Section 2C.05 Placement of Warning Signs ............................................................................... 110
Section 2C.06 Horizontal Alignment Warning Signs ................................................................... 110
Section 2C.07 Horizontal Alignment Signs (W1-1 through W1-5, W1-11, W1-11T, W1-15) ............ 111
Section 2C.08 Advisory Speed Plaque (W13-1P) ........................................................................ 113
Section 2C.09 Chevron Alignment Sign (W1-8) ......................................................................... 115
Section 2C.10 Combination Horizontal Alignment/Advisory Speed Signs (W1-1a, W1-2a) .............. 116
Section 2C.11 Combination Horizontal Alignment/Intersection Signs (W1-10 Series) .................. 116
Section 2C.12 One-Direction Large Arrow Signs (W1-6, W1-9T) ................................................. 116
Section 2C.13 Truck Rollover Warning Sign (W1-13) ................................................................... 117
Section 2C.14 Advisory Exit and Ramp Speed Signs (W13-2 and W13-3) ..................................... 117
Section 2C.15 Combination Horizontal Alignment/Advisory Exit and Ramp Speed Signs (W13-6 and W13-7) .......................................................................................................................... 117
Section 2C.15A ON RAMP Plaque (W13-4P) ............................................................................. 118
Section 2C.16 Hill Signs (W7-1, W7-1a) ...................................................................................... 118
Section 2C.17 Truck Escape Ramp Signs (W7-4 Series) ................................................................. 118
Section 2C.18 HILL BLOCKS VIEW Sign (W7-6) .......................................................................... 118
Section 2C.19  ROAD NARROWS Sign (W5-1) ................................................................. 120
Section 2C.20  NARROW BRIDGE Sign (W5-2) .......................................................... 120
Section 2C.20A LOAD ZONED BRIDGE Sign (W12-5T) ............................................... 121
Section 2C.21  ONE LANE BRIDGE Sign (W5-3) .......................................................... 121
Section 2C.22  Divided Highway Sign (W6-1, W6-1aT) .................................................. 121
Section 2C.23  Divided Highway Ends Sign (W6-2, W6-2aT) ........................................ 122
Section 2C.24  Freeway Ends Signs (W19 Series) ......................................................... 122
Section 2C.25  Double Arrow Sign (W12-1) ................................................................. 122
Section 2C.26  DEAD END/NO OUTLET/ROAD ENDS Signs (W14-1, W14-1a, W14-1T, W14-2, W14-2a) ................................................................. 122
Section 2C.27  Low Clearance Signs (W12-2 and W12-2a) ........................................... 123
Section 2C.28  BUMP and DIP Signs (W8-1, W8-2) ....................................................... 124
Section 2C.29  SPEED HUMP Sign (W17-1) ................................................................. 124
Section 2C.30  PAVEMENT ENDS Sign (W8-3) .............................................................. 124
Section 2C.31  Shoulder Signs (W8-4, W8-9, W8-9aT, W8-17, W8-23, and W8-25) .... 124
Section 2C.33  Warning Signs and Plaques for Motorcyclists (W8-15, W8-15P, and W8-16) ................................................................. 127
Section 2C.34  NO CENTER LINE Sign (W8-12) ............................................................. 127
Section 2C.35  Weather Condition Signs (W8-18, W8-18aT, W8-18bT, W8-19, W8-19aTP, W8-21, W8-22, and W17-14T) .................................................. 127
Section 2C.36  Advance Traffic Control Signs (W3-1, W3-2, W3-3, W3-4) .................... 128
Section 2C.37  Advance Ramp Control Signal Signs (W3-7 and W3-8) ......................... 128
Section 2C.38  Reduced Speed Limit Ahead Sign (W3-5) ............................................. 129
Section 2C.39  DRAW BRIDGE Sign (W3-6) ................................................................. 129
Section 2C.40  Merge Signs (W4-1, W4-5, W4-1aT) ..................................................... 129
Section 2C.41  Added Lane Signs (W4-3, W4-6) ............................................................... 130
Section 2C.42  Lane Ends Signs (W4-2, W9-1, W9-2T) ................................................ 130
Section 2C.43  RIGHT (LEFT) LANE EXIT ONLY AHEAD Sign (W9-7) DELETED. .......... 131
Section 2C.44  Two-Way Traffic Sign (W6-3) ............................................................... 131
Section 2C.44A Two-Way Traffic on a Three Lane Roadway Sign (W6-3aT) .................. 131
Section 2C.45  NO PASSING ZONE Sign (W14-3) ......................................................... 131
Section 2C.46  Intersection Warning Signs (W2-1 through W2-8) ................................. 131
Section 2C.46A Highway Intersection Ahead Sign (W2-1aT) ......................................... 132
Section 2C.46B TRAFFIC ISLANDS AHEAD Sign (W2-6aT) ........................................ 132
Section 2C.47  Two-Direction Large Arrow Sign (W1-7, W1-7T) ............................... 132
Section 2C.48  Traffic Signal Signs (W25-1, W25-2) ....................................................... 133
Section 2C.50  Non-Vehicular Warning Signs (W11-2, W11-3, W11-4, W11-6, W11-7, W11-9, and W11-16 through W11-22) ...................................................... 134
Section 2C.51  Playground Sign (W15-1) ................................................................. 135
Section 2C.52  NEW TRAFFIC PATTERN AHEAD Sign (W23-2) ................................. 136
Section 2C.53  Use of Supplemental Warning Plaques .................................................. 136
Section 2C.54  Design of Supplemental Warning Plaques ........................................... 137
Section 2C.55  Distance Plaques (W16-2 Series, W16-3 Series, W16-4P, W7-3aP) ..... 137
Section 2C.56  Supplemental Arrow Plaques (W16-5P, W16-6P) .................................. 137
Section 2C.57  Hill-Related Plaques (W7-2 Series, W7-3 Series) ..................................... 137
Section 2C.58  Advance Street Name Plaque (W16-8P, W16-8aP) ............................... 137
Section 2C.59  CROSS TRAFFIC DOES NOT STOP Plaque (W4-4P) ......................... 138
Section 2C.60  SHARE THE ROAD Plaque (W16-1P) .................................................. 138
Section 2C.61  Photo Enforced Plaque (W16-10aP) ...................................................... 139
Section 2C.62  NEW Plaque (W16-15P) ................................................................. 139
Section 2D.01 Scope of Conventional Road Guide Sign Standards ........................................ 143
Section 2D.02 Application .................................................................................................. 143

Section 2D.36 Destination and Distance Signs ................................................................. 162
Section 2D.37 Destination Signs (D1 Series) .................................................................. 162
Section 2D.38 Destination Signs at Circular Intersections ................................................ 164
Section 2D.39 Destination Signs at Jughandles ................................................................. 165
Section 2D.40 Location of Destination Signs .................................................................. 165
Section 2D.41 Distance Signs (D2 Series) ...................................................................... 165
Section 2D.42 Location of Distance Signs ....................................................................... 168
Section 2D.43 Street Name Signs (D3-1 or D3-1a) ............................................................ 168
Section 2D.44 Advance Street Name Signs (D3-2) .......................................................... 170
Section 2D.45 Signing on Conventional Roads on Approaches to Interchanges ............ 171
Section 2D.46 Freeway Entrance Signs (D13-3 and D13-3a) .......................................... 173
Section 2D.47 Parking Area Guide Sign (D4-1) ............................................................... 178
CHAPTER 2E  GUIDE SIGNS—FREEWAYS AND EXPRESSWAYS

Section 2E.01  Scope of Freeway and Expressway Guide Sign Standards.................................................. 189
Section 2E.02  Freeway and Expressway Signing Principles ........................................................................ 189
Section 2E.03  Guide Sign Classification .................................................................................................... 189
Section 2E.04  General .................................................................................................................................. 190
Section 2E.05  Color of Guide Signs ........................................................................................................... 190
Section 2E.06  Retroreflection or Illumination ............................................................................................. 190
Section 2E.07  Characteristics of Urban Signing .......................................................................................... 190
Section 2E.08  Characteristics of Rural Signing ............................................................................................. 191
Section 2E.08A  Information Provided by Freeway Signing .......................................................................... 191
Section 2E.09  Signing of Named Highways ................................................................................................. 192
Section 2E.10  Amount of Legend on Guide Signs ...................................................................................... 192
Section 2E.11  Number of Signs at an Overhead Installation and Sign Spreading ........................................ 192
Section 2E.12  Pull-Through Signs (E6-2, E6-2a) .......................................................................................... 193
Section 2E.13  Designation of Destinations ................................................................................................ 193
Section 2E.14  Size and Style of Letters and Signs ...................................................................................... 193
Section 2E.15  Interline and Edge Spacing .................................................................................................. 195
Section 2E.16  Sign Borders ......................................................................................................................... 195
Section 2E.17  Abbreviations ....................................................................................................................... 197
Section 2E.18  Symbols .................................................................................................................................. 197
Section 2E.19  Arrows for Interchange Guide Signs ..................................................................................... 197
Section 2E.20  Signing for Option Lanes at Splits and Multi-Lane Exits ..................................................... 198
Section 2E.20A  Design of Overhead Down Arrow Guide Signs for Option Lanes ........................................ 198
Section 2E.21  Design of Overhead Arrow-per-Lane Guide Signs for Option Lanes ...................................... 198
Section 2E.22  Design of Freeway and Expressway Diagrammatic Guide Signs for Option Lanes .............. 204
Section 2E.23  Signing for Intermediate and Minor Interchange Multi-Lane Exits with an Option Lane .... 210
Section 2E.24  Signing for Interchange Lane Drops ..................................................................................... 210
Section 2E.24A  Signing for a Single Left Lane Exit ...................................................................................... 214
Section 2E.25  Overhead Sign Installations ................................................................................................ 214
Section 2E.26  Lateral Offset ....................................................................................................................... 214
Section 2E.27  Route Signs and Trailblazer Assemblies ................................................................................. 219
Section 2E.28  Eisenhower Interstate System Signs (M1-10, M1-10a) .......................................................... 220
Section 2E.29  Signs for Intersections at Grade ............................................................................................ 220
Section 2E.30  Interchange Guide Signs ....................................................................................................... 220
Section 2E.31  Interchange Exit Numbering ................................................................................................ 220
Section 2E.32  Interchange Classification ..................................................................................................... 225
Section 2E.33  Advance Guide Signs ........................................................................................................... 226
Section 2E.34  Next Exit Plaques ................................................................................................................ 226
Section 2E.35  Other Supplemental Guide Signs ........................................................................................ 227
Section 2E.36  Exit Direction Signs ............................................................................................................. 228
Section 2E.37  Exit Gore Signs (E5-1 Series) ................................................................................................. 230
CHAPTER 2F  TOLL ROAD SIGNS
Section 2F.01  Scope ........................................... 249
Section 2F.02  Sizes of Toll Road Signs .................. 249
Section 2F.03  Use of Purple Backgrounds and Underlay Panels with ETC Account Pictographs 250
Section 2F.04  Size of ETC Pictographs ........................ 250
Section 2F.05  Regulatory Signs for Toll Plazas ............... 250
Section 2F.06  Pay Toll Advance Warning Sign (W9-6) or Advance Toll Plaza Sign (E90-10T) .... 253
Section 2F.07  Pay Toll Advance Warning Plaque (W9-6P) .................................................. 254
Section 2F.08  Stop Ahead Pay Toll Warning Sign (W9-6a) or Pay Toll Cash Sign (E90-8T) .......................... 254
Section 2F.09  Stop Ahead Pay Toll Warning Plaque (W9-6aP) .................................................. 255
Section 2F.10  LAST FREE EXIT (W90-5TP) and FREE EXIT (W90-6TP) Warning Plaques 255
Section 2F.10A  TOLL Route Signs (M90 Series) and Auxiliary Signs (M3-1 through M3-4 and M6 Series) ........... 255
Section 2F.11  TOLL Auxiliary Sign (M4-15) .................. 255
Section 2F.12  Electronic Toll Collection (ETC) Account-Only Auxiliary Signs (M4-16 and M4-20) .... 256
Section 2F.13  Toll Facility and Toll Plaza Guide Signs – General .................................................. 256
Section 2F.14  Advance Signs for Conventional Toll Plazas .................................................. 271
Section 2F.15  Advance Signs for Toll Plazas on Diverging Alignments from Open-Road ETC Account-Only Lanes .................................................. 272
Section 2F.16  Toll Plaza Canopy Signs ........................ 273
Section 2F.17  Guide Signs for Entrances to ETC Account-Only Facilities ................................. 273
Section 2F.18  ETC Program Information Signs ............... 273

CHAPTER 2G  PREFERENTIAL AND MANAGED LANE SIGNS
Section 2G.01  Scope ........................................... 275
Section 2G.02  Sizes of Preferential and Managed Lane Signs .................................................. 275
Section 2G.03  Regulatory Signs for Preferential Lanes – General .................................................. 275
Section 2G.04  Preferential Lane Vehicle Occupancy Definition Regulatory Signs (R3-10 Series and R3-13 Series) ........... 281
Section 2G.05  Preferential Lane Periods of Operation Regulatory Signs (R3-11 Series and R3-14 Series) ... 284
Section 2G.06  Preferential Lane Advance Regulatory Signs (R3-12, R3-12e, R3-12f, R3-15, R3-15aT, and R3-15d) .................................................. 285
Section 2G.07  Preferential Lane Ends Regulatory Signs (R3-12a, R3-12b, R3-12c, R3-12d, R3-12g, R3-12h, R3-15b, R3-15bT, R3-15c, R3-15e, and R3-15gT) .................................................. 285
Section 2G.08  Warning Signs on Median Barriers for Preferential Lanes .................................................. 286
Section 2G.09 High-Occupancy Vehicle (HOV) Plaque (W16-11P) ................................................................. 287
Section 2G.10 Preferential Lane Guide Signs – General .................................................................................. 287
Section 2G.11 Guide Signs for Initial Entry Points to Preferential Lanes ...................................................... 291
Section 2G.12 Guide Signs for Intermediate Entry Points to Preferential Lanes ........................................... 291
Section 2G.13 Guide Signs for Egress from Preferential Lanes to General-Purpose Lanes ............................ 295
Section 2G.14 Guide Signs for Direct Entrances to Preferential Lanes from Another Highway .................. 298
Section 2G.15 Guide Signs for Direct Exits from Preferential Lanes to Another Highway ........................... 298
Section 2G.16 Signs for Priced Managed Lanes – General ............................................................................. 299
Section 2G.17 Regulatory Signs for Priced Managed Lanes ......................................................................... 302
Section 2G.18 Guide Signs for Priced Managed Lanes .................................................................................. 302

CHAPTER 2H GENERAL INFORMATION SIGNS

Section 2H.01 Sizes of General Information Signs .......................................................................................... 318
Section 2H.02 General Information Signs (I Series) .......................................................................................... 318
Section 2H.03 Traffic Signal Speed Sign (I1-1) .................................................................................................. 319
Section 2H.04 Miscellaneous Information Signs ...DELETED............................................................................ 320
Section 2H.05 Reference Location Signs (D10-1 through D10-3) and Intermediate Reference Location Signs (D10-1a through D10-3a) ............................................................................................................. 320

Section 2H.05A Texas Reference Marker System ............................................................................................ 322
Section 2H.06 Enhanced Reference Location Signs (D10-4, D10-5) ................................................................. 322
Section 2H.07 Auto Tour Route Signs ...DELETED.......................................................................................... 323
Section 2H.08 Acknowledgment Signs ............................................................................................................ 323

CHAPTER 2I GENERAL SERVICE SIGNS

Section 2I.01 Sizes of General Service Signs .................................................................................................. 325
Section 2I.02 General Service Signs for Conventional Roads ........................................................................... 326
Section 2I.03 General Service Signs for Freeways and Expressways ................................................................ 328
Section 2I.04 Interstate Oasis Signing ...DELETED.......................................................................................... 328
Section 2I.05 Rest Area and Other Roadside Area Signs .................................................................................. 331
Section 2I.06 Brake Check Area Signs (D5-12 and D5-14) ...DELETED.......................................................... 332
Section 2I.07 Chain-Up Area Signs (D5-15 and D5-16) ...DELETED.............................................................. 332
Section 2I.08 Tourist Information and Texas Travel Info Center Signs ............................................................. 332
Section 2I.09 Radio Information Signing ...DELETED..................................................................................... 333
Section 2I.10 TRAVEL INFO CALL 511 Signs (D12-5 and D12-5a) ................................................................. 333
Section 2I.11 Carpool and Ridesharing Signing ................................................................................................ 334

CHAPTER 2J SPECIFIC SERVICE (LOGO) SIGNS

Section 2J.01 Eligibility .................................................................................................................................... 335
Section 2J.02 Application ................................................................................................................................. 336
Section 2J.03 Logos and Logo Sign Panels ..................................................................................................... 336
Section 2J.04 Number and Size of Signs and Logo Sign Panels ....................................................................... 339
Section 2J.05 Size of Lettering ........................................................................................................................ 340
Section 2J.06 Signs at Interchanges ................................................................................................................ 340
Section 2J.07 Single-Exit Interchanges .......................................................................................................... 340
Section 2J.08 Double-Exit Interchanges ......................................................................................................... 341
Section 2J.09 Specific Service Trailblazer Signs ...DELETED........................................................................... 341
Section 2J.10 Signs at Intersections ...DELETED............................................................................................ 341
Section 2J.11 Signing Policy ............................................................................................................................ 341

CHAPTER 2K TOURIST-ORIENTED DIRECTIONAL SIGNS

Section 2K.01 Purpose and Application ........................................................................................................... 342
Section 2K.02 Design ....................................................................................................................................... 342
Section 2K.03 Style and Size of Lettering ........................................................................................................ 342
Section 2K.04 Arrangement and Size of Signs ................................................................................................ 344
Section 2K.05 Advance Signs ...DELETED..................................................................................................... 344
CHAPTER 3B PAVEMENT AND CURB MARKINGS
Section 3B.01 Yellow Center Line Pavement Markings and Warrants ........................................ 371
Section 3B.02 No-Passing Zone Pavement Markings and Warrants ........................................ 371
Section 3B.03 Other Yellow Longitudinal Pavement Markings .................................................. 376
Section 3B.04 White Lane Line Pavement Markings and Warrants .......................................... 378
Section 3B.05 Other White Longitudinal Pavement Markings .................................................... 392

PART 3 MARKINGS

CHAPTER 3A GENERAL
Section 3A.01 Functions and Limitations .................................................................................. 369
Section 3A.02 Standardization of Application ......................................................................... 369
Section 3A.03 Maintaining Minimum Pavement Marking Retroreflectivity ............................. 369
Section 3A.04 Materials ....................................................................................................... 369
Section 3A.05 Colors ......................................................................................................... 370
Section 3A.06 Functions, Widths, and Patterns of Longitudinal Pavement Markings ............... 370

CHAPTER 3B PAVEMENT AND CURB MARKINGS
Section 3B.01 Yellow Center Line Pavement Markings and Warrants ........................................ 371
Section 3B.02 No-Passing Zone Pavement Markings and Warrants ........................................ 371
Section 3B.03 Other Yellow Longitudinal Pavement Markings .................................................. 376
Section 3B.04 White Lane Line Pavement Markings and Warrants .......................................... 378
Section 3B.05 Other White Longitudinal Pavement Markings .................................................... 392

CHAPTER 2L CHANGEABLE MESSAGE SIGNS
Section 2L.01 Description of Changeable Message Signs ....................................................... 345
Section 2L.02 Applications of Changeable Message Signs ....................................................... 345
Section 2L.03 Legibility and Visibility of Changeable Message Signs ..................................... 346
Section 2L.04 Design Characteristics of Changeable Message Signs ...................................... 346
Section 2L.05 Message Length and Units of Information .......................................................... 348
Section 2L.06 Installation of Permanent Changeable Message Signs ..................................... 349

CHAPTER 2M RECREATIONAL AND CULTURAL INTEREST AREA SIGNS
Section 2M.01 Scope ............................................................................................................. 350
Section 2M.02 Application of Recreational and Cultural Interest Area Signs ........................... 350
Section 2M.03 Regulatory and Warning Signs ....................................................................... 350
Section 2M.04 General Design Requirements for Recreational and Cultural Interest Area Symbol Guide Signs ............................................................... 350
Section 2M.05 Symbol Sign Sizes ......................................................................................... 352
Section 2M.06 Use of Educational Plaques ............................................................................ 353
Section 2M.07 Use of Prohibitive Circle and Diagonal Slash for Non-Road Applications .......... 353
Section 2M.08 Placement of Recreational and Cultural Interest Area Symbol Signs .................. 354
Section 2M.09 Destination Guide Signs .................................................................................. 359
Section 2M.09A Traffic Generator Criteria ................................................................................ 361
Section 2M.10 Memorial or Dedication Signing ...................................................................... 362
Section 2M.11 Historical Marker Guide Signs ........................................................................ 363

CHAPTER 2N EMERGENCY MANAGEMENT SIGNING
Section 2N.01 Emergency Management ................................................................................. 364
Section 2N.02 Design of Emergency Management Signs ....................................................... 364
Section 2N.03 Evacuation Route Signs (EM-1 and EM-1aT) .................................................... 364
Section 2N.04 AREA CLOSED Sign (EM-2) .......................................................................... 366
Section 2N.05 TRAFFIC CONTROL POINT Sign (EM-3) ......................................................... 366
Section 2N.06 MAINTAIN TOP SAFE SPEED Sign (EM-4) ................................................... 367
Section 2N.07 ROAD (AREA) USE PERMIT REQUIRED FOR THRU TRAFFIC Sign (EM-5) .... 367
Section 2N.08 Emergency Aid Center Signs (EM-6 Series) .................................................... 367
Section 2N.09 Shelter Directional Signs (EM-7 Series) ........................................................... 368

December 2011
Section 3B.06  Edge Line Pavement Markings ................................................................. 393
Section 3B.07  Warrants for Use of Edge Lines ............................................................ 393
Section 3B.08  Extensions Through Intersections or Interchanges .............................. 393
Section 3B.09  Lane-Reduction Transition Markings ................................................. 396
Section 3B.10  Approach Markings for Obstructions ................................................ 398
Section 3B.11  Raised Pavement Markers – General ................................................ 398
Section 3B.12  Raised Pavement Markers as Vehicle Positioning Guides with Other Longitudinal Markings ......................................................... 401
Section 3B.13  Raised Pavement Markers Supplementing Other Markings .............. 401
Section 3B.14  Raised Pavement Markers Substituting for Pavement Markings ....... 402
Section 3B.15  Transverse Markings ....................................................................... 403
Section 3B.16  Stop and Yield Lines ........................................................................ 403
Section 3B.17  Do Not Block Intersection Markings ................................................ 404
Section 3B.18  Crosswalk Markings ....................................................................... 405
Section 3B.19  Parking Space Markings ................................................................... 407
Section 3B.20  Pavement Word, Symbol, and Arrow Markings .............................. 409
Section 3B.21  Speed Measurement Markings ........................................................... 415
Section 3B.22  Speed Reduction Markings ................................................................. 415
Section 3B.23  Curb Markings ................................................................................ 416
Section 3B.24  Chevron and Diagonal Crosshatch Markings .................................... 417
Section 3B.25  Speed Hump Markings .................................................................... 417
Section 3B.26  Advance Speed Hump Markings ...................................................... 417

CHAPTER 3C  ROUNDABOUT MARKINGS

Section 3C.01  General ...................................................................................... 421
Section 3C.02  White Lane Line Pavement Markings for Roundabouts ................ 435
Section 3C.03  Edge Line Pavement Markings for Roundabout Circulatory Roadways ............................................................ 435
Section 3C.04  Yield Lines for Roundabouts ............................................................ 435
Section 3C.05  Crosswalk Markings at Roundabouts ............................................. 435
Section 3C.06  Word, Symbol, and Arrow Pavement Markings for Roundabouts .... 435
Section 3C.07  Markings for Other Circular Intersections ...................................... 436

CHAPTER 3D  MARKINGS FOR PREFERENTIAL LANES

Section 3D.01  Preferential Lane Word and Symbol Markings ............................... 437
Section 3D.02  Preferential Lane Longitudinal Markings for Motor Vehicles .......... 438

CHAPTER 3E  MARKINGS FOR TOLL PLAZAS

Section 3E.01  Markings for Toll Plazas ................................................................. 445

CHAPTER 3F  DELINEATORS

Section 3F.01  Delineators ................................................................................. 446
Section 3F.02  Delineator Design ....................................................................... 446
Section 3F.03  Delineator Application ................................................................... 446
Section 3F.04  Delineator Placement and Spacing ................................................ 448

CHAPTER 3G  COLORED PAVEMENTS

Section 3G.01  General ...................................................................................... 450

CHAPTER 3H  CHANNELIZING DEVICES USED FOR EMPHASIS OF PAVEMENT

MARKING PATTERNS

Section 3H.01  Channelizing Devices ................................................................... 451

CHAPTER 3I  ISLANDS

Section 3I.01  General ...................................................................................... 452
Section 3I.02  Approach-End Treatment ............................................................... 452
Section 3I.03  Island Marking Application ............................................................. 452
CHAPTER 3J RUMBLE STRIP MARKINGS

Section 3J.01 Longitudinal Rumble Strip Markings
Section 3J.02 Transverse Rumble Strip Markings

PART 4 HIGHWAY TRAFFIC SIGNALS

CHAPTER 4A GENERAL

Section 4A.01 Types
Section 4A.02 Definitions Relating to Highway Traffic Signals

CHAPTER 4B TRAFFIC CONTROL SIGNALS—GENERAL

Section 4B.01 General
Section 4B.02 Basis of Installation or Removal of Traffic Control Signals
Section 4B.03 Advantages and Disadvantages of Traffic Control Signals
Section 4B.04 Alternatives to Traffic Control Signals
Section 4B.05 Adequate Roadway Capacity

CHAPTER 4C TRAFFIC CONTROL SIGNAL NEEDS STUDIES

Section 4C.01 Studies and Factors for Justifying Traffic Control Signals
Section 4C.02 Warrant 1, Eight-Hour Vehicular Volume
Section 4C.03 Warrant 2, Four-Hour Vehicular Volume
Section 4C.04 Warrant 3, Peak Hour
Section 4C.05 Warrant 4, Pedestrian Volume
Section 4C.06 Warrant 5, School Crossing
Section 4C.07 Warrant 6, Coordinated Signal System
Section 4C.08 Warrant 7, Crash Experience
Section 4C.09 Warrant 8, Roadway Network
Section 4C.10 Warrant 9, Intersection Near a Grade Crossing

CHAPTER 4D TRAFFIC CONTROL SIGNAL FEATURES

Section 4D.01 General
Section 4D.02 Responsibility for Operation and Maintenance
Section 4D.03 Provisions for Pedestrians
Section 4D.04 Meaning of Vehicular Signal Indications
Section 4D.05 Application of Steady Signal Indications
Section 4D.06 Signal Indications – Design, Illumination, Color, and Shape
Section 4D.07 Size of Vehicular Signal Indications
Section 4D.08 Positions of Signal Indications Within a Signal Face – General
Section 4D.09 Positions of Signal Indications Within a Vertical Signal Face
Section 4D.10 Positions of Signal Indications Within a Horizontal Signal Face
Section 4D.11 Number of Signal Faces on an Approach
Section 4D.12 Visibility, Aiming, and Shielding of Signal Faces
Section 4D.13 Lateral Positioning of Signal Faces
Section 4D.14 Longitudinal Positioning of Signal Faces
Section 4D.15 Mounting Height of Signal Faces
Section 4D.16 Lateral Offset (Clearance) of Signal Faces
Section 4D.17 Signal Indications for Left-Turn Movements – General
Section 4D.18 Signal Indications for Permissive Only Mode Left-Turn Movements
Section 4D.19 Signal Indications for Protected Only Mode Left-Turn Movements
Section 4D.20 Signal Indications for Protected/Permissive Mode Left-Turn Movements
Section 4D.21 Signal Indications for Right-Turn Movements – General ........................................ 496
Section 4D.22 Signal Indications for Permissive Only Mode Right-Turn Movements ......................... 497
Section 4D.23 Signal Indications for Protected Only Mode Right-Turn Movements .......................... 501
Section 4D.24 Signal Indications for Protected/Permissive Mode Right-Turn Movements .......... 503
Section 4D.25 Signal Indications for Approaches With Shared Left-Turn/Right-Turn Lanes and No
Through Movement .................................................................................................................. 506
Section 4D.26 Yellow Change and Red Clearance Intervals .................................................................. 507
Section 4D.27 Preemption and Priority Control of Traffic Control Signals ........................................ 511
Section 4D.28 Flashing Operation of Traffic Control Signals – General ........................................... 513
Section 4D.29 Flashing Operation – Transition Into Flashing Mode .................................................. 513
Section 4D.30 Flashing Operation – Signal Indications During Flashing Mode ................................. 514
Section 4D.31 Flashing Operation – Transition Out of Flashing Mode .............................................. 514
Section 4D.32 Temporary and Portable Traffic Control Signals ....................................................... 515
Section 4D.33 Lateral Offset of Signal Supports and Cabinets .......................................................... 515
Section 4D.34 Use of Signs at Signalized Locations ........................................................................ 516
Section 4D.35 Use of Pavement Markings at Signalized Locations .................................................... 516

CHAPTER 4E PEDESTRIAN CONTROL FEATURES
Section 4E.01 Pedestrian Signal Heads ......................................................................................... 517
Section 4E.02 Meaning of Pedestrian Signal Head Indications .......................................................... 517
Section 4E.03 Application of Pedestrian Signal Heads ................................................................. 517
Section 4E.04 Size, Design, and Illumination of Pedestrian Signal Head Indications ......................... 518
Section 4E.05 Location and Height of Pedestrian Signal Heads ....................................................... 519
Section 4E.06 Pedestrian Intervals and Signal Phases ..................................................................... 519
Section 4E.07 Countdown Pedestrian Signals ................................................................................ 521
Section 4E.08 Pedestrian Detectors .............................................................................................. 522
Section 4E.09 Accessible Pedestrian Signals and Detectors – General .......................................... 526
Section 4E.10 Accessible Pedestrian Signals and Detectors – Location ........................................... 527
Section 4E.11 Accessible Pedestrian Signals and Detectors – Walk Indications .............................. 527
Section 4E.12 Accessible Pedestrian Signals and Detectors – Tactile Arrows and Locator Tones ..... 529
Section 4E.13 Accessible Pedestrian Signals and Detectors – Extended Pushbutton Press Features 530

CHAPTER 4F PEDESTRIAN HYBRID BEACONS
Section 4F.01 Application of Pedestrian Hybrid Beacons .............................................................. 531
Section 4F.02 Design of Pedestrian Hybrid Beacons ..................................................................... 531
Section 4F.03 Operation of Pedestrian Hybrid Beacons ................................................................ 533

CHAPTER 4G TRAFFIC CONTROL SIGNALS FOR EMERGENCY-VEHICLE ACCESS
Section 4G.01 Application of Emergency-Vehicle Traffic Control Signals .................................... 535
Section 4G.02 Design of Emergency-Vehicle Traffic Control Signals .......................................... 535
Section 4G.03 Operation of Emergency-Vehicle Traffic Control Signals ....................................... 536
Section 4G.04 Emergency Vehicle Hybrid Beacons DELETED ....................................................... 536
Section 4G.05 Application of Emergency Vehicle Warning Beacon ............................................... 536

CHAPTER 4H TRAFFIC CONTROL SIGNALS FOR ONE-LANE, TWO-WAY FACILITIES
Section 4H.01 Application of Traffic Control Signals for One-Lane, Two-Way Facilities ................ 537
Section 4H.02 Design of Traffic Control Signals for One-Lane, Two-Way Facilities ...................... 537
Section 4H.03 Operation of Traffic Control Signals for One-Lane, Two-Way Facilities ................ 537

CHAPTER 4I TRAFFIC CONTROL SIGNALS FOR FREEWAY ENTRANCE RAMPS
Section 4I.01 Application of Freeway Entrance Ramp Control Signals .......................................... 538
Section 4I.02 Design of Freeway Entrance Ramp Control Signals .................................................. 538
Section 4I.03 Operation of Freeway Entrance Ramp Control Signals ............................................ 539
Section 5C.11 DEAD END or NO OUTLET Signs (W14-1, W14-1a, W14-2, W14-2a) ........................................... 561
Section 5C.12 NO TRAFFIC SIGNS Sign (W18-1) .................................................................................. 561
Section 5C.13 Other Warning Signs ...................................................................................................... 561
Section 5C.14 Object Markers and Barricades ....................................................................................... 561

CHAPTER 5D GUIDE SIGN
Section 5D.01 Introduction .................................................................................................................. 562

CHAPTER 5E MARKINGS
Section 5E.01 Introduction .................................................................................................................. 563
Section 5E.02 Center Line Markings ................................................................................................... 563
Section 5E.03 Edge Line Markings ...................................................................................................... 563
Section 5E.04 Delineators ................................................................................................................... 563
Section 5E.05 Other Markings ............................................................................................................. 563

CHAPTER 5F TRAFFIC CONTROL FOR HIGHWAY-RAIL GRADE CROSSINGS
Section 5F.01 Introduction .................................................................................................................. 564
Section 5F.02 Grade Crossing (Crossbuck) Sign and Number of Tracks Plaque (R15-1, R15-2P) ........ 564
Section 5F.03 Grade Crossing Advance Warning Signs (W10 Series) ................................................... 564
Section 5F.04 STOP and YIELD Signs (R1-1, R1-2) ............................................................................ 565
Section 5F.05 Pavement Markings ...................................................................................................... 565
Section 5F.06 Other Traffic Control Devices ....................................................................................... 565

CHAPTER 5G TEMPORARY TRAFFIC CONTROL ZONES
Section 5G.01 Introduction .................................................................................................................. 566
Section 5G.02 Applications .................................................................................................................. 566
Section 5G.03 Channelization Devices ................................................................................................. 566
Section 5G.04 Markings ...................................................................................................................... 567
Section 5G.05 Other Traffic Control Devices ....................................................................................... 567

CHAPTER 5H TRAFFIC CONTROL FOR SCHOOL AREAS
Section 5H.01 Introduction .................................................................................................................. 568

PART 6 TEMPORARY TRAFFIC CONTROL

CHAPTER 6A GENERAL
Section 6A.01 General ......................................................................................................................... 569

CHAPTER 6B FUNDAMENTAL PRINCIPLES
Section 6B.01 Fundamental Principles of Temporary Traffic Control .................................................. 571

CHAPTER 6C TEMPORARY TRAFFIC CONTROL ELEMENTS
Section 6C.01 Temporary Traffic Control Plans ................................................................................. 573
Section 6C.02 Temporary Traffic Control Zones .................................................................................. 574
Section 6C.03 Components of Temporary Traffic Control Zones ...................................................... 574
Section 6C.04 Advance Warning Area ............................................................................................... 574
Section 6C.05 Transition Area ............................................................................................................. 576
Section 6C.06 Activity Area .................................................................................................................. 577
Section 6C.07 Termination Area ......................................................................................................... 579
Section 6C.08 Tapers ........................................................................................................................... 579
Section 6C.09 Detours and Diversions ............................................................................................... 580
Section 6C.10 One-Lane, Two-Way Traffic Control ............................................................................ 580
Section 6C.11 Flagger Method of One-Lane, Two-Way Traffic Control .............................................. 581
Section 6C.12 Flag Transfer Method of One-Lane, Two-Way Traffic Control DELETED ................ 581
Section 6C.13 Pilot Car Method of One-Lane, Two-Way Traffic Control ........................................... 581

December 2011
CHAPTER 6D PEDESTRIAN AND WORKER SAFETY

Section 6D.01 Pedestrian Considerations ......................................................... 583
Section 6D.02 Accessibility Considerations .................................................. 585
Section 6D.03 Worker Safety Considerations .............................................. 586

CHAPTER 6E FLAGGER CONTROL

Section 6F.85 Temporary Traffic Barriers ............................................................... 641
Section 6F.86 Crash Cushions .............................................................................. 642
Section 6F.87 Rumble Strips ................................................................................ 643
Section 6F.88 Screens ........................................................................................... 643

CHAPTER 6G TYPE OF TEMPORARY TRAFFIC CONTROL ZONE ACTIVITIES

Section 6G.01 Typical Applications ........................................................................ 644
Section 6G.02 Work Duration ............................................................................... 644
Section 6G.03 Location of Work ............................................................................ 646
Section 6G.04 Modifications To Fulfill Special Needs ............................................. 646
Section 6G.05 Work Affecting Pedestrian and Bicycle Facilities .............................. 647
Section 6G.06 Work Outside of the Shoulder ......................................................... 647
Section 6G.07 Work on the Shoulder with No Encroachment ................................. 648
Section 6G.08 Work on the Shoulder with Minor Encroachment ............................. 648
Section 6G.09 Work Within the Median ............................................................... 649
Section 6G.10 Work Within the Traveled Way of a Two-Lane Highway .................. 649
Section 6G.11 Work Within the Traveled Way of an Urban Street ........................... 649
Section 6G.12 Work Within the Traveled Way of a Multi-Lane, Non-Access Controlled Highway .......................... 650
Section 6G.13 Work Within the Traveled Way at an Intersection ........................... 651
Section 6G.14 Work Within the Traveled Way of a Freeway or Expressway ............ 652
Section 6G.15 Two-Lane, Two-Way Traffic on One Roadway of a Normally Divided Highway .................................................. 653
Section 6G.16 Crossovers ..................................................................................... 653
Section 6G.17 Interchanges .................................................................................. 653
Section 6G.18 Work in the Vicinity of a Grade Crossing ......................................... 654
Section 6G.19 Temporary Traffic Control During Nighttime Hours ...................... 654

CHAPTER 6H TYPICAL APPLICATIONS

Section 6H.01 Typical Applications ....................................................................... 656

CHAPTER 6I CONTROL OF TRAFFIC THROUGH TRAFFIC INCIDENT MANAGEMENT AREAS

Section 6I.01 General ......................................................................................... 750
Section 6I.02 Major Traffic Incidents ................................................................. 751
Section 6I.03 Intermediate Traffic Incidents ....................................................... 752
Section 6I.04 Minor Traffic Incidents ................................................................. 753
Section 6I.05 Use of Emergency-Vehicle Lighting ............................................... 753
PART 7 TRAFFIC CONTROL FOR SCHOOL AREAS

CHAPTER 7A GENERAL

Section 7A.01 Need for Standards ................................................................. 755
Section 7A.02 School Routes and Established School Crossings .................. 755
Section 7A.03 School Crossing Control Criteria ......................................... 755
Section 7A.04 Scope .................................................................................. 756

CHAPTER 7B SIGNS

Section 7B.01 Size of School Signs ............................................................. 757
Section 7B.02 Illumination and Reflectorization ........................................ 758
Section 7B.03 Position of Signs ................................................................. 758
Section 7B.04 Height of Signs ................................................................. 758
Section 7B.05 Installation of Signs ............................................................ 758
Section 7B.06 Lettering ........................................................................... 758
Section 7B.07 Sign Color for School Warning Signs ................................... 758
Section 7B.08 School Sign (S1-1) and Plaques ........................................... 758
Section 7B.09 School Zone Sign (S1-1) and Plaques (S4-3P, S4-7P) and END SCHOOL ZONE Sign (S5-2) ................................................................. 760
Section 7B.10 Cell Phone Use Prohibited (S7-1T) ....................................... 760
Section 7B.11 School Advance Crossing Assembly ................................... 760
Section 7B.12 School Crossing Assembly ................................................ 760
Section 7B.13 School Bus Stop Ahead Sign (S3-1) ...................................... 764
Section 7B.14 SCHOOL BUS TURN AHEAD Sign (S3-2) ............................ 764
Section 7B.15 School Speed Limit Assembly (S4-1P, S4-2P, S4-3P, S4-4P, S4-6P, S5-1) and END SCHOOL SPEED LIMIT Sign (S5-3) .......................... 764
Section 7B.16 Reduced School Speed Limit Ahead Sign (S4-5, S4-5a) ............ 766
Section 7B.17 Parking and Stopping Signs (R7 and R8 Series) ...................... 766

CHAPTER 7C MARKINGS

Section 7C.01 Functions and Limitations .................................................. 767
Section 7C.02 Crosswalk Markings ............................................................ 767
Section 7C.03 Pavement Word, Symbol, and Arrow Markings .................... 767

CHAPTER 7D CROSSING SUPERVISION

Section 7D.01 Types of Crossing Supervision ........................................... 768
Section 7D.02 Adult Crossing Guards ....................................................... 768
Section 7D.03 Qualifications of Adult Crossing Guards .............................. 768
Section 7D.04 Uniform of Adult Crossing Guards ..................................... 768
Section 7D.05 Operating Procedures for Adult Crossing Guards ............... 768

PART 8 TRAFFIC CONTROL FOR RAILROAD AND LIGHT RAIL TRANSIT GRADE CROSSINGS

CHAPTER 8A GENERAL

Section 8A.01 Introduction ....................................................................... 771
Section 8A.02 Use of Standard Devices, Systems, and Practices at Highway-Rail Grade Crossings ............................................................. 771
Section 8A.03 Use of Standard Devices, Systems, and Practices at Highway-LRT Grade Crossings ............................................................. 772
Section 8A.04 Uniform Provisions ......................................................... 773
Section 8A.05 Grade Crossing Elimination ............................................... 773
Section 8A.06 Illumination at Grade Crossings ......................................... 774
Section 8A.07 Quiet Zone Treatments at Highway-Rail Grade Crossings ........ 774
Section 8A.08 Temporary Traffic Control Zones ...................................... 774
CHAPTER 8B SIGNS AND MARKINGS
Section 8B.01目的.................................775
Section 8B.02尺寸的高速公路平面交叉路口标志........................................................................775
Section 8B.03平面交叉路口（交叉杆）标志（R15-1）和多条铁轨标志（R15-2P）在主动和平面交叉路口标志........................................................................775
Section 8B.04交叉杆装配与停车或停车标志在被动平面交叉路口标志........................................................................778
Section 8B.05使用停车（R1-1）或停车标志（R1-2）标志没有交叉杆标志在高速公路-LRT 平面交叉路口标志........................................................................781
Section 8B.06平面交叉路口前进警告标志（W10系列）........................................................................781
Section 8B.07豁免平面交叉路口标志（R15-3P, W10-11aP）........................................................................782
Section 8B.08转preemption........................................................................................................782
Section 8B.09不停车在轨道标志（R8-8）..................................................................................783
Section 8B.10在服务标志（R8-9）..................................................................................784
Section 8B.11停车在闪光标志（R8-10, R8-10a）........................................................................784
Section 8B.12转向在红色标志（R10-6, R10-6a）........................................................................784
Section 8B.13轻轨仅车道标志（R15-4系列）........................................................................784
Section 8B.14不通过轻轨仅车道标志（R15-5, R15-5a）........................................................................785
Section 8B.15无车辆通过标志（R15-6, R15-6a）........................................................................785
Section 8B.16用轻轨仅车道标志（R15-7系列）........................................................................785
Section 8B.17看标志（R15-8）........................................................................................................785
Section 8B.18紧急通知标志（I-13 and/or R15-4）........................................................................786
Section 8B.18A轻轨仅车道标志（W10-4A, W10-4B）........................................................................786
Section 8B.19轻轨接近光警告标志（W10-7）........................................................................786
Section 8B.20轻轨可能不超过80英里/小时标志（W10-8）........................................................................786
Section 8B.21无火车喇叭标志或标志（W10-9, W10-9P）........................................................................787
Section 8B.22无大门或灯光标志（W10-13P）........................................................................787
Section 8B.23路基平面交叉路口标志（W10-5）........................................................................787
Section 8B.23A路基轨道标志（W10-6）........................................................................787
Section 8B.24存储空间标志（W10-11, W10-11a, W10-11b）........................................................................788
Section 8B.25偏斜交叉路口标志（W10-12）........................................................................788
Section 8B.26轻轨车站站号（I-12）........................................................................788
Section 8B.27路面标记........................................................................................................788
Section 8B.28停车和停车标志........................................................................................................789
Section 8B.29动态盒状标记........................................................................................................791

CHAPTER 8C FLASHING-LIGHT SIGNALS, GATES, AND TRAFFIC CONTROL SIGNALS
Section 8C.01简介........................................................................................................793
Section 8C.02闪光灯标志........................................................................................................793
Section 8C.03闪光灯标志在高速公路-LRT 平面交叉路口标志........................................................................795
Section 8C.04自动门........................................................................................................796
Section 8C.05使用自动门标志在轻轨平面交叉路口标志........................................................................797
Section 8C.06四方向门标志........................................................................................................797
Section 8C.07道路喇叭系统........................................................................................................799
Section 8C.08铁轨检测........................................................................................................799
Section 8C.09交通控制标志在或附近铁路平面交叉路口标志........................................................................800
Section 8C.10交通控制标志在或附近铁路-LRT 平面交叉路口标志........................................................................801
Section 8C.11使用交通控制标志在轻轨车辆平面交叉路口标志........................................................................802
Section 8C.12平面交叉路口在内或近距离到圆形交叉路口标志........................................................................803
Section 8C.13行人和自行车标志和标志在轻轨平面交叉路口标志........................................................................804

CHAPTER 8D PATHWAY GRADE CROSSINGS
Section 8D.01目的........................................................................................................810
Section 8D.02使用标准设备、系统和实践........................................................................................................810
PART 9 TRAFFIC CONTROL FOR BICYCLE FACILITIES

CHAPTER 9A GENERAL
Section 9A.01 Requirements for Bicyclist Traffic Control Devices ........................................ 813
Section 9A.02 Scope .................................................................................................................. 813
Section 9A.03 Definitions Relating to Bicycles ...................................................................... 813
Section 9A.04 Maintenance ...................................................................................................... 813
Section 9A.05 Relation to Other Documents ............................................................................ 813
Section 9A.06 Placement Authority ........................................................................................ 813
Section 9A.07 Meaning of Standard, Guidance, Option, and Support ......................................... 813
Section 9A.08 Colors .............................................................................................................. 813

CHAPTER 9B SIGNS
Section 9B.01 Application and Placement of Signs ................................................................. 814
Section 9B.02 Design of Bicycle Signs ................................................................................... 814
Section 9B.03 STOP and YIELD Signs (R1-1, R1-2) ................................................................. 816
Section 9B.04 Bike Lane Signs and Plaques (R3-17, R3-17aP, R3-17bP) ................................. 818
Section 9B.05 BEGIN RIGHT TURN LANE YIELD TO BIKES Sign (R4-4) ........................... 818
Section 9B.06 Bicycles May Use Full Lane Sign (R4-11) .......................................................... 818
Section 9B.07 Bicycle WRONG WAY Sign and RIDE WITH TRAFFIC Plaque (R5-1b, R9-3cP) ........................................................................................................... 818
Section 9B.08 NO MOTOR VEHICLES Sign (R5-3) ................................................................. 819
Section 9B.09 Selective Exclusion Signs .................................................................................. 819
Section 9B.10 No Parking Bike Lane Signs (R7-9, R7-9a) ........................................................ 819
Section 9B.11 Bicycle Regulatory Signs (R9-5, R9-6, R10-4, R10-24, R10-25, and R10-26) ................................................................................................................................. 819
Section 9B.12 Shared-Use Path Restriction Sign (R9-7) .......................................................... 819
Section 9B.13 Bicycle Signal Actuation Sign (R10-22) .............................................................. 820
Section 9B.14 Other Regulatory Signs ..................................................................................... 820
Section 9B.15 Turn or Curve Warning Signs (W1 Series) .......................................................... 820
Section 9B.16 Intersection Warning Signs (W2 Series) ............................................................ 820
Section 9B.17 Bicycle Surface Condition Warning Sign (W8-10) ............................................ 820
Section 9B.18 Bicycle Warning and Combined Bicycle/Pedestrian Signs (W11-1 and W11-15) .................................................................................................................. 820
Section 9B.19 Other Bicycle Warning Signs ............................................................................ 822
Section 9B.20 Bicycle Guide Signs (D1-1b, D1-2b, D1-3b, D11-1, D11-1c) ................................. 822
Section 9B.21 Bicycle Route Signs (M1-8, M1-8a, M1-9) .......................................................... 823
Section 9B.22 Bicycle Route Sign Auxiliary Plaques ................................................................ 825
Section 9B.23 Bicycle Parking Area Sign (D4-3) ...................................................................... 825
Section 9B.24 Reference Location Signs (D10-1 through D10-3) and Intermediate Reference Location Signs (D10-1a through D10-3a) ................................................................................. 828
Section 9B.25 Mode-Specific Guide Signs for Shared-Use Paths (D11-1a, D11-2, D11-3, D11-4) .................................................................................................................. 828
Section 9B.26 Object Markers .................................................................................................. 829

CHAPTER 9C MARKINGS
Section 9C.01 Functions of Markings ...................................................................................... 830
Section 9C.02 General Principles ............................................................................................ 830
Section 9C.03 Marking Patterns and Colors on Shared-Use Paths ........................................... 830
Section 9C.04 Markings For Bicycle Lanes .............................................................................. 830
Section 9C.05 Bicycle Detector Symbol .................................................................................. 834

Acknowledgments

The Federal Highway Administration gratefully acknowledges the valuable assistance that it received from
the National Committee on Uniform Traffic Control Devices and its more than 250 voluntary members in the
development of this Manual.
Revision Number 2

To: Users/Holders of Revision 1 of the 2011 Texas Manual on Uniform Traffic Control Devices

From: Carol T. Rawson, P.E.

Manual: Texas Manual on Uniform Traffic Control Devices

Effective Date: October 9, 2014

Revision Number 2 of the 2011 Texas Manual on Uniform Traffic Control Devices (Texas MUTCD) is hereby issued. This revision eliminates terms not defined by FHWA ("toll lane" and "toll ramp") and corrects related figures and tables, adopts a clearer sign text message for bridge icing conditions, eliminates cemetery signing, and corrects minor, non-substantive typographical errors in Revision 1 of the 2011 Texas MUTCD.

This revision applies to the Table of Contents, Part 2, and Part 4. Revisions are indicated with the text "October 2014" in the footer of each revised page.

Attached is a Change List for Revision 2, which includes the section and page number revised. A complete Revision 2 manual is available on the TxDOT web page at http://www.txdot.gov/government/enforcement/signage/tmutcd.html. Also available on the page is a file with all the revised pages that may be used to replace corresponding pages in previously printed copies of the Texas MUTCD.
Revision Number 1

To: Users/Holders of the 2011 Texas Manual on Uniform Traffic Control Devices

From: Carol T. Rawson, P.E., Director
Traffic Operations Division

Effective Date: December 6, 2012

Revision Number 1 of the 2011 Texas Manual on Uniform Traffic Control Devices (Texas MUTCD) is hereby issued. This revision incorporates changes to existing compliance dates as adopted by the FHWA, include language restored to the National MUTCD concerning engineering judgment, make the corrections identified by the FHWA in the National MUTCD, and correct minor, non-substantive typographical errors in the 2011 Texas MUTCD.

This revision applies to the Table of Contents, Introduction, Parts 1, 2, 3, 4, 5, 6, 7, 8, and 9. Revisions are indicated with the text “November 2012” in the footer of each revised page.

Attached is a Change List for Revision 1, which includes the section and page number revised. A complete Revision 1 manual is available on the TxDOT web page at http://www.txdot.gov/txdot_library/publications/tmutcd.htm. Also available on the page is a file with all the revised pages that may be used to replace corresponding pages in previously printed copies of the Texas MUTCD.
CERTIFICATION

Pursuant to the provisions of Transportation Code, § 544.001. I certify that this 2011 Texas Manual on Uniform Traffic Control Devices, which contains standards for a uniform system of traffic control devices, is in accordance with the provisions contained in a Minute Order passed by the Texas Transportation Commission on November 17, 2011.

This Manual, with subsequent revisions, shall apply to all traffic control devices installed on or after adoption of this manual upon the highways, roads, and streets of this State except that traffic control devices conforming to the 2006 Texas Manual on Uniform Traffic Control Devices for Streets and Highways Revision 1 on order or under contract prior to adoption of this manual may be installed. All existing traffic control devices or installations not in conformance with standards in this Manual shall be changed to conform to the new standards herein when replacement becomes necessary. Traffic control devices not previously required but which are required by new standards in this Manual shall be installed by the date indicated on the “Phase in Compliance Dates”.

This 2011 Manual cancels and supersedes the 2006 Texas Manual on Uniform Traffic Control Devices Revision 1, as amended, and all previous editions thereof.

Official Ruling on Requests for Interpretation, Changes, and Experimentations to the U.S. Department of Transportation’s Manual on Uniform Traffic Control Devices for Streets and Highways, 2009 Edition, with which this Manual is correlated, may be used as interim standards in the State of Texas, pending incorporation in this Manual as “Revisions”.

Phil Wilson
Executive Director
Introduction
TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES

INTRODUCTION

Standard:

01 Traffic control devices shall be defined as all signs, signals, markings, and other devices used to regulate, warn, or guide traffic, placed on, over, or adjacent to a street, highway, pedestrian facility, bikeway, or private road open to public travel (see definition in Section 1A.13) by authority of a public agency or official having jurisdiction, or, in the case of a private road, by authority of the private owner or private official having jurisdiction.

02 The Texas Manual on Uniform Traffic Control Devices (TMUTCD) is incorporated by reference in the Texas Administrative Code, Title 43, Section 25.1 and shall be recognized as the Texas standard for all traffic control devices installed on any street, highway, bikeway, or private road open to public travel (see definition in Section 1A.13) in accordance with 23 U.S.C. 109(d) and 402(a). The policies and procedures of the Texas Department of Transportation and the Federal Highway Administration (FHWA) to obtain basic uniformity of traffic control devices shall be as described in 23 CFR 655, Subpart F.

03 In accordance with 23 CFR 655.603(a), for the purposes of applicability of the TMUTCD:
   A. Toll roads under the jurisdiction of public agencies or authorities or public-private partnerships shall be considered to be public highways;
   B. Private roads open to public travel shall be as defined in Section 1A.13; and
   C. Parking areas, including the driving aisles within those parking areas, that are either publicly or privately owned shall not be considered to be “open to public travel” for purposes of TMUTCD applicability.

04 Any traffic control device design or application provision contained in this Manual shall be considered to be in the public domain. Traffic control devices contained in this Manual shall not be protected by a patent, trademark, or copyright, except for the Interstate Shield and any items owned by FHWA or the State of Texas.

Support:

05 Pictographs, as defined in Section 1A.13, are embedded in traffic control devices but the pictographs themselves are not considered traffic control devices for the purposes of Paragraph 4.

Standard:

06 This Manual is issued under the authority of the Texas Transportation Code, Chapter 544, Traffic Signs, Signals, and Markings. Pertinent sections are quoted as follows:

“§544.001. Adoption of Sign Manual for State Highways - The Texas Transportation Commission shall adopt a manual and specifications for a uniform system of traffic-control devices consistent with this chapter that correlates with and to the extent possible conforms to the system approved by the American Association of State Highway and Transportation Officials.”

“§544.002. Placing and Maintaining Traffic-Control Device -
   (a) To implement this subtitle, the Texas Department of Transportation may place and maintain a traffic-control device on a state highway as provided by the manual and specifications adopted under Section 544.001. The Texas Department of Transportation may provide for the placement and maintenance of the devices under Section 221.002.
   (b) To implement this subtitle or a local traffic ordinance, a local authority may place and maintain a traffic-control device on a highway under the authority's jurisdiction. The traffic-control device must conform to the manual and specifications adopted under Section 544.001.
   (c) Local authority may not place or maintain a traffic-control device on a highway under the jurisdiction of the Texas Department of Transportation without that department's permission.”

Guidance:

07 The Texas Transportation Code, Section 544.006 states that a person may not place, maintain, or display on or in view of a highway an unauthorized sign, signal, marking or device and it may be removed by the authority with jurisdiction over the highway without notice.

Support:

08 The provisions of this Manual do not create mandatory duties, as opposed to discretionary duties, in the legal sense under the Texas Tort Claims Act and elsewhere. (State Department of Highways December 2011
and Public Transportation v. King. 808 S.W. 2d 465 (Tex. 1991.) This Manual does not establish a mandatory legal duty to install particular traffic control devices. This Manual is a standard for design and application of traffic control devices. This Manual is not a substitute for engineering judgment. (Bellona v. City of Austin, 894 S.W. 2d (Tex. App.-Austin 1995.).)

09 The Standard, Guidance, Option, and Support material described in this edition of the TMUTCD provide the transportation professional with the information needed to make appropriate decisions regarding the use of traffic control devices on streets, highways, bikeways, and private roads open to public travel (see definition in Section 1A.13).

10 Throughout this Manual the headings Standard, Guidance, Option, and Support are used to classify the nature of the text that follows. Figures and tables, including the notes contained therein, supplement the text and might constitute a Standard, Guidance, Option, or Support. The user needs to refer to the appropriate text to classify the nature of the figure, table, or note contained therein.

Standard:

11 When used in this Manual, the text headings of Standard, Guidance, Option, and Support shall be as defined in Paragraph 1 of Section 1A.13.

Support:

12 Throughout this Manual all dimensions and distances are provided in English units. Appendix A2 contains tables for converting each of the English unit numerical values that are used in this Manual to the equivalent Metric (International System of Units) values.

Guidance:

13 Except when a specific numeral is required or recommended by the text of a Section of this Manual, numerals displayed on the images of devices in the figures that specify quantities such as times, distances, speed limits, and weights should be regarded as examples only. When installing any of these devices, the numerals should be appropriately altered to fit the specific situation.

Support:

14 The following information will be useful when reference is being made to a specific portion of text in this Manual.

15 There are nine Parts in this Manual and each Part is comprised of one or more Chapters. Each Chapter is comprised of one or more Sections. Parts are given a numerical identification, such as Part 2 – Signs. Chapters are identified by the Part number and a letter, such as Chapter 2B – Regulatory Signs, Barricades, and Gates. Sections are identified by the Chapter number and letter followed by a decimal point and a number, such as Section 2B.03 – Size of Regulatory Signs.

16 Each Section is comprised of one or more paragraphs. The paragraphs are indented and are identified by a number. Paragraphs are counted from the beginning of each Section without regard to the intervening text headings (Standard, Guidance, Option, or Support). Some paragraphs have lettered or numbered items. As an example of how to cite this Manual, the phrase “Not less than 40 feet beyond the stop line” that appears in Section 4D.14 of this Manual would be referenced in writing as “Section 4D.14, P1, A.1,” and would be verbally referenced as “Item A.1 of Paragraph 1 of Section 4D.14.”

Standard:

17 After the effective date of a new edition of the TMUTCD or a revision thereto new or reconstructed devices installed shall be in compliance with the new edition or revision.

18 Unless a particular device is no longer serviceable, non-compliant devices on existing highways and bikeways shall be brought into compliance with the current edition of the TMUTCD as part of the systematic upgrading of substandard traffic control devices (and installation of new required traffic control devices) required pursuant to the Highway Safety Program, 23 U.S.C. §402(a). The FHWA has the authority to establish other target compliance dates for implementation of particular changes to the MUTCD [23 CFR 655.603(d)(1)]. The TMUTCD will adhere to these dates and these target compliance dates are shown in Table I-1.

19 Except as provided in the following paragraph, when a non-compliant traffic control device is being replaced or refurbished because it is damaged, missing, or no longer serviceable for any reason, it shall be replaced with a compliant device.

Option:

20 A damaged, missing, or otherwise non-serviceable device that is non-compliant may be replaced in kind if engineering judgment indicates that:
A. One compliant device in the midst of a series of adjacent non-compliant devices would be confusing to road users; and/or
B. The schedule for replacement of the whole series of non-compliant devices will result in achieving timely compliance with the TMUTCD.
