Project Map

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevado a cabo por TxDOT - en virtud de 23 USC 327 y un Memorando de Entendimiento fechado el 16 de diciembre del 2014, y ejecutado por la FHWA y el TxDOT.

Why Alternate Passing Lanes?

Short stretches of passing lanes are placed along the roadway in strategic locations that allow motorists to safely pass slower vehicles.

An alternate passing lane is long enough to allow motorists to safely pass. It is also short enough to allow several alternate passing lanes to be placed along the roadway corridor.

For the SH 21 project, seven alternate passing lanes are proposed.

An added Alternate Passing Lane is indicated by the arrow in the illustration:
