OVERVIEW

TxDOT, in collaboration and partnership with the Border Trade Advisory Committee, is working with U.S. and Mexican agencies and stakeholders to update the Texas-Mexico Border Transportation Master Plan (BTMP).

The master plan will identify the cross-border challenges of moving people and goods and will include analysis of existing transportation systems — roadway, transit, pedestrian, pipeline, air, rail, ports and waterways.

The plan will analyze current and future transportation and will include a prioritized list of transportation investment strategies that improves the efficient movement of people and goods across the border and supports binational, state, regional and local economic competitiveness.

WHY ATTEND THE MEETING?

The purpose of the meeting is to provide the public an opportunity to learn about the BTMP and provide input on needs, challenges, and opportunities for moving people and goods across the border and within the border region.
