for both motorized and non-motorized users.

Increase the security of transportation system for motorized and non-motorized users.

After the events of September 11, 2001, the Federal Transit Administration has undertaken a series of major steps to help the transit industry counter terrorist threats. As part of this initiative, the FTA developed the top 20 security program action items for transit agencies. As a means to implement these security programs, Wichita Falls Transit System and Transportation Planning work together to insure all 20 security program action items have been addressed.

Intelligent Transportation System (ITS) and Safe Routes to School projects will also provide increased security for both motorized and non-motorized users.

Increase the accessibility and mobility of people and freight.

The essential movement of goods and products as freight cargo is often considered a region's lifeline. Ideally, a robust freight transportation system should rely on a variety of modes to ensure system flexibility. The development of intermodal networks requires preserving connections between modes (road/rail) and cooperation between local intermodal agencies and transportation providers. The implementation of the North American Free Trade Agreement (NAFTA) has also emphasized the development of a transportation plan that meets present and future intermodal transportation needs in the Wichita Falls MPO region.

The 2005-2030 Wichita Falls Metropolitan Transportation Plan targets improvements to intermodal facilities as a major objective under the goal of increasing economic vitality in the region. The Wichita Falls MPO area is well served by an intermodal network composed of truck routes, railroads and rail yards, and airports. The Wichita Falls MPO area truck network provides a vital link between airports, rail yards and trucking centers. This network is maintained by preserving arterial and freeway corridors at acceptable service levels to ensure connectivity between the various intermodal facilities. The WFMPO region also has major truck service facilities along US 287 in Jolly, Texas and at the intersection of Old Jacksboro Hwy. (Loop 473) and US 281/287.

Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns.

An effective transportation system provides the basis for activities surrounding national parks, recreation areas, and historic sites. The MPO has always promoted accessibility to these areas and will continue to look at addressing these needs through the identification of projects that will best serve these facilities.

WFMPO will continue to promote the development of a transportation system that minimizes the degradation of fragile ecosystems, recreational areas, and other valuable natural resources in the WFMPO region.

WFMPO will continue to support the design and construction of transportation projects that adhere to high environmental standards. Such projects should reduce soil erosion, control sediment runoff, assist in floodplain management, protect watersheds, and enhance natural, historic, cultural and recreational resources within the region.

The Wichita Falls MPO is presently in attainment for all air quality categories. If any of the MPO area is classified as non-attainment in the future, this Plan will be revised to include

projects that will reduce vehicle emissions.

Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight.

The Kell Freeway System (Falls Flyover and West Main Lanes) will improve the connectivity of the transportation system by creating direct access from West US 82/277 to Interstate 44/US 281/287 at its completion. The completion of the Falls Flyover will create a nexus of route connectivity from East to West and North to South thus decreasing traffic and congestion on US 281/287/277/82 and IH-44. The extension of Loop 11 north to Airport Road will allow greater access to the recently developed shopping center west of IH-44 including the new Wal-Mart North. Phase 1 and 2 of the Maplewood extension will greatly benefit retail businesses that are currently being built near Lawrence Road.

Promote efficient system management and operation.

This goal centers on improving person and goods movement within the existing transportation system. There are a number of projects that have taken place and will continue to take place in order to reduce the number and length of stop delays associated with vehicular traffic. Traffic light synchronization systems were implemented in order to reduce vehicle stops and delays leading to savings in fuel consumption and lost time.

The MPO will continue to encourage initiatives that promote transit and other transportation modes as alternatives to the single occupancy vehicle and to promote operational efficiency through the use of technological improvements. WFMPO will continue to support measures that reduce traffic congestion and peak hour travel demand.

Emphasize the preservation of the existing transportation system.

This goal focuses on optimizing the existing system while accommodating present and future transportation needs without constructing expensive new transportation facilities. This will help improve system reliability, enhance safety, and reduce operating costs.

Improvement projects to rehabilitate the existing transportation system are one of the MPO's highest priorities. The existing transportation infrastructure is of utmost importance in order to continue providing a safe and reliable system. One goal of the MPO is to provide funding to continue the maintenance and operational enhancements to the existing street network. Another goal is operational improvements that will increase traffic flow and capacities.

The MPO will give priority to projects that improve the condition of the existing transportation system or upgrade existing transportation facilities; improve junctions between transportation modes and discourage improvements that create unnecessary increases in travel demand.

B. DEFINITION OF AREA

The Wichita Falls Metropolitan Planning Organization encompasses the eastern portion of Wichita County, which includes the City of Wichita Falls and Pleasant Valley, and a small portion of Archer County, which includes Lakeside City. The MPO area contains 150.01 square miles.

The population of Wichita Falls was 99,846 according to the U.S. Census Bureau estimates for 2005. Wichita County was estimated to have a 2005 population of 125,894. In contrast, the 2000 U.S. Census indicated the City of Wichita Falls Metropolitan Statistical Area (MSA) to be 140,518. The City of Lakeside City had an estimated 2005 population of 1,032 while the City of Pleasant Valley had an estimated 2005 population of 374.

C. PUBLIC INVOLVEMENT

The FY 2008-2011 TIP was developed in accordance with the Public Involvement Policy of the Wichita Falls MPO. The public involvement component of the TIP process provides an opportunity for concerned residents to provide input, voice concerns and priorities regarding proposed roadway and public transportation projects.

The Public Involvement Policy requires two or more public meetings to be held to present the Transportation Improvement Program. At least one of these meetings shall be held a minimum of 10 days prior to the adoption of the program. Amendments to the Transportation Improvement Program updating or adjusting amounts of listed projects, let dates, project numbers and similar amendments will not require approval by the Transportation Policy Committee following concurrence by TxDOT.

The Transportation Policy Committee (TPC) for the Wichita Falls Metropolitan Planning Organization will adopt a Public Participation Plan for the Wichita Falls Metropolitan Planning Organization prior to July 1, 2007. The policy will include the following requirements for the development of the TIP:

The Public Participation Plan requires a public comment period of 30 days prior to the meeting at which the Transportation Policy Committee approves the Transportation Improvement Plan. The TIP will be posted on the MPO's website 30 days prior to the same meeting.

Legal Notices of all the transportation planning public meetings will be published prior to the adoption of the new 4-year Transportation Improvement Program (TIP). Legal Notices will be published in the daily local newspaper *Times Record News* and the Spanish language publication *Fronteras*. To ensure an opportunity for all interested parties to review and comment on the TIP, the MPO has developed an extensive email list that includes Federal, State, Tribal and Local agencies and all interested parties, including stakeholders and citizens, as discussed in Methods and Strategies of the Public Participation Plan. Additionally, the TIP is posted on the WFMPPO's website at www.wfmpo.com and www.wfmpo.org for people to view.

D. PROJECT SELECTION PROCESS

The approved Transportation Improvement Program shall be utilized for programming projects within the metropolitan area. Any projects listed in the first year of the approved Transportation Improvement Program shall be considered in the first priority and may be implemented as soon as plans are completed and funds are appropriated. Should any project not be implemented from the first priority, then projects should be selected from the second year which shall be considered the second priority, and, those projects may be implemented as plans are completed and funds are appropriated. Projects in the third and fourth years will follow this same procedure. This procedure was developed in cooperation with the Texas Department of Transportation, Wichita Falls Transit System, and Wichita

Falls MPO. See Section 134 (h) (2) of Title 23 U.S.C. as amended.

E. PROGRESS FROM PREVIOUS YEARS

The following projects were implemented, scheduled for letting, or designed during FY 2005 and/or FY 2006. For updates regarding highway and street projects, please refer to the Annual Project Listing which can be found on the Wichita Falls MPO website at www.wfmmpo.com or www.wfmmpo.org or by requesting a copy from the WFMPO, 2100 Seymour Hwy., Wichita Falls, Texas 76301, via email through the above websites or by calling (940) 761-7450. The MPO may also provide progress updates during Transportation Advisory (TAC) and Transportation Policy (TPC) committee meetings throughout the year. Minutes of these meetings are also provided on the website.

Project Name	Project Limits	Description	Estimated Cost
IH 44	At Maurine Street Overpass	Landscaping	\$67,600
Loop 473	At US 82 Overpass	Landscaping	\$91,834
Loop 473	At Holliday Road	Channelization	\$61,244
US 82	Kemp St. to US 287	Improve Guardrail	\$45,100
US 82	At Fairway Blvd.	Safety Lighting at Intersection	\$28,140
US 82	0.5 Miles W. of Fairway Blvd to Fairway Blvd.	Safety Lighting	\$36,477
IH 44	Near Bacon Switch Rd. and East Rd.	Safety Illumination	\$103,170
City Street	Cypress Ave. at Drainage Ditch	Replace Bridge & Approaches	\$229,132
US 82	US 82 at US 281	Falls Flyover Interchange	\$16,896,955
US 82	US 82 at US 281	Falls Flyover Interchange	\$9,214,769
BUS 287J	At Galveston Street	Install Traffic Signals & Flashing Beacons	\$99,943
IH 44	BUS 277A Exit Ramp to 6 th Street	Preventive Maintenance & Rehabilitation	\$281,050
US 287	8 th Street to 6 th Street	Preventive Maintenance & Rehabilitation	\$281,050
BUS 287J	Loop 11 to 0.3 Miles W. of IH 44	Widen Structures	\$57,679
US 287	0.2 Miles S. of SH 240 to 1.2 Miles S. of SH 240	Install Traffic Signals & Flashing Beacons	\$63,724
US 82	At US 82 & Galveston Street	Install Traffic Signals & Flashing Beacons	\$65,823
Spur 479	US 287/IH 44 to Broad Street	Preventive Maintenance & Rehabilitation	\$140,525
BUS 277A	Baylor Street to US 287/IH 44	Preventive Maintenance & Rehabilitation	\$140,525
FM 367	0.3 Miles E. of FM 1814 to 1.9 Miles E. of FM 1814	Preventive Maintenance & Rehabilitation	\$230,000

F. AIR QUALITY ISSUES

The Clean Air Act Amendments of 1990 have significantly impacted transportation activities. The impacts include a conformity analysis on all transportation programs, including the TIP, as well as statewide penalties if non-attainment areas do not meet national ambient air quality standards by the designated years for their areas.

The City of Wichita Falls is currently listed as "Attainment" in all categories.

G. AMERICANS WITH DISABILITIES ACT

All projects considered for funding, regardless of the source, will include provisions for the meeting the needs of the disabled. The Cities of Wichita Falls, Pleasant Valley and Lakeside City, Wichita County, the Texas Department of Transportation and the Wichita Falls Transit System continue their efforts to identify and aid the disabled in their mobility needs.

All public transportation buses purchased by the City of Wichita Falls are wheelchair-lift equipped and fully accessible to the mobility impaired.

GLOSSARY FOR PROJECT LISTINGS

CS	City Street
CSJ	Control Section Job Number – TXDOT assigned number for projects entered into the Project Development Program (PDP).
PHASE	Project Phase – for Federal Funding (C=Construction, E=Engineering, ROW=Right of Way Acquisition, and T=Transfer)
MPO ID	MPO Project Identification Number – A number assigned by the MPO for local project identification. For use in relating projects to the Metropolitan Transportation Plan.

FUNDING CATEGORY – TxDOT category of funding used to fund the project.

1. Preventive Maintenance and Rehabilitation
2. Metropolitan Area Corridor Projects
3. Urban Area Corridor Projects
4. Statewide Connectivity Corridor Projects
5. Congestion Mitigation and Air Quality Improvement
6. Structures Replacement and Rehabilitation
7. Metropolitan Mobility/Rehabilitation
8. Safety
9. Transportation Enhancements
10. Supplemental Transportation Projects
11. District Discretionary
12. Strategic Priority

Grouped Project CSJ

WFS MPO ID	Proposed CSJ	Grouped Project Category	Definition and Funding
PE	5000-00-950	Preliminary Engineering	Preliminary Engineering for any project that is not added capacity in a non-attainment area. Includes activities which do not involve or lead directly to construction such as planning and technical studies, grants for training and research programs.
RW	5000-00-951	Right of Way Acquisition	Right of Way acquisition for any project that is not added capacity in a non-attainment area. Includes relocation assistance, hardship acquisition and protective buying.
PM	5000-00-952 5000-00-957 5000-00-958	Preventive Maintenance and Rehabilitation	Projects to include pavement repair to preserve existing pavement so that it may achieve its designed loading. Includes seal coats, overlays, resurfacing, restoration and rehabilitation done with existing ROW. Also includes modernization of a highway by reconstruction, adding shoulders or adding auxiliary lanes (e.g., parking, weaving, turning, climbing, non-added capacity).
BR	5000-00-953	Bridge Replacement and Rehabilitation	Projects to replace and/or rehabilitate functionally obsolete or structurally deficient bridges.
RR	5000-00-954	Railroad Grade Separations	Projects to construct or replace existing highway-railroad grade crossings and to rehabilitate and/or replace deficient railroad underpasses, resulting in no added capacity.
SF	5800-00-950	Safety	Projects to include the construction or replacement/rehabilitation of guard rails, median barriers, crash cushions, pavement markings, skid treatments, medians, lighting improvements, railroad/highway crossing warning devices, fencing, intersection improvements (e.g., turn lanes), signalization projects and interchange modifications. Also includes projects funded via the Federal Hazard Elimination Program and the Federal Railroad Signal Safety Program.
LD	5000-00-956	Landscaping	Project consisting of typical right of way landscape development, establishment and aesthetic improvements to include any associated erosion control and environmental mitigation activities.
ITS	5800-00-915	Intelligent Transportation Systems Deployment	Highway traffic operation improvement projects including the installation of ramp metering control devices, variable message signs, traffic monitoring equipment and projects in the Federal ITS/IVHS programs.
B/P	5000-00-916	Bicycle and Pedestrian	Construction or rehabilitation of bicycle and pedestrian lanes, paths and facilities.
TWS	5000-00-917	Safety Rest Areas and Truck Weigh Stations	Construction and improvement of rest areas and truck weigh stations.
TI	5000-00-918	Transit Improvements	Projects include the construction and improvement of small passenger shelters and information kiosks. Also includes the construction and improvement of rail storage/maintenance facilities bus transfer facilities here minor amounts of additional land are required and there is not a substantial increase in the number of users.

FEDERALLY FUNDED HIGHWAY PROJECTS

FY 2008-2011 Wichita Falls Metropolitan Area Transportation Improvement Plan

MPO ID	LETTING	HIGHWAY	PROJECT LISTING
TX16	9/1/2007	LP 11	IH 44 to US 287 Frontage Road
TX11	9/1/2008	US 62	New Location Non-Freeway Facility 0.7 miles West of FM 369 to 0.2 miles West of Fairway (Kell Freeway)
TX20	4/1/2009	FM 690	Convert Non-Freeway to Freeway - Construct Main Lanes SP 325 to SH 240
TX39	4/1/2009	FM 690	Widening of a Non-Freeway Facility - Widen to 4-Lane Divided Facility IH 44 to SP 325
