

# Public Open House Fact Sheet

Proposed Improvements to I-20 at US 84 Interchange

Roscoe Collegiate High School, Roscoe, TX: March 6, 2018 from 5 pm – 7 pm

## Introduction

The purpose of this public open house is to present proposed improvements at the interchange of I-20 and US 84 in Nolan County, TX, and to solicit public input on the proposed plans.

## Why is this project needed?

- The interchange experiences higher than average crash rates compared to other interchanges in the Abilene district.
- The existing interchange has insufficient spacing of ramp entrances for the amount of traffic using the ramps.
- The interchange does not meet current design standards.

## What is the purpose of the project?

- Improve corridor safety to create safe movements between I-20 and US 84
- Address design deficiencies at the interchange
- Accommodate future improvements and capacity projects as the use of the corridor increases

## Project Details

- Four alternatives evaluated for potential environmental, right-of-way and displacement impacts
- Two build alternatives moving forward for further evaluation
- Proposed improvements consider in the alternatives:
  - Flatten of the I-20 curves to meet current design standards
  - Redesign direct connectors between I-20 and US 84 to meet current design standards
  - Provide the potential (future) eastbound I-20 to westbound US 84 direct connection
  - Optimizing ramp connections
  - Reconstruction of frontage roads along I-20
