

SCRIPT:

Welcome to the Corpus Christi District Rural Transportation Improvement Program Virtual Public meeting for the 2021-2024 program!

My name is Amanda Longoria and I am a Transportation Engineer with the Transportation Planning & Development office.

In this presentation we will go over the projects to be included in the upcoming 2021-2024 Rural Transportation Improvement Plan, also referred to as the Rural TIP.

Agenda

- 1 Safety Minute
- 2 Corpus Christi District and its Boundaries
- 3 The Rural Transportation Improvement Program (TIP)
- 4 How the Rural TIP Impacts You
- 5 How Projects are Selected for the Rural TIP
- 6 Projects by County
- 7 Funding
- 8 Next Steps

2021-2024 Rural TIP June 30, 2020 2

SCRIPT:

We will first start with a safety minute. Then we will go over the counties in the Corpus Christi District and all the roads under the district’s oversight. We will also review the basics of what is the Rural TIP and why is it important for you to be here with us today. We will explain how the projects included in the program are selected and classified in order to make the most of the program.

Once you have an understanding of all of this, you will have the opportunity to review all the projects the Corpus Christi District has included in the 2021-2024 program. Both the big projects and the small supporting projects.

We will also go over funding, answering questions on “where does the money to pay for these projects come from? and how does it get distributed?”.

Lastly we will outline all the options you have to comment on these projects and their priority.

Safety Minute

COVID 19
CORONAVIRUS DISEASE

STOP THE SPREAD OF GERMS

Help prevent the spread of respiratory diseases like COVID-19.

www.cdc.gov/COVID19

Avoid close contact with people who are sick.

Avoid touching your eyes, nose, and mouth.

Stay home when you are sick, except to get medical care.

Wash your hands often with soap and water for at least 20 seconds.

Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

Clean and disinfect frequently touched objects and surfaces.

2021-2024 Rural TIP June 30, 2020 **3**

SCRIPT:

TxDOT would like to remind everyone of the steps we can all take to help prevent the spread of respiratory diseases like Covid-19. Avoid close contact with people who are sick. Avoid touching your eyes, nose, and mouth. Stay home when you are sick, wash your hands with soap for 20 seconds, cover your cough or sneeze with a tissue, and disinfect frequently touched surfaces.

For more information, please visit [cdc.gov/COVID19](https://www.cdc.gov/COVID19).

SCRIPT:

The Corpus Christi District includes all of the 10 counties shown in the map. Projects included in the 2021-2024 Rural TIP are located in Aransas, Bee, Goliad, Live Oak, Jim Wells, Karnes, Kleberg, rural Nueces, Refugio, and rural San Patricio counties.

The District also includes the Corpus Christi Metropolitan Planning Organization or MPO. The MPO boundary is noted in yellow on the map. The MPO covers the urbanized areas in Nueces and San Patricio counties. For more information about the Corpus Christi MPO and the projects included in their TIP, please visit corpuschristi-mpo.org.

Rural Transportation Improvement Program (TIP)

THE RURAL TIP
 is list of local projects to be funded within a TxDOT District during the next four years, including those eligible for federal funding.

It can include projects for :

A Rural TIP project is anticipated to be funded within the next 4 years.

It shows regional agreement (community-region-state) on the need of a project.

2021-2024 Rural TIP June 30, 2020 5

SCRIPT:

The Rural Transportation Improvement Program is a list of local projects to be funded in a TxDOT District over the next 4 years. This means that all projects included in the list are expected to be underway within 4 years following its approval. These are the projects you can expect to go to contract in the near future!

It is multimodal; which means that it can include projects relating to highways, bicycle and pedestrian facilities, transit services, and freight projects as well as the preliminary studies used to define those projects.

Rural TIP is meant to show regional agreement on the need and priority of a transportation project, so all parties involved can be sure they are making the best investment for the community. It is also expected to be consistent with the projects and objectives included in the regional Long Range Transportation Plans, to ensure that all agencies are working towards the same goal.

The Rural TIP is a part of the Statewide Transportation Improvement Program (STIP). Because the program rules are established by Federal law, no project can receive federal funding unless it is listed in the TIP!

How the Rural TIP Impacts You

The Rural TIP process includes opportunities to provide input on the priority of large projects that are listed on it.

Local and small projects around your community dealing with safety and access also get funding through the Rural TIP, for example:

- Road expansions*
- Sidewalks*
- Bike lanes*
- Pavement repair or maintenance*
- New or improved signals*
- Turning lanes*

You know your community best!

Tell us what project should come first and why

By participating today, you are providing input on close to 200 projects!

2021-2024 Rural TIP June 30, 2020 **6**

SCRIPT:

It is important for you to participate because funding secured by this process is intended to address your communities' most immediate needs. By providing comments on the priority of the projects included, you are helping us identify regional priorities. By reviewing the entire program in a single meeting you are: 1) having a regional impact, 2) helping us be more effective with your money, and 3) ensuring that we are investing where we should.

The Rural TIP not only includes large projects like overpasses and relief routes, but it also includes local and smaller projects in your community like sidewalks, signals, and turn lanes.

This is your opportunity to provide input on close to 200 projects!

How Projects are Selected for the Rural TIP

Projects are identified and selected by evaluating existing and future needs based on:
current conditions and projections,
statewide and regional plans,
public input regarding transportation priorities

^ This would be you, right now!

2021-2024 Rural TIP

June 30, 2020

7

SCRIPT:

Rural Transportation Organizations, Metropolitan Planning Organizations and local governments are responsible for selecting projects within their boundaries.

TxDOT, through the District and Area offices, is responsible for selecting projects relating to the State Transportation System and other National roadways. This includes Interstates, State and US Highways but most importantly this can also include the Farm-to-Market and Ranch-to-Market roads you use every day. The projects we will review today should respond to local needs!

It is our responsibility to provide you with the opportunity to provide input on which projects should be advanced.

How Projects are Selected for the Rural TIP

Selected projects are separated into
2
main categories

- 1. Regionally Significant Projects**
Those with the appropriate scale or reach to be considered as stand- alone projects in a given program year have their own category.
- 2. Grouped Projects**
Those without the scale to stand on their own are grouped into one of 11 sub categories and considered as a single line item in the list.

2021-2024 Rural TIP June 30, 2020 8

SCRIPT:

Once projects have been defined they are evaluated according to their scale and classified based on the funding they require, as well as, their potential impact.

Big projects are categorized as Regionally Significant Projects and are included as stand-alone items. *i.e. A new bridge over a river.*

To simplify this budgeting and planning process, smaller projects are lumped together into 11 separate sub categories, refer to as Grouped Projects. Grouped projects include things like landscaping, safety lights, or new bicycle and pedestrian facilities. This grouping practice helps facilitate the federal funding of smaller projects. *i.e. the pavement repair of an FM road.*

SCRIPT:

Now lets take a look at the projects included in the 2021-2024 Rural TIP for the Corpus Christi District.

SCRIPT:

This map shows all projects included in the 2021-2024 Rural TIP for Aransas County. The list of projects numbered on this map is on the following slide.

Note the legend in the bottom right corner of the screen. Projects in each county are broken up into the 4 fiscal years included in the Rural TIP. A fiscal year runs from September thru August of said year. For example, fiscal year 2021 runs from September 2020 to August 2021.

All projects planned for bidding in fiscal year 2021 are shown in green. Projects in fiscal year 2022 are shown in red. Projects in fiscal year 2023 are shown in gold, and all projects planned in fiscal year 2024 are shown in blue.

2021-2024 Rural TIP June 30, 2020 37

SCRIPT:

The continued list of projects included in San Patricio County.

Each project is read aloud.

Funding

The Rural TIP is a fiscally constrained list of projects that functions as a budgeting tool for our District.

Funds can come from:

- Federal Government**
Through the Federal Highway and Transit Administrations
- TxDOT**
Through its Unified Transportation Program funding categories
- Local governments**
Who may be required to provide matching funds for federal monies

“Fiscally constrained TIP” means:
It is realistic in terms of the amount of funding available.

2021-2024 Rural TIP June 30, 2020 38

SCRIPT:

The Rural TIP functions as a budget list for the District. As such it is fiscally constrained. Like the budget of a household, the Rural TIP has to be realistic about the amount of money available to cover all the needs. Frequently we identify more improvements than we have money to implement. This means prioritizing according to those items that are most necessary.

We’ve discussed the list but where is the money coming from? Funds can come from 3 main sources:

- 1) The Federal Government, through the establishment of the Moving Ahead for Progress in the 21st Century Act or MAP-21. The federal government allocates these funds through the processes established by the Federal Highway and Transit Administrations.
- 2) TxDOT, like the Federal Government, also allocates a section of our budget for these projects through the Unified Transportation Program’s 12 funding categories.

And 3) the local governments. Once the need has been identified and the amount of federal monies has been defined, the Rural TIP helps local governments assess the funding requirements to match those of the federal and state government and their capacity to meet them.

SCRIPT:

Now, after you review and comment on these projects, what is next? The timeline above illustrates the Rural TIP process and where we are right now. Once your comments have been collected and considered the Districts will provide TxDOT with a revised Rural TIP for approval and integration into the Statewide document.

The Statewide Transportation Improvement Program is built from the Rural TIPs of all the 25 Districts in the State as well as the Transportation programs from all of the MPOs. The timeline above shows where the Rural TIP process fits into this larger effort. Once the STIP is approved by the Federal government everyone’s projects are funded and are one step closer to getting on the ground.

Next Steps 

How to provide comments:

1. Print and/or fill out a comment form from the meeting page
2. Mail a comment to:
Texas Department of Transportation
Corpus Christi District, Attn: Rural TIP
1701 South Padre Island Drive
Corpus Christi, TX 78416
3. Or email a comment to:
Amanda.Longoria@txdot.gov, Attention: Rural TIP

Remember to submit your comments by **July 14, 2020** to be included in the official summary of this meeting
