Appendix D

Projects Undergoing Environmental Assessment

The purpose of Appendix D is to identify projects that are undergoing preliminary engineering and environmental analysis (PE/EA) consistent with early project development. The Federal Highway Administration allows these projects to be referenced in the current Transportation Improvement Program in order to facilitate the feasibility and PE/EA phases.

This Appendix also contains projects that are scheduled for implementation beyond the four years of the TIP time frame, and it in no way implies that these projects are programmed in the TIP. Cost estimates are preliminary and do not represent any commitment of construction funding. Projects listed in Appendix D will include, at a minimum, CSJ Number, MPO ID number, county, TxDOT district, sponsoring entity, street name, project limits, project description, estimated let date and preliminary project cost.
