Free bridge

What are reasons that people cross the border?

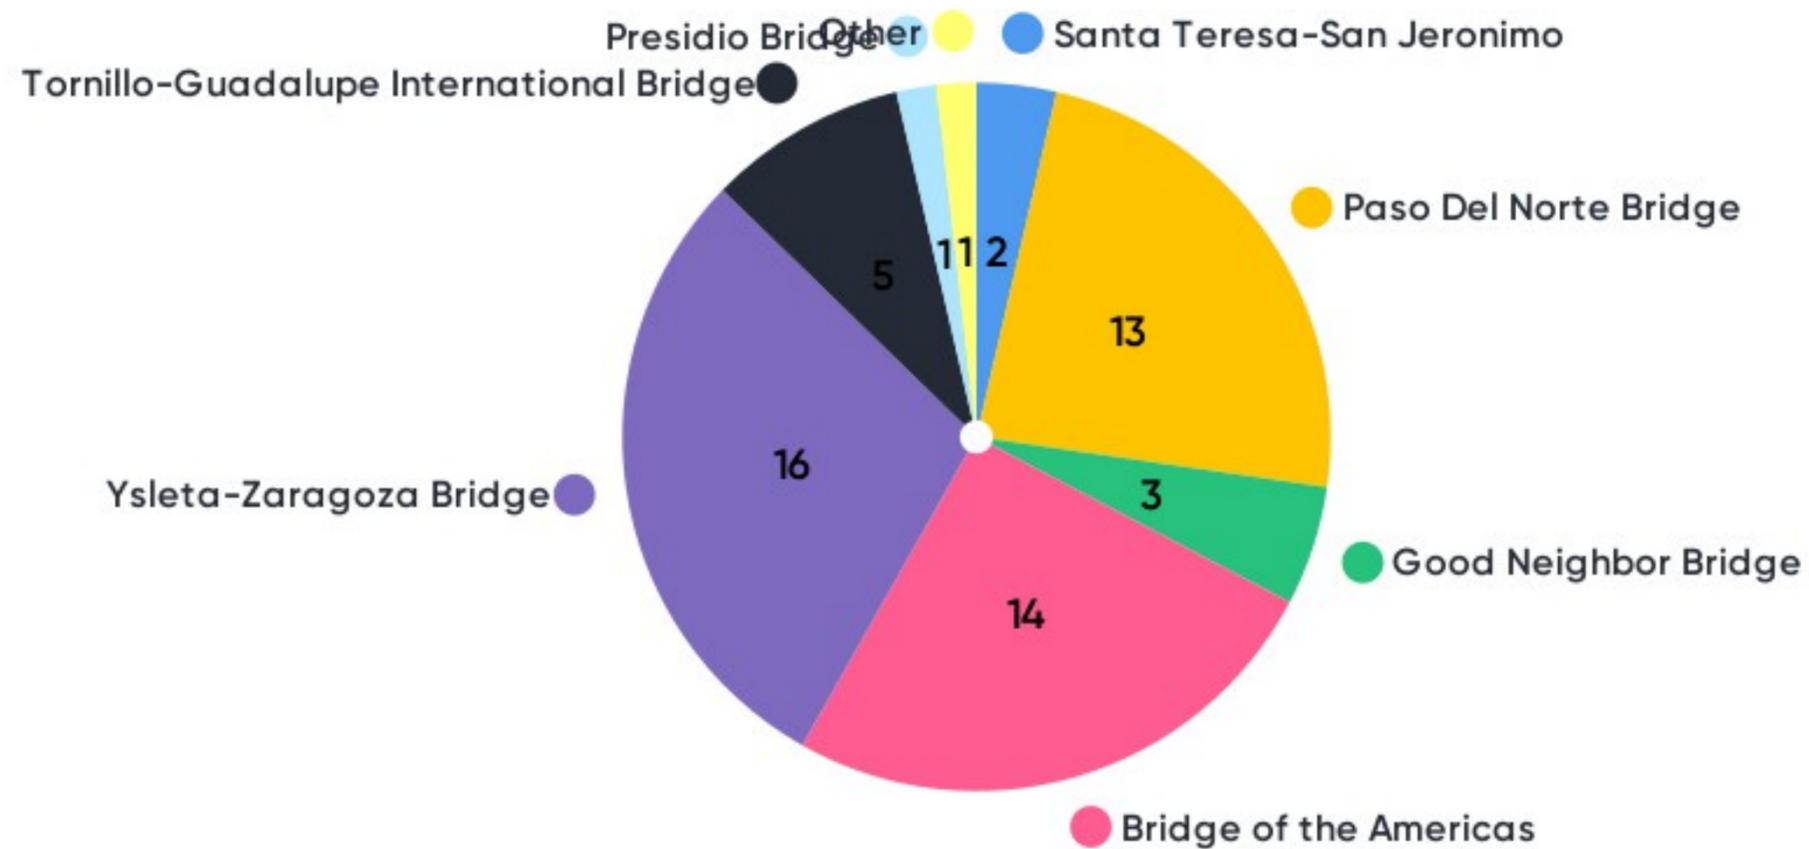

Downtown Bridge

Work

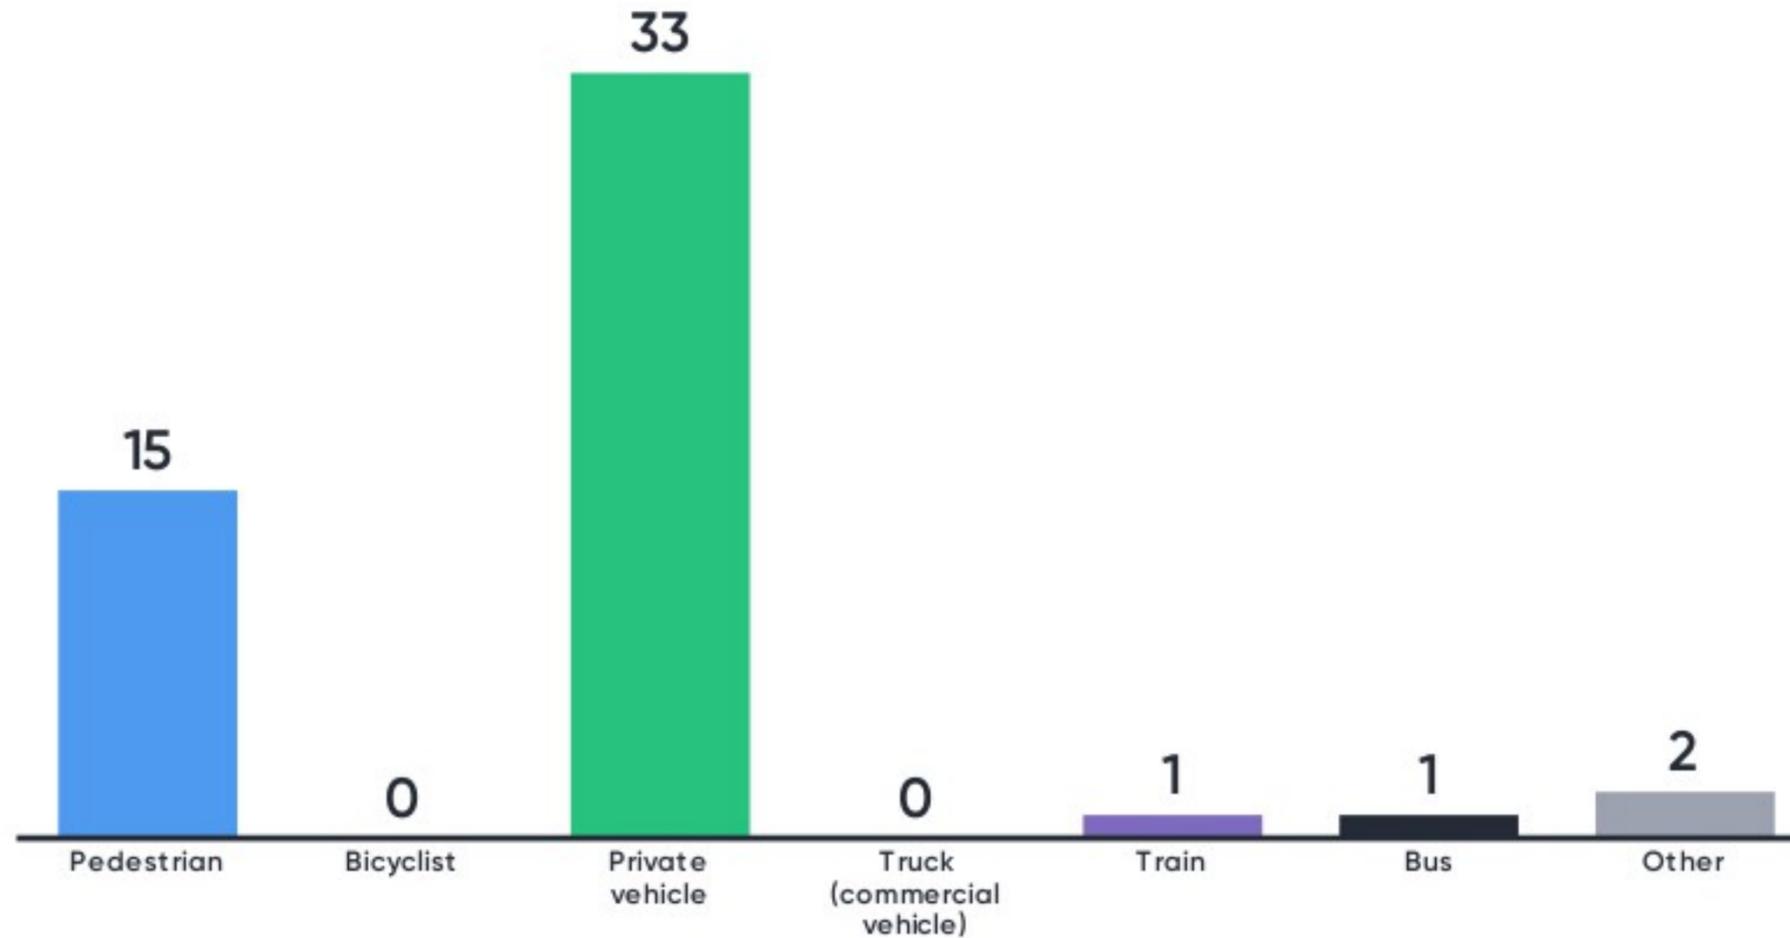

Transportation

Which border crossing do you normally use when you cross the border?

When you cross the border, how do you do it? (transportation mode)

What are the greatest challenges and/or needs at the border crossings?

Long waiting times to cross

Staffing and technology

Capacity

Open lanes

Wait times

Wait times

Efficiency

Efficiency

More open lanes

What are the greatest challenges and/or needs at the border crossings?

Lost time

Capacity

Safety

The time it takes to cross the border.

Speed, capacity, safety

Technology

Many unused lanes

Facilities and bridges need major upgrades

Sufficient CBP staff; wait times

What are the greatest challenges and/or needs at the border crossings?

Wait Times and Conveying times to people

Restrooms

Safety

Lack of reliability

Time to cross

Faster processing

CBP employees relocated causing unreasonable wait times

Time

Wait times

What are the greatest challenges and/or needs at the border crossings?

Agilizar los procesos Tiempo de cruces

Safety

Time to cross

Long lines and times in queues

Safety

CBP staffing

Wait times are getting longer and longer resulting decreased air quality.

More staff

Resroomd

What are the greatest challenges and/or needs at the border crossings?

Queue time

No Bicycle lanes

Upgrade infrastructure

Streamline and expedite inspection and crossing processes.

Idle time and not enough lanes to move commercial products efficiently. Have to feed employees waiting in line for hours 2x per day

Safety and better linking to major roads

More inspection booths on US side

Pedestrian friendly

More robust and redundant network on us side to provide connections to destinations.

What are the greatest challenges and/or needs at the border crossings?

Roadway conditions

Safety, mobility for impaired individuals

International terminal

Congestion

Safety

Infrastructure

Food/water / waiting lines with no

Staffing increases coupled with technology improvements that expedite commercial inspections.

What are the greatest challenges and/or needs for the transportation network linking to the border crossings?

Safety

Construction

Safety

Roadway condition/safety

Safety

Meaningful connections to higher capacity thoroughfares and multi modal nodes

Quality of life

Congestion in neighboring area

Safety

What are the greatest challenges and/or needs for the transportation network linking to the border crossings?

No direct routes

Congestion relief

Separation of trucks from cars

Need improvements to arterials leading to bridges on both sides of bridges

Transportation for students to schools and back to border crossing

Multimodal services

Más infraestructura para acelerar los desplazamientos fuera de la frontera.

Air pollution

Congestion

What are the greatest challenges and/or needs for the transportation network linking to the border crossings?

Safety and better linking to major roads

Not enough alternate routes

Binational Uber service

Conexiones de las líneas

Infrastructure updates

Safety and mobility for impaired individuals

Mejorar la logística de los puentes para que los trailers tengan acceso sin bloquear el paso de vehículos comerciales

Automation

Double decker bridges

What are the greatest challenges and/or needs for the transportation network linking to the border crossings?

More staffing for safety.

Approve best practices in processes of authorities

Need more staffing and more bridges.

More bridges

What ideas do you have for improvements at the border crossing?

Capacity

Technology

More staffing and better communication to citizens about crossing wait times.

Automation

Real time messaging technology

Realmente necesitamos más oficiales de CBP. El principal problema es con los tiempos de espera.

Separation of thru traffic from bridge traffic

Efficiency

Adding capacity and staff to bridges.

What ideas do you have for improvements at the border crossing?

Adding designated bike lane and a bus lane

Improve capacity

Add more commercial bridges to keep truck traffic and vehicular traffic separate.

Storage capacity

More lanes open

Bike lane

Technology

Truck parking reservation system

A new App to provide accurate crossing times and wait times to both pedestrians and vehicles. Add alerts and lanes available.

What ideas do you have for improvements at the border crossing?

preinspection programs

App on the border crossing
wait times

Unified cargo processing,
international railroad crews,
binational yards

Dedicated transit lanes with
streamlined custom
processing

More detailed inspections need to be done at
the designated areas and not at the check
point. This delays the rest

Comfortable and aesthetic
side walks and walkways

Renegotiate Chamizal treaty. Eliminate free
bridge. Use part of the park to build more room
for traffic.

Pre-screening

International bridge
specifically for students

What ideas do you have for improvements at the border crossing?

Double decker bridges

Dedicated and monitor parking garage

Free-trade zone

Technology that x-rays commercial vehicles

Infrastructure improvements

Customs procedures to allow commercial goods at any port

Continue busing to key shopping market routes

Link pedestrian to mass transit

Expanding areas to make border crossings more accessible

What ideas do you have for improvements at the border crossing?

construct border inspection parking lots.

What ideas do you have for improvements for the transportation network linking to the border crossings?

Neighborhood resident input

Pedestrian rail system

Los caminos en el lado mexicano necesitan mejoras.

Dedicated lanes

Signage

Define origin destination priorities

More direct connections to the POE

Park and rides to and from bridges. Also can be incorporated to cross the bridge.

Major traders input

What ideas do you have for improvements for the transportation network linking to the border crossings?

Build or designate a truck only bridge

Better and improved opportunities for pedestrian or mass transit.

Binational bus service with dedicated lanes

International terminal that connects to public and private transit services

The plans TXDOT has to improve areas around POEs with dedicated lanes for commercial trucks and better improvement for people to get onto a major highway/road

Buy houses like you did for US54 and use the land to build streets that are meant for the amount of traffic we have.

Improve aesthetics for corridors leading to POE

Alejandros uber service

Invest in infrastructure improvements

What is the most important goal for the BTMP?
