

OVERVIEW

TxDOT El Paso District is conducting a corridor study of State Highway (SH) 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a corridor plan for SH 20 (Texas/Alameda/Main).

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor and goes through urbanized and rural areas within El Paso County. The corridor also serves as one of the major east/west connections for various communities along its route.

WHAT IS A CORRIDOR PLAN?

A Corridor Plan...

- Defines existing transportation challenges and opportunities and considers, evaluates, and provides possible solutions.
- Documents and evaluates the community's future vision regarding transportation and develops a set of recommendations to enhance safety and mobility.
- Includes data collection, public outreach, analysis of current and future transportation needs, and identification of potential improvements.

STUDY OBJECTIVE & PROCESS

The objective of the 18-month SH 20 (Alameda Avenue) Corridor Study is to:

- Analyze current and future corridor challenges and needs
- Identify the community's future vision
- Develop a corridor plan

The study will be conducted through a process of data collection, analysis of current and future transportation needs, and public outreach. The final result of this study will be the development of conceptual design recommendations and a set of short-, medium-, and long-term improvements.

The study will evaluate topics such as:

- Vehicle/pedestrian/bicycle safety
- Roadway capacity
- Traffic operations
- Multimodal access
- Drainage
- Connections to the community
- Placemaking and aesthetics
- Environmental, cultural & community resources
- Estimated costs

HOW CAN I PARTICIPATE?

Public engagement is a key element to the success of this study. Coordination with the public and stakeholders will be conducted throughout 2018 to help TxDOT: identify the needs, challenges and vision for State Highway (SH) 20 (Texas/Alameda/Main) through 2040; develop, evaluate, and screen initial design concepts; and develop conceptual recommendations and prioritize improvements.

We welcome you to get involved in the study and participate in upcoming public meetings. The first series of public meetings is planned for June 26 and 27, 2018, followed by a second series in fall of 2018, and a third series in winter of 2018/2019. More details about these meetings will be posted to the TxDOT webpage at www.txdot.gov, keyword "Alameda Avenue." The study is expected to be completed in the spring of 2019.
