APRIL 30, 2019
2-4 P.M. MDT**

**UTEP, EL PASO NATURAL GAS
CONFERENCE CENTER
2051 WIGGINS WAY
EL PASO, TX 79902**

BINATIONAL PLAN INFORMATION

TxDOT, in collaboration and partnership with the Border Trade Advisory Committee, is working with U.S. and Mexican agencies and stakeholders to update the Texas-Mexico Border Transportation Master Plan (BTMP).

The master plan will identify the cross-border challenges of moving people and goods and will include analysis of existing transportation systems — roadway, transit, pedestrian, pipeline, air, rail, ports and waterways.

The plan will analyze current and future transportation and will include a prioritized list of transportation investment strategies that improves the efficient movement of people and goods across the border and supports binational, state, regional and local economic competitiveness.

TEXAS-MEXICO BORDER TRANSPORTATION STAKEHOLDERS

TxDOT is hosting a series of stakeholder workshops throughout the border region to get your input on multimodal transportation needs, issues, challenges, and potential opportunities and solutions for efficiently and safely moving people and goods across the border and in the border region. The intended audience for this workshop includes binational public and private sector stakeholders, brokers and logistics firms, cargo owners, and other trade transportation industry professionals.

WHY ATTEND THE MEETING?

The purpose of the workshop is to gather input from binational public and private sector stakeholders about multimodal transportation needs, issues, challenges, and opportunities and solutions for moving people and goods across the border and the border regions.
