

Documentation of Public Meeting SH 20 (Alameda Avenue) Corridor Study

Project Location

El Paso County
CSJ: 0001-03-057

Project Limits

SH 20 (Texas/Alameda/Main) from SH 20 (Mesa St.) to Shaffer Rd.

Meeting Locations

Tornillo High School, 430 Oil Mill Rd, Tornillo, TX 79853
Ascarate Elementary School, 7090 Alameda Avenue, El Paso, TX 79915
Aoy Elementary School, 901 S Campbell St, El Paso, TX 79901

Meeting Dates and Times

Tuesday, January 15, 2019; 5:00 – 7:00 pm
Wednesday, January 16, 2019; 5:00 – 7:00 pm
Thursday, January 17, 2019; 5:00 – 7:00 pm

Translation Services

Spanish

Presenters

No formal presentation

Elected Officials in Attendance

None

Total Number of Attendees (approx.)

15 – Tornillo High School
43 – Ascarate Elementary School
9 – Aoy Elementary School

Total Number of Commenters

168 total comments (21 comment forms; 27 MetroQuest comments;
120 comments at interactive stations)
23 total MetroQuest survey participants

Comment/Response Matrix

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
1	Pedregon	Vick	1/15/2019	Comment Form	SH 20 @ FM 1110 Lights (Traffic Signal) operation was changed about 2 months ago resulting in worst traffic congestion Formerly, traffic was allowed bi-directionally on FM 1110. This was changed to only allow traffic in one direction at a time. However, without indication of a protected left turn (arrow), motorists wanting to turn left wait because they are unaware that opposing traffic has a red light. I was also encouraged to comment that there is significant flooding in front of my house with just about any rain event. Not part of the SH 20 project but needs attention.	TxDOT operations is reviewing this concern. Regarding flooding, a parallel drainage study is being performed under a separate TxDOT contract.
2	Pedregón	Alicia	1/15/2019	Comment Form	Aesthetics - Kuddos! All three models are amazing. Would add historical medallions to historic theme in place of tiles.	Comment noted.
3	Delarosa	Trinioan	1/15/2019	Comment Form	More (Lighting) between Fabens to Tornillo Fabens SH 20 W Bound Right Hand Curb needs to be removed. Oil Mill Rd at Alameda needs to be elevated!	Comment noted.
4	Vasquez	J.L.	1/15/2019	Comment Form	Looks Good. 915-764-2703 Pot Holes on TX-20	Comment noted.
5	n/a	n/a	1/15/2019	Sticky Note - Station 2	ROW acquisition?	Alternative concepts have attempted to minimize ROW acquisition.
6	n/a	n/a	1/15/2019	Sticky Note - Station 2	News - improvements already implemented	Comment noted.
7	n/a	n/a	1/15/2019	Sticky Note - Station 2	Timelines & how does that affect traffic/commute.	The study is in the feasibility stage and no funding has been identified. As a part of the study we will identify a list of short-, medium-, and long-term projects which could then be implemented by TxDOT as funding becomes available.
8	n/a	n/a	1/15/2019	Sticky Note - Station 2	Socorro to Fabens water lawn AWG - Stakeholder	Comment noted.
9	n/a	n/a	1/15/2019	Sticky Note - Station 2	Where is funding going to come from?	The study is in the feasibility stage and no funding has been identified. As a part of the study we will identify a list of short-, medium-, and long-term projects which could then be implemented by TxDOT as funding becomes available. TxDOT will be looking for partnering opportunities to fund individual projects.
10	n/a	n/a	1/15/2019	MyMaps	Urban Context Area: Urban Design Concept 3 – consider maintenance of tiles in the pavement.	Comment noted.
11	n/a	n/a	1/15/2019	MyMaps	Urban Context Area: Urban Design Concept 3 – make sure tiles are more Texan and not New Mexico like ones shown.	Comment noted.
12	n/a	n/a	1/15/2019	MyMaps	Urban Context Area: Color – more bright colors.	Comment noted.
13	n/a	n/a	1/15/2019	MyMaps	Urban Context Area: Urban design concept 3 – Papel picado for trash cans.	Comment noted.
14	n/a	n/a	1/15/2019	MyMaps	Historic Context Area: Pavement for all concepts: Don't use dark pavement colors because it is too hot in El Paso	Comment noted.
15	n/a	n/a	1/15/2019	MyMaps	Historic Context Area: Urban design concept 3 – recommended from Clint to end of the corridor.	Comment noted.
16	n/a	n/a	1/15/2019	MyMaps	Paseo Context Area: Exit from Loop 375, let turns.	Roadway improvements are being considered as part of this study.
17	n/a	n/a	1/15/2019	MyMaps	Paseo Context Area: Traffic from the port back up to Inglewood.	Comment noted.
18	n/a	n/a	1/15/2019	MyMaps	Paseo Context Area: Driver safety: Illuminated raised pavement markings.	Comment noted.
19	n/a	n/a	1/15/2019	MyMaps	Paseo Context Area: Driver safety: 25 year problem with caps falling off...need ringers for pot holes up to Americas.	Comment noted.
20	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area: Between Passmore and Moon Road there are holes/risers in the ground that are very uncomfortable and potentially push you around in your seat.	Comment noted.
21	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area (FM1110): Police Department gets blocked up by backed up left turning traffic.	Roadway improvements are being considered as part of this study.
22	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area (FM1110): N/S changed to split phasing but there is no left turn arrow just the green light. Can be confusing.	TxDOT operations is reviewing this concern.
23	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area (FM1110): Alternative A.	Comment noted.
24	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area: Sidewalks	Increased sidewalk widths are being considered as a safety-related improvement throughout the corridor.
25	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area (FM 258): Right turn onto SH 20 bad sight.	Roadway improvements are being considered as part of this study.
26	n/a	n/a	1/15/2019	MyMaps	Suburban Context Area: Really like left turn bays at intersections.	Comment noted.
27	n/a	n/a	1/15/2019	MyMaps	Town Context Area (Fabens St.): Don't take any ROW in Fabens.	Alternative concepts have attempted to minimize ROW acquisition.
28	n/a	n/a	1/15/2019	MyMaps	Town Context Area (Fabens St.): More truck traffic than animations currently show	Comment noted.
29	n/a	n/a	1/15/2019	MyMaps	Town Context Area (Fabens St.): Lighting: East of San Elizario...major concern for PD	Illumination is being considered as a safety-related improvement in the corridor.
30	n/a	n/a	1/15/2019	MyMaps	Town Context Area (Fabens St.): Tight radius, WB and NB turns.	Roadway improvements are being considered as part of this study.
31	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Fabens SH 20 WB right curb needs to be removed. Difficult for even a private owned vehicle.	Roadway improvements are being considered as part of this study.
32	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Railroad crossing safety	Safety-related improvements are being considered as part of this study.
33	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Congestion on railroad from IH 10.	Safety-related improvements are being considered as part of this study.
34	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Lots of crashes at 3 rd St.	Safety-related improvements are being considered as part of this study.
35	n/a	n/a	1/15/2019	MyMaps	Rural Context Area: Tractors passing safety, head on collisions	Safety-related improvements are being considered as part of this study. In the rural context area a 10 foot paved shoulder with 8 feet of unpaved shoulder is proposed.
36	n/a	n/a	1/15/2019	MyMaps	Rural Context Area: Lighting	Illumination is being considered as a safety-related improvement in the corridor.
37	n/a	n/a	1/15/2019	MyMaps	Rural Context Area: Increase speed limit	A speed study is needed in order to adjust speed limits.
38	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Oil Mill Road, major road coming onto SH 20...railroad crossing as well.	Comment noted.
39	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Oil Mill Road, traffic signal needed, currently stop sign, traffic on railroad tracks.	A traffic signal warrant study is needed in order to recommend a traffic signal.
40	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Speeding through town.	Comment noted.
41	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Railroad safety	Safety-related improvements are being considered as part of this study.
42	n/a	n/a	1/15/2019	MyMaps	Town Context Area (O.T. Smith): Sight distance, raised grade for railroad safety	Safety-related improvements are being considered as part of this study.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
43	n/a	n/a	1/15/2019	MyMaps	Town Context Area (O.T. Smith): Morning rush hour 5-6 am	Comment noted.
44	n/a	n/a	1/15/2019	MyMaps	Town Context Area (O.T. Smith): signal needed. Traffic control needed, cars back up on to tracks because of stop sign.	A traffic signal warrant study is needed in order to recommend a traffic signal.
45	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Sidewalks	Increased sidewalk widths are being considered as a safety-related improvement throughout the corridor.
46	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Port of entry traffic 5-6am	Comment noted.
47	n/a	n/a	1/15/2019	MyMaps	Town Context Area: Additional rail line.	Comment noted.
48	Hernandez	Ana	1/16/2019	Comment Form	Tengan En Cuenta Alameda Es Mayormente Comercial. Los Sidewalks Mas de 4' Son Inadecuados Luces O Arregios Coalo Para Peatones Paseando Son Inecesarios, Buena Iluminacion Para Bueneflujo De Autos con Senacamientos Ayudan a Protejer De Accidentes En Autos Y Peatones. Take into account that Alameda is mainly commercial. Sidewalks greater than 4' are inadequate. Lights or arrangements for pedestrians passing are unnecessary, good illumination for vehicular reflectors with good signage helps protect cars and people from accidents.	Iluminación y banquetas más amplias están siendo considerados como mejoramientos relacionados con seguridad en todo el corredor. Illumination and increased sidewalk widths are being considered as safety-related improvements throughout the corridor.
49	Sanchez Jr.	Anselmo	1/16/2019	Comment Form	Better Drainage Between Riverside Dr. + Yarbrough, also would medians w/ turning lanes, better street lights, sidewalks w/ crossing markings, shade trees, benches, ADA's for Handicap.	A parallel drainage study is being performed under a separate TxDOT contract. The area from Riverside to Yarbrough is part of the sections that will be analyzed in the upcoming solutions part of the study. Roadway improvements, including aesthetics, medians, illumination, and increased sidewalk widths are being considered throughout the corridor as part of this study.
50	Segoviano	Margarita G.	1/16/2019	Comment Form	good presentation and good ideas however a good part of work will involve construction and traffic delays. I like the Historic/cultural theme, do not agree with narrowing of lanes to accommodate bikes.	Comment noted.
51	Lopez	Maria Y.	1/16/2019	Comment Form	Historic Cultural marks the trail beside the ditch.	Comment noted.
52	Holguin	Cesar C.	1/16/2019	Comment Form	Poner banquetas no mas de 4. ft no quitar un carril para el camion si no quita ay mas trafico Add sidewalks - no more than 4 ft. Do not remove a lane because of buses because if you do, there will be more traffic.	Comentario observado. Comment noted.
53	Hernandez	Jose Luis	1/16/2019	Comment Form	Muy buena proyecciones para el area del alameda feliceda. Very good projects for the area of Alameda, congratulations	Comentario observado. <i>Comment noted.</i>
54	Crowley	Nora	1/16/2019	Comment Form	Alameda between Carolina St + George Orr <u>does not</u> need to be expanded. If you expand obviously public loses property/business/residence/etc..We do not need bike lanes!!!! This means more accidents with cyclists!	Alternative concepts have attempted to minimize ROW acquisition. Regarding bike lanes, comment noted.
55	Valverde	Javier A.	1/16/2019	Comment Form	Mientras No Me Afecita en Nuestra Propiedad todo esta perfecto entodas sus propuestas. As long as it doesn't affect our property everything is perfect in the proposal shown.	Los conceptos alternativos han hecho el intento de minimizar adquisición de ROW. Alternative concepts have attempted to minimize ROW acquisition.
56	n/a	n/a	1/16/2019	Comment Form	No nesecitamos (camellones) no banquetas anchas No queremos que nos quiten una porte de la propiedad de enfente (me comprada) nos urge drenage. We don't need wide roads or sidewalks because we don't want you to take part of our property from the front. We urge you to help with drainage.	Los conceptos alternativos han hecho el intento de minimizar adquisición de ROW. Un estudio de drenaje paralelo esta siendo realizado debajo de otro contrato con TxDOT. Alternative concepts have attempted to minimize ROW acquisition. A parallel drainage study is being performed under a separate TxDOT contract.
57	de la Rose	M.M. Charlie	1/16/2019	Comment Form	I would love to see continuity of all sidewalks throughout the Alameda corridor. *Bicycle trails from Ysleta all the way to I-10/Alameda Intersection *fix Carolina Bridge traffic flow!! *Increase Public Transportation foot print	Comments noted.
58	Urquidi	Felipe	1/16/2019	Comment Form	I am a homeowner on Alameda and am concerned about my property being affected/taken.	Alternative concepts have attempted to minimize ROW acquisition.
59	n/a	n/a	1/16/2019	Sticky Note - Station 2	Keep Parking	Comment noted.
60	n/a	n/a	1/16/2019	Sticky Note - Station 2	Shade for bus stops	Comment noted.
61	n/a	n/a	1/16/2019	Sticky Note - Station 2	Need LED Lights in rural areas high ones	Comment noted.
62	n/a	n/a	1/16/2019	Sticky Note - Station 2	Developer/Business Owner lacking parking	Comment noted.
63	n/a	n/a	1/16/2019	Sticky Note - Station 2	parking	Comment noted.
64	n/a	n/a	1/16/2019	Sticky Note - Station 2	Don't like Roundabout	Comment noted.
65	n/a	n/a	1/16/2019	Sticky Note - Station 2	Would like to see more pedestrian nodes	Comment noted.
66	n/a	n/a	1/16/2019	Sticky Note - Station 2	Bad sidewalks around car lots - not ADA accessibility	Increased sidewalk widths are being considered as a safety-related improvement throughout the corridor.
67	n/a	n/a	1/16/2019	Sticky Note - Station 2	Between Bueno Vista & Delta - missing green lights - Rep Cassandra Brown	Comment noted.
68	n/a	n/a	1/16/2019	Sticky Note - Station 2	Car lots are terrible	Comment noted.
69	n/a	n/a	1/16/2019	Sticky Note - Station 2	No rock landscape	Comment noted.
70	n/a	n/a	1/16/2019	MyMaps	Downtown Context Area: Confusing wayfinding	Comment noted.
71	n/a	n/a	1/16/2019	MyMaps	Downtown Context Area: Opportunity for traffic to bypass Alameda, needs signs	Comment noted.
72	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (Piedras St.) Railroad at Piedras. Want a streetcar.	Comment noted.
73	n/a	n/a	1/16/2019	MyMaps	Urban Context Area: Questions on how adding sidewalks here will create gentrification in this area (Alameda/Hadlock St.)	Comment noted.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
74	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (Raynolds): Traffic gets bad here when there are shift changes at 7am. They aren't as bad as the day continues on since they are 8 hr and 12 hr shifts. There are also a lot of pedestrians here between the hospital and the high school and college. There is a subway at the corner and a Starbucks inside the hospital that a lot of students go to and it is too dangerous to cross the street at Raynolds so they cross at the hospital entrance.	Safety-related improvements are being considered as part of this study.
75	n/a	n/a	1/16/2019	MyMaps	Urban Context Area: Special purpose lane good for MCA.	Comment noted.
76	n/a	n/a	1/16/2019	MyMaps	Urban Context Area: Need more ROW by Cooley Elementary School.	Comment noted.
77	n/a	n/a	1/16/2019	MyMaps	Urban Context Area: Lack of sidewalks, 2 recent fatalities, one with a wheelchair (near El Paso Dr.)	Safety-related improvements are being considered as part of this study.
78	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (El Paso Dr): No Alt. B, Don't cut off access to El Paso Drive, it is a relief route to the medical center.	Comment noted.
79	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (El Paso Dr.): Alt. C is the best!	Comment noted.
80	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (El Paso Dr.): People are still learning roundabouts, but they work.	Comment noted.
81	n/a	n/a	1/16/2019	MyMaps	Urban Context Area: Delta also experiences traffic during the midday. It gives access to the border highway.	Comment noted.
82	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (Delta): Improved access for peds at JPD on Delta.	Safety-related improvements are being considered as part of this study.
133	n/a	n/a	1/16/2019	MyMaps	Urban Context Area (Delta): Needs more lighting.	Illumination is being considered as a safety-related improvement in the corridor.
83	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Medians could be used by panhandlers.	Comment noted.
84	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Car sales deliveries, they need room.	Comment noted.
85	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Shade at bus stops.	Comment noted.
86	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Improved signalization.	Comment noted.
87	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Sight distance issues turning out of businesses.	Comment noted.
88	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: We need drainage.	A parallel drainage study is being performed under a separate TxDOT contract. The Historic Context Area has several locations with flooding issues that will be studied in more detail in the proposed solutions part of the study.
89	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: No more ROW.	Alternative concepts have attempted to minimize ROW acquisition.
90	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): More pedestrian signals.	Pedestrian safety is being considered as part of this study.
91	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Need raised median.	Raised medians are being considered where appropriate throughout the corridor.
92	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Right turn lane needed.	Roadway improvements are being considered as part of this study.
93	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Southbound through lane backed up over the bridge waiting for right turns.	Roadway improvements are being considered as part of this study.
94	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Southbound right turn at Carolina causes the through traffic to get stopped (x2) Friday traffic is worse.	Roadway improvements are being considered as part of this study.
95	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Possibly disallow truck traffic on Carolina	Comment noted.
96	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): Reevaluate through and right turns at Carolina intersection movements due to queuing.	Roadway improvements are being considered as part of this study.
97	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): A lot more pedestrian traffic at Carolina with rec center.	Pedestrian safety is being considered as part of this study.
98	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Carolina): No medians, will affect my business.	Comment noted.
99	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Wider lanes because of trucks, rethink bike lanes.	Comment noted.
100	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: We do not need more sidewalks.	Comment noted.
101	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Cars delivered to autosales use median to unload, where will they unload now?	Comment noted.
102	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Measure right lane for truck unloading/loading for business.	Comment noted.
103	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Transit lane is not needed in historic context.	Comment noted.
104	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Better bike paths parallel to playa drain trail.	Comment noted.
105	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Delta to Yarbrough has the worst flooding.	A parallel drainage study is being performed under a separate TxDOT contract. The Historic Context Area has several locations with flooding issues that will be studied in more detail in the proposed solutions part of the study.
106	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Pedestrian scrambles at lights.	Pedestrian safety is being considered as part of this study.
107	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Add rail to sidewalks for pedestrian safety.	Pedestrian safety is being considered as part of this study.
108	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: No truck traffic on Yarbrough.	Comment noted.
109	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Yarbrough): Lines are drawn for pedestrians here and they wear away after a month or so. More long term solutions requested.	Stained concrete patterns are proposed for endurance as part of this study.
110	n/a	n/a	1/16/2019	MyMaps	Historic Context Area (Yarbrough): Raised median would take away car unloading area.	Comment noted.
111	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: (Near Cinecue Way) The elementary/middle/high schools are all dispersed around this area and lots of kids walk around the road here. Safety is a huge concern.	Pedestrian safety is being considered as part of this study.
112	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Connect Hawkins to Alameda	Comment noted.
113	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: A lot of school bus traffic along Alameda.	Comment noted.
114	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Add sidewalks.	Increased sidewalk widths are being considered as a safety-related improvement throughout the corridor.
115	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Medians down all of Alameda	Roadway improvements, including medians, are being considered throughout the corridor.
116	n/a	n/a	1/16/2019	MyMaps	Historic Context Area: Alternative A Delta to Yarbrough	Comment noted.
117	n/a	n/a	1/16/2019	MyMaps	Paseo Context Area: HOV/Fast lane from 375 to O.T. Smith	Comment noted.
118	n/a	n/a	1/16/2019	MyMaps	Paseo Context Area: Consider future arterial in Socorro.	Comment noted.
119	n/a	n/a	1/16/2019	MyMaps	Paseo Context Area: Traffic: Why even consider an alternative with a LOS that is worse than existing?	Improvements are proposed based on a number of criteria, including traffic operations, safety, multi-modal connectivity, etc. LOS D or better in the year 2040 is achieved in each proposed scenario. The improvements are based on 2040 traffic which is greater than existing traffic.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
120	Decker	Alan	1/17/2019	Comment Form	Wish to prioritize bike/pedestrian access for residents in downtown/central. Do not like the sidewalk bulb-outs that interrupt bike traffic and merge into car lanes. Aesthetics: Do not like big 'gateway' - type signs. Like bright colors.	Comment noted
121	Strumner	S.	1/17/2019	Comment Form	Lighting on Cotton St.; Audio signals, crosswalks; I liked alternative crosswalks at station 5 v. much has college effect and long pedestrian islands use grey crosswalk <u>Don't</u> use beach stones effect "DANGEROUS" like extra concrete at corners	Illumination, signalization, and crosswalks are being considered as a safety-related improvements in the corridor. All roadway materials will be per TxDOT design and safety standards.
122	DeAvda	Virginia	1/17/2019	Comment Form	I am very pleased with what TxDOT is doing for our community. The betterment of traffic, it's safety for pedestrians and drivers. The beauty of our city-roads. The engineering involvement. So many departments working together for a safer and most beautiful future El Paso. I am glad the involvement of resident owners has been sought. I thank you for a wonderful job everyone is performing for the good of our city - El Paso.	Comment noted.
123	n/a	n/a	1/17/2019	MyMaps	Downtown Context Area: Sidewalks need to be improved (wider)	Increased sidewalk widths are being considered as a safety-related improvement throughout the corridor.
124	n/a	n/a	1/17/2019	MyMaps	Downtown Context Area: More lighting downtown	Illumination is being considered as a safety-related improvement in the corridor.
125	n/a	n/a	1/17/2019	MyMaps	Downtown Context Area: Biker Safety: Prefer bike lane behind parking & no bulb out to slow rider down...supportive of green box idea.	Comment noted.
126	n/a	n/a	1/17/2019	MyMaps	Urban Context Area: More crosswalks, add ADA, traffic calming, will help with groceries, and walking to church (from a property owner).	Comment noted.
127	n/a	n/a	1/17/2019	MyMaps	Urban Context Area: Paisano Dr. – Pedestrian signal at roundabout needs improvement.	Comment noted.
128	n/a	n/a	1/17/2019	MyMaps	Urban Context Area: Paisano Dr. – Roundabouts need more improved pedestrian crossing, hot in the summer.	Comment noted.
129	n/a	n/a	1/17/2019	MyMaps	Urban Context Area: Paisano Dr. – Improved lighting at roundabouts.	Illumination is being considered as a safety-related improvement in the corridor.
130	n/a	n/a	1/17/2019	MyMaps	Urban Context Area: Bike lanes from Kansas to Yarbrough	Comment noted.
131	n/a	n/a	1/17/2019	MyMaps	Historic Context Area: Improved pedestrian access at bus stops throughout the corridor.	Pedestrian safety is being considered as part of this study.
132	n/a	n/a	1/17/2019	MyMaps	Town Context Area (O.T. Smith): Traffic signal needed at O.T. Smith	This study is recommending that a traffic signal be considered at the intersection of Alameda and O.T. Smith.

136	n/a	n/a	n/a	Metroquest Screen 2: Traditional Approach	Don't forget the main business is car sale	Comment noted.
137	n/a	n/a	n/a	Metroquest Screen 2: Bike/Ped Improvements	no bike lanes!!! This is alameda which means more cyclist vehicle accidents. Cyclists r clueless, careless	Comment noted.
138	n/a	n/a	n/a	Metroquest Screen 2: Bike/Ped Improvements	no comment	Comment noted.
139	n/a	n/a	n/a	Metroquest Screen 2: Bike/Ped Improvements	Makes it harder to turn off Alameda at intersections	Comment noted.
140	n/a	n/a	n/a	Metroquest Screen 2: Bike/Ped Improvements	want better pedestrian access but not bike lanes	Comment noted.
141	n/a	n/a	n/a	Metroquest Screen 2: Special Purpose Lane	what about tractors in the rural areas, they seem to cause chaos at times.	In the rural context area a 10 foot paved shoulder with 8 feet of unpaved shoulder is proposed to increase safety.
142	n/a	n/a	n/a	Metroquest Screen 2: Special Purpose Lane	continuity of sidewalks	Comment noted.
143	n/a	n/a	n/a	Metroquest Screen 3: Piedras	Alternative A: 10 Alternative B: 4 Alternative C: 5	Comment noted.

147	n/a	n/a	n/a	Metroquest Screen 3: Loop 375	Alternative A: 10 Alternative B: 2 Alternative C: 4	Comment noted.
148	n/a	n/a	n/a	Metroquest Screen 3: Piedras	I can't see which one has the bike lanes, but I want to pick that option for Alameda & Myrtle/Piedras please.	Comment noted.
149	n/a	n/a	n/a	Metroquest Screen 3: Raynolds/Val Verde	Most required is traffic flow here. Pedestrians and bicyclists can use Alberta street which runs parallel to Alameda to go btw Texas Tech (Concepcion)/ hospitals (Raynolds/Ball street), etc. so traffic flow is MOST important with pedestrian safety. Bicycle patterns become important on Alameda going W from Raynolds toward downtown.	Comment noted.
150	n/a	n/a	n/a	Metroquest Screen 3: Raynolds/Val Verde	Most required is traffic flow here. Pedestrians and bicyclists can use Alberta street which runs parallel to Alameda to go btw Texas Tech (Concepcion)/ hospitals (Raynolds/Ball street), etc. so traffic flow is MOST important with pedestrian safety. Bicycle patterns become important on Alameda going W from Raynolds toward downtown. Lastkly, the drainage around this area must always be prioritized above design due to need for employees/ emergency vehicles/ patients to be able to travel to hospital rain, shine, or (rarely) snow/ice. :)	Comment noted. A parallel drainage study is being performed under a separate TxDOT contract. Priority for higher storm frequencies will be considered for this area.
151	n/a	n/a	n/a	Metroquest Screen 3: Raynolds/Val Verde	also likes southbound right lane alternative	Comment noted.
152	n/a	n/a	n/a	Metroquest Screen 3: Loop 375	like to be able to get off for walmart sooner than that loop 375.	Comment noted.
153	n/a	n/a	n/a	Metroquest Screen 4: Rio Grande Concept Ideas	Strongly Like: 11 Like: 7 Neutral: 2 Dislike: 0 Strongly Dislike: 1	Comment noted.

158	n/a	n/a	n/a	Metroquest Screen 4: Historic/Culture Materials	Strongly Like: 6 Like: 7 Neutral: 4 Dislike: 1 Strongly Dislike: 1	Comment noted.
159	n/a	n/a	n/a	Metroquest Screen 4: Rio Grande Materials	Crosswalk band durability? Will the stones separate from the concrete with traffic over time?	All roadway materials will be per TxDOT design and safety standards.
160	n/a	n/a	n/a	Metroquest Screen 4: Rio Grande Materials	something to keep in mind is how hot and how sunny El Paso is. The heat index of side walks and adsorption of heat of the sidewalks is a safety concern for both pedestrians and pets. I am not sure that having dark materials/cross walks will be appropriate but I am not sure of the technicalities of material used and heat absorption. So keep in mind possibly using lighter colors for pedestrian cross walks/ thoroughfares.	All roadway materials will be per TxDOT design and safety standards.
161	n/a	n/a	n/a	Metroquest Screen 4: Rio Grande Materials	Do not like big "gateway" and "pathfinder" signs in any design	Comment noted.
162	n/a	n/a	n/a	Metroquest Screen 4: Franklin Mountain Concept Ideas	something to keep in mind is how hot and how sunny El Paso is. The heat index of side walks and adsorption of heat of the sidewalks is a safety concern for both pedestrians and pets. I am not sure that having dark materials/cross walks will be appropriate but I am not sure of the technicalities of material used and heat absorption. So keep in mind possibly using lighter colors for pedestrian cross walks/ thoroughfares.	All roadway materials will be per TxDOT design and safety standards.

163	n/a	n/a	n/a	Metroquest Screen 4: Historic/Culture Concept Ideas	I love the tiles! I, again, wonder about the sun cracking the tiles or upkeep and maintenance. Again, thinking of 10 year plan (not how it looks immediately upon completion)... I am thinking that some of the stainless steel trashcans will rust or look bad as compared to the other trash cans seen in the concept ideas. I like the CIRCLE tree grates more than the SQUARE ones. Separately, I feel strongly about the possibility of using solar-powered lighting systems and maybe solar-powered trash compactors instead of the receptacles outlines in the concept pictures.	All roadway materials will be per TxDOT design and safety standards. Comment noted.
164	n/a	n/a	n/a	Metroquest Screen 4: Historic/Culture Concept Ideas	dislike skeletons strongly. Skeletons invite death.	Comment noted.
165	n/a	n/a	n/a	Metroquest Screen 4: Historic/Culture Concept Ideas	loved this one bright and vibrant colors like our culture and people.	Comment noted.
166	n/a	n/a	n/a	Metroquest Screen 4: Historic/Culture Materials	consider heat index with the dark color inserts onto the sidewalk. Maybe using a combo of reddish with light beige for any of the 3 concepts outlined at this meeting.	All roadway materials will be per TxDOT design and safety standards.
167	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	Thank you for taking the time to inform the public	Comment noted.
168	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	thank you all it was very informative	Comment noted.
169	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	Thanks for presenting this future plans to the community	Comment noted.
170	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	I use the corridor most from Mesa to Piedras. I commute both by car and by bike, but I have safety concerns on my bike. I would bike more often if I wasn't worried about traffic, so I would love to see more roads in El Paso designed with bicycle safety in mind. Thanks for this opportunity to comment!	Comment noted.
171	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	drainage is a big concern	A parallel drainage study is being performed under a separate TxDOT contract.
172	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	Would like to see consideration of Arterial 1 in Planning Document.	Comment noted.
173	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	Thank you! Very great. First txdot meeting. Love the ROUNDABOUTS!!!! Keep up the great work, txdot!	Comment noted.
174	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	Thank you for taking the initiative to improve serious conditions on alameda and the community	Comment noted.
175	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	drive it to get food	Comment noted.
176	n/a	n/a	n/a	Metroquest Screen 5: Stay Involved (Other Comments)	I disliked plan b do not want anything to do with eminent domain. please do improve lighting and crosswalk safety features all throughout the corridor.	Comment noted. Safety-related improvements are being considered as part of this study.

SH 20 (Alameda Avenue) Corridor Study

TxDOT El Paso District is conducting a corridor study of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a SH 20 (Alameda Avenue) Corridor Plan.

Study Limits

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor. SH 20 is Texas Avenue in downtown El Paso from SH 20 (Mesa Street) east for approximately 2 miles. SH 20 continues southeast as Alameda Avenue to Shaffer Road in Tornillo, and is referred to as Main Street in Fabens. The corridor goes through urbanized and rural areas within El Paso County and serves as one of the major east/west connections for various communities along its route

Primary Objective

The primary objectives of the study are to:

- Study the current and future corridor challenges and needs
- Identify the communities' future vision for SH 20 (Texas/Alameda/Main)
- Develop a SH 20 (Alameda Avenue) Corridor Plan

The study is being conducted through a process of data collection, analysis of current and future transportation needs and public outreach. It is evaluating topics such as vehicle/pedestrian/bicycle safety, roadway capacity, traffic operations, drainage, placemaking and aesthetics, and multimodal access. The study will result in conceptual design recommendations for SH 20 (Texas/Alameda/Main) and short-, medium-, and long-term improvements that could be implemented over the next 20-plus years. The findings of the study will be documented in a SH 20 (Alameda Avenue) Corridor Plan.

Get Involved

TxDOT Website

Public engagement is a key element to the success of this study. Coordination with the public, stakeholders, elected/public officials, cities, counties and agencies will be conducted throughout the study.

Public Meeting Series #1 was held in June 2018 and focused on identifying the needs, challenges and vision for the SH 20 (Texas/Alameda/Main) corridor through 2040. Here are the meeting materials:

- [June 26, 2018 at Clint High School](#)
- [June 27, 2018 at Riverside High School](#).

We welcome you to get involved in the study and participate in upcoming public meetings.

- Public Meeting Series #2 will focus on developing, evaluating, and screening initial design concepts. These meetings are scheduled for
 - Jan. 15 at Tornillo High School
 - Jan. 16 at Ascarate Elementary School
 - Jan. 17 at Aoy Elementary School.
 - [Fact Sheet](#)

The study is expected to be completed in the summer of 2019.

Interactive Traffic Tool

Learn more about traffic conditions of the SH 20 (Texas/Alameda/Main) corridor.

The interactive traffic [tool](#) provides a way to visualize and compare traffic conditions at different times of day and for the existing condition (2018) and how conditions may change in the future if no improvements are made by 2040.

Drainage Visualization

Learn more about the drainage patterns along the SH 20 (Texas/Alameda/Main) corridor.

The drainage [visualization](#) demonstrates how water currently flows during rain events along the corridor.

Study Process and Schedule

The development of this plan will be accomplished through a robust process including data collection, public outreach, analysis of current and future transportation needs, and identification of potential projects. The study is anticipated to be 18-months in duration and will conclude with a recommended corridor plan by summer of 2019.

Public Involvement Policy

TxDOT commits to purposefully involve the public in planning and project implementation by providing for early, continuous, transparent and effective access to information and decision-making processes. TxDOT will regularly update public involvement methods to include best practices in public involvement and incorporate a range of strategies to encourage broad participation reflective of the needs of the state's population." As adopted by the Texas Transportation Commission on Jan. 27, 2011.

Hearings and Meetings

Public hearings and meetings allow you to participate in the transportation planning process and are a coordinated effort to gather your input. These meetings help you better understand the road, rail and aviation projects that affect your community. Everyone is welcome to attend.

Notices

Notices alert the public about specific milestones in the environmental review process and offers the opportunity to review environmental documents. Notice types include Notice Affording Opportunity for Public Hearing; Notice of Availability of environmental documents, such as an Environmental Impact Statement or Environmental Assessment; and Notice of Finding of no Significant Impact.

Where: Tornillo High School Cafeteria
430 Oil Mill Road
Tornillo, TX 79853 ([Map](#))

When: Tuesday, January 15, 2019
5 p.m. - 7 p.m.

Purpose: The purpose of the public meeting is to gather public input on the advance planning study of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The public meeting will be conducted in an open house format. Those wishing to attend are encouraged to do so at their convenience. Displays will be available for review and comment and TxDOT staff will be available to answer questions. No formal presentation will be given.

Description: The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a SH 20 (Alameda Avenue) Corridor Plan.

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor and goes through urbanized and rural areas within El Paso County. The corridor also serves as one of the major east/west connections for various communities along its route.

The study will be conducted through a process of data collection, analysis of current and future transportation needs and public outreach. It will evaluate topics such as vehicle/pedestrian/bicycle safety, roadway capacity, traffic operations, drainage, placemaking and aesthetics, and multimodal access. The study will result in conceptual design recommendations for SH 20 (Texas/Alameda/Main) and short-, medium-, and long-term improvements that could be implemented over the next 20+ years. The findings of the study will be documented in a SH 20 (Alameda Avenue) Corridor Plan. More

information about public involvement and the corridor study, as well as a link to the online engagement tool, may be found on the project page.

Special Accommodations:

TxDOT makes every reasonable effort to accommodate the needs of the public. The open house will be conducted in English; however, if you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call 915-790-4200 at least five working days prior to the meeting. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.

Memorandum of Understanding:

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Second round of Alameda Corridor meeting set to start

TxDOT is working to improve 18 intersections on the Alameda Corridor and is asking for the public's input to determine which upgrades are needed most.

"Well we want them to share their experience on Alameda, so if you drive on Alameda, whether you live in the area, work in the area, or drive occasionally, we want you to come out to these public meetings and let us know what it's like for you, what concerns do you see out there, and what would you like to see in terms of improvement," said Lauren Cervantes, TxDOT public information officer.

News Article

NEWS WEATHER SPORTS COMMUNITY CHIME IN WATCH

Tuesday kicks off the second round of public meetings for the Alameda corridor study.

The study is being used to analyze current and future corridor challenges and needs, identify the community's future vision as well as develop a new corridor plan.

It is being conducted through a process of data collection from the community members who participate.

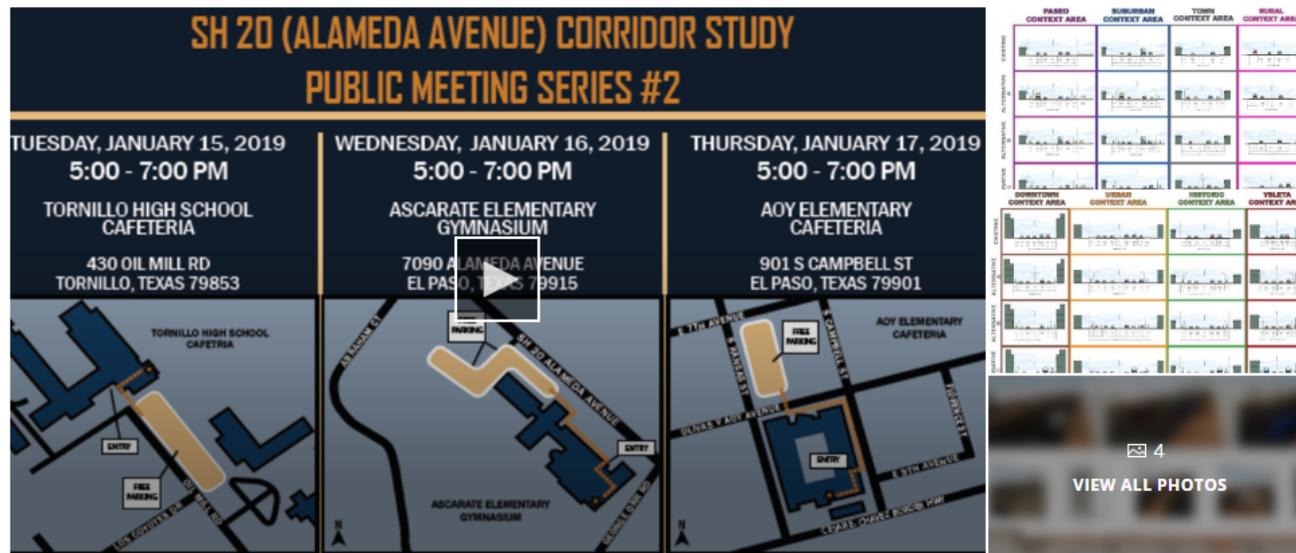

The study will evaluate topics such as:

- Vehicle/pedestrian/bicycle safety
- Roadway capacity
- Traffic operations
- Multimodal access
- Drainage
- Connections to the community
- Placemaking and aesthetics
- Environmental, cultural and community resources
- Estimated cost

For the second round of meetings, the community will be able to look at results and input given from the first round of meetings.

According to TxDOT, at the last meeting, the community asked for increased bicycle and pedestrian safety, more lighting and traffic signals, added raised medians, turn lanes and shoulders for farm vehicles, as well as wider sidewalks.

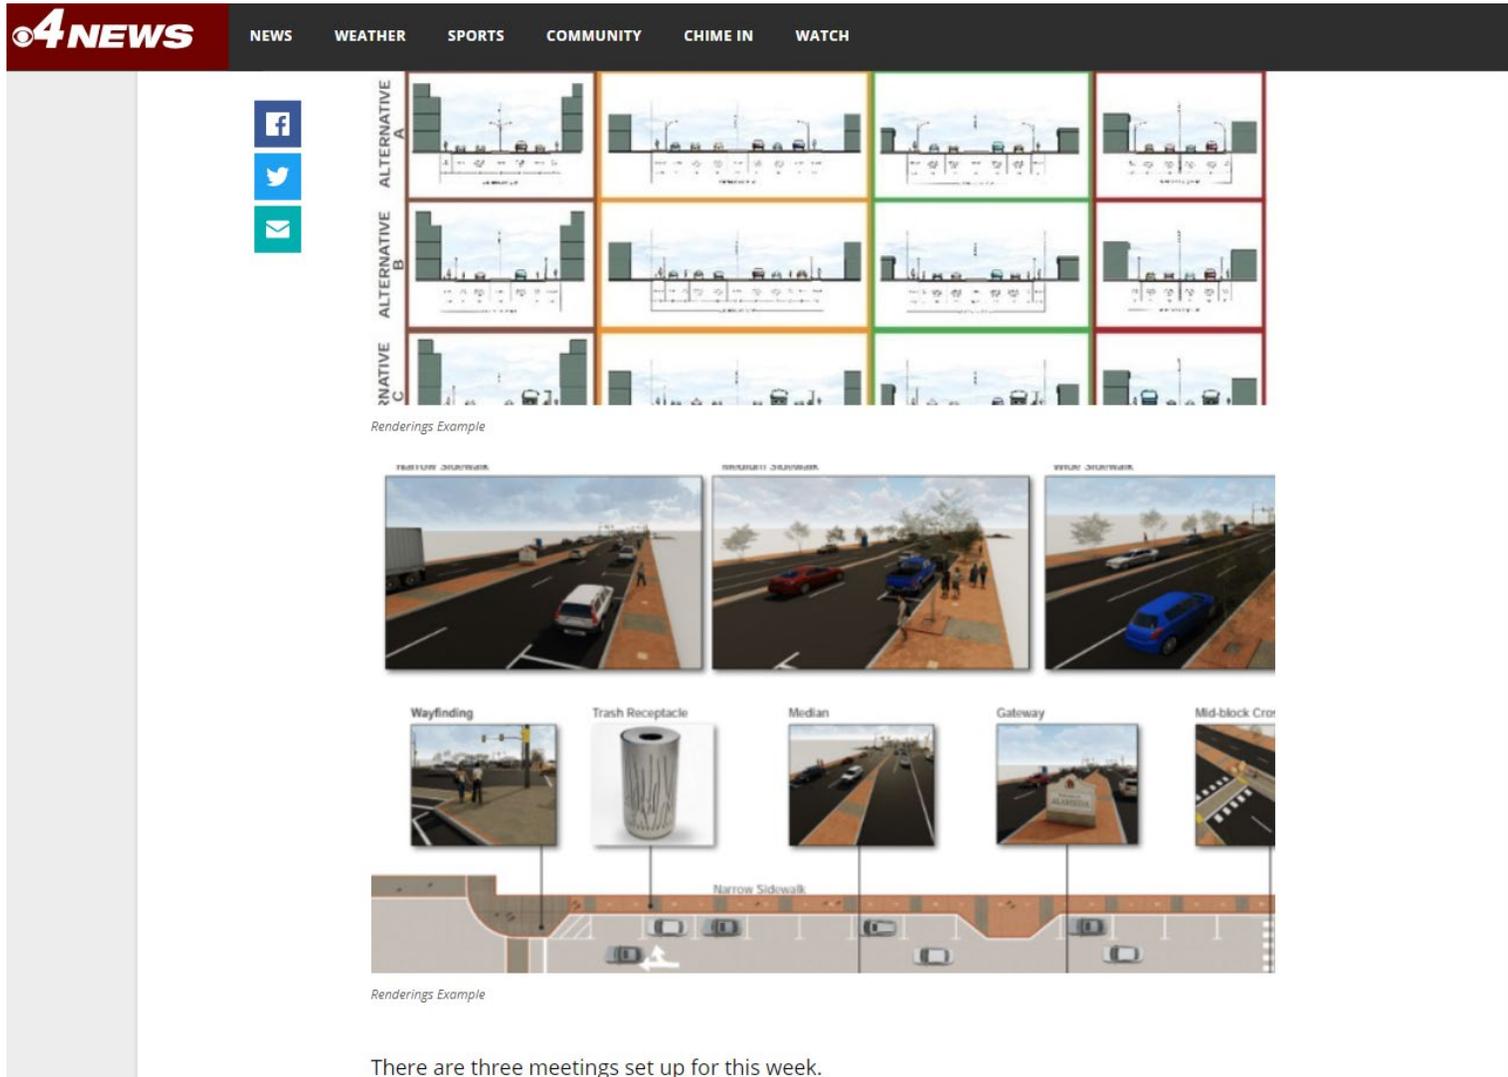

During the meeting today, they will also look at proposed solutions. These are some of the visual renderings that TxDOT has put together to show the public different options of what can be done on this stretch of road.

TRANSPORTATION IS LOOKING TO EMBARK ON A MAJOR PROJECT – IMPROVING A 35-MILE STRETCH OF ALAMEDA FROM DOWNTOWN EL PASO TO TORNILLO. IT'S

00:02 01:45

Department of Transportation seeking input for Alameda Ave. project

The Texas Department of Transportation is embarking on a major project to improve Alameda Avenue from downtown El Paso to Tornillo, Texas.

News Article

Before any construction can begin on the 35-mile stretch, TXDOT has to do its research to identify the needs of Alameda Ave.

TXDOT started the Alameda Corridor Study in 2017.

This TXDOT is hosting a round of public meetings to get feedback from community members who live and commute along Alameda.

"This is the second round of public meetings, we already have some ideas that people gave us the first time around. So people will be able to specifically look at eighteen intersections along those 35 miles," said Lauren Macias-Cervantes, TXDOT spokeswoman.

Current construction projects on Alameda are focusing on operational improvements and pedestrian safety.

TXDOT emphasizes the study looks at short term and longer term goals, some that could be implemented over the next twenty years.

"Once that study is complete then it's looking at prioritizing projects, we have to secure funding and each of those projects has to go through its own approval process," Macias-Cervantes said.

News Article

The study is expected to be complete this summer, according to Macias-Cervantes.

Past community meetings have shown TXDOT that residents are concerned about pedestrian safety, street flooding and congestion and the City of El Paso is looking to expand on economic impact along Alameda.

"We've taken a look at the heavy traffic and vehicle use of the corridor in some of the outer areas like Tornillo where you might be sharing the road with a tractor," Macias-Cervantes said.

A public meeting will held Wednesday at Ascarate Elementary School from 5-7 p.m., located at 7090 Alameda Ave.

On Thursday, the meeting will be held at Aoy Elementary School from 5-7 p.m., located at 901 S. Campbell St.

The meetings will be an open house format staffed by engineers, planners, and staff working on the study who can answer questions in English or Spanish.

If you can't attend the meetings, you can still offer feedback [online](#).

COMMENTS: SH 20 @ FM 1110 LIGHTS (TRAFFIC SIGNAL) OPERATION WAS CHANGED ABOUT 2 MONTHS AGO RESULTING IN WORST TRAFFIC CONGESTION FORMERLY, TRAFFIC WAS ALLOWED BI-DIRECTIONALLY ON FM 1110. THIS WAS CHANGED TO ONLY ALLOW TRAFFIC IN ONE DIRECTION AT A TIME. HOWEVER, WITHOUT INDICATION OF A PROTECTED LEFT TURN (ARROW), MOTORISTS WANTING TO TURN LEFT WAIT BECAUSE THEY ARE UNAWARE THAT OPPOSING TRAFFIC

Comments must be received or postmarked on or before Friday, February 1, 2019 to be included in the Public Meeting Summary and sent to:

COMMENTS: Aesthetics - Kuddos! All three models
are amazing. Would add historical medallions
to historic theme in pace & files.

COMMENTS: good presentation and good ideas however a good part of work will involve construction and traffic delays

I like the historic/cultural theme, do not agree with narrowing of lanes to accommodate bikes.

Comments must be received or postmarked on or before **Friday, February 1, 2019** to be included in the Public Meeting Summary and sent to:

COMMENT FORM

This form is provided to receive your comments regarding the SH 20 (Alameda Avenue) Corridor Study. Please use the space below, attaching additional pages if necessary. Your comments can be deposited in the comment box tonight, mailed to the address provided below or emailed to Alameda.Study@Jacobs.com. All written comments must be postmarked by **Friday, February 1, 2019** in order to be included in the Public Meeting Summary. Thank you for your comments.

COMMENTS: Alameda between Crook's St +
George Orr does not need to be expanded.
If you expand obviously public loses
property / business / residence etc...
We do not need bike lanes!
this means more accidents with cyclists!

Comments must be received or postmarked on or before **Friday, February 1, 2019** to be included in the Public Meeting Summary and sent to:

COMMENTS: Wish to prioritize bike/pedestrian access for residents in
downtown/central. Do not like the sidewalk cut-outs that
interrupt bike traffic and merge into car lanes.
Aesthetics: Do not like big 'gateway' - type signs. Like bright colors.

Comments must be received or postmarked on or before **Friday, February 1, 2019** to be included in the Public Meeting Summary and sent to:

Google MyMaps Tablet Comments

During the public meetings, members of the public were encouraged to provide comments at each station, in particular as part of Station 4 – Context Areas. The corridor was presented to the public on large roll plots and visualized on tablets using Google MyMaps. Participants were encouraged to review the maps, ask questions, and provide feedback via sticky notes on the roll plots or through the tablets.

All comments provided via sticky note on the roll plots were then transcribed and entered into the Google MyMaps.

Comments made are transcribed below and given an approximate location description. All comments were added to the Comment Response Matrix (**Attachment A**).

MyMaps Comments	
Comment Location	Comment
Downtown Context Area	Sidewalks need to be improved (wider)
Downtown Context Area	More lighting downtown
Downtown Context Area	Biker Safety: Prefer bike lane behind parking & no bulb out to slow rider down...supportive of green box idea.
Downtown Context Area	Confusing wayfinding
Downtown Context Area	Opportunity for traffic to bypass Alameda, needs signs
Urban Context Area – Piedras St.	Railroad at Piedras. Want a streetcar.
Urban Context Area	More crosswalks, add ADA, traffic calming, will help with groceries, and walking to church (from a property owner).
Urban Context Area	Questions on how adding sidewalks here will create gentrification in this area (Alameda/Hadlock St.)
Urban Context Area – Raynolds	Traffic gets bad here when there are shift changes at 7am. They aren't as bad as the day continues on since they are 8hr and 12 hr shifts. There are also a lot of pedestrians here between the hospital and the high school and college. There is a subway at the corner and a Starbucks inside the hospital that a lot of students go to and it is too dangerous to cross the street at Raynolds so they cross at the hospital entrance.
Urban Context Area	Special purpose lane good for MCA.
Urban Context Area	Paisano Dr. – Pedestrian signal at roundabout needs improvement.
Urban Context Area	Paisano Dr. – Roundabouts need more improved pedestrian crossing, hot in the summer.
Urban Context Area	Paisano Dr. – Improved lighting at roundabouts.
Urban Context Area	Need more ROW by Cooley Elementary School.
Urban Context Area	Lack of sidewalks, 2 recent fatalities, one with a wheelchair (near El Paso Dr.)
Urban Context Area – El Paso Dr.	No Alt. B, Don't cut off access to El Paso Drive, it is a relief route to the medical center.
Urban Context Area – El Paso Dr.	Alt. C is the best!
Urban Context Area – El Paso Dr.	People are still learning roundabouts but they work.
Urban Context Area – Delta Dr.	Delta also experiences traffic during the midday. It gives access to the border highway.
Urban Context Area – Delta Dr.	Needs more lighting.
Urban Context Area – Delta Dr.	Improved access for pedestrians at JPD on Delta.
Urban Context Area	Urban Design Concept 3 – consider maintenance of tiles in the pavement.
Urban Context Area	Urban Design Concept 3 – make sure tiles are more Texan and not New Mexico like ones shown.
Urban Context Area	Color – more bright colors.
Urban Context Area	Urban design concept 3 – Papel picado for trash cans.
Urban Context Area	Bike lanes from Kansas to Yarbrough
Historic Context Area	Improved pedestrian access at bus stops throughout the corridor.
Historic Context Area	Medians could be used by panhandlers.
Historic Context Area	Car sales deliveries, they need room.

MyMaps Comments	
Comment Location	Comment
Historic Context Area	Shade at bus stops.
Historic Context Area	Improved signalization.
Historic Context Area	Sight distance issues turning out of businesses.
Historic Context Area	We need drainage.
Historic Context Area	No more ROW.
Historic Context Area	More pedestrian signals.
Historic Context Area – Carolina	Need raised median.
Historic Context Area – Carolina	Right turn lane needed.
Historic Context Area – Carolina	Southbound right turn at Carolina causes the through traffic to get stopped (x2) Friday traffic is worse.
Historic Context Area – Carolina	Possibly disallow truck traffic on Carolina
Historic Context Area – Carolina	Reevaluate through and right turns at Carolina intersection movements due to queuing.
Historic Context Area – Carolina	A lot more pedestrian traffic at Carolina with rec center.
Historic Context Area – Carolina	Southbound through lane backed up over the bridge waiting for right turns.
Historic Context Area – Carolina	No medians, will affect my business.
Historic Context Area	Wider lanes because of trucks, rethink bike lanes.
Historic Context Area	We do not need more sidewalks.
Historic Context Area	Cars delivered to autosales use median to unload, where will they unload now?
Historic Context Area	Measure right lane for truck unloading/loading for business.
Historic Context Area	Transit lane is not needed in historic context.
Historic Context Area	Better bike paths parallel to playa drain trail.
Historic Context Area	Delta to Yarbrough has the worst flooding.
Historic Context Area	Pedestrian scrambles at lights.
Historic Context Area	Add rail to sidewalks for pedestrian safety.
Historic Context Area – Yarbrough	No truck traffic on Yarbrough.
Historic Context Area – Yarbrough	Lines are drawn for pedestrians here and they wear away after a month or so. More long term solutions requested.
Historic Context Area – Yarbrough	Raised median would take away car unloading area.
Historic Context Area	(Near Cinecue Way) The elementary/middle/high schools are all dispersed around this area and lots of kids walk around the road here. Safety is a huge concern.
Historic Context Area	Pavement for all concepts: Don't use dark pavement colors because it is too hot in El Paso
Historic Context Area	Connect Hawkins to Alameda
Historic Context Area	Urban design concept 3 – recommended from Clint to end of the corridor.
Historic Context Area	A lot of school bus traffic along Alameda.
Historic Context Area	Add sidewalks.
Historic Context Area	Medians down all of Alameda
Historic Context Area	Alternative A Delta to Yarbrough
Paseo Context Area	Exit from Loop 375, let turns.
Paseo Context Area	HOV/Fast lane from 375 to O.T. Smith

MyMaps Comments	
Comment Location	Comment
Paseo Context Area	Traffic from the port back up to Inglewood.
Paseo Context Area	Driver safety: Illuminated raised pavement markings.
Paseo Context Area	Consider future arterial in Socorro.
Paseo Context Area	Traffic: Why even consider an alternative with a LOS that is worse than existing?
Paseo Context Area	Driver safety: 25 year problem with caps falling off...need ringers for pot holes up to Americas.
Suburban Context Area	Between Passmore and Moon Road there are holes/risers in the ground that are very uncomfortable and potentially push you around in your seat.
Suburban Context Area – FM 1110	Police Department gets blocked up by backed up left turning traffic.
Suburban Context Area – FM 1110	N/S changed to split phasing but there is no left turn arrow just the green light. Can be confusing.
Suburban Context Area – FM 1110	Alternative A.
Suburban Context Area	Sidewalks
Suburban Context Area – FM 258 (Socorro Rd.)	Right turn onto SH 20 bad sight.
Suburban Context Area	Really like left turn bays at intersections.
Town Context Area – Fabens St.	More truck traffic than animations currently show
Town Context Area – Fabens St.	Lighting: East of San Elizario...major concern for PD
Town Context Area – Fabens St.	Tight radius, WB and NB turns.
Town Context Area – Fabens St.	Fabens SH 20 WB right curb needs to be removed. Difficult for even a private owned vehicle.
Town Context Area – Fabens St.	Don't take any ROW in Fabens.
Town Context Area	Railroad crossing safety
Town Context Area	Congestion on railroad from IH 10.
Town Context Area	Lots of crashes at 3 rd St.
Rural Context Area	Tractors passing safety, head on collisions
Rural Context Area	Lighting
Rural Context Area	Increase speed limit
Town Context Area	Oil Mill Road, major road coming onto SH 20...railroad crossing as well.
Town Context Area	Oil Mill Road, traffic signal needed, currently stop sign, traffic on railroad tracks.
Town Context Area	Speeding through town.
Town Context Area	Railroad safety
Town Context Area – O.T. Smith	Sight distance, raised grade for railroad safety
Town Context Area – O.T. Smith	Morning rush hour 5-6 am
Town Context Area – O.T. Smith	Traffic signal needed at O.T. Smith
Town Context Area – O.T. Smith	Signal needed; traffic control needed, cars back up on to tracks because of stop sign.
Town Context Area	Sidewalks
Town Context Area	Port of entry traffic 5-6am
Town Context Area	Additional rail line.

Thank you for attending today's public meeting. The Texas Department of Transportation (TxDOT) welcomes you.

Today's public meeting is about the SH 20 (Alameda Avenue) Corridor Study. The Corridor Study will document the communities' vision for a 30-mile section of SH 20 (Texas/Alameda/Main) as it relates to future transportation along the corridor through 2040.

The purpose of the meeting is to present findings from the data collection & analysis and agency coordination conducted to date and review the conceptual roadway alternatives through alternatives and urban design themes. We want your feedback to help define the needs and vision for the corridor.

No formal presentation will be given.

Gracias por asistir a la reunión pública de hoy. El Departamento de Transporte de Texas le da la bienvenida.

La reunión pública de hoy se trata del proyecto del Plan del Corredor SH 20 (Alameda Avenue). El plan documentará la visión que las comunidades tienen para esta sección de 30 millas de SH 20 (Texas/Alameda/Main) con el propósito de transporte futuro a lo largo del corredor hasta el año 2040.

El propósito de esta reunión es presentar los resultados de la recopilación y análisis de datos junto con la coordinación entre las agencias que la comunidad hace la fecha y recibir las ideas y propuestas de diseño de las calles/intersecciones y las temas de diseño urbano. Queremos su opinión para definir las necesidades y la visión del corredor.

No habrá presentación formal.

Thank you for attending today's public meeting. The Texas Department of Transportation (TxDOT) welcomes you.

Today's public meeting is about the SH 20 (Alameda Avenue) Corridor Study. The Corridor Study will document the communities' vision for a 30-mile section of SH 20 (Texas/Alameda/Main) as it relates to future transportation along the corridor through 2040.

The purpose of the meeting is to present findings from the data collection & analysis and agency coordination conducted to date and review the conceptual roadway alternatives through alternatives and urban design themes. We want your feedback to help define the needs and vision for the corridor.

No formal presentation will be given.

Gracias por asistir a la reunión pública de hoy. El Departamento de Transporte de Texas le da la bienvenida.

La reunión pública de hoy se trata del proyecto del Plan del Corredor SH 20 (Alameda Avenue). El plan documentará la visión que las comunidades tienen para esta sección de 30 millas de SH 20 (Texas/Alameda/Main) con el propósito de transporte futuro a lo largo del corredor hasta el año 2040.

El propósito de esta reunión es presentar los resultados de la recopilación y análisis de datos junto con la coordinación entre las agencias que la comunidad hace la fecha y recibir las ideas y propuestas de diseño de las calles/intersecciones y las temas de diseño urbano. Queremos su opinión para definir las necesidades y la visión del corredor.

No habrá presentación formal.

Gracias por asistir a la reunión pública de hoy. El Departamento de Transportación de Texas le da la bienvenida.

La reunión pública de hoy se trata del proyecto del Plan del Corredor SH 20 (Alameda Avenue). El plan documentará la visión que las comunidades tienen para esta sección de 3.5 millas de SH 20 (Texas/Alameda/Main) que cruza secciones de transporte futuro a lo largo del corredor hacia el año 2040.

El propósito de esta reunión es presentar los resultados de la recopilación y análisis de datos junto con la participación entre las agencias que ya ocurrirá hacia la fecha y recibir las retroalimentaciones de diseño de las calles/intersecciones y las temas de diseño urbano. Queremos su opinión para definir las necesidades y la visión del corredor.

No habrá presentación formal.

SH 20 (Alameda Avenue) Corridor Study
EL PASO DISTRICT
Factsheet

SH 20 (Alameda Avenue) Corridor Study
EL PASO DISTRICT
Factsheet

WHAT IS A CORRIDOR PLAN?
A Corridor Plan:

- Defines existing transportation challenges and opportunities and considers alternatives and provides possible solutions.
- Documents and evaluates the community's future vision regarding transportation and develops a set of recommendations to enhance safety and mobility.
- Includes data collection, public outreach, analysis of current and future transportation needs and identification of potential improvements.

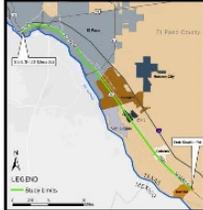

STUDY OBJECTIVE & PROCESS
The objective of the 1.5-mile SH 20 (Alameda Avenue) Corridor Study is to:

- Analyze current and future corridor challenges and needs
- Identify the community's future vision
- Develop a corridor plan

The study will be conducted through a process of data collection, analysis of current and future transportation needs, and public outreach. The final result of this study will be the development of conceptual design recommendations and a set of short-, medium- and long-term improvements.

The study will evaluate topics such as:

- Vehicle/pedestrian/bicycle safety
- Roadway capacity
- Traffic operations
- Multimodal access
- Drainage
- Connections to the community
- Placement and aesthetics
- Environmental, cultural & community resources
- Estimated costs

HOW CAN I PARTICIPATE?

Public engagement is a key element to the success of this study. Open houses with the public and stakeholders will be conducted throughout 2018 and 2019 to help TxDOT identify the needs, challenges and vision for State Highway 20 (Texas/Alameda/Main) through 2040. Services, evaluation, and design work will be completed and shared with the community.

We encourage you to get involved in the study and participate in upcoming public meetings. The second series of public meetings is planned for January 15-17, 2019, followed by a 3rd series starting on 20-25. More details about these meet ups will be posted to the study webpage at www.tdot.texas.gov, keyword "Alameda Avenue". The study is reported to be completed in the summer of 2019.

Station 2 – Study Background and What We’ve Heard

Station 2 presented a study location, an exhibit that explained the study timeline and objectives, and an exhibit that explained what we’ve heard so far from the public, agencies, and other stakeholders regarding the corridor.

WHAT WE LEARNED & WHAT WE HEARD

Safety Improvements are the Most Important Needs for All Stakeholders

- Improve Pedestrian/Bicycle Safety
 - Patterned Sidewalks/Crosswalks, Dedicated Bike Lanes, Mid-block Crossings, ADA Accessibility, School Zones
- Provide Consistent Lighting
- Improve Safety for Turning Traffic

Roadway/Intersection Design Should Address Safety Concerns & Enhance Traffic Operations

- Add Raised Medians & Dedicated Turn-lanes
- Add Shoulders in Rural Area (farm vehicles)
- Improve Intersection Operations During Peak Hours

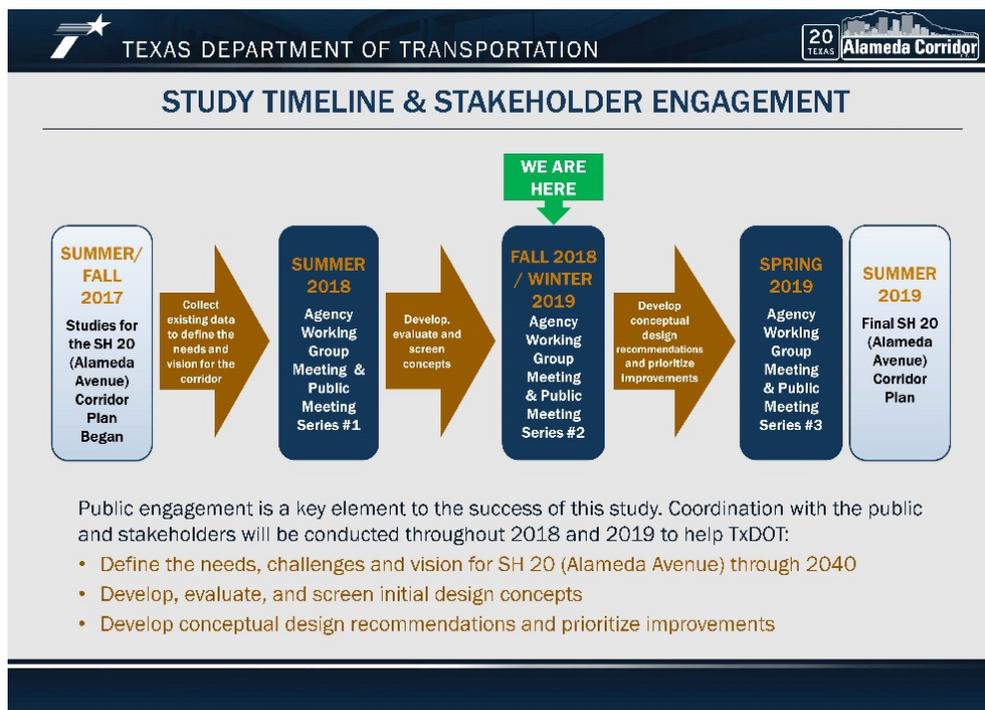

Drainage & Flooding Issues are Major Concerns

Enhance Multimodal Transportation in the Corridor

- Consider other modes of transportation besides the automobile
 - Include infrastructure for walking, bicycling, mass transit and localized amenities
 - Alameda is a major transit corridor for Sun Metro routes, BRIO Rapid Transit System (RTS) & El Paso County Transit routes

Improve Aesthetics & Create Sense of Place

- Incorporate Unique Community Character
- Add Context-sensitive Landscaping & Amenities
- Add Wayfinding & Signage (e.g. Mission Trail)

STUDY TIMELINE & STAKEHOLDER ENGAGEMENT

WE ARE HERE

SUMMER/FALL 2017
Studies for the SH 20 (Alameda Avenue) Corridor Plan Began

➔ Collect existing data to define the needs and vision for the corridor

SUMMER 2018
Agency Working Group Meeting & Public Meeting Series #1

➔ Develop, evaluate and screen concepts

FALL 2018 / WINTER 2019
Agency Working Group Meeting & Public Meeting Series #2

➔ Develop conceptual design recommendations and prioritize improvements

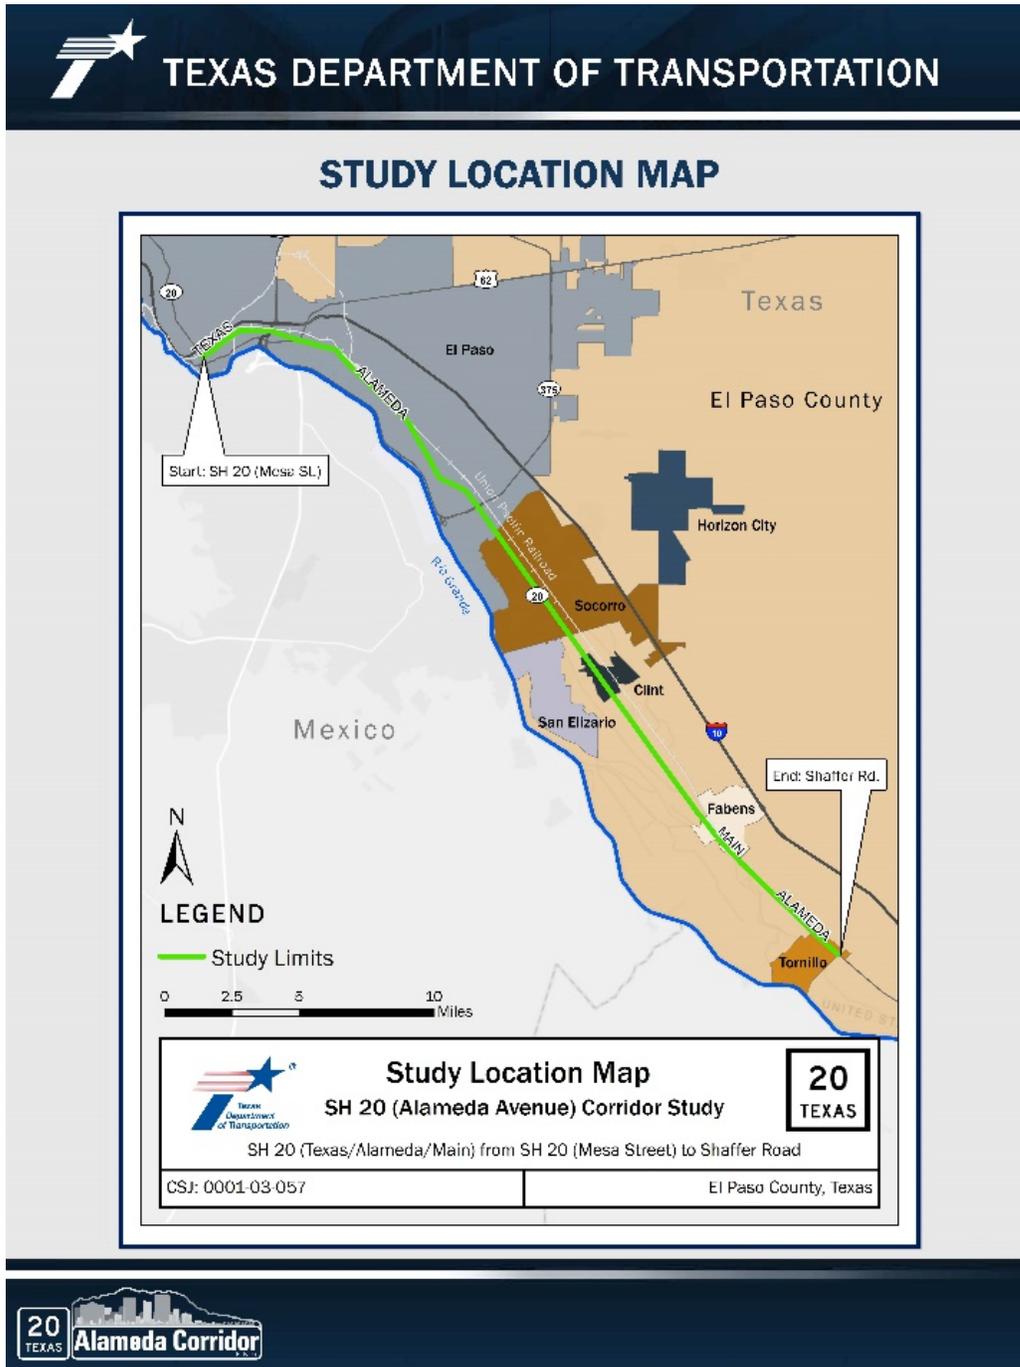

SPRING 2019
Agency Working Group Meeting & Public Meeting Series #3

SUMMER 2019
Final SH 20 (Alameda Avenue) Corridor Plan

Public engagement is a key element to the success of this study. Coordination with the public and stakeholders will be conducted throughout 2018 and 2019 to help TxDOT:

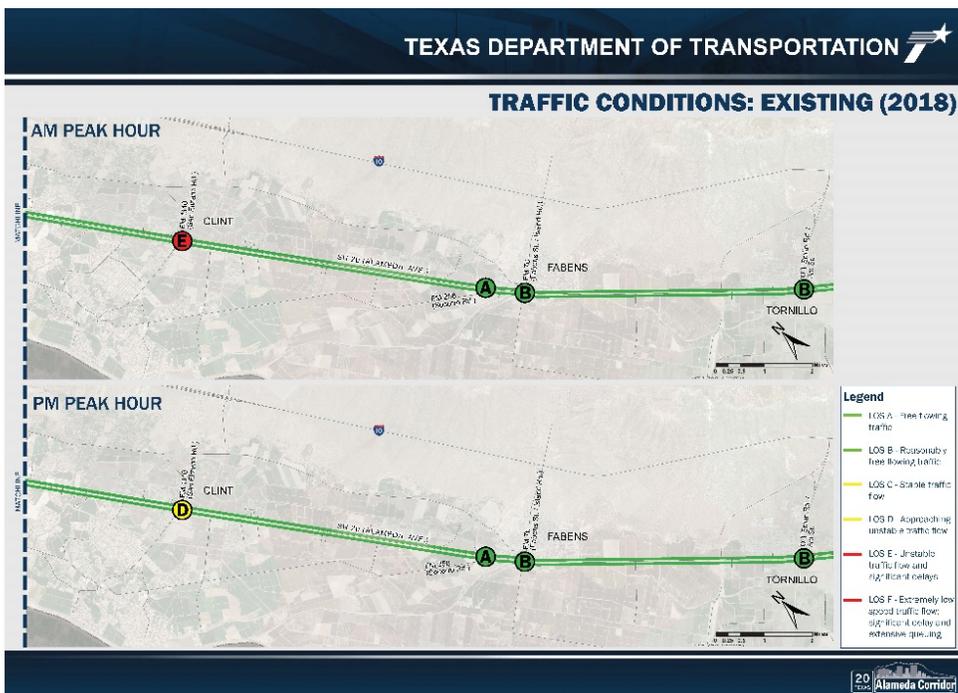

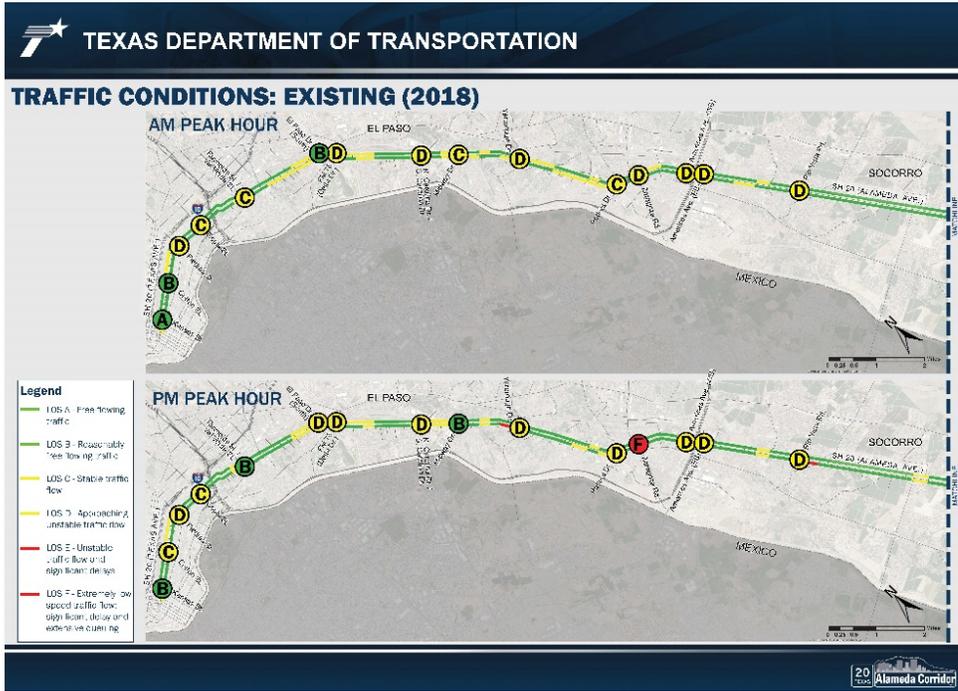

- Define the needs, challenges and vision for SH 20 (Alameda Avenue) through 2040
- Develop, evaluate, and screen initial design concepts
- Develop conceptual design recommendations and prioritize improvements

Station 2 – Study Background and What We’ve Heard (continued)

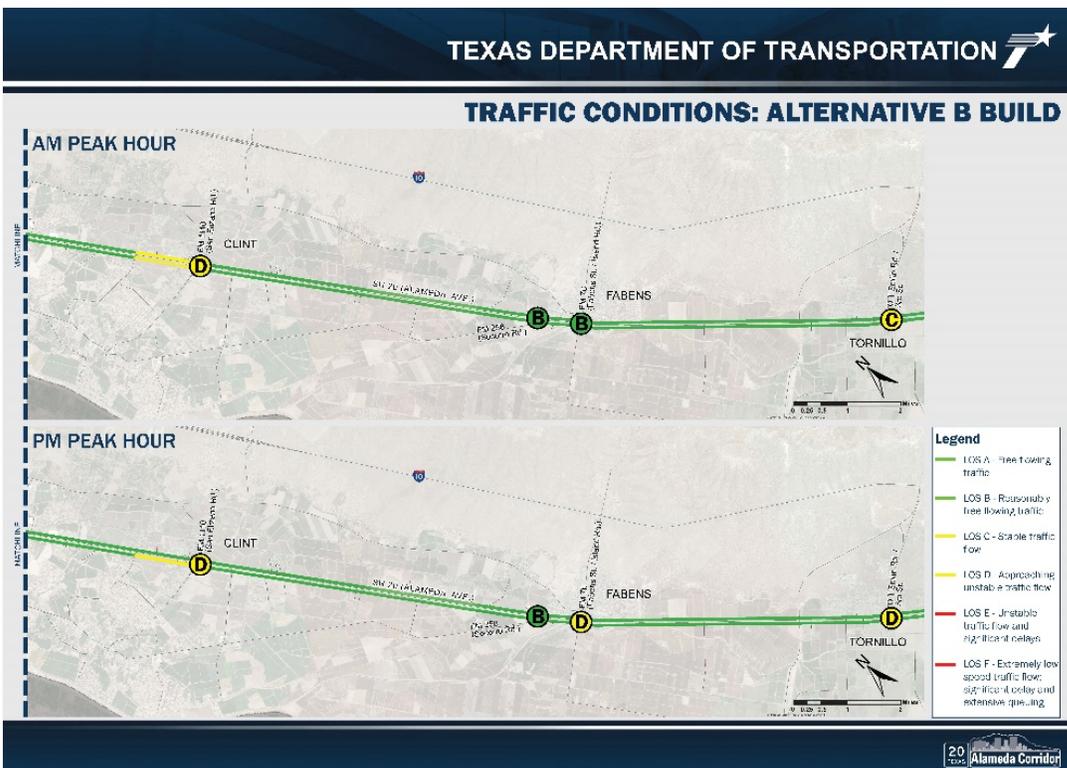

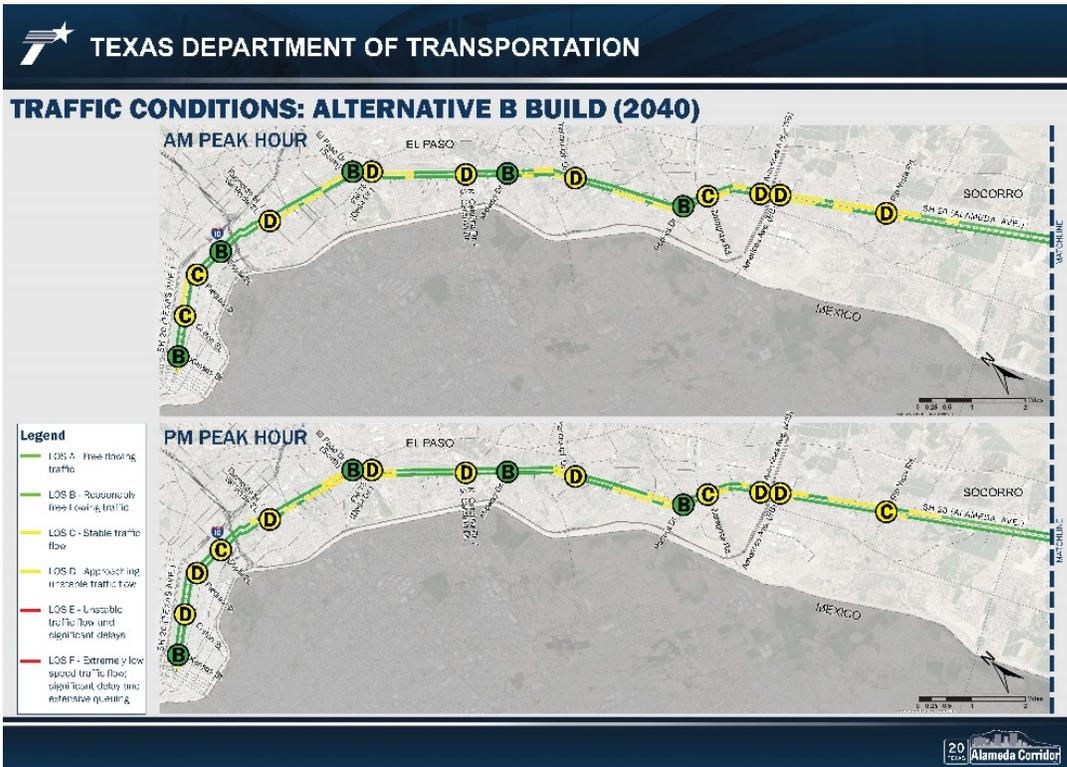

Station 3 – Traffic

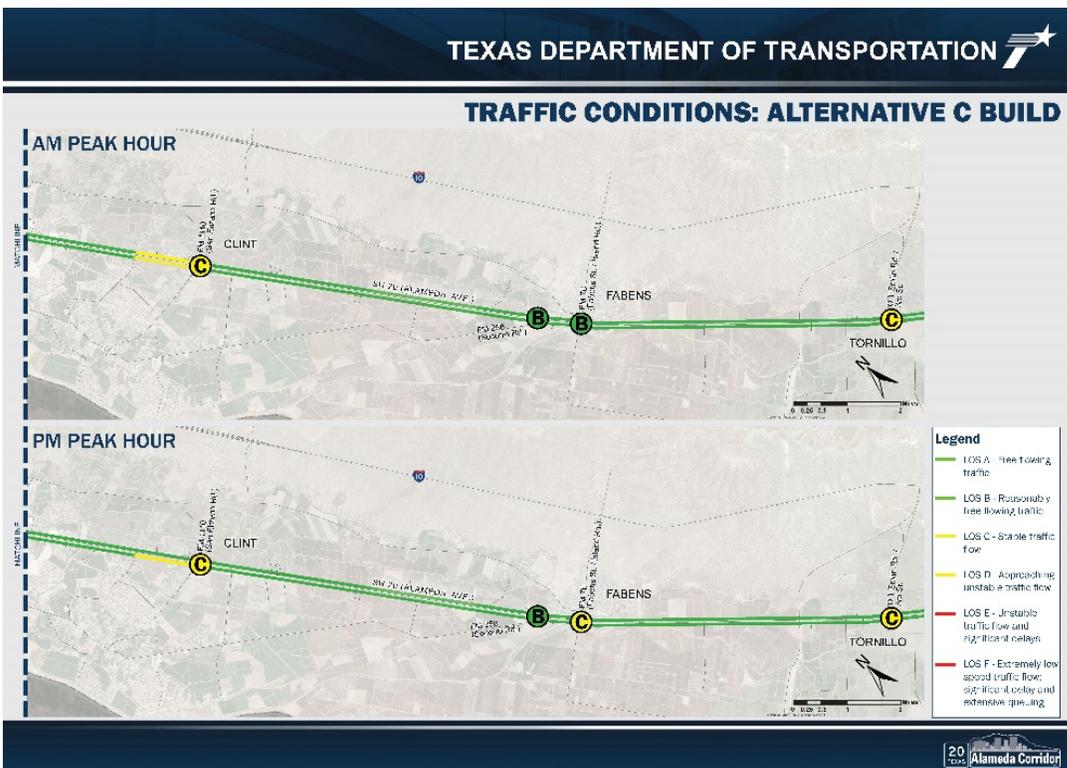

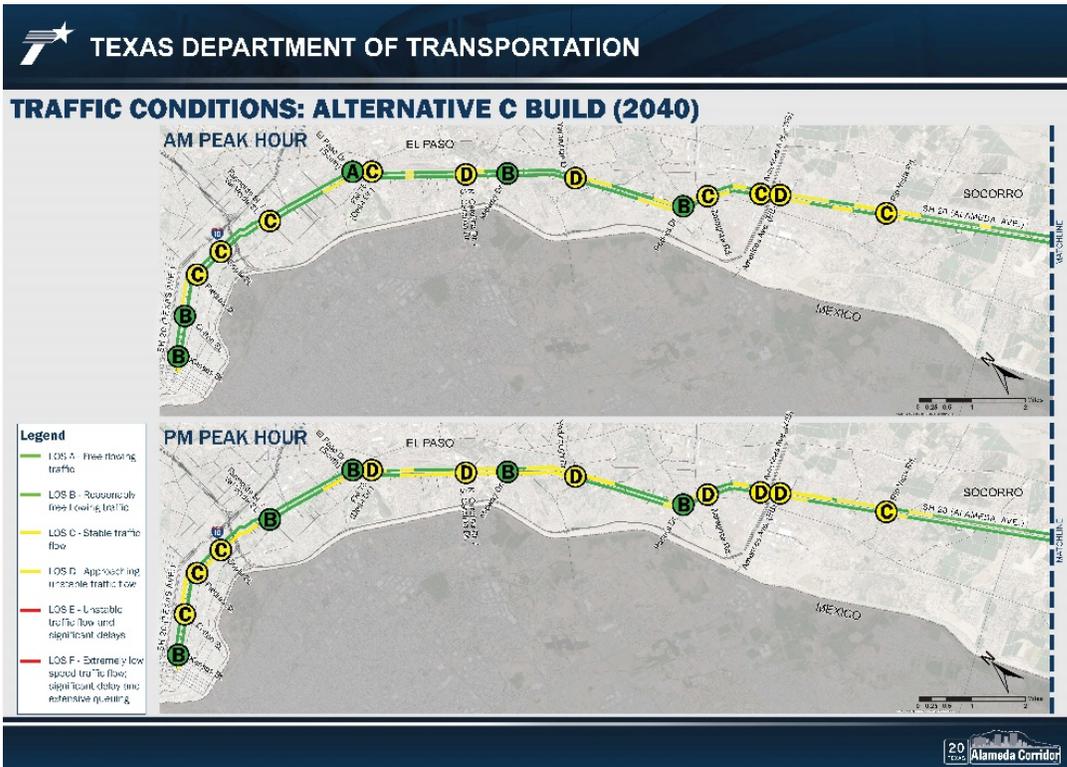

Exhibit boards were used to explain the Existing (2018), Do Nothing (2040), and Alternatives A, B, and C level of service along the corridor and at key intersections. In addition, an interactive 3D animation was used to illustrate existing traffic patterns (2018) and how traffic would operate in 2040 if no action were taken (Do Nothing) or one of the Alternatives are chosen.

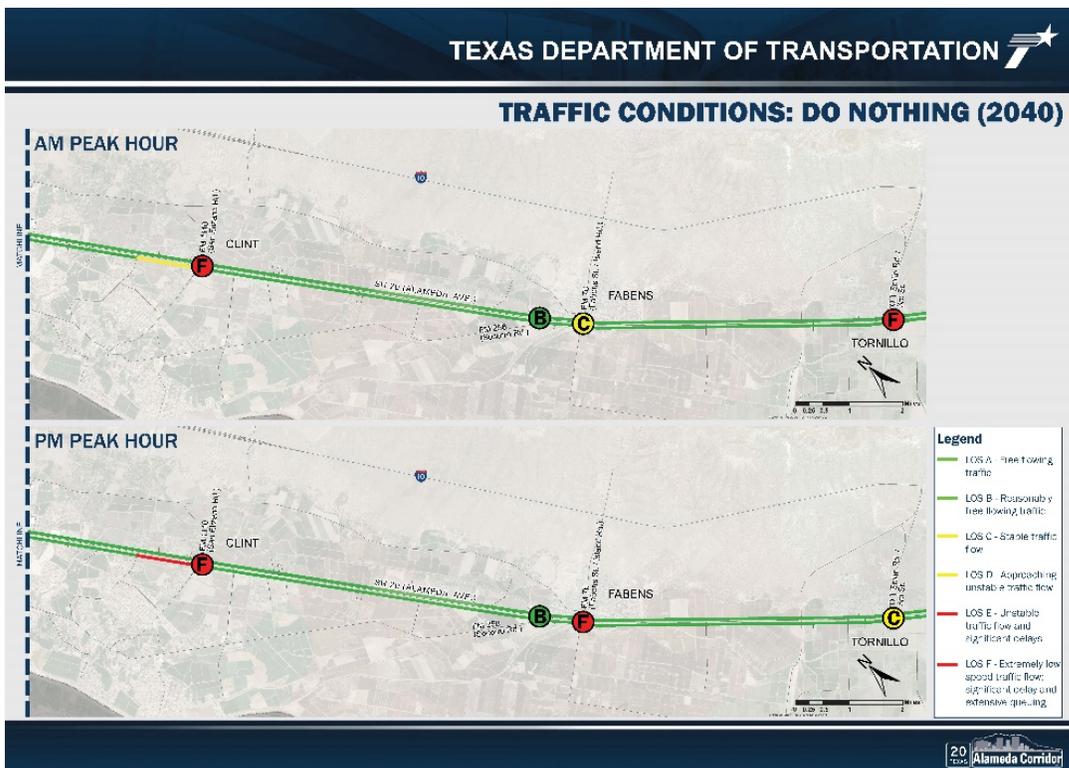

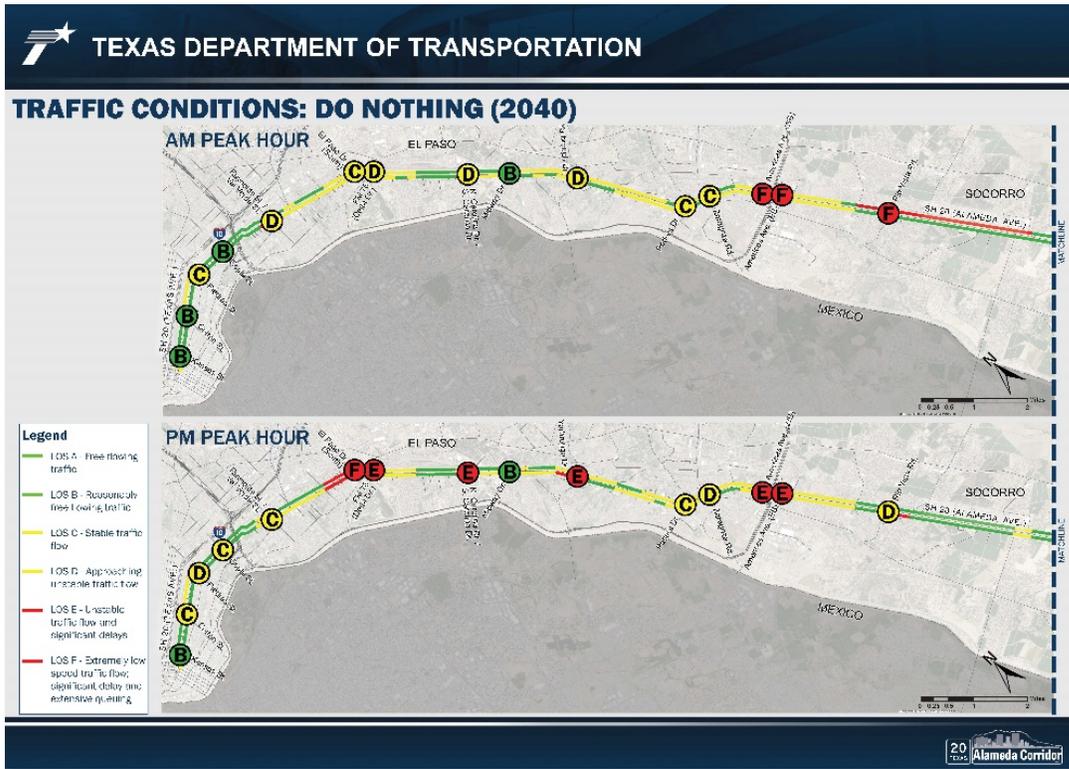

Station 3 – Traffic (continued)

Station 3 – Traffic (continued)

Station 3 – Traffic (continued)

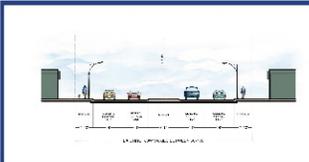

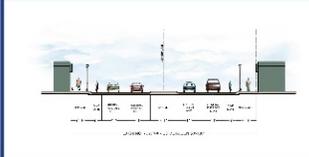

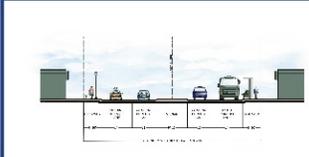

Station 4 – Context Areas

Exhibit boards were used to explain the general typical sections for each alternative and the specific typical sections for each of the eight context areas. A roll plot was also used to show the eight context areas along the corridor and the key intersections within each context area.

Station 5 – Intersections (Continued)

Station 6 – Urban Design Themes

Exhibit boards were used to illustrate the concepts, materials, elements, and street views of the three urban design themes – Rio Grande Theme, Franklin Mountain Theme, and Historic/Culture Theme.

TEXAS DEPARTMENT OF TRANSPORTATION

RIO GRANDE THEME *Design Theme reflects historic importance of Rio Grande to each community along Alameda Avenue.*

CONCEPT IDEA

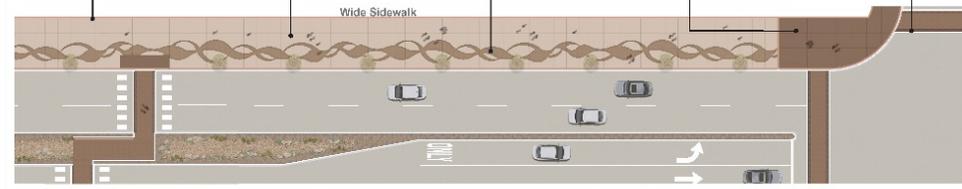

Indicates locations of former Rio Grande. Today, Alameda runs parallel to the Rio Grande. Patterns in the sidewalks represents the ever-changing course of the Riverbed. Materials in the sidewalks reflect natural materials and colors found along the river. River pattern is sandblasted into the sidewalk pavement. Typical view of what sidewalk environment will look like.

The Rio Grande has changed course over time and flowed through each community along Alameda.

MATERIALS

- Brick Bands at Sidewalk Edges
- Sidewalk is Light Concrete Color
- Riverbed Pattern is Dark Concrete Color
- Corner/Crosswalk Texture
- Crosswalk Band at Edges

Wide Sidewalk

TEXAS DEPARTMENT OF TRANSPORTATION

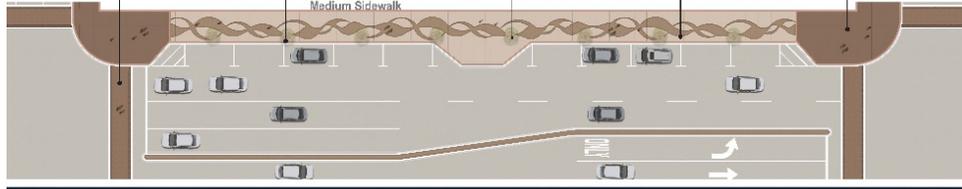

STREET VIEWS

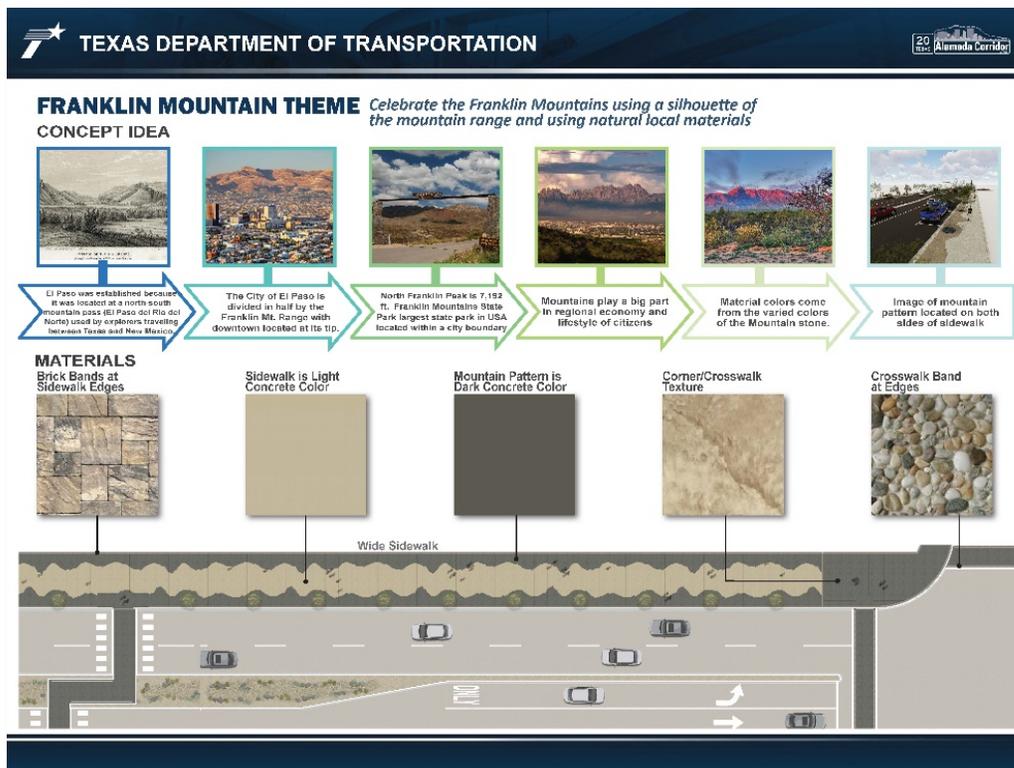

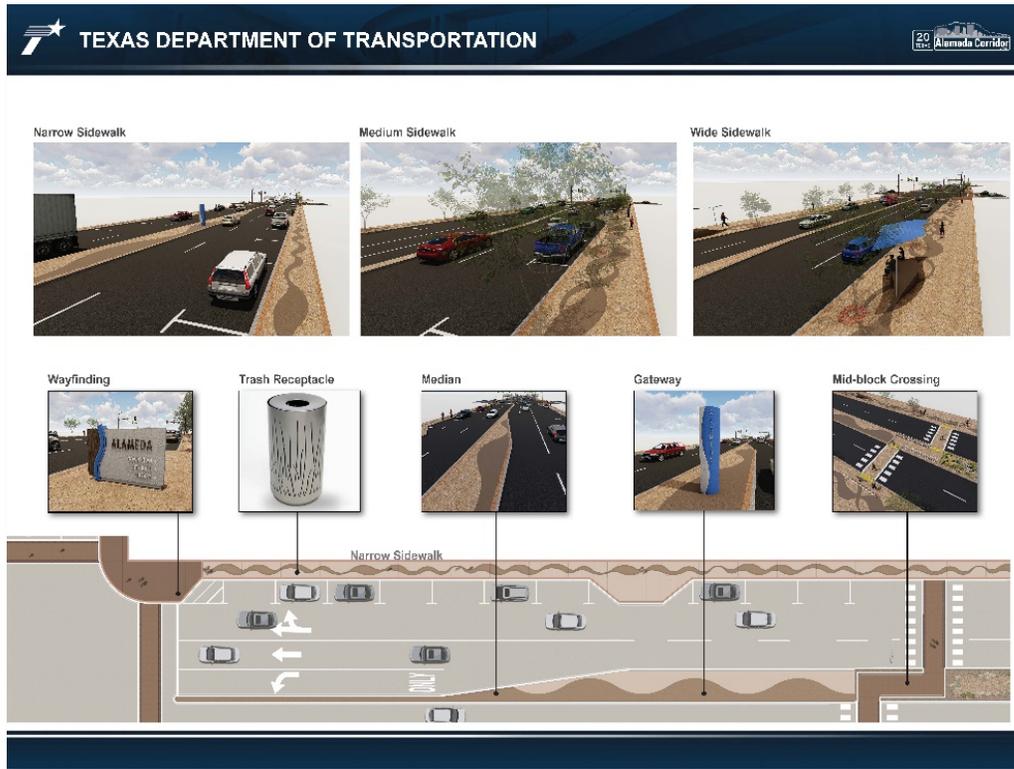

STREET ELEMENTS

- Crosswalk
- Tree Grate
- Vegetation
- Bench/Shade Structure
- Medallions

Medium Sidewalk

Narrow Sidewalk

Station 6 – Urban Design Themes (Continued)

TEXAS DEPARTMENT OF TRANSPORTATION

HISTORIC/CULTURE THEME Celebrate the history and culture of El Paso using bright colors, native patterns, local materials that speak of heritage.

CONCEPT IDEA

1600s. Spanish priests began converting the Maricopa, Sumner and Jarama of El Paso to Christianity and settling them in missions. Civil War they became known as Mestizo.

Ysleta del Sur – oldest image of pueblo and mission built for Trigueño families who came to El Paso in 1680 from New Mexico.

El Paso established by Ysleta del Sur Pueblo Tribe, Mestizo (Spanish/Pueblo/Indian) European Caucasian Pioneers from the East.

Religion brought to El Paso by Catholic Priests who established Missions. Oldest is Ysleta del Sur and Socorro Missions.

Design Patterns from different native cultures celebrated with patterns on tile located in sidewalk.

Image of tile pattern located in sidewalk.

MATERIALS

- Brick Bands at Sidewalk Edges
- Sidewalk is Light Concrete Color
- Linear Pattern is Dark Concrete Color
- Corner/Crosswalk Texture
- Crosswalk Band at Edges

Wide Sidewalk

TEXAS DEPARTMENT OF TRANSPORTATION

Station 6 – Urban Design Themes (Continued)

Station 7 – Drainage

Exhibit boards and an interactive visualization were used to illustrate the current drainage conditions along the corridor.

Station 8 – Comments

Comments were accepted at the meeting via comment card, by interactive exhibit, and by participating in the online MetroQuest survey as well as after the meeting via mail, email, and online via the MetroQuest survey. Written comments received via comment card, mail, email, the MetroQuest survey, and the comments from the interactive exhibit at the meeting are cataloged in the comment-response matrix (see **Attachment A**) and other ranking and demographic feedback collected from the MetroQuest survey are attached below.

The most common concerns include sidewalk continuity, traffic, lighting, and pedestrian safety. The image below shows the key words commented most frequently.

Station 8 – Comments (continued)

DRAFT

Introduction

TxDOT El Paso District conducted an online engagement survey as part of an overall public involvement strategy to gather input from the public on current and future corridor challenges and needs for the SH 20

(Texas/Alameda/Main) corridor and to identify the communities' future vision. The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor. SH 20 is Texas Avenue in downtown El Paso from SH 20 (Mesa Street) east for approximately 2 miles. SH 20 continues southeast as Alameda Avenue to Shaffer Road in Tornillo, and is referred to as Main Street in Fabens. The corridor goes through urbanized and rural areas within El Paso County and serves as one of the major east/west connections for various communities along its route.

This is the second series of public meetings for the corridor study. In the first series, public input was used to develop, evaluate and screen concepts for improvements to the corridor. These concepts were presented to the public at the second series of meetings and were included in the online engagement survey.

Online Engagement

The TxDOT El Paso District hosted three open houses, where the online engagement tool, MetroQuest, was offered at computer stations for members of the public. In addition, other methods of outreach were utilized to send the public to their own laptops, tablets or phones to take the survey. The site was composed of five screens: Welcome, Roadway Priorities, Intersections, Urban Design, and Stay Involved.

This report presents the outreach strategies and details the data results.

Logistics and Outreach

The survey was available from Jan. 14, 2019, through Feb. 1, 2019 online at txdot.gov, keywords “Alameda Avenue” It took approximately 5 to 7 minutes to complete and was available online 24/7.

The survey was advertised via the following methods:

1. Open Houses – Three open houses were hosted by TxDOT. The first open house was on Jan. 15, 2019 at Tornillo High School, 430 Oil Mill Rd. in Tornillo, TX. Approximately 15 non-TxDOT/non-consultant members of the public attended the meeting. The second was on Jan. 16, 2019 at Ascarte Elementary School Gymnasium, 7090 Alameda Avenue in El Paso. Approximately 43 non-TxDOT/non-consultant members of the public attended the meeting. The third open house was on Jan. 17, 2019 at Aoy Elementary School Cafeteria, 901 S. Campbell St., in El Paso. Nine non-TxDOT/non-consultant members of the public attended the meeting.

At all three meetings, a station with an explanation meeting display board was part of the open house, where members of the public could use laptop computers available to complete the survey. This station included staff members for assistance with the online survey.

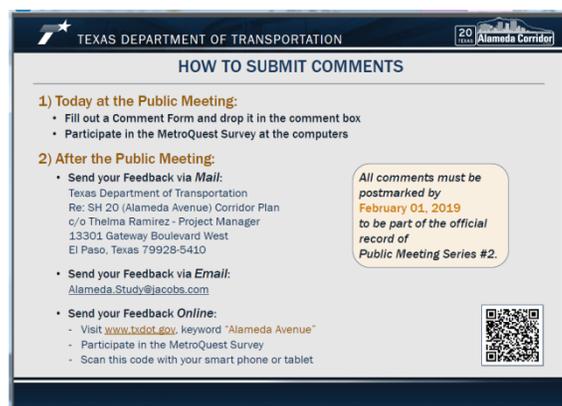

2. Post cards and meeting informational flyers included a quick response (QR) code for the SH 20 (Alameda Avenue) project page, where the online survey “lived.”
3. The txdot.gov Hearings and Meetings Schedule page carried the meeting notice, including a link to the project page.
4. An email notification for the meeting that included a link to the project page was sent to a list of 1,079 recipients on Jan. 8, 2019. Ninety-eight percent of the emails were delivered with a 16 percent open rate.
5. Local government: One hundred letters were sent to local public and elected officials.
6. Traditional and social media: TxDOT El Paso District used both traditional and social media tools to inform the public and provide live updates on the open house.

Survey Summary

Twenty-three participants used the survey to weigh in with their vision for the Alameda Avenue corridor. Participant activity peaked on Jan. 17, with 10 participants. In addition to the 23 that participated in the survey, another 45 visited the site but chose not to provide responses or data.

Overall, there were 11 different zip codes recorded from a total of 23 participants that provided a zip code. The largest number of participants (5) reported their zip code as 79915; 4 each reported their zip code to be 79853 and 79907; the zip codes 79836, 79849, 79901, 79902, 79905, 79912, 79925, 79936 all had 1 participant each.

Of those who responded, 6 participants heard about the survey from the media; 3 learned about the project from a friend; 3 learned about it from TxDOT's website (www.txdot.gov); and 2 heard about it through an outreach event. Of the 23 who participated in the survey, 21 accessed the survey from the web and 2 accessed the survey on a mobile source.

	Method	Number of Participants
How participants heard about the survey	Media	6
	Website	3
	Outreach event	2
	Other	12
	Total	23

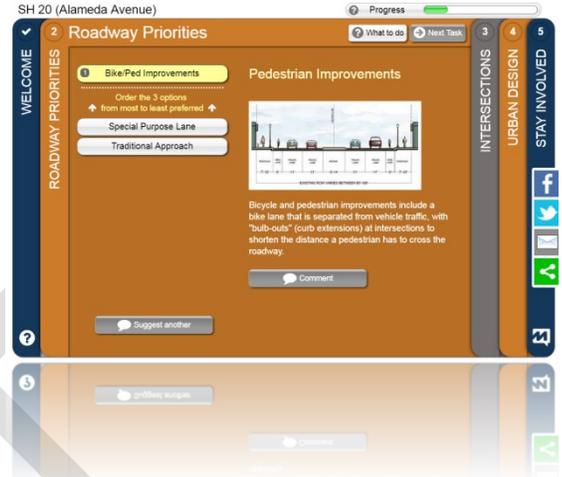

Summary of Findings

- Alternative B, which included bicycle and pedestrian improvements, received the top priority ranking by participants.
- For Piedras St. intersection, Alternative A was chosen most by participants. For Reynolds/Val Verde, Alternative C was chosen most often. For El Paso Dr. Alternative A, which includes the roundabout, was chosen most. For Zaragoza Alternatives A and C were each chosen equally by participants. For Loop 375, most participants chose Alternative A which includes the displaced left turn.
- For the Urban Design Themes, most participants strongly liked the concept and materials presented for the Rio Grande Theme. The Franklin Mountain Theme did not receive as many strongly like votings, but was also well received. The Historic/Culture Concept Theme had mostly strong like votings for the concept, but less for the materials.

Screen 2: Roadway Priorities

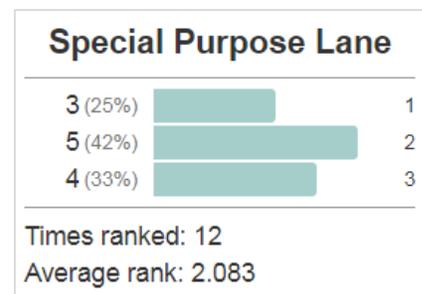

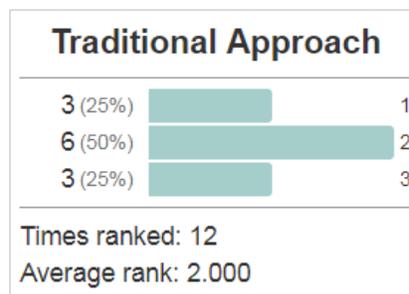

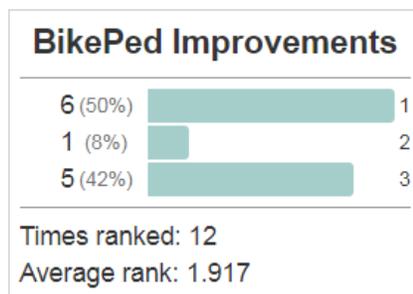

The Roadway Priorities screen asked participants to rank three roadway design alternatives, from most to least preferred. The priorities were:

- 1. Traditional Approach (Alternative A):** This more traditional approach is consistent with what exists on SH 20 (Texas/Alameda/Main) today with Americans with Disabilities Act (ADA), pedestrian, and operational improvements to meet 2040 traffic demands.
- 2. Pedestrian Improvements (Alternative B):** Bicycle and pedestrian improvements include a bike lane that is separated from vehicle traffic, with “bulb-outs” (curb extensions) at intersections to shorten the distance a pedestrian has to cross the roadway.
- 3. Special Purpose Lane (Alternative C):** The special purpose lane is designed to offer more efficient travel modes and prioritize traffic uses such as emergency response and transit. This is proposed for a specific traffic area of the corridor: from SH 20 (Mesa Street) to Loop 375.

Participants ranked the three design alternatives, with Pedestrian Improvements (Alternative B) receiving the top priority by 6 participants; Special Purpose Lane (Alternative C) receiving the top priority by 3 participants; and traditional approach (Alternative A) receiving the top priority by 3 participants.

The graph below shows how often each design alternative was ranked in each position (1, 2 or 3), ordered by average. Note that 1 is the highest rank.

Screen 2: Priority Ranking, Continued

The following are comments made by participants concerning the three design alternatives:

Traditional Approach

- "Don't forget the main business is car sales."

Pedestrian Improvements

- "No bike lanes! This is Alameda which means more cyclist vehicle accidents. Cyclists are clueless, careless."
- "Makes it harder to turn off Alameda at intersections."
- "Want better pedestrian access but not bike lanes"

Special Purpose Lane

- "What about tractors in the rural areas? They seem to cause chaos at times."
- "Continuity of sidewalks"

DRAFT

Screen 3: Intersections, Visual Preference

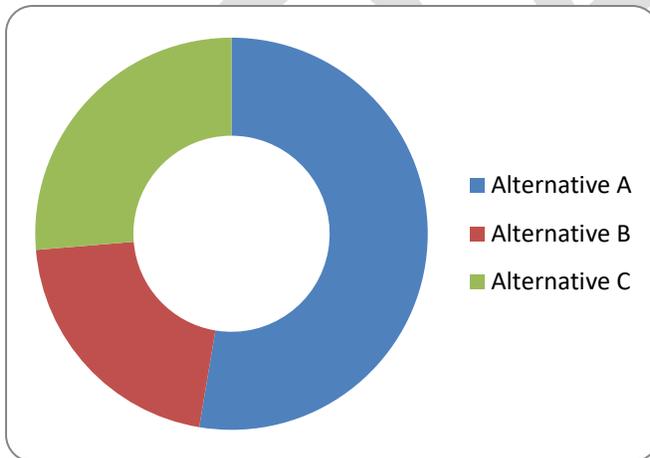

The third screen of the online survey asked the participants their visual preferences for proposed design improvements at key intersections along SH 20 (Texas/Alameda/Main). Each design image was accompanied with descriptive text and participants were asked to select their visual preference. The intersections were:

- **Piedras Street:** Adding medians and replacing the stop sign at Myrtle
- **Raynolds/Val Verde Street:** Enhanced safety and traffic operations
- **El Paso Drive:** Remove high-speed, unrestricted turning
- **Zaragoza Drive:** Medians, sidewalks enhance pedestrian safety
- **Loop 375:** Updates to pedestrian amenities, connectivity

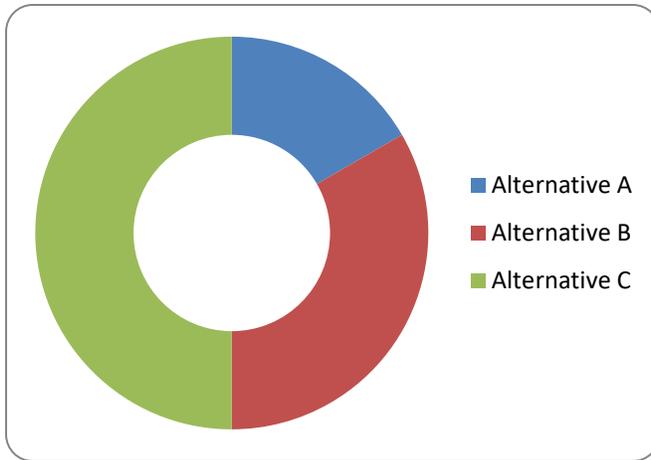

The charts below show the responses to the design improvement options.

Piedras Street

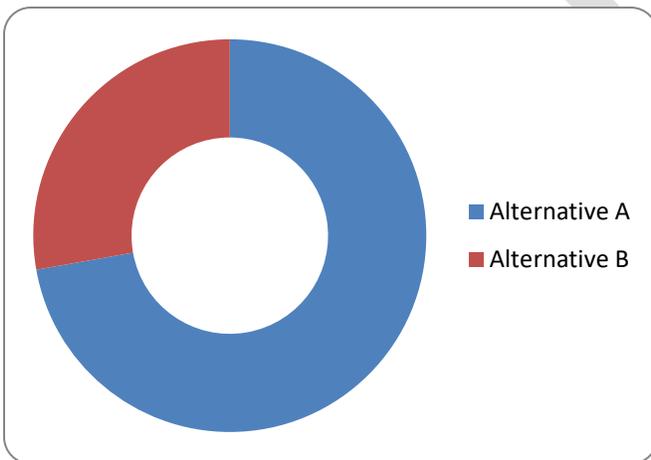

Raynolds/Val Verde Street

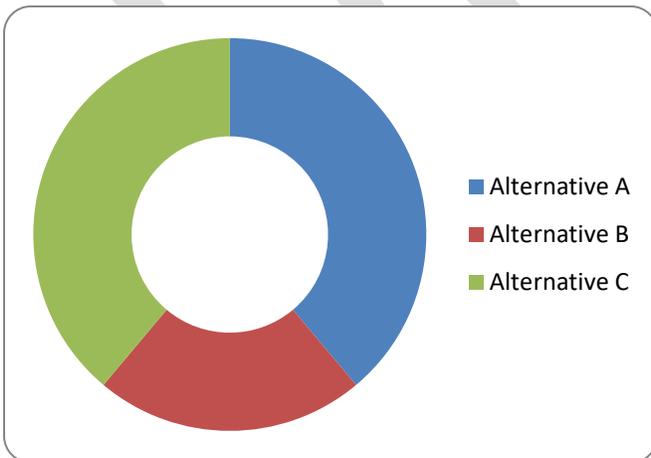

This comment was included in the response for **Raynolds/Val Verde Street**: “Most required is traffic flow here. Pedestrians and bicyclists can use Alberta street which runs parallel to Alameda to go btw Texas Tech (Concepcion)/hospitals (Raynolds/ Ball street), etc. so traffic flow is MOST important with pedestrian safety. Bicycle patterns become important on Alameda going W from Raynolds toward downtown. Lastly, the drainage around this area must always be prioritized above design due to need for employees/ emergency vehicles/ patients to be able to travel to hospital rain, shine, or (rarely) snow/ice. :).”

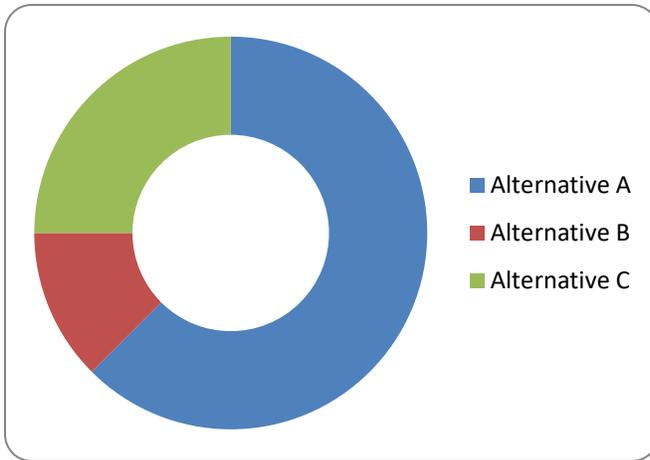

El Paso Drive

Zaragoza Drive

Loop 375

This comment was included in the response for Loop 375: "Like to be able to get off for Walmart sooner than that loop 375."

DRAFT

Screen 4: Urban Design Image Rating

The fourth screen on the survey asked participants to rate images of concept design and materials for three urban design themes along the corridor. Participants were asked to rate from strongly like (5), like (4), neutral (3), dislike (2) and strongly dislike (1).

The three themes are:

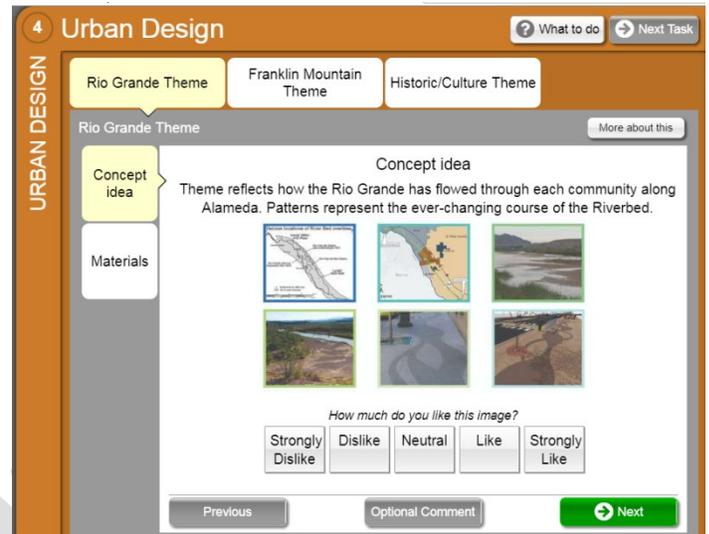

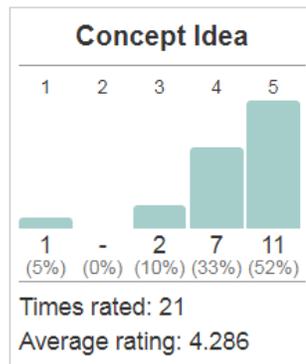

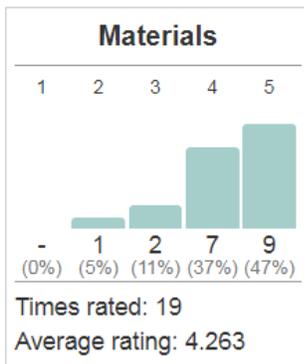

Rio Grande: Historic importance of Rio Grande to each community along SH 20 (Texas/Alameda/Main). The concept reflects how the Rio Grande has flowed through each community along Alameda. Patterns represent the ever-changing course of the Riverbed.

Franklin Mountain: Celebrates the Franklin Mountains using a silhouette of the mountain range and natural local materials. Theme reflects how El Paso is divided by the Franklin Mountain Range with downtown located at its tip. The Mountains play a big part in the regional economy and lifestyle of citizens.

Historic/Culture Theme: Celebrates the history and culture of El Paso using bright colors, native patterns, and local materials that speak of heritage. Theme reflects the historic/cultural roots of El Paso, including the Ysleta del Sur Pueblo Tribe, Mestizo/Spanish/European Caucasian Pioneers.

The charts below show each rating item and how many times each item was given each rating, sorted by average rating.

Rio Grande Theme

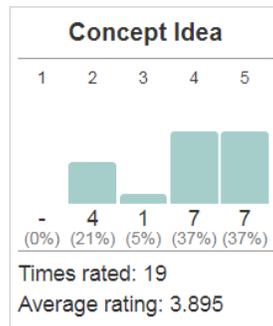

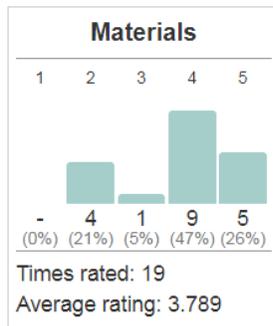

These comments were included in the Rio Grande theme

(materials):

- “Crosswalk band durability? Will the stones separate from the concrete with traffic over time?”
- “Something to keep in mind is how hot and how sunny El Paso is. The heat index of sidewalks and absorption of heat of the sidewalks is a safety concern for both pedestrians and pets. I am not sure that having dark materials/cross walks will be appropriate but I am not sure of the technicalities of material used and heat absorption. So keep in mind possibly using lighter colors for pedestrian cross walks/thoroughfares.”
- “Do not like ‘big gateway’ and ‘pathfinder’ signs in any design

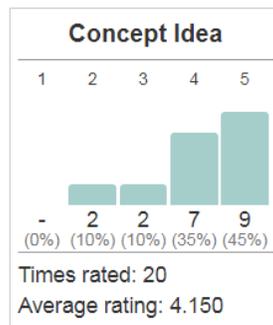

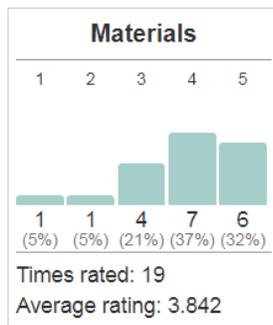

Franklin Mountain Theme

This comment was included in the Franklin Mountain theme (concept):

- “Something to keep in mind is how hot and how sunny El Paso is. The heat index of sidewalks and absorption of heat of the sidewalks is a safety concern for both pedestrians and pets. I am not sure that having dark materials/cross walks will be appropriate but I am not sure of the technicalities of material used and heat absorption. So keep in mind possibly using lighter colors for pedestrian cross walks/thoroughfares.”

Historic Culture Theme

These comments were included in the Historic/Culture theme :
Concept

- “I love the tiles! I, again, wonder about the sun cracking the tiles or upkeep and maintenance. Again, thinking of 10-year plan (not how it looks immediately upon completion...I am thinking of some of the stainless and maybe solar-powered trash compactors instead of the receptacles outlined in the concept pictures”
- “Dislike skeletons strongly. Skeletons invite death.”
- “Loved this one bright and vibrant colors like our culture and people.”

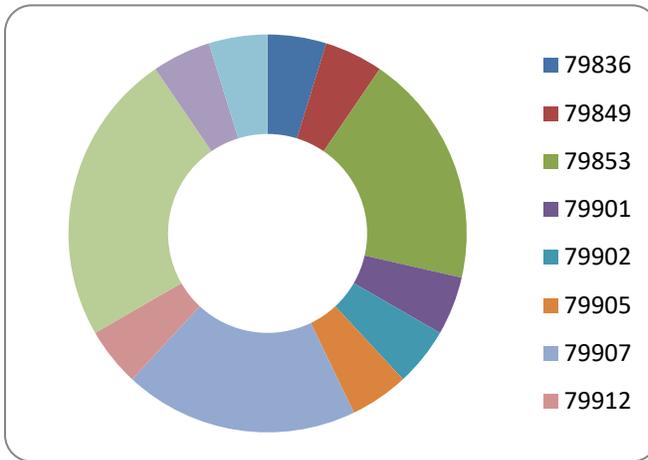

Materials

- “Consider heat index with the dark color inserts onto the sidewalk. Maybe using a combo of reddish with light beige for any of the 3 concepts outlined at this meeting.”

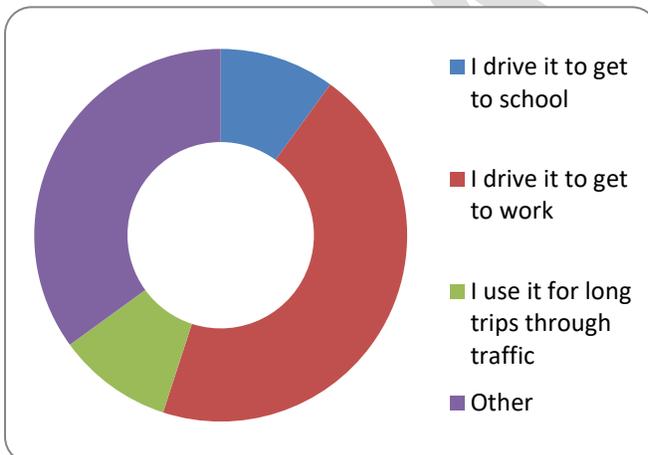

Screen 5: Stay Involved

The fifth slide on the survey asked the participants general questions concerning their zip code, how they use the corridor, how they heard about the survey, and other comments that they wished to give.

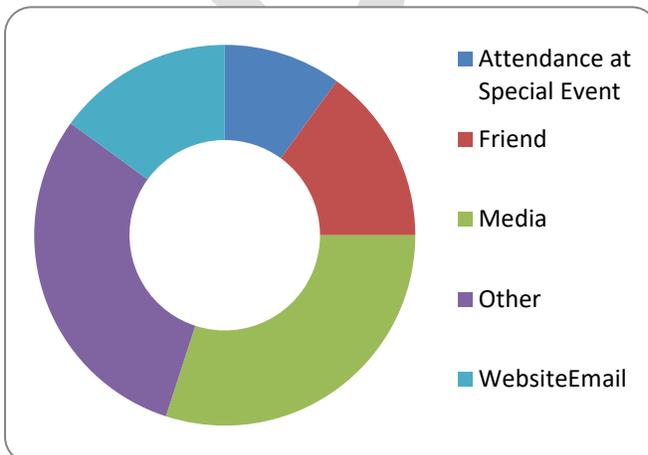

1. Zip Code

2. How do you primarily use the corridor?

3. How did you hear about this survey?

4. Other comments?

- “Thank you for taking the time to inform the public.”
- “Thank you all it was very informative”
- “Thanks for presenting this future plans to the community”
- “I use the corridor most from Mesa to Piedras. I commute both by car and by bike, but I have safety concerns on my bike. I would bike more often if I wasn't worried about traffic, so I would love to see more roads in El Paso designed with bicycle safety in mind. Thanks for this opportunity to comment!”
- “Drainage is a big concern”
- “Would like to see consideration of Arterial 1 in Planning Document.”
- “Thank you! Very great. First TxDOT meeting. Love the ROUNDABOUTS!!!! Keep up the great work, TxDOT!”
- “Thank you for taking the initiative to improve serious conditions on Alameda and the community.”
- “Drive it to get food.”
- “I disliked plan B. Do not want anything to do with eminent domain. Please do improve lighting and crosswalk safety features all throughout the corridor.”
