

US 183 Roadway Improvements Project

FACT SHEET

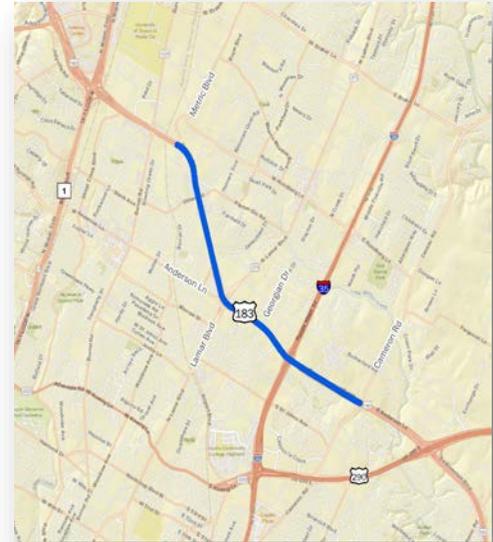

Project Overview

The proposed project increases safety and mobility by creating auxiliary lanes on US 183 and adding pedestrian improvements, where needed.

Proposed improvements include:

- Adding northbound auxiliary lanes from southbound I-35 to the Ohlen Road/Payton Gin Road exit ramp and from the northbound entrance ramp at Lamar Boulevard to the Burnet Road exit ramp
- Adding a southbound auxiliary lane from the entrance ramp near Burnet Road to the Lamar Boulevard exit ramp
- Extending a third mainlane from the southbound I-35 exit to the Cameron Road exit
- Adding a left-turn lane and pedestrian accommodations at Lamar Boulevard on the northbound US frontage road
- Closing the northbound US 183 entrance ramp at Georgian Drive

All work would be conducted within the existing right of way. The proposed project is approximately 3.6 miles.

Timeline

The environmental study began in spring 2019. The environmental study and schematic design are anticipated to be complete in fall 2019. Construction is anticipated to start spring 2020.
