INTRODUCTION

The City of Victoria was first designated as the fiscal agent for the Victoria Metropolitan Planning Organization (MPO) in February 1982. The original decision-making body of the MPO was the Victoria Urban Transportation Planning Committee (VUTPC), which was composed of state, county, and city officials. It was charged with the task of being:

"...cooperatively responsible for the performance of the planning process including transportation systems plans developed as a part of the planning process; ensure proper coordination of transportation modes and between sub-areas; cooperatively establish transportation needs; and propose projects from all transportation modes for recommendation to those governmental units responsible for program development and project implementation."

[State Department of Highways and Public Transportation Minute Order No. 76787, dated 20 February 1980]

The current transportation bill, Moving Ahead for Progress in the 21st Century (MAP-21), continues to establish the metropolitan planning process as a cooperative, continuous, and comprehensive framework for making transportation investment decisions in metropolitan areas. The Transportation Improvement Program (TIP), a multi-year program of projects approved for funding, is one aspect of the metropolitan planning process.

PURPOSE

The Transportation Improvement Program (TIP) is a short-range list of federally funded transportation projects within the metropolitan planning area boundary. The document covers a period of four years and is updated every two years. As required by the Moving Ahead for Progress in the 21st Century Act (MAP-21), the TIP was developed in coordination with the Texas Department of Transportation (TxDOT) and local transit providers.

Under MAP-21, the MPO must consider projects and strategies that will meet the following eight factors, which are taken into account in TIP project selection:

1. Support the economic vitality of the metropolitan area, especially by enabling global competitiveness, productivity, and efficiency;
2. Increase the safety of the transportation system for motorized and nonmotorized users;
3. Increase the security of the transportation system for motorized and nonmotorized users;
4. Increase the accessibility and mobility of people and for freight;
5. Protect and enhance the environment, promote energy conservation, improve the quality of life, and promote consistency between transportation improvements and State and local planned growth and economic development patterns;
6. Enhance the integration and connectivity of the transportation system, across and between modes, for people and freight;
7. Promote efficient system management and operation, and;
8. Emphasize the preservation of the existing transportation system.

DEFINITION OF AREA

The Victoria MPO's Metropolitan Area Boundary coincides with the Victoria County line; the boundary was amended to include the entire county in 1994. The MPO Urban Area Boundary (UAB) roughly coincides with the city limits of Victoria. The City of Victoria is the only urbanized area and incorporated community within the study area.

PUBLIC INVOLVEMENT PROCESS

The Victoria MPO developed its current Public Participation Plan (PPP) in compliance with the requirements specified in MAP-21. Citizens are involved in the planning process in accordance with this plan. The PPP was adopted by the Victoria MPO Policy Advisory Committee on February 12, 2013.

A public review and comment period lasts at least 30 days prior to the Policy Advisory Committee's approval of the TIP. A notice of the review and comment period is advertized in the local newspaper and through the MPO's mailing list a minimum of 72 hours in advance. The plan is made available in the MPO's office and online. Any public comments are accepted by the MPO staff in person or by email, phone, or fax. Any significant comments made in this period shall be summarized in the final TIP and a report is made at the Policy Advisory Committee meeting prior to the approval of the plan. The public also has an opportunity to speak to the Policy Advisory Committee at their meeting before their approval of the plan.

PROJECT SELECTION PROCESS

The Victoria metropolitan area is among the smallest populations designated to be served by an MPO in the state of Texas. As a result, much reliance is placed on the expertise of the Texas Department of Transportation (TXDOT) during the project selection process. The TxDOT Yoakum District Office and the Victoria Area Office have historically determined how funding is allocated among potential project candidates within the county, pending approval from the Victoria MPO Policy Advisory Committee. The main objective of the Policy Advisory Committee is determining community consensus regarding the utilization of funds extended to the MPO.
