

C.R.A.S.H. 2011 Demo Sessions

Free demonstrations on the new C.R.A.S.H. component of CRIS will be held as noted below. Each demo will go over the functions of the on-line component which will allow officers to complete crash information via the secure, public internet. The C. R. A. S. H. component will generate the CR-3.

All demos will be presented through WebEx. You can access the WebEx from any computer that has internet access, so no travel is required.

However, you must contact Margo McCormick (see bottom of page) so that you are signed up to receive the passcode and URL via email on the day of the demo.

Below is the list of dates and times. All time are Central Standard.
