US 90 Widening Project

The Texas Department of Transportation (TxDOT), Beaumont District, will host a Public Meeting to gather input on proposed improvements to United States Highway (US) 90 from Farm-to-Market (FM) 563 to State Highway (SH) 61 in Liberty County, Texas. The approximately 11-mile-long proposed project would reconstruct and widen the existing US 90 facility, from a two-lane undivided facility (one lane in each direction) to a four-lane facility (two lanes in each direction) with a possible divided median and left turn lanes throughout the corridor. The existing facility does not meet current or projected traffic demand, which affects mobility in the area. The proposed project would reduce congestion and upgrade the facility to meet current design standards, thereby improving mobility and safety.

The existing right-of-way (ROW) width is approximately 120 feet, and the proposed project would require a width of approximately 250 feet. Therefore, additional ROW would be needed which could potentially displace residential and commercial properties. Information about the TxDOT Relocation Assistance Program concerning services and benefits for displaced persons and businesses will be available.

The Public Meeting will be conducted in an Open House format with informational displays and attendees can come and go at their convenience; no formal presentation will be provided. All interested community members are invited to attend. The Open House will be conducted in English. Persons interested in attending who have special communication or accommodation needs, or require an interpreter, are encouraged to contact TxDOT Public Information Officer Sarah Dupre at (409) 898-5745. Requests should be made at least two (2) days prior to the event. TxDOT will make every reasonable effort to accommodate these needs.
