

Finding of No Significant Impact for a FHWA Project

Proposed Action: FM 1110 Widening and Realignment

Project Limits: From I-10 to SH 20

City: Socorro & Town of Clint

County: El Paso County

State: Texas

TxDOT CSJ(s): 1281-01-017 & 1281-02-007

In accordance with 23 CFR Section 771.119 and Section 771.121, the Texas Department of Transportation (TxDOT) has determined that the FM 1110 project will not have a significant impact on the human or natural environment.

This Finding of No Significant Impact (FONSI) for the Preferred Alternative is based on the final Environmental Assessment (EA) dated September 2017 and the entire project record. This decision documents the selection of the Build Alternative, presented in the final EA as the Preferred Alternative, which is described as:

The proposed project would consist of widening and realignment of FM 1110 to provide direct connection between I-10 and SH 20 near the Town of Clint and the City of San Elizario. The proposed FM 1110 roadway would be functionally classified as an Urban Minor Arterial (4-lane, divided) with a design speed of 45 miles per hour. The proposed project would include drainage improvements, intersection improvements, a bridge crossing over the floodplain between Salatral Lateral and FM 76, and an overpass at the Union Pacific Railroad (UPRR) crossing. Drainage improvements, including seven retention basins, are proposed for the project. Six-foot wide sidewalks within 20-foot wide borders would be constructed on each side of FM 1110 between the face of curb and proposed right-of-way. In addition, 5-foot wide bicycle lanes would be constructed on both sides of the roadway.

A Notice of Availability of the draft EA was issued on June 29, 2017.

A public hearing for this project was held August 1, 2017.

The following changes to the draft EA were made as a result of comments received during the public hearing:

1. The Farmland Protection Policy Act (FPPA) section (under Section 5.2.5) was revised to include a more thorough discussion on FPPA applicability, requirements, and policies.
2. The public involvement section (Section 6.2) was updated to reflect the outcome of the public hearing and included a list summarizing how public comments were addressed.
3. Under the public involvement section (Section 6.2), a table was included listing stakeholder, public, and project meetings held for the proposed project.

Public Hearing Documentation has been prepared and is available for review on request.

The final EA, the Public Hearing Summary and Analysis Report; Public Meeting Summaries; Community Impacts Technical Report Form; Indirect Effects Technical Report; Biological Evaluation; Hazardous Materials Initial Site Assessment; Traffic Noise Technical Report; Report for Historical Studies Survey; Parks and Wildlife Code, Chapter 26 Compliance; Section 106 Coordination; TPWD Coordination; Checklist for Section 4(f) De Minimis for Public Parks, Recreation Lands, Wildlife & Waterfowl refuges, and Historic Properties; and documents contained in the file of record have been independently evaluated by TxDOT and determined to adequately and accurately discuss the need, purpose, alternatives,

Finding of No Significant Impact for a NEPA Assigned Federal Aid Project

environmental issues, impacts of the proposed project, and appropriate mitigation measures. These documents provide sufficient evidence and analysis for determining that preparation of an Environmental Impact Statement is not required. These documents are incorporated by reference into this decisional document.

Based upon TxDOT's review and consideration of the analysis and evaluation contained in the EA for this project, and after careful consideration of all social, economic, and environmental factors, including input from the public involvement process, TxDOT hereby issues this FONSI for the FM 1110 Widening and Realignment project from I-10 to SH 20.

TxDOT will ensure adherence and completion of all project commitments described in the final EA dated May 2018, Section 7.0. TxDOT will ensure that any and all local, state, or federal permit requirements and conditions are met and otherwise complied with.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and the Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

TxDOT Environmental Affairs Division Director

Environmental Document Certification Form

Project Name: FM 1110

Control Section Job Number (CSJ): 1281-01-017

Document Type: EA EIS FONSI ROD

Document Stage: Draft Final

This checklist shall be used to certify that an environmental document is ready for public review (draft documents) or approval (final documents).

When all required items are satisfactorily completed, the District and ENV representatives will sign this form indicating the environmental document is certified and may proceed to public review or is ready for final approval.

This project meets all the following requirements:

- A. A project scope has been completed for the project.
- B. The document has been determined to be administratively complete.
- C. The document meets the requirements of technical review (43 TAC §2.49) as required to date.
- D. The required public participation has been completed as required to date.
- E. All consultation and coordination required for the environmental decision is complete and appropriately documented (for final environmental documents).
- F. Legal Review or Legal Sufficiency Review has been completed, as required.
- G. Current funding has been reviewed, and is as follows:
