

# NORTH TEXAS TEXpress LANES

## FACT SHEET

TEXAS DEPARTMENT OF TRANSPORTATION

### OVERVIEW

The **TEXpress Lanes System** is all about choice, predictable travel and congestion relief. Currently, there are more than 100 miles of TEXpress Lanes on eight roadways. These lanes form a system across the Metroplex allowing drivers to commute from one side to the other with less congestion.

### HOV DISCOUNTS

- **HOVs (high-occupancy vehicles)** are vehicles with a driver and one or more passenger/s or motorcycles.
- **Registered HOVs** can receive a 50 percent discount during peak weekday periods (Monday-Friday, 6:30 a.m. to 9 a.m. and 3 p.m. to 6:30 p.m.)
- **To register as HOV**, please visit [www.GoCarma.com/dfw](http://www.GoCarma.com/dfw) or download the "GoCarma" app. Vehicles must have a TollTag, TxTag or EZ Tag to register.

### TEXpress Lanes

Managed to keep traffic moving at least 50 mph, traffic speeds are maintained through dynamic pricing, meaning the price fluctuates based on congestion in the lanes. Registered HOVs and motorcycles receive a 50 percent discount during peak weekday travel periods.
