What is this Project About?

The Texas Department of Transportation (TxDOT) Beaumont District is proposing to reconstruct and expand Interstate 10 (I-10) and United States Highway 69 (US 69) where they converge in Beaumont, Jefferson County, Texas, as part of the 10/69 Interchanges Project. The proposed project is anticipated to improve mobility, reduce congestion, and improve emergency evacuation.

The purpose of the virtual public hearing to present the planned improvements and receive public comments on the proposed 10/69 Interchanges Project. In addition, the draft Environmental Assessment is available for public review.

The approximately five-mile project would include:

- Widening I-10 from Walden Road (County Road 131) to 7th Street and US 69 from Fannett Road (State Highway 124) to 11th Street,
- Constructing continuous frontage roads, including sidewalks along those frontage roads, for continuity,
- Constructing two-lane direct connectors (elevated flyover ramps) where I-10 and US 69 converge,
- Relocating I-10 ramp locations, and
- Removing Maury Meyers Bridge (Liberty/Laurel Overpass).

The project area includes existing right-of-way (ROW) of I-10 and US 69. Approximately 11 acres of additional ROW is anticipated as part of the proposed project, mostly within the Eastex Freeway interchange, including potential easements or ROW for drainage.
