

Documentation of Public Meeting SH 20 (Alameda Avenue) Corridor Study

Project Location

El Paso County
CSJ: 0001-03-057

Project Limits

SH 20 (Texas/Alameda/Main) from SH 20 (Mesa St.) to Shaffer Rd.

Meeting Location

Clint High School, 13890 Alameda Avenue, Clint, TX 79836
Riverside High School, 301 Midway Drive, El Paso, TX 79915

Meeting Date and Time

Tuesday, June 26, 2018; 5:00 – 7:00 pm
Wednesday, June 27, 2018; 5:00 – 7:00 pm

Translation Services

Spanish

Presenters

No formal presentation

Elected Officials in Attendance

Representative Cassandra Hernandez, City of El Paso, District 3
Representative Henry Rivera, City of El Paso, District 7

Total Number of Attendees (approx.)

25 – Clint High School
48 – Riverside High School

Total Number of Commenters

239 total comments (14 comment forms; 1 mail; 1 email; 80 MetroQuest comments;
144 comments at interactive stations)
33 total MetroQuest survey participants

Contents

Attachment A

Comment/Response Matrix

The study team received a total of 239 comments during the comment period, including 14 comment forms, 1 mailed comment, 1 email comment, 80 MetroQuest survey comments and 144 verbal comments, which were accepted on day of the meeting at the Needs & Challenges interactive exhibit by study team members and transcribed onto tablets. The below matrix summarizes the comments received via comment form, mail, email and at the interactive exhibit. The feedback received via the MetroQuest survey can be found in the MetroQuest Summary Report found at the end of **Attachment D**.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
1.	Armendariz	Cristina	06/27/2018	Comment Form	<p>Desafortunadamente cuando llueve mi propiedad se inunda como si fuera un lago esto a causa de la falta de banquetas. Por este mismo tema esto ocasiona accidentes ya que la falta de banquetas los carros no respetan y hacen return ahí mismo ocasionando accidentes. Hasta ahorita gracias a Dios no fatales. Gracias por su atención.</p> <p><i>Unfortunately, when it rains my property floods like a lake because of the lack of sidewalks. For the same reason, this causes accidents because there are no sidewalks, cars do not respect the lanes and do U-turns right there causing accidents. Up until now no fatalities, thank God. Thank you for your consideration.</i></p>	<p>Se está llevando a cabo un estudio paralelo para evaluar cómo el corredor SH 20 (Texas / Alameda / Main) influye en los patrones de drenaje en e inmediatamente adyacentes a la carretera. El Estudio del Corredor SH 20 (Texas / Alameda Avenue) también considerará las necesidades de seguridad del corredor SH 20 (Texas / Alameda / Main) para todos los vehículos (automóviles, camiones, autobuses y vehículos agrícolas), así como para peatones y bicicletas. Las consideraciones de seguridad incluirán instalaciones para peatones y bicicletas.</p> <p><i>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway. The SH 20 (Texas/Alameda Avenue) Corridor Study will also be considering the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include pedestrian and bicycle facilities.</i></p>
2.	Borrego	Fred	06/27/2018	Comment Form	<p>Let us make for certain that “La Alameda” a tree lined Avenue is done correctly. By that I mean utilities have to come into play. That we look at long term. That we incorporate different areas ideas. Thank you for the meeting and allowing our input.</p>	<p>Comment noted.</p>
3.	Duenez	Ana	06/27/2018	Comment Form	<p>Reconstruction from Delta Dr to Yarbrough Dr. Drainage, sidewalks, lighting. We are under severe flood zone area with FEMA.</p>	<p>The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks, crosswalks and bicycle accommodations and lighting will be evaluated to enhance multimodal access and safety.</p> <p><i>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.</i></p>
4.	Gomez	Norma	06/26/2018	Comment Form	<p>Lighting on roads and safety</p>	<p>Comment noted.</p>

5.	Grajeda	Ana	07/11/2018	Email	<p>[The below email is follow-up to a conversation that occurred at the meeting. See the MAPO form that documents conversation in Attachment D]</p> <p>Estas fotografías enseñan la manera que se inundo con la llovida, por que el agua de la calle Alameda desembocaba en nuestra propiedad y mucha de esta agua se fue a nuestro sotano. De antemando le agradezco su atencion, para mas informacion mi telefono es [REDACTED]. Gracias, Ana Grajeda</p> <p><i>These pictures show how it flooded when it rained because water from Alameda Avenue flowed onto our property and much of this water went into our basement. Thank you in advance for your attention. For more information, my phone number is [REDACTED]. Thanks, Ana Grajeda</i></p>	<p>Se está llevando a cabo un estudio paralelo para evaluar cómo el corredor SH 20 (Texas / Alameda / Main) influye en los patrones de drenaje en e inmediatamente adyacentes a la carretera.</p> <p><i>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.</i></p>
6.	Grajeda	Sonia	07/12/2018	Comment Form (Mailed)	<p>El día de la lluvia el agua que corria por la calle Alameda desembecaba en nuestra propiedad, necesitamos un sistema de drenage fluvial ya que no hay alcantarillas. y ahora que arreglaron la calle afectó mi proprieded. Este problema no existía ante de que iniciaran la remodelación de la calle Alameda.</p> <p><i>On rainy days the water runs along Alameda and empties on our property, we need a fluvial drainage system now that there are no culverts. And now that they fixed the street, it affected my property. This problem didn't exist before they started the remodel of Alameda Avenue.</i></p>	<p>Se está llevando a cabo un estudio paralelo para evaluar cómo el corredor SH 20 (Texas / Alameda / Main) influye en los patrones de drenaje en e inmediatamente adyacentes a la carretera.</p> <p><i>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.</i></p>
7.	Hernandez	Ana	06/27/2018	Comment Form	<p>Tomen en cuenta que Alameda son negocios que aportan en empleos e impuestos. Si se busca solo embellecer la calle no ayudaria mucho. La idea es enfocarse en seguridad y beneficiar a las negocios para que ellos beneficien a la mayoria de la comunidad.</p> <p><i>Take into account that on Alameda are businesses that support employees and taxes. If you are looking only to beautify the street that will not help much. The idea is to focus on safety and benefit the businesses so that they can benefit the rest of the community.</i></p>	<p>Comentario observado.</p> <p><i>Comment noted.</i></p>
8.	Nevarez	Maria	06/27/2018	Comment Form	<p>Maybe you can check on Prado and Alameda Ave for light at night as well as water puddles that are present when it rains. The crossing at the front of YHS is a great idea but with the problem of some students trying to cross before light is on for them due to lunch time only being 30 minutes.</p>	<p>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.</p> <p>The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include school zone safety.</p>
9.	Renteria	Martin	06/26/2018	Comment Form	<p>Pleased to see that Alameda is being evaluated. There is concerns in the Socorro area near the high school with traffic safety. A new charter school is being built that will add to the congestion. Slow moving commercial and farming vehicles are concerning in the Clint area. There are four schools in the Clint area located on Alameda. Therefore, safety needs to be evaluated for the future growth. Thank you. M. Renteria.</p>	<p>The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include school zone safety.</p>

10.	Sanchez, Jr.	Angelmo	06/27/2018	Comment Form	Road drainage, medians for turning left + right, better road lighting, traffic signal lights, signs to direction so where go to historical places	<p>A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.</p> <p>The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles users as well as safety considerations such as lighting. The Study Team will also be evaluating different options to accommodate the existing and future traffic that use the SH 20 (Texas/Alameda/Main) corridor. Traffic operations considerations include, traffic signals/signal timing, medians and turn lanes.</p> <p>The SH 20 (Texas/Alameda Avenue) Corridor Study will include recommendations on how aesthetics improvements could be used to compliment the unique community characteristics along the corridor. Recommendations may include gateway/community signage and other placemaking features that support the vision and plans of each community.</p>
11.	Torres	Deborah	06/27/2018	Comment Form	Very informative and interactive initial meeting; – Looking forward to preliminary design suggestions.	Comment noted.
12.	Torres, Jr.	Jose R.	06/27/2018	Comment Form	Excellent presentation format. Very informative + interactive. Knowledgeable speakers + guides, provided good answers to questions. Good experience.	Comment noted.
13.	Trejo	Ramón	06/26/2018	Comment Form	<p>Alumbrado, que limpien terrenos por que se ve muy feo los vecinos que no limpian gracias por sus atenciones. Se los agradecemos mucho si nos pueden ayudar.</p> <p><i>Lighting, that the grounds are cleaned because it looks very ugly where neighbors do not clean. Thank you for your consideration. We appreciate it very much if you can help us.</i></p>	<p>Comentario observado.</p> <p><i>Comment noted.</i></p>
14.	Villarreal	Marcos	06/27/2018	Comment Form	We could use better lighting and crosswalks on intersections in this area. We are close to a Sun Metro station on Zaragoza and have many pedestrians walking through the front of our property. We also don't have any bike lanes for people on bikes which we also have a lot of.	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks, crosswalks and bicycle accommodations will be evaluated and the Study Team will continue to coordinate with Sun Metro, El Paso County Transit and the communities along the SH 20 (Texas/Alameda/Main) corridor to ensure that conceptual designs and recommendation are consistent with other planning efforts.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
15.	Villarreal	Marcos	06/27/2018	Comment Form	I live on Alameda and Bolina and have several issues we face on a daily basis. 1) we have no sidewalks or curbs along the front of our property making it dangerous for pedestrians and bike riders. 2) We also get flooding in our property due to water from street flowing into our property. 3) traffic safety, people are, people are constantly making U turns in intersection of Colina and Alameda maybe making a right to turn lane would help.	<ol style="list-style-type: none"> 1) The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks, crosswalks and bicycle accommodations will be evaluated to enhance multimodal access and safety. 2) A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway. 3) The study team will also be evaluating other safety considerations such as intersection design.
16.	Windham	Irma	06/27/2018	Comment Form	Alameda Ave needs sidewalks between Polo Inn and Carolina Ave. Needs better lighting.	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include lighting and pedestrian and bicycle facilities.
17.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> throughout corridor <u>Comment:</u> Trash along the corridor	Comment noted.
18.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> from Denton Road going west <u>Comment:</u> Lots more traffic lately	Comment noted.
19.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Loop 375 <u>Comment:</u> Pavement condition is poor	Comment noted.
20.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Loop 375 to Americas <u>Comment:</u> Ramp too short	Comment noted.
21.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Loop 375 <u>Comment:</u> Congestion	Comment noted.
22.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Alameda Ave & Main Street in Clint <u>Comment:</u> Trash falls off garbage trucks	Comment noted.
23.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Denton Road & Cowboy Lane <u>Comment:</u> Cyclists on roadway	Comment noted.
24.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Alamito Creek Ave <u>Comment:</u> Need sidewalks	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks and crosswalks will be evaluated.
25.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Denton Rd. and Connington St. <u>Comment:</u> Illumination needed (priority) - Safety	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include lighting.
26.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Cowboy Lane & Leisure Ln <u>Comment:</u> Buses stopping in the road	Comment noted.
27.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Denton Rd. and Connington St. <u>Comment:</u> Property needs cleaning	Comment noted.
28.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Oil Mill Dr. <u>Comment:</u> Sight distance issues with trees	Comment noted.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
29.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Oil Mill Dr. <u>Comment:</u> Needs more lighting	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include lighting.
30.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Loop 375 <u>Comment:</u> New construction does not alleviate traffic; improved with no benefit	Comment noted.
31.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> In between O T Smith Rd and Cobb Ave <u>Comment:</u> Flooding issues RR tracks dam water	A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.
32.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> N Rio Vista Rd <u>Comment:</u> Flooding concerns – water accumulates	A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway.
33.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Cobb Ave <u>Comment:</u> Issues with tractors & traffic	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Traffic operations considerations will include the needs for shoulders.
34.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Passmore <u>Comment:</u> Lighting	Comment noted.
35.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Passmore <u>Comment:</u> Need landscaping	The SH 20 (Texas/Alameda Avenue) Corridor Study will include recommendations on how aesthetics improvements could be used to compliment the unique community characteristics along the corridor. Recommendations may include landscaping and other features that support the vision and plans of each community.
36.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Alamito Creek Ave <u>Comment:</u> Heavy farm equipment driving along this area	Comment noted.
37.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Robert Varela <u>Comment:</u> Need transit	Comment noted.
38.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Brown St and McKinney St <u>Comment:</u> School bus stopping unsafe	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations will include school zone safety and bus stop safety.
39.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Denton Rd (Near Clint High School) <u>Comment:</u> School release time congestion	Comment noted.
40.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Island Rd, NW corner in front of 7-11 <u>Comment:</u> Short radius curbs - check NW corner	Comment noted.
41.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Alameda Ave at S San Elizario Rd (FM 1110) <u>Comment:</u> Left turn north unsafe	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Traffic operation considerations include traffic signals, medians and turn lanes.
42.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Alameda Ave near S San Elizario Rd (FM 1110) <u>Comment:</u> Unsafe conditions	Comment noted.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
43.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Grace St and Alameda Rancho Reposado Ave <u>Comment:</u> farm equipment conflicts with traffic – fold out to about 10 to 11ft wide	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Traffic operations considerations will include the needs for shoulders.
44.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between S San Elizario Rd (FM 1110) and Main St <u>Comment:</u> Need better connection to I-10	Comment noted.
45.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Denton Rd and Connington St <u>Comment:</u> Need a signal	The Study Team will evaluate different options to accommodate the existing and future traffic that use the SH 20 (Texas/Alameda/Main) corridor. Traffic operations considerations will include traffic signals.
46.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Tanton Rd <u>Comment:</u> School zones not enforced	Comment noted.
47.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Inglewood Dr. and A St. (Franklin Canal side) <u>Comment:</u> Bad pavement	Comment noted.
48.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Horizon Blvd <u>Comment:</u> Bad congestion	Comment noted.
49.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Oil Mill Dr <u>Comment:</u> Crash problem	Comment noted.
50.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> 3 rd St <u>Comment:</u> Farm equipment hitting traffic equipment	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Traffic operations considerations will include the needs for shoulders.
51.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Martinique Dr near Inglewood Dr <u>Comment:</u> Removal of shoulders – East of Lp 375	Comment noted.
52.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> N Americas Ave/Loop 375 <u>Comment:</u> Likes that they went to cement – Asphalt was bad, due to heat and hard braking	Comment noted.
53.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between A St and Mdiante Dr <u>Comment:</u> Tractor traffic	Comment noted.
54.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Herring Rd <u>Comment:</u> Crashes – Difficult to get out onto Alameda. Has had two crashes. They drive too fast on Alameda.	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Traffic operation considerations include evaluation of speed limits.
55.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Alamito Creek Ave <u>Comment:</u> Need safety lighting – All the way to Fabens. Just one luminaire by the school	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations include lighting.
56.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Henderson Rd and 3 rd <u>Comment:</u> Street lighting	Comment noted.
57.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> 3 rd St <u>Comment:</u> Car crash with RR	Comment noted.
58.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> FM 3380 <u>Comment:</u> Flooding	Comment noted.
59.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Passmore Rd <u>Comment:</u> Left turn hazard	Comment noted.

#	Last Name	First Name	Date	Source	Comment (verbatim)	Response
60.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Passmore Rd <u>Comment:</u> Bridge slope too high – Low speed or will bottom out	The Study Team will evaluate different options to accommodate the existing and future traffic that use the SH 20 (Texas/Alameda/Main) corridor. Traffic operations considerations include roadway and intersection design.
61.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Near Skov Rd <u>Comment:</u> Cars on roadway	Comment noted.
62.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Skov Rd and Vianey Rd <u>Comment:</u> Lighting	Comment noted.
63.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Tanton Rd <u>Comment:</u> Need bike facilities	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks, crosswalks and bicycle accommodations will be evaluated.
64.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Island Rd and 1 st St SE <u>Comment:</u> Drainage issues all along Main St – Properties take roadway runoff. Water needs to be captured by storm sewer in Fabens.	A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway. The findings and recommendations of this study will be incorporated into the SH 20 (Texas/Alameda Avenue) Corridor Plan.
65.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Oil Mill Dr <u>Comment:</u> Student crossing unsafe	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the safety needs of the SH 20 (Texas/Alameda/Main) corridor for all vehicles (cars, trucks, buses, and farm vehicles) as well as pedestrians and bicycles. Safety considerations include school zone safety.
66.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Cuadrilla Rd and Porter Rebb Rd <u>Comment:</u> Water floods roadway – Adjacent land is higher than road	A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway. The findings and recommendations of this study will be incorporated into the SH 20 (Texas/Alameda Avenue) Corridor Plan.
67.			06/26/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> I-10 (Gateway Blvd E) <u>Comment:</u> New access to Alameda from I-10	Comment noted.
68.			06/27/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Keeney Court <u>Comment:</u> Do not believe no pop growth inside Lp 375	As part of the long range planning process for the Horizon 2040 Metropolitan Transportation Plan (MTP) the El Paso Metropolitan Planning Organization (MPO) developed demographic projections. These demographic projections consider historic data, recent and planned development, and input from local experts and leaders. More information on the demographic process can be found in the MPO's Horizon 2040 MTP document on their website.
69.			06/27/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Colina Pl and Cananea Ln <u>Comment:</u> No sidewalk	Comment noted.
70.			06/27/2018	Needs & Challenges Interactive Exhibit	<u>Location:</u> Between Ivey Dr and Inglewood Dr <u>Comment:</u> need sidewalks in this area – rain runs off onto private property near Zaragoza	The SH 20 (Texas/Alameda Avenue) Corridor Study will consider the needs of all roadway users including those that drive, walk, ride bicycles and take transit/school buses along the corridor. Amenities such as sidewalks will be evaluated. A parallel study is being conducted to evaluate how the SH 20 (Texas/Alameda/Main) corridor influences the drainage patterns on and immediately adjacent to the roadway. The findings and recommendations of this study will be incorporated into the SH 20 (Texas/Alameda Avenue) Corridor Plan.

13301 GATEWAY BLVD. WEST | EL PASO, TEXAS 79928-5410 | (915) 790-4200 | WWW.TXDOT.GOV

May 25, 2018

The Honorable Dee Margo
Mayor, City of El Paso
300 N. Campbell St.
El Paso, TX 79901

Dear Mayor Margo:

Texas Department of Transportation (TxDOT), El Paso District, is conducting a Corridor Study of a 35-mile segment of State Highway (SH) 20 (Texas/Alameda Avenue) from SH 20 (Mesa Street) in El Paso to Shaffer Road in Tornillo. The Corridor Study will document the communities' vision for SH 20 (Texas/Alameda Avenue) as it relates to future transportation along the corridor through 2040.

The study team is currently analyzing data to identify the needs and vision for the corridor. In support of this effort, we are hosting two **Public Meetings** (the same content will be presented at both meetings):

Public Meeting Series #1 (south location)
Tuesday, June 26, 2018
5:00 p.m. to 7:00 p.m.
Clint High School – Cafeteria
13890 Alameda Avenue, Clint, TX 79836

Public Meeting Series #1 (north location)
Wednesday, June 27, 2018
5:00 p.m. to 7:00 p.m.
Riverside High School - Cafeteria
301 Midway Drive, El Paso, TX 79915

We are also establishing an Agency Working Group comprised of those agencies whose expertise will be sought throughout the development of the SH 20 (Texas/Alameda Avenue) Corridor Study.

The first meeting of the **Agency Working Group** is set for:

Thursday, June 14, 2018
9:30 a.m. to 11:30 a.m.
Texas Department of Transportation, El Paso District Conference Center
13301 Gateway Boulevard West, El Paso, TX 79928

If you would like to attend the Agency Working Group meeting, please RSVP via email to Alameda.Study@jacobs.com. Should you have any questions regarding this invitation, please contact Thelma Ramirez with TxDOT at (915) 790-4392; Thelma.Ramirez@txdot.gov or Jennifer Zankowski with Jacobs at (512) 314-3128; Jennifer.Zankowski@jacobs.com.

We look forward to your participation on this regionally important project.

Sincerely,

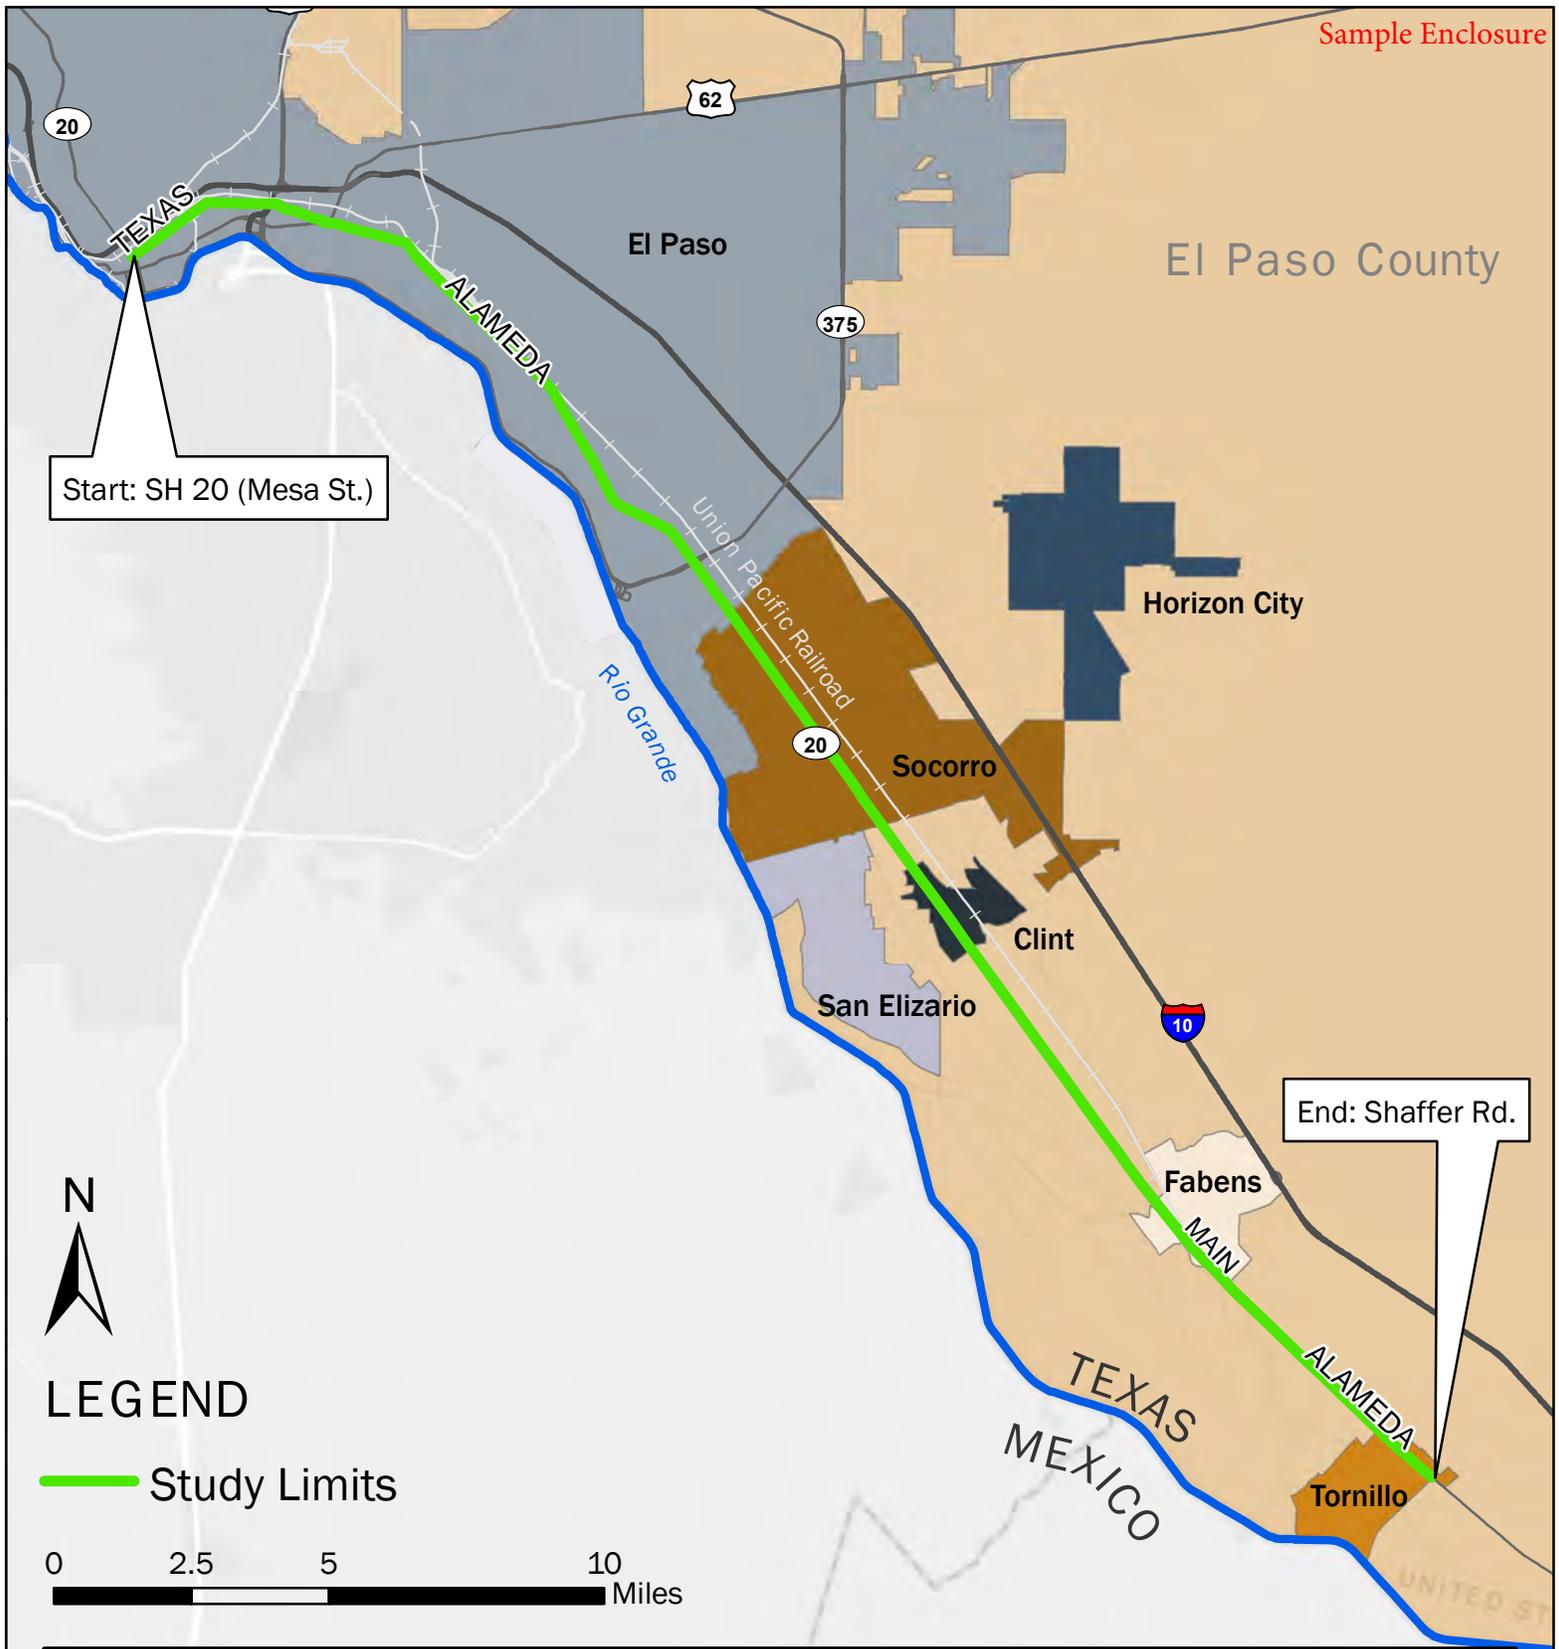

Robert Bielek, DPA, P.E.
El Paso District Engineer

Enclosure

OUR VALUES: *People • Accountability • Trust • Honesty*

OUR MISSION: *Through collaboration and leadership, we deliver a safe, reliable, and integrated transportation system that enables the movement of people and goods.*

[image002.jpg](#)
[image003.jpg](#)
[image002.jpg](#)

Good afternoon,

The Texas Department of Transportation (TxDOT), El Paso District, is conducting a Corridor Study of a 35-mile segment of State Highway (SH) 20 (Texas/Alameda Avenue) from SH 20 (Mesa Street) in El Paso to Shaffer Road in Tornillo (see attached Project Location Map). The Corridor Study will document the communities' vision for SH 20 (Texas/Alameda Avenue) as it relates to future transportation along the corridor through 2040.

The study team is currently analyzing data to identify the needs and vision for the corridor. In support of this effort, we are establishing an Agency Working Group comprised of those agencies whose expertise will be sought throughout the development of the SH 20 (Texas/Alameda Avenue) Corridor Study; three Agency Working Group Meetings will be held. We would like to invite you and/or a representative of your agency to participate.

Agency Working Group Meeting #1 is set for:

Thursday, June 14th, 2018

9:30 a.m. to 11:30 a.m.

Texas Department of Transportation

El Paso District Conference Center

13301 Gateway Boulevard West

El Paso, TX 79928

The goal of Agency Working Group Meeting #1 is to review the information that TxDOT plans to share at the Public Meeting Series #1 (June 26 & 27, 2018), and to gather your feedback so that we may refine the public meeting materials, as needed. If you would like to attend the Agency Working Group meeting, please RSVP by accepting this calendar invitation.

Should you have any questions regarding this invitation, please contact:

Jennifer Zankowski

Thelma Ramirez

Study Team Project Manager

TxDOT Project Manager

(512) 314-3128

HYPERLINK

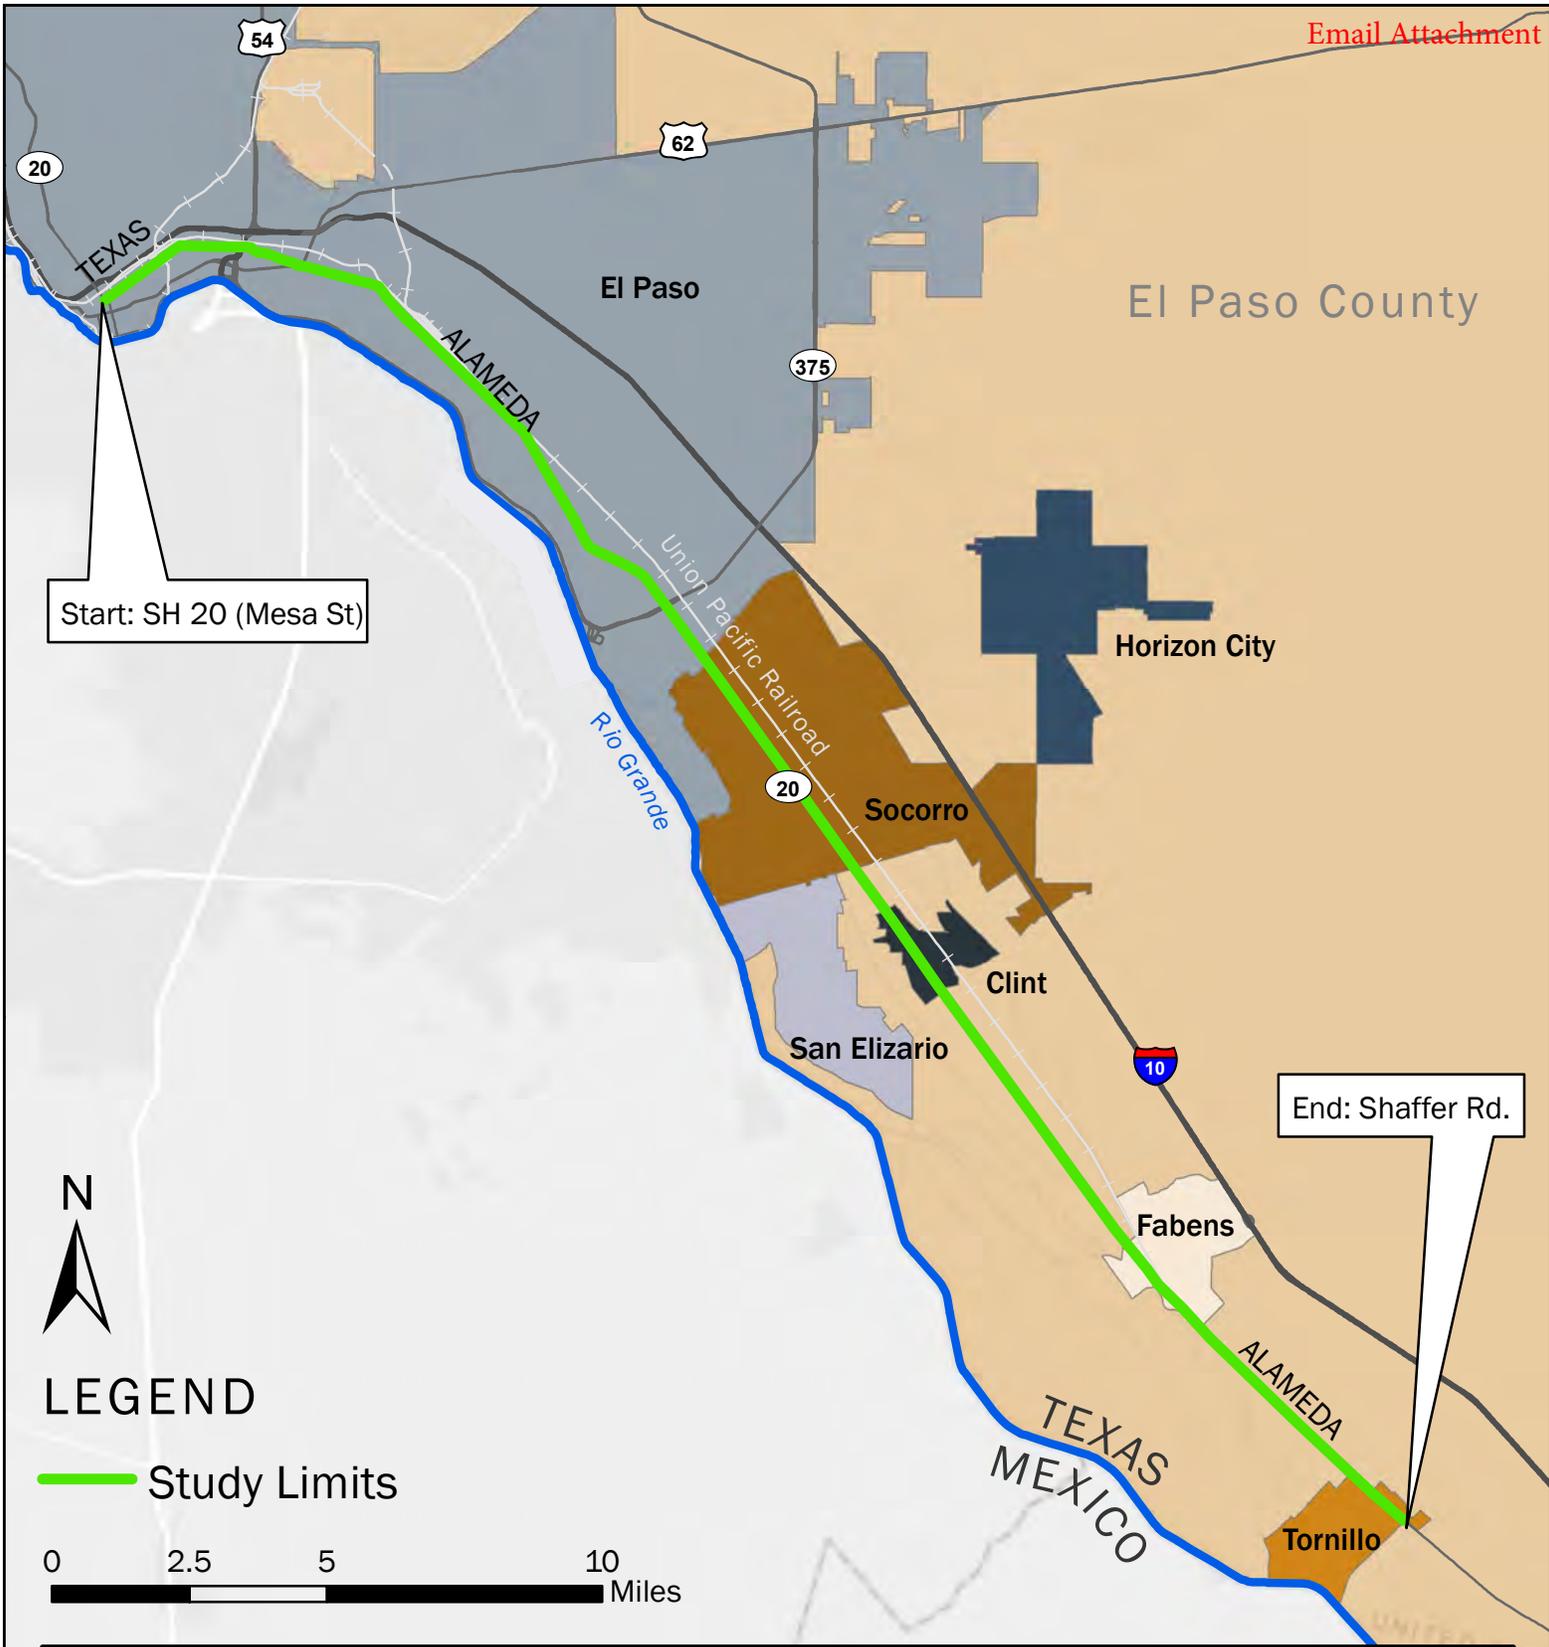

If you previously met with us as part of the Stakeholder Interview process, we would like to thank you. The information you provided is appreciated and your feedback is important to the success of the study.

We look forward to seeing you on June 14th at Agency Working Group Meeting #1 and to your participation on this regionally important project.

For more information about this Corridor Study, visit HYPERLINK "http://www.txdot.gov"www.txdot.gov, keyword "Alameda Avenue".

Sincerely,

The Alameda Avenue Study Team

Join the Texas Department of Transportation (TxDOT) for a Public Meeting to learn about and participate in the development of the SH 20 (Alameda Avenue) Corridor Study. The Corridor Study will document the communities' vision for SH 20 (Texas/Alameda/Main) as it relates to future transportation along the corridor through 2040. The Corridor is a 35-mile section of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in Tornillo.

Public Meeting Series #1 will include findings from data collection & analysis and agency coordination conducted to date. Topics include: vehicle/pedestrian/bicycle safety, roadway capacity & traffic conditions, multimodal transportation, drainage, connections to the community and placemaking & aesthetics. We want your feedback to help define the needs and vision for the corridor. The same content will be presented at both meetings.

If you plan to attend and have special communication or accommodation needs, please contact TxDOT's Public Information Office at (915) 790-4200.

MARTES, 26 DE JUNIO DE 2018
5:00 - 7:00 PM

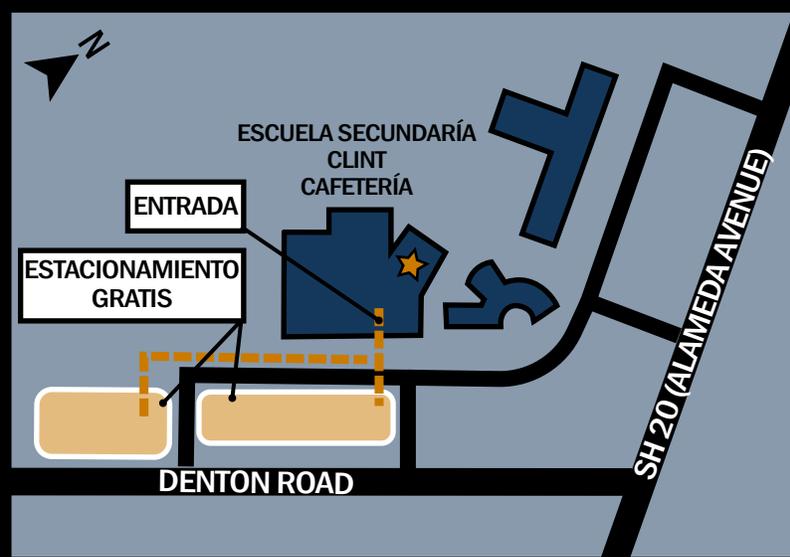

ESCUELA SECUNDARIA CLINT
CAFETERÍA

13890 AVENIDA ALAMEDA
CLINT, TEXAS 79836

MIÉRCOLES, 27 DE JUNIO DE 2018
5:00 - 7:00 PM

ESCUELA SECUNDARIA RIVERSIDE
CAFETERÍA

301 MIDWAY DRIVE
EL PASO, TEXAS 79915

El Departamento de Transporte de Texas (TxDOT) les invita a asistir una reunión pública para conocer y participar en el desarrollo del estudio de corredor de SH 20 (Alameda Avenue). El estudio del corredor documentará la visión que las comunidades tienen para SH 20 (Texas/Alameda/Main) en lo que se refiere al transporte futuro a lo largo del corredor hasta el año 2040. El corredor es una sección de 35 millas de SH 20 (Texas/Alameda/Main) que empieza en El Paso desde SH 20 (Calle Mesa) siguiendo hasta la Calle Shaffer en Tornillo.

La primera serie de reuniones públicas incluirá los resultados de la recopilación y análisis de datos junto con la coordinación entre las agencias que ha ocurrido hasta la fecha. Los temas del estudio incluye: seguridad de los vehículos/peatones/ciclistas, capacidad de las calles y condiciones del trafico, transporte multimodal, drenaje, conexiones con la comunidad, y "placemaking" y estética. Queremos su opinión para definir las necesidades y la visión del corredor. El mismo contenido será presentado en ambas reuniones.

Si usted planea asistir y tiene necesidades especiales de comunicación o acomodación, favor de contactar la Oficina de Información Pública de TxDOT al (915) 790-4200.

Hearings, Meetings and Notices Schedule

Home (/content/txdot/en.html) > Inside TxDOT (/inside-txdot.html)

> Get Involved (/inside-txdot/get-involved.html)

> About Public Hearings, Meetings and Notices (/inside-txdot/get-involved/about.html)

Public Involvement Policy

"TxDOT commits to purposefully involve the public in planning and project implementation by providing for early, continuous, transparent and effective access to information and decision-making processes. TxDOT will regularly update public involvement methods to include best practices in public involvement and incorporate a range of strategies to encourage broad participation reflective of the needs of the state's population." As adopted by the Texas Transportation Commission on Jan. 27, 2011

Hearings and Meetings

Public hearings and meetings allow you to participate in the transportation planning process and are a coordinated effort to gather your input. These meetings help you better understand the road, rail and aviation projects that affect your community. Everyone is welcome to attend.

Notices

Notices alert the public about specific milestones in the environmental review process and offers the opportunity to review environmental documents. Notice types include Notice Affording Opportunity for Public Hearing; Notice of Availability of environmental documents, such as an Environmental Impact Statement or Environmental Assessment; and Notice of Finding of no Significant Impact.

Learn more about the types of involvement opportunities (/inside-txdot/get-involved/about.html) and see the hearings, meetings and notices from previous months in the archive (/inside-txdot/get-involved/archive/meetings.html).

SH 20 (Alameda Avenue) Corridor Study

TxDOT El Paso District is conducting a corridor study of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a SH 20 (Alameda Avenue) Corridor Plan.

(https://Alameda.metroquest.com)

(https://AlamedaEspanol.metroquest.com)

Study Limits

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor. SH 20 is Texas Avenue in downtown El Paso from SH 20 (Mesa Street) east for approximately 2 miles. SH 20 continues southeast as Alameda Avenue to Shaffer Road in Tornillo, and is referred to as Main Street in Fabens. The corridor goes through urbanized and rural areas within El Paso County and serves as one of the major east/west connections for various communities along its route

Primary Objective

The primary objectives of the study are to:

- Study the current and future corridor challenges and needs
- Identify the communities' future vision for SH 20 (Texas/Alameda/Main)
- Develop a SH 20 (Alameda Avenue) Corridor Plan

The study will be conducted through a process of data collection, analysis of current and future transportation needs and public outreach. It will evaluate topics such as vehicle/pedestrian/bicycle safety, roadway capacity, traffic operations, drainage, placemaking and aesthetics, and multimodal access. The study will result in conceptual design recommendations for SH 20 (Texas/Alameda/Main) and short-, medium-, and long-term improvements that could be implemented over the next 20+ years. The findings of the study will be documented in a SH 20 (Alameda Avenue) Corridor Plan.

Get Involved

Public engagement is a key element to the success of this study. Coordination with the public, stakeholders, elected/public officials, cities, counties and agencies will be conducted throughout the study.

- Public Meeting Series #1 (planned for June 26, 2018 and June 27, 2018) will focus on identifying the needs, challenges and vision for SH 20 (Texas/Alameda/Main) through 2040.
- Public Meeting Series #2 (planned for fall of 2018) will focus on developing, evaluating, and screening initial design concepts.
- Public Meeting Series #3 (planned for winter of 2018/2019) will focus on developing conceptual design recommendations and prioritizing improvements.

We welcome you to get involved in the study and participate in upcoming public meetings. The study is expected to be completed in the spring of 2019.

Study Process and Schedule

The development of this plan will be accomplished through a robust process including data collection, public outreach, analysis of current and future transportation needs, and identification of potential projects. The study is anticipated to be 18-months in duration and will conclude with a recommended corridor plan by spring of 2019.

Public Meeting - SH 20 (Alameda Avenue)

Home (/content/txdot/en.html) > Inside TxDOT (/inside-txdot.html)

- > Get Involved (/inside-txdot/get-involved.html)
- > About Public Hearings, Meetings and Notices (/inside-txdot/get-involved/about.html)
- > Hearings, Meetings and Notices Schedule (/inside-txdot/get-involved/about/hearings-meetings.html)

Where: Clint High School Cafeteria
13890 Alameda Avenue
Clint, TX 79836 (Map (<https://goo.gl/maps/1fNVWKguUSC2>))

When: Tuesday, June 26, 2018
5 p.m. - 7 p.m.

Purpose: The purpose of the public meeting is to gather public input on the advance planning study of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The public meeting will be conducted in an open house format. Those wishing to attend are encouraged to do so at their convenience. Displays will be available for review and comment and TxDOT staff will be available to answer questions. No formal presentation will be given.

Description: The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a SH 20 (Alameda Avenue) Corridor Plan.

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor and goes through urbanized and rural areas within El Paso County. The corridor also serves as one of the major east/west connections for various communities along its route.

The study will be conducted through a process of data collection, analysis of current and future transportation needs and public outreach. It will evaluate topics such as vehicle/pedestrian/bicycle safety, roadway capacity, traffic operations, drainage, placemaking and aesthetics, and multimodal access. The study will result in conceptual design recommendations for SH 20 (Texas/Alameda/Main) and short-, medium-, and long-term improvements that could be implemented over the next 20+

years. The findings of the study will be documented in a SH 20 (Alameda Avenue) Corridor Plan. More information about public involvement and the corridor study, as well as a link to the online engagement tool, may be found on the project page (</inside-txdot/projects/studies/el-paso/sh20-alameda-ave.html>).

Special Accommodations:

TxDOT makes every reasonable effort to accommodate the needs of the public. The open house will be conducted in English; however, if you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call 915-790-4200 at least five working days prior to the meeting. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.

Memorandum of Understanding:

The environmental review, consultation, and other actions required by applicable federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

What: SH 20 (Alameda Avenue) Corridor Study Public Meeting Series #1

When/Where:

Tuesday, June 26, 5 p.m. - 7 p.m.
Clint High School Cafeteria
13890 Alameda Avenue, Clint, TX 79836

Wednesday, June 27, 5-7 p.m.
Riverside High School
301 Midway Drive, El Paso, TX 79915

EL PASO – Community members are invited to provide their feedback on the future of the SH 20 (Texas St. /Alameda Ave. /Main St. corridor. The TxDOT El Paso District is conducting a corridor study of SH 20 (Texas St. /Alameda Ave. /Main St. from SH 20 (Mesa Street) in the City of El Paso to Shaffer Road in the Town of Tornillo. The purpose of the study is to analyze and evaluate the current and future transportation needs for the 35-mile corridor, gather feedback from stakeholders and the public, and develop a SH 20 (Alameda Avenue) Corridor Plan.

Two public meetings are scheduled the last week of June. Each will be presented in an open house format, will run 5-7 p.m., will include the same information and will be staffed by engineers and staff working on the study ready to answer any questions in English or Spanish.

“Public engagement is a key element to the success of this study,” said TxDOT El Paso District Engineer Bob Bielek, “especially with a corridor of this size with varying use. The corridor goes through urbanized and rural areas within El Paso County and serves as one of the major east/west connections for multiple communities along its route.”

The study started in the summer/fall of 2017 and will include three rounds of public meetings. Public Meeting Series #1 will include findings from data collection & analysis and agency coordination conducted to date. Topics include: vehicle/pedestrian/bicycle safety, roadway capacity & traffic conditions, multimodal transportation, drainage, connections to the community and placemaking & aesthetics. Public Meeting Series #2 (planned for fall of 2018) will focus on developing, evaluating, and screening initial design concepts and Public Meeting Series #3 (planned for winter of 2018/2019) will focus on developing conceptual design recommendations and prioritizing improvements.

The study will result in conceptual design recommendations for the SH 20 (Texas St. /Alameda Ave. /Main St.) corridor and short-, medium-, and long-term improvements that could be implemented over the next 20+ years. It is expected to be completed in the spring of 2019.

Community members interested in learning more about the plans, but are not able to attend this last round of public meetings can view details and provide feedback online by visiting www.txdot.gov, keyword “Alameda Study”.

Study area note: SH 20 is Texas Avenue in downtown El Paso from SH 20 (Mesa Street) east for approximately 2 miles. It continues southeast as Alameda Avenue to Shaffer Road in Tornillo, and is referred to as Main Street in Fabens.

Community meeting being held Tuesday for Alameda improvement plan

The Texas Department of Transportation is conducting a study that will determine what Alameda Avenue will look like the next 20 years, and it wants residents to share their opinions.

The Alameda Corridor study will take eighteen months to complete at will look at the more than 30-mile entire stretch of Alameda from Texas Ave. to the Fabens and Tornillo areas.

"We are in the process of collecting data and in the initial phase of this plan," said Thelma Ramirez, transportation planner for TxDOT.

The study will help identify the transportation needs and help determine short and long-term plans for Alameda Ave.

TxDOT will also focus on intersections along Alameda that see a high number of crashes, like Yarbrough and Alameda.

Ramirez said the study will look into solutions to reduce the number of crashes.

There are two public community meetings where residents will be able to share their opinions.

"We need the community's vision. So, as you come into the public meeting you will see 35 miles worth of plots for you to view and comment on. We need those comments," Ramirez said.

Residents will be allowed to vote on topics, including safety, transit, aesthetics and pedestrian/bike trails. There will also be an opportunity for residents to give their own suggestions.

The first meeting will be Tuesday, June 26, from 5 p.m. to 7 p.m. at Clint High School.

The second meeting is Wednesday, June 27, from 5 p.m. to 7 p.m. at Riverside High School.

If a resident can not attend the meetings, they can provide feedback online, www.txdot.gov.

COMMENTS: PLEASED TO SEE THAT ALAMEDA IS BEING EVALUATED.
THERE IS CONCERNS IN THE SOCORRO AREA NEAR THE
HIGH SCHOOL WITH TRAFFIC SAFETY. A NEW CHARTER SCHOOL
IS BEING BUILT THAT WILL ADD TO THE CONGESTION. SLOW MOVING
COMMERCIAL AND FARMING VEHICLES ARE CONCERNING IN THE
CLINT AREA. THERE ARE FOUR SCHOOLS IN THE CLINT AREA LOCATED

Comments must be received or postmarked on or before Thursday, July 12, 2018 to be included in the Public Meeting Summary and sent to:

ON ALAMEDA. THERE FOR SAFETY
NEEDS TO BE EVALUATED FOR
THE FUTURE GROWTH.
THANK YOU.
M. RENTERIA.

COMENTARIOS: Desafortunadamente cuando llueve mi propiedad se inunda como si fuera un lago esto a causa de la falta de banquetas. Por este mismo tema esto ocasiona accidentes y por que la falta de banquetas los carros no respetan y hacen return ahí mismo

Los comentarios deben ser recibidos ó estar fechados por las oficinas de correo postal a más tardar **jueves, 12 de julio de 2018** para ser incluidos en el Resumen de la Reunión Pública y ser enviados a:

COMMENTS: WE COULD USE BETTER LIGHTING AND CROSS WALKS ON INTERSECTIONS IN THIS AREA. WE ARE CLOSE TO A SUN METRO STATION ON ZARAGOZA AND HAVE MANY PEDESTRIANS WALKING THROUGH THE FRONT OF OUR PROPERTY. WE ALSO DONT HAVE ANY BIKE LANES FOR PEOPLE ON BIKES WHICH WE ALSO HAVE ALOT OF.

Comments must be received or postmarked on or before Thursday, July 12, 2018 to be included in the Public Meeting Summary and sent to:

COMMENTS: I LIVE ON ALAMEDA AND COLINA AND HAVE SEVERAL ISSUES WE FACE ON A DAILY BASIS. 1) WE HAVE NO SIDE WALKS OR CURBS ALONG THE FRONT OF OUR PROPERTY MAKING IT DANGEROUS FOR PEDESTRIAN AND BIKE RIDERS. 2) WE ALSO GET FLOODING IN OUR PROPERTY DUE TO WATER FROM STREET FLOWING INTO OUR PROPERTY. 3) TRAFFIC SAFETY, PEOPLE ARE CONSTANTLY MAKING U-TURNS IN INTERSECTION OF COLINA AND ALAMEDA MAYBE MAKING A RIGHT TO TURN LANE WOULD HELP.

Comments must be received or postmarked on or before Thursday, July 12, 2018 to be included in the Public Meeting Summary and sent to:

COMMENTS: TOMEN EN CUENTA QUE ALAMEDA SON NEGOCIOS QUE APORTAN EN EMPLEOS e Impuestos Si se busca solo embellecer la calle no ayudaria mucho. La idea es enfocarse en seguridad y beneficiar a los negocios para que ellos beneficien a la mayoría de la comunidad.

COMMENTS: Let us make for certain that "LA Alameda" a tree lined Avenue is done correctly. By that I mean Utilities have to come into play. That we look at long long term. That we incorporate different areas ideas.

Thank you for the meeting and allowing our input

COMMENTS: Maybe you can check on Prado and Alameda Ave for light at night as well as water puddles that are present when it rains. The crossing at the front of YHS. Is a great Idea but with the problem of some students trying to cross before light is on for them due to lunch time being only 30 minutes.

HOJA DE COMENTARIOS

Esta hoja está disponible para recibir sus comentarios con respecto al Estudio del Corredor SH 20 (Alameda Avenue). Por favor utilice el espacio abajo e incluya páginas adicionales en caso necesario. Sus comentarios pueden ser depositados hoy en la "Caja de Comentarios"; ser enviados por correo postal a la dirección incluida abajo ó ser enviados por correo electrónico a Alameda.Study@Jacobs.com. Comentarios escritos deben estar fechados por las oficinas de correo postal a más tardar **jueves, 12 de julio de 2018**. Gracias por sus comentarios.

COMENTARIOS: El día de la lluvia el agua que corria por la calle Alameda desembocaba en nuestra propiedad, necesitamos un sistema de drenaje fluvial ya que no hay alcantarillas. y ahora que arreglaron la calle afectó mi propiedad.

Los comentarios deben ser recibidos ó estar fechados por las oficinas de correo postal a más tardar **jueves, 12 de julio de 2018** para ser incluidos en el Resumen de la Reunión Pública y ser enviados a:

Meeting with Affected Property Owners (MAPO) Summary

This form is used to summarize MAPO activities. MAPOs completed using the same method (certified letter, email, phone call or meeting) and that occurred or were initiated the same date may be included in a single form. A separate form must be completed for each individual method utilized.

Project Name: SH 20 (Texas/Alameda Avenue) Corridor Study

Project Limits From: SH 20 (Mesa Street) in El Paso

Project Limits To: Shaffer Road in Tornillo

Control Section Job Number (CSJ): 0001-03-057

District(s): El Paso

County(ies): El Paso

- Is an easement required?
- Is any amount of additional ROW required?
- Is a road or bridge closure required?
- Has a location or design revision occurred after public participation requirements have been completed that would result in a substantial change in the impacts previously disclosed to the affected property owner(s)?

MAPO Method

(Select One) Certified Letter Email Phone Call In-Person Meeting

For Certified Letters or Email:

Date Sent: _____ Date MAPO Completed: _____

Note: Certified letters and emails must provide a 15 day comment period from date of receipt.

For Meetings and Phone Calls:

Date of Call/Notice Sent: _____ Date MAPO Completed: _____

Notification Method(s) (if applicable):

If unsuccessful in reaching property owners, document efforts here:

Was every reasonable effort made to accommodate persons with special communication needs? Yes No
Explain.

Who conducted the MAPO?

Luis Partida and Alberto Alamada (Omega Engineers, Inc.) spoke with Mr. Grajeda while serving as public meeting staff and Public Meeting Series #1 for the study. This discussion was follow up by an email submitted by Mrs. Grajeda that included photographs demonstrating the flooding issues discussed at the public meeting.

Names and addresses of affected property owners:

Mr. and Mrs. Grajeda, [REDACTED]

Does the project require any relocations or displacements? Yes No

If yes, were individuals affected provided with information regarding TxDOT's Relocation Assistance Program? Yes No

Describe any issues or concerns received from or discussed with affected property owners:

Mr. and Mrs. Grajeda own a home at [REDACTED] At the public meeting, Mr. Grajeda shared with Mr. Partida and Mr. Almada that his home was flooded on May 21, 2018. He believes the flooding is a result of runoff from Alameda Avenue. Mrs. Grajeda shared photographs of their flooded property with Mr. Partida and Mr. Almada via email after the public meeting.

How was each issue or concern identified above addressed?

The documentation of the conversation with Mr. Grajeda and email from Mrs. Grajeda has been recorded in the public meeting record. All drainage-related comments received at Public Meeting #1 have been shared with Omega Engineers, Inc. to be considered as part of the parallel drainage study they are conducting for the SH 20 (Texas/Alameda/Main) corridor.

Additional Comments (Optional):

[REDACTED]

Select if FHWA Assigned

*Attach copies of any file notes, notices and/or correspondence sent to or received from property owners.
If MAPO was conducted by local officials, attach copy of documentation received.*

Subject: [REDACTED]

Estas fotografias ensenan la manera que se inundo con la llovida, por que el agua de la calle Alameda desembocaba en nuestra propiedad y mucha de esta agua se fue a nuestro sotano. De antemando le agradezco su atencion, para mas informacion mi telefono es [REDACTED]

Gracias, Ana Grajeda

Google MyMaps Tablet Comments

During the public meetings, members of the public were encouraged to provide comments as part of the “Needs and Challenges Interactive Exhibit” at Station 7. The corridor was presented to the public on large roll plots and visualized on tablets using Google MyMaps. Participants were encouraged to review the maps, ask questions, and provide feedback via sticky notes on the roll plots or through the tablets.

All comments provided via sticky note on the roll plots were then transcribed and entered into the Google MyMaps. All comments were associated with an icon that represented one of the Preliminary Evaluation Criteria outlined in Station 8. These criteria included:

- Safety
- Traffic Operations
- Connection to the Community
- Multimodal
- Drainage
- Environment
- Placemaking & Aesthetics

Comments made at this station are transcribed below and given an approximate location description. All comments were added to the Comment Response Matrix (**Attachment A**).

Map Marker Comments

Online Engagement Results

SH 20–Alameda Ave Corridor Study

El Paso District

July 2018

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Introduction

TxDOT El Paso District conducted an online engagement survey as part of an overall public involvement strategy to develop a corridor plan of SH 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo.

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor. SH 20 is Texas Avenue in downtown El Paso from SH 20 (Mesa Street) east for approximately 2 miles. SH 20 continues southeast as Alameda Avenue to Shaffer Road in Tornillo, and is referred to as Main Street in Fabens. The corridor goes through urbanized and rural areas within El Paso County and serves as one of the major east/west connections for various communities along its route.

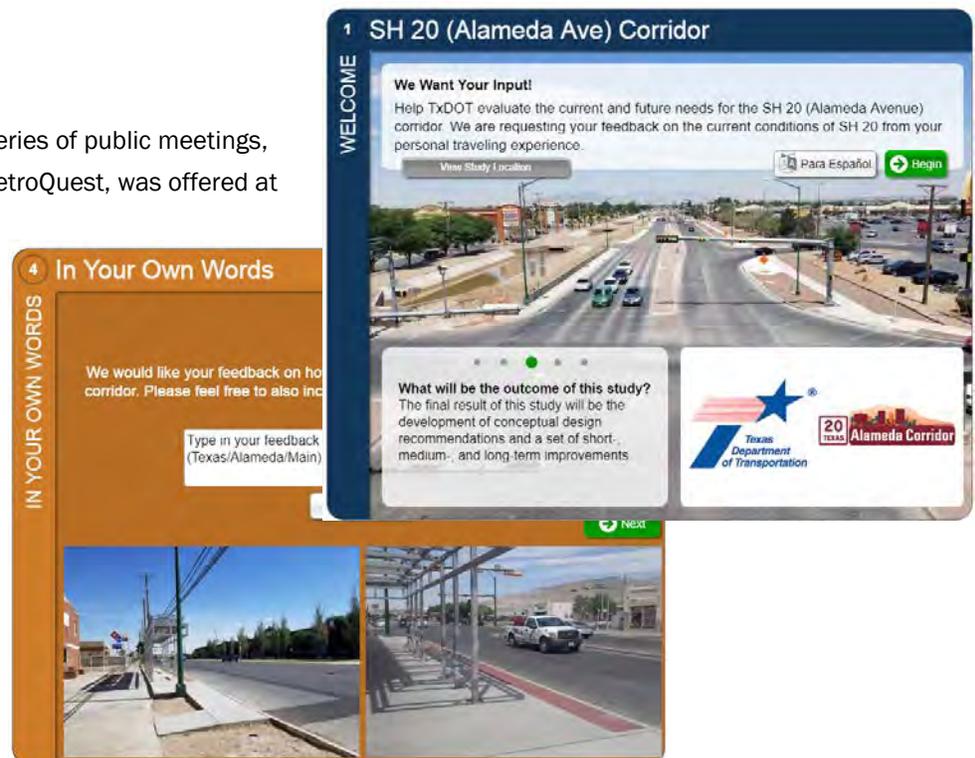

The primary objectives of the study are to:

- Study the current and future corridor challenges and needs
- Identify the communities' future vision for SH 20 (Texas/Alameda/Main)
- Develop a SH 20 (Alameda Avenue) Corridor Plan

The study is being conducted through a process of data collection, analysis of current and future transportation needs and public outreach, by evaluating topics such as vehicle/pedestrian/bicycle safety, roadway capacity, traffic operations, drainage, placemaking and aesthetics, and multimodal access.

Online Engagement

The TxDOT El Paso District hosted a series of public meetings, where the online engagement tool, MetroQuest, was offered at computer stations for members of the public. In addition, other methods of outreach were utilized to send the public to their own laptops, tablets or phones to take the survey. The site was composed of five screens: Welcome, Priorities, Map Markers, In Your Own Words and Wrap Up. This report presents the outreach strategies and details the data results.

Logistics and Outreach

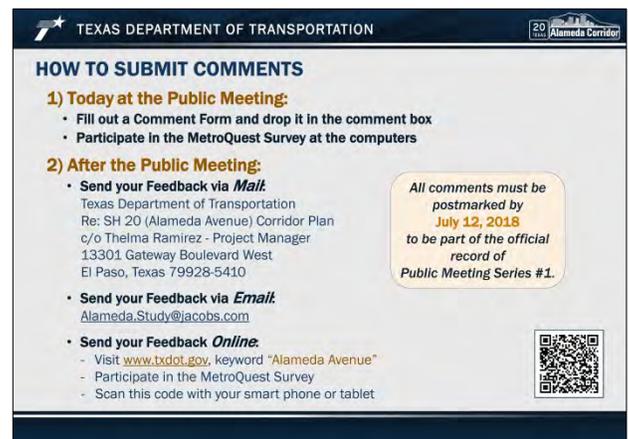

The survey was available from June 18, 2018, through July 12, 2018 online at txdot.gov, keywords “Alameda Avenue.” It took approximately 5 to 7 minutes to complete and was available online 24/7. Survey participation was anonymous.

The survey was advertised via the following methods:

1. Open House – A series of open houses was hosted by TxDOT on Tuesday, June 26, 2018, at Clint High School Cafeteria (13890 Alameda Avenue) in Clint and on Wednesday, June 27, 2018, at Riverside High School Cafeteria (301 Midway Drive) in El Paso. Approximately 25 Non-TxDOT/Non-consultant members of the public attended the June 26 meeting and approximately 48 attended the June 27 meeting. A station with an explanation meeting display board was part of the open house, where members of the public could use electronic tablets available to complete the survey. This station included a staff member for assistance with the online survey.
2. Post cards and meeting informational flyers included a quick response (QR) code for the SH 20 (Alameda Avenue) project page, where the online survey “lived.”
3. The txdot.gov Hearings and Meetings Schedule carried both of the SH 20 (Alameda Avenue) meetings and each posting included a link to the project page.
4. An email notification for the meeting that included a link to the project page was sent to a list of 499 recipients on June 18, 2018. Ninety-eight percent of the emails were delivered with a 15 percent open rate.
5. Local government: Ninety-nine letters were sent to local public and elected officials, as well as other stakeholders.
6. Traditional and social media: TxDOT El Paso District coordinated with local news to spread the word, and posted tweets to their Twitter page to inform the public and provide live updates on public meeting events. See Attachment C of the SH 20 (Alameda Avenue) Public Meeting #1 Summary for copies of tweets and press releases informing the public of the public meeting.

TxDOT staff assists with online survey

Meeting display board

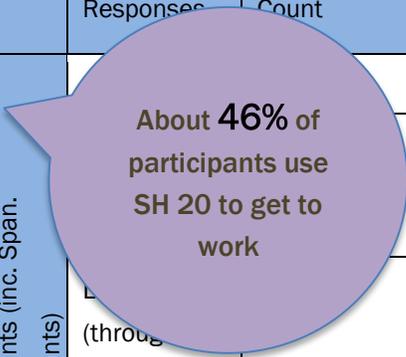

Survey Summary

Thirty-three participants weighed in on their vision for the SH 20 (Alameda Ave) Corridor Survey. Numbers completing the survey peaked on June 27th with 10 participants. In addition to the 33 that participated in the survey, another 71 visited the site but chose not to provide responses or data. Also noted, a total of 3 participants engaged in the Spanish Survey, with 20 visiting the site but not leaving responses.

Overall, there were 10 different zip codes recorded from a total of 21 participants that provided a zip code, from both the English and Spanish surveys. The largest number of participants (8) reported their zip code as 79915; there were 2 participants each for the zip codes, 79853, 79902, 79907, and 79938; and the remaining zip codes each had 1 participant.

Of those who responded, 5 of the participants heard about the survey from a friend; 5 through other means; 4 through both local government, and 4 from the media; and 3 from the TxDOT website, for a total of 21 participants. Of the 35 participants, 31 accessed the survey from the web and 4 accessed the survey on mobile.

	Responses	Count
Primary use of SH 20 by participants (inc. Span. Participants)	(through traffic)	
	Total	22

Summary of Findings

- Safety, Traffic Operations, and Drainage were priorities that were ranked the most, of the seven priorities. However; Safety, Drainage, and Multimodal Access, had the highest average ranks, proportional to the amount of times they were ranked.
- Safety was a top priority for those who responded on the map marker screen
- A friend was the primary method of advertisement when participants were asked how they heard about the survey

Screen 2: Priority Ranking

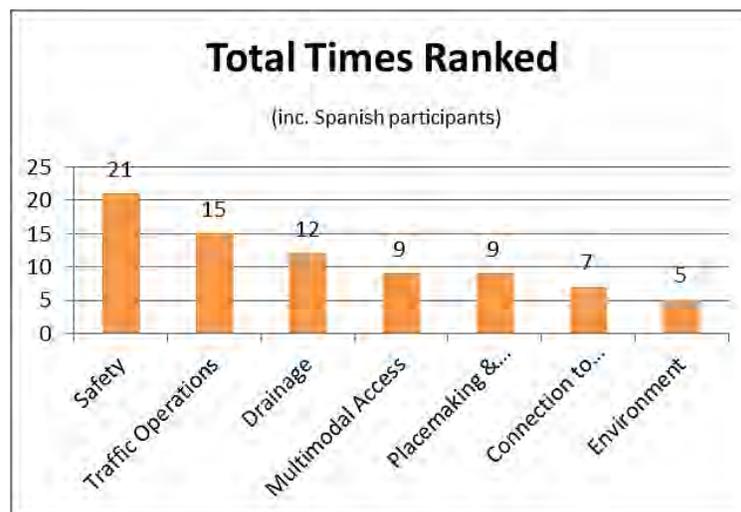

The Priority Ranking screen asked participants to order the top three priority issues to consider when developing potential improvements SH 20 (Alameda Ave). The seven priorities are:

- 1. Safety:** Improve vehicle, pedestrian and bicycle safety on SH 20 (Texas/Alameda/Main) corridor.
- 2. Traffic Operations:** Improve travel times and reduce travel delays on SH 20 (Texas/Alameda/Main) corridor.
- 3. Multimodal Access:** Accommodate all modes of travel including vehicles, bicycles, pedestrians, transit and freight.
- 4. Drainage:** Address flooding and drainage issues along the SH 20 (Texas/Alameda/Main) corridor.
- 5. Placemaking & Aesthetics:** Provide a landscape/streetscape that reflects the community's identity and creates a sense of place.
- 6. Environment:** Protect the natural, human and cultural environment.
- 7. Connection to Community:** Improve connections to neighborhoods, community facilities and areas of interest.

When asking participants to rank their top three priorities (out of a list of seven priorities), Safety, Drainage, and Multimodal Access, were ranked in the top three the most number of times. For the Spanish participants; Environment, Safety and Traffic Operations were top priorities.

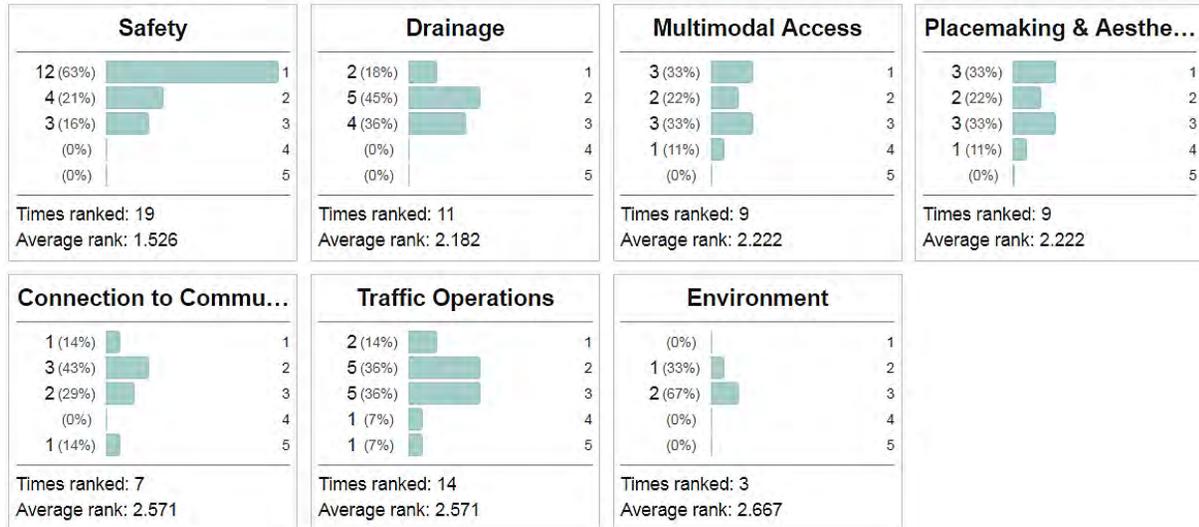

The graph below shows each ranking item and how often each item was ranked, out of a total of 72 rankings.

Screen 2: Priority Ranking, Continued

Safety was also picked the most number of times, across all priorities, to be the No. 1 priority (proportional to the number of times it was ranked).

(Table 1: Not inc. Spanish Participants)

For the individual priorities, Safety, when it was included in the top three, was chosen No. 1 the highest number of times (proportional to the number of times it was ranked). Of No. 1 rankings, Safety was selected 63 percent of the time, compared to Drainage which was selected 18 percent of the time. Environment had the lowest priority, with only 3 times ranked and never No. 1.

For Spanish participants, Traffic Operations was selected 100 percent of the time as No. 1 (proportional to the number of times it was ranked).

The following are comments made by participants concerning each of the seven priorities.

Safety Feedback:

- "Alameda and Bowen Rd very difficult entering and exiting."
- "Alameda needs bike lanes."

Drainage Feedback:

- "Alameda and Yarbrough and Lafayette and Riverside and Rosedale."
- "Excessive runoff at certain locations."
- "Excessive ponding at many locations. For example, at the intersection Durrill."
- "Alameda, Rosedale, Lafayette have drainage problems vehicles are forced to move into the mid-lane due to flooding."
- "Excessive ponding at many locations. For example, at the intersection Durrill."

Placemaking & Aesthetic Feedback:

- “The lack of sidewalks and shade trees along Alameda is a major detriment to accessibility for residents nearby, and also a drag on the aesthetics of the corridor.”

Connection to Community Feedback:

- “Safety for Pedestrians and Adequate Light thru the corridor. Beautify the areas; make ordinances adequate for business to respect sidewalk spaces.

Traffic Operations Feedback:

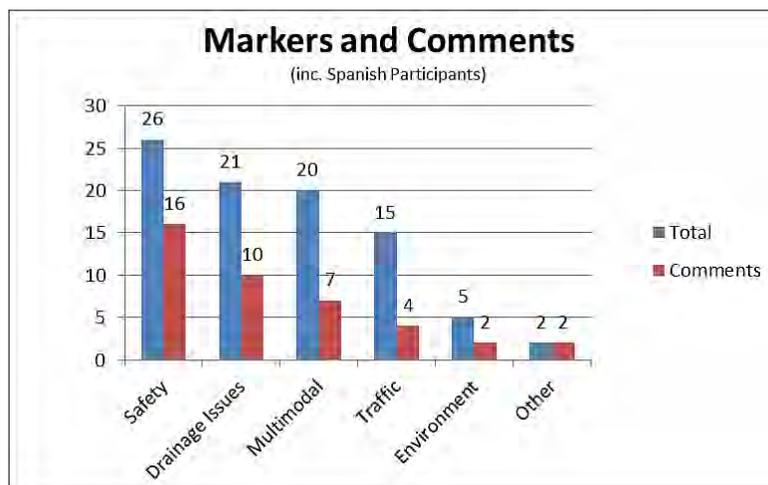

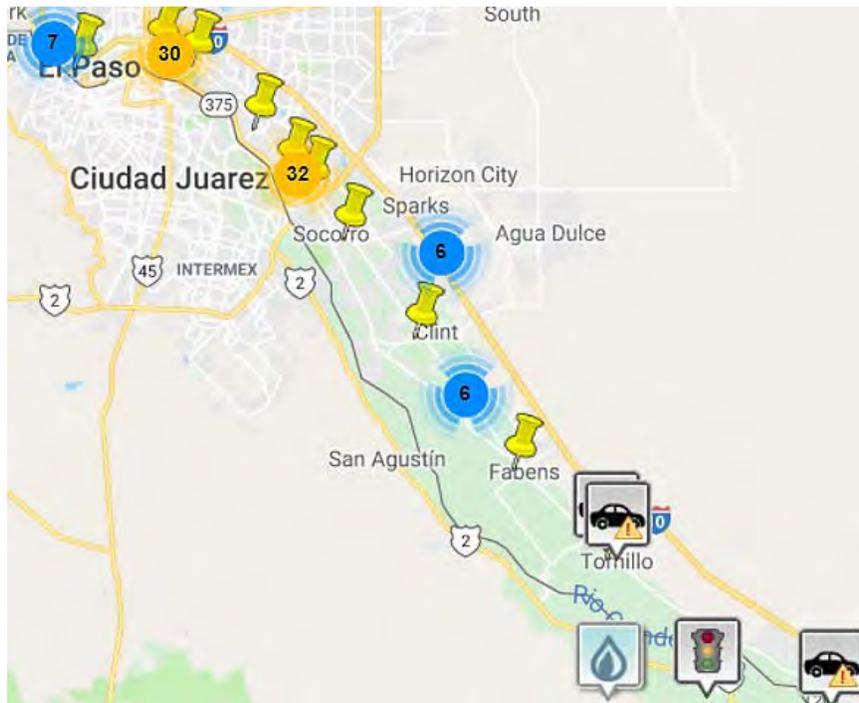

- “The medians at Alameda and Bowen Rd.”
- “In the intersection off Alameda and Bowen, difficulty to enter.”

Suggest another Feedback:

- “Testing of another priority such as access management.”

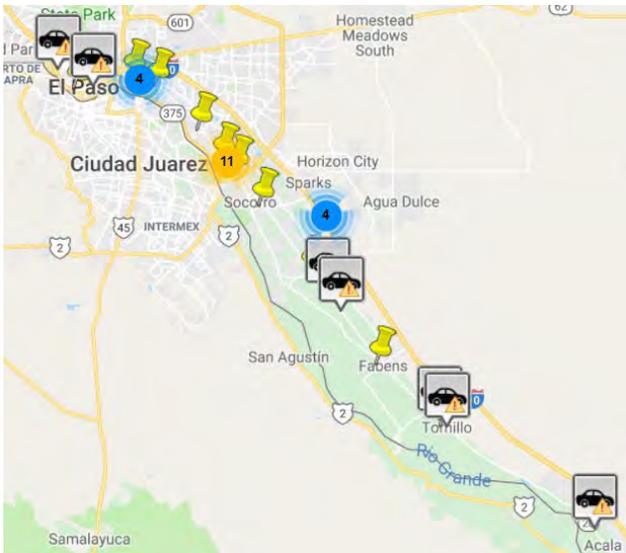

Screen 3: Interactive Map-Overall View

The third screen of the online survey asked the participants to drag and drop at least one icon, or “marker” on the map. Participants are able to zoom in and out on the map to place markers signalling Safety, Multimodal, Traffic, Drainage Issues, Environment, and Other. There was a total of 86 map markers used. The blue, red and yellow “clusters” signify large clusters of markers.

Screen 3: Interactive Map-Safety Marker

Of the six map markers, the Safety marker had the highest number of placements on the map, with a total of 26 markers (29%).

Shown to the left is the concentration of safety markers along SH 20 Alameda Ave

Shown below is the southern portion of SH 20 (Alameda Ave)

Shown above is the northern portion of SH 20 (Alameda Ave)

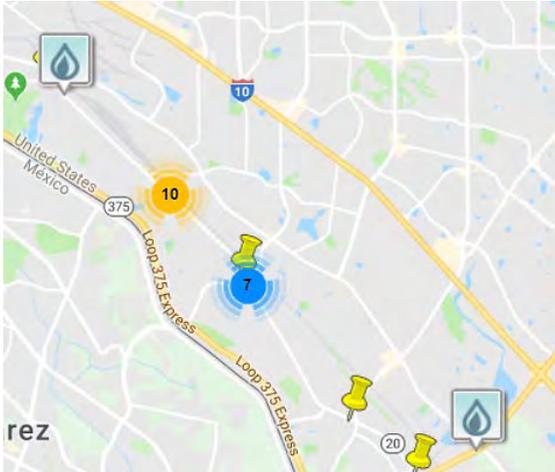

Screen 3: Interactive Map-Safety Marker, Continued

The following are comments from participants:

- “Too steep to get on to Passmore. Requires vehicles to slow down exponentially to turn on to Passmore.”
- “After restriping Alameda to have a middle lane the outside lanes are now on what used to be the shoulders. The pavement is in bad shape. It’s especially bad at intersections like Episo Rd.”
- “Consistent lighting is needed on Alameda from Americas to Clint. It’s very sporadic and not uniform like the recently widened North Loop section in Socorro.”
- “Need more medians to safely cross the wide street [Alameda Ave near George Orr Rd]”
- “There is a serious dearth of adequate sidewalks throughout the corridor.”
- “This section [Alameda Ave and S Gibraltar Dr] needs a redesign along the lines of the westernmost portion of the corridor to add wider sidewalks, more crosswalks, and shade trees, since this is a high pedestrian traffic area.”
- “Traffic light [Alameda Ave and 3rd St].”
- “Traffic lights [Alameda Ave and Oil Mill Rd].”
- “Speed control [Alameda Ave and Paisano Dr].”
- “Improved transit service [Alameda Ave and S San Elizario Rd].”
- “Lighting [Alameda Ave and Connington St].”
- “Lighting [Alameda Ave and Zeppelin Dr].”
- “Franklin Canal can be used as a trail.”
- “More open space, more adequate safety signs; make the exit ramp from loop 375 back, not so close to the light signals [Alameda Ave and S Americas Ave].”
- “Difficult entering and exiting [Alameda Ave and A Yarbrough Dr].”
- “Difficult to enter [Alameda Ave and Bowen Rd].”
- “There is a lot of traffic from Delta Dr. to Yarbrough Dr. and there have been some fatal accidents and we need more lighting and street lighting.”
- “From delta to Carolina and Yarbrough, We need more lighting and street lighting and safety lights. There are a lot of fatal accidents.”

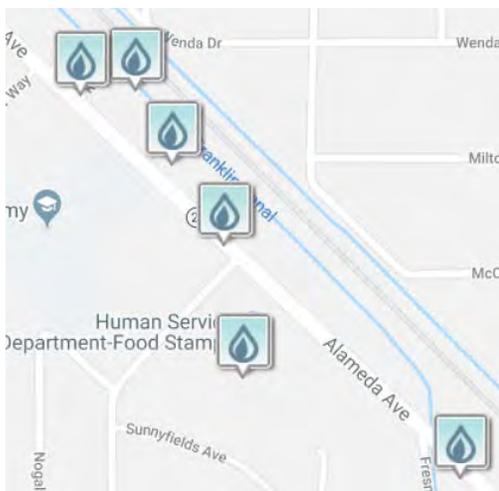

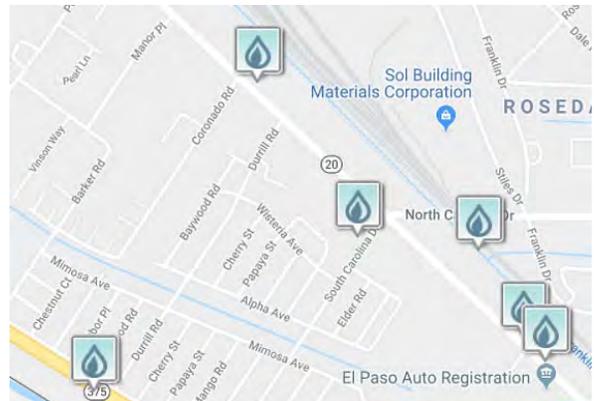

Screen 3: Interactive Map-Drainage Issues Marker

Of the six map markers, Drainage had the second highest number of placements on the map with a total of 21 markers (24%).

Shown to the left is an overview of the Drainage Issues marker

Shown to the right is a section of markers near North Carolina Dr

Shown from left to right is Alameda Ave from around Riverside Dr going south to about S Yarbrough Dr

Screen 3: Interactive Map-Drainage Issues Marker, Continued

The following are comments from participants:

- "Need to do something about runoff from Franklin canal onto sidewalks. Makes it impossible to walk on them."
- "In front of cadwallder elementary school has a big problem during heavy rains."
- "Flooding [Down Sunnyfields Ave]."
- "Alameda and Yarbrough."
- "Flooding [Alameda Ave and Rosedale St]."
- "Flooding [Alameda Ave and Riverdale Dr]."
- "Drainage issue every time it rains [Alameda Ave near Seneca Dr]."
- "Drainage issue whenever it rains [Alameda Ave near Fresno Dr]."
- "Drainage issue when it rains (bad) [Alameda Ave between Rosedale St and Riverside Dr]."
- "From delta to Caroling and Yarbrough, there has been severe flooding and are in FEMAs severe flood zone areas."

Screen 3: Interactive Map-Multimodal Marker

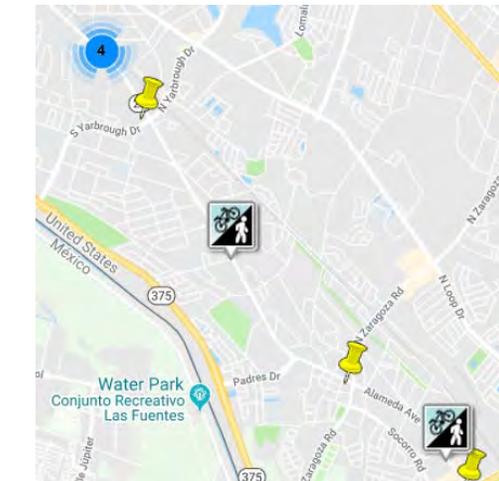

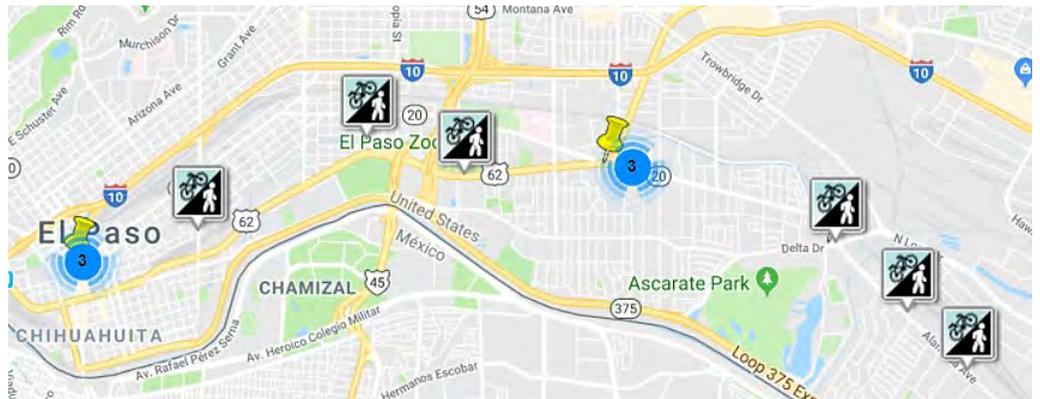

Of the six map markers, the Multimodal marker had the third highest number of placements on the map with 20 markers (22%).

Shown to the left is an overview of the Multimodal marker

Shown to the right is a section of northern SH 20

Shown to the left is a section of SH 20 near S Yarbrough Dr to 375

Screen 3: Interactive Map-Multimodal Marker, Continued

The following are comments from participants:

- “Existing bike facilities should be extended east along Alameda. Rather than an on-street bike lane, off-street bicycle facilities should be installed for a corridor with the number of trips that Alameda has. Adding these amenities will spur redevelopment along this corridor, which is lacking.”
- “Access to parks through bike lanes/bike trails and less reliance on cars.”
- “Need to have bike lane running down whole length of Alameda.”
- “Improved transit service.”
- “Franklin Canal can be used as a trail.”
- “Franklin Canal can be used as a safe walking path.”
- “Would like to see sidewalks on entire Alameda Ave.”

Screen 3: Interactive Map-Traffic Marker

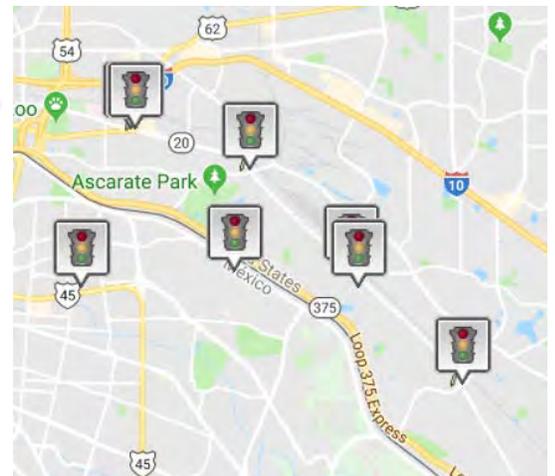

Of the six map markers, the Traffic marker had the fourth highest number of placements on the map, with a total of 15 markers (17%).

Shown to the left is an overview of the Traffic markers

Shown to the right is near the northern part of SH 20

Shown to the left are traffic markers towards the southern part of SH 20 from Buford Rd and Leisure Ln

Screen 3: Interactive Map-Traffic Marker, Continued

The following are comments from participants:

- “Having dedicated right turn lanes at the intersection of Horizon Blvd would help.”
- “Traffic circles are a nightmare for both cars and pedestrians.”
- “From Delta, Carolina, Yarbrough traffic is getting worst every year and more congested.”

Screen 3: Interactive Map-Environment Marker

Of the six map markers, the Environment marker had the fifth highest number of placements on the map, with a total of 5 markers (6%).

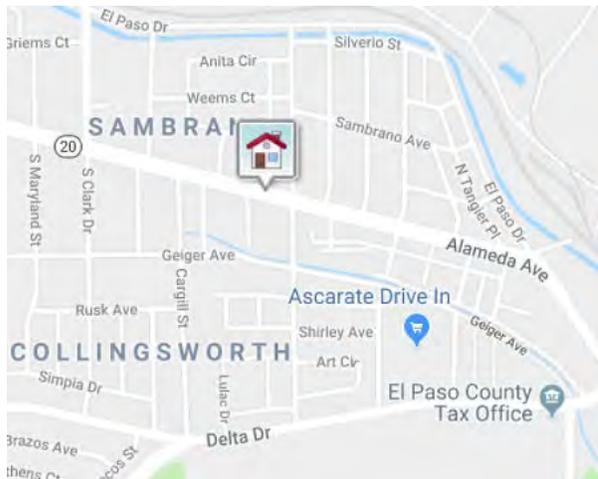

Shown above is the entirety of the environmental markers

The following are comments from participants:

- "Landscape medians are paved over in many stretches. Landscaping and trees should be reinstalled to bring Alameda back to its former glory."
- "There is little no landscaping on the corridor and it's an uninviting place for pedestrians and businesses other than car lots,"

Screen 3: Interactive Map- Other Marker

Of the six map markers, the Other marker had the least number of placements on the map, with a total of 2 markers (2%).

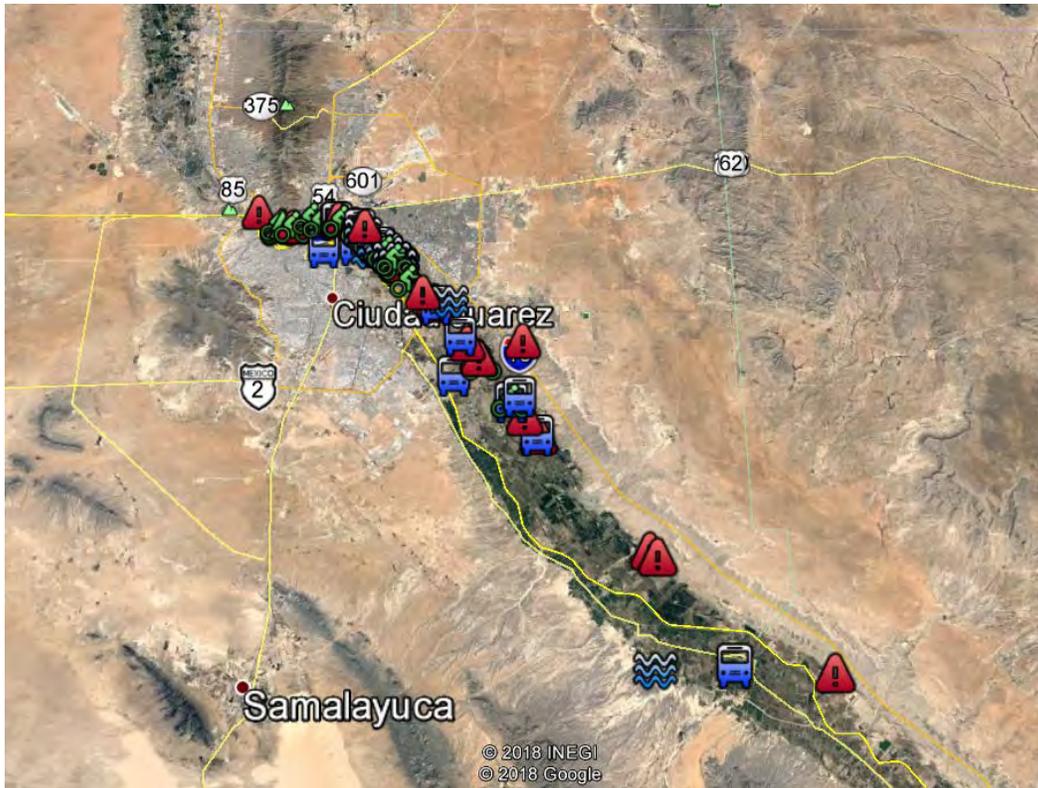

Shown to the left is the Other marker at Alameda Ave, between Paden St and N Ascarate St

The following are comments from participants:

- “The street lighting is lacking and sidewalk lacks connectivity. Improvements to this corridor should look to create linkages of existing infrastructure and improve the overall aesthetic.”
- “Mantenimiento a la comunidad y enfocarse en la limpieza de toda la ciudad.”

Google Earth Data Set View of MetroQuest Map

This Google Earth map is a more in-depth, satellite image of where all of the map markers are located on MetroQuest. When an icon is selected, you are able to see all of the information that participant has given. Each map marker has a different corresponding Google Icon. Double click the file (Alameda Data Set) below the picture to access the Google Earth Data Set.

Safety	Multimodal	Drainage Issues	Traffic	Environment	Other
					

Screen 4: In Your Own Words

The fourth slide on the survey asked participants to provide feedback in their own words about the SH 20 (Alameda Ave) Corridor. The Word Cloud below presents the comments. Words that appear larger are words that have been used the most often.

The following are the comments given by participants:

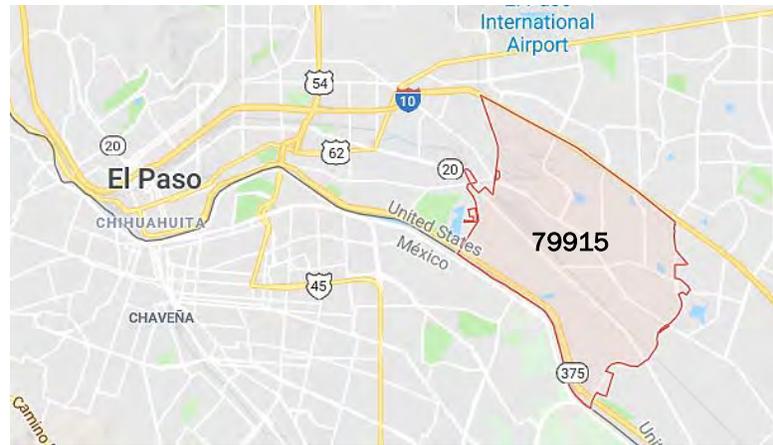

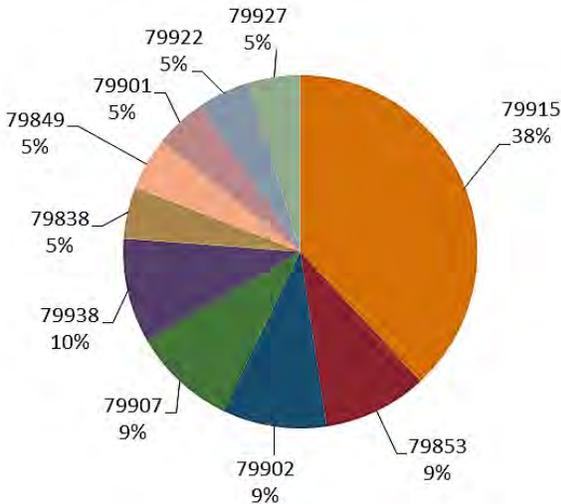

- “Need connectivity and multimodal access, urbanizing while adding aesthetic appeal throughout Alameda Corridor.”
- “Keep it up, testing comments.”
- “Widening Alameda to 3 lanes in each direction would alleviate a lot of the traffic. A continuous median would help a lot in controlling left turns along the corridor. Lighting in the Socorro section is a must. If reconstruction is going to happen I think making it of concrete is favourable over asphalt. Proper drainage would help in more developed sections where water has nowhere to go but pond on the roadway.”
- “Bury the power lines.”
- “Install off-street bicycle facilities; increase sidewalk widths and install missing sidewalks to promote walking; install street trees and improve street lighting.”
- “Alameda should reconnect with the neighborhoods and communities and offer services to the residents that are available in walking or biking distance. The bus stops have no shelters and the sidewalks are interrupted or very narrow. Crossing the street is very difficult, and there are no destinations on the corridor other than mostly car related businesses.”

- "Make it more walkable. Have more covered bus stops. Implement the existing bike plan."
- "Adequate sidewalks and shade trees."
- "Improve safety along the corridor by improving intersection transitions at FM 1110. Cross traffic is one lane each way with significant back up at peak hours. Providing a traffic circle for a flow of traffic or signals to allow cross traffic to operate will improve flow."
- "Make Alameda safer in all categories such as crossings for school children, large water puddles that form along a few areas on Alameda, and doing something about bypasses for slow moving farm equipment."
- "Better access to transit operations; better control of traffic speeds; and safety, safety, safety"
- "Safety, lighting, environment."
- "SH 20 needs to be expanded to meet current and future traffic needs. The right of way seems small. It may be a good idea to use the Franklin Canal to make the right of way a little bit bigger, as was done between Presa Ln. and Tx375."
- "Fix the deplorable streets and sidewalks, create sidewalks, limit business type car lots, beautify the areas, and make them walkable. Include amenities that people could be attracted to visit or pass by."
- "Alameda is in need of drainage first and foremost, as well as traffic and bike lanes that can be much safer for pedestrians and cyclists."
- "From Delta to Yarbrough sidewalks are in bad condition."
- "Me gustaria que todos como comunidad de el paso texas comensaramos con la limpieza que se a hecho un problema de salud publica empesando por limpiar nuestras propia casas."

Screen 5: Stay Involved

The fifth slide on the survey asked the participants general questions concerning their zip code, their primary use of the corridor, how they heard about the survey, and other comments that they wished to give. (Includes Spanish Participants)

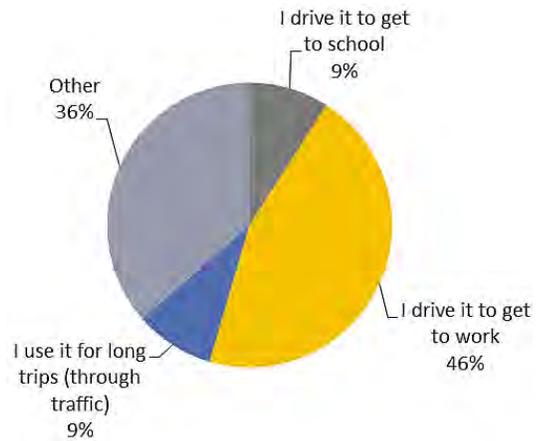

1. Zip Code

2. How do you primarily use the corridor?

- I drive it to get to work → 10
- Other → 8
- I use it for long trips (through traffic) → 2
- I drive it to get to school → 2

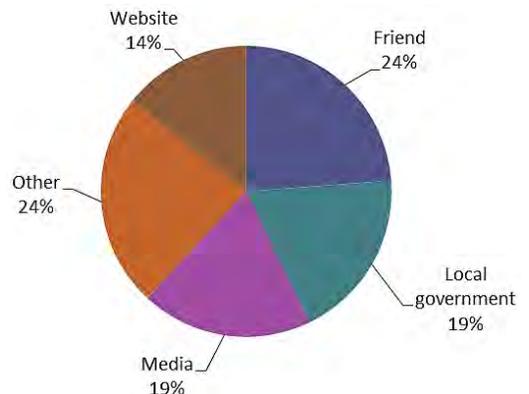

Total 22

3. How did you hear about the survey?

- Friend → 5
- Other → 5
- Local Government → 4
- Media → 4
- Website → 3

Total 21

Screen 5: Stay Involved, Continued

4. Other comments?

- “Excited to hear about this project.”
- “The study was well done; the presenters were well informed and knowledgeable; lots of good and relevant information.”
- “Alameda is one of the old highways which years back was the only way people used to travel from west to east and vice versa. Please make it beautiful and preserve it for future generations.”
- “This is a good idea to get input from residents who actually live on or off the corridor.”
- “From Delta to Yarbrough we would like to see reconstruction on this area.”
- “From Delta to Yarbrough we’d like to see reconstruction.”

Thank you for attending today's public meeting.
 The Texas Department of Transportation (TxDOT) welcomes you.

Today's public meeting is about the SH 20 (Alameda Avenue) Corridor Study. The Corridor Study will document the communities' vision for a 35-mile section of SH 20 (Texas/Alameda/Main) as it relates to future transportation along the corridor through 2040.

The purpose of the meeting is to present findings from the data collection & analysis and agency coordination conducted to date. We want your feedback to help define the needs and vision for the corridor.

No formal presentation will be given.

Gracias por asistir a la reunión pública de hoy. El Departamento de Transporte de Texas le da la bienvenida.

La reunión pública de hoy se trata del proyecto del Plan del Corredor SH 20 (Alameda Avenue). El plan documentará la visión que las comunidades tienen para esta sección de 35 millas de SH 20 (Texas/Alameda/Main) en lo que se refiere al transporte futuro a lo largo del corredor hasta el año 2040.

El propósito de esta reunión es presentar los resultados de la recopilación y análisis de datos junto con la coordinación entre las agencias que ha ocurrido hasta la fecha. Queremos su opinión para definir las necesidades y la visión del corredor.

No habrá presentación formal.

SH 20 (Alameda Avenue) Corridor Study - Fact Sheet
 EL PASO DISTRICT

OVERVIEW

TxDOT El Paso District is conducting a corridor study of State Highway (SH) 20 (Texas/Alameda/Main) from SH 20 (Mesa Street) in El Paso to Shaffer Road in the Town of Tornillo. The purpose of the study is to analyze and evaluate the current and future transportation needs for the SH 20 (Texas/Alameda/Main) corridor, gather feedback from stakeholders and the public, and develop a corridor plan for SH 20 (Texas/Alameda/Main).

The study area includes 35 miles of the SH 20 (Texas/Alameda/Main) corridor and goes through urbanized and rural areas within El Paso County. The corridor also serves as one of the major east/west connectors for various communities along its route.

WHAT IS A CORRIDOR PLAN?

A Corridor Plan...

- Defines existing transportation challenges and opportunities and considers, evaluates, and provides possible solutions.
- Documents and evaluates the community's future vision regarding transportation and develops a set of recommendations to enhance safety and mobility.
- Includes data collection, public outreach, analysis of current and future transportation needs, and identification of potential improvements.

STUDY OBJECTIVE & PROCESS

The objective of the 18-month SH 20 (Alameda Avenue) Corridor Study is to:

- Analyze current and future corridor challenges and needs
- Identify the community's future vision
- Develop a corridor plan

The study will be conducted through a process of data collection, analysis of current and future transportation needs, and public outreach. The final result of this study will be the development of conceptual design recommendations and a set of short-, medium-, and long-term improvements.

The study will evaluate topics such as:

- Vehicle/pedestrian/bicycle safety
- Roadway capacity
- Traffic operations
- Multimodal access
- Drainage
- Connections to the community
- Placemaking and aesthetics
- Environmental, cultural & community resources
- Estimated costs

SH 20 (Alameda Avenue) Corridor Study - Fact Sheet
 EL PASO DISTRICT

HOW CAN I PARTICIPATE?

Public engagement is a key element to the success of this study. Coordination with the public and stakeholders will be conducted throughout 2018 to help TxDOT identify the needs, challenges and vision for State Highway (SH) 20 (Texas/Alameda/Main) through 2040, develop, evaluate, and screen initial design concepts, and develop conceptual recommendations and prioritize improvements.

We welcome you to get involved in the study and participate in upcoming public meetings. The first series of public meetings is planned for June 26 and 27, 2018, followed by a second series in fall of 2018, and a third series in winter of 2018/2019. More details about these meetings will be posted to the TxDOT webpage at www.tdot.gov, keyword "Alameda Avenue". The study is expected to be completed in the spring of 2019.

Estudio Del Corredor SH 20 (Alameda Avenue) - Hoja de Datos
 EL DISTRITO DE EL PASO

VISIÓN GENERAL

El Distrito de El Paso de TxDOT está dirigiendo un estudio del corredor SH 20 (Alameda Avenue) desde SH 20 (Mesa Street) en la ciudad de El Paso hasta Shaffer Road en el Pueblo de Tornillo. El objetivo del estudio es analizar y evaluar las necesidades actuales y futuras de transporte del corredor, recibir los comentarios y sugerencias del público y de las partes involucradas, y desarrollar un plan del corredor para SH 20 (Texas/Alameda/Main).

La zona del estudio incluye una sección de 35 millas de SH 20 (Texas/Alameda/Main) y pasa por regiones urbanizadas y rurales dentro del condado de El Paso. El corredor sirve como una de las conexiones principales este oeste para las comunidades a lo largo de la ruta.

QUE ES UN PLAN DE CORREDOR?

Un plan de corredor...

- Define los desafíos y las oportunidades de transporte hoy en día además de considerar, evaluar, y ofrecer posibles soluciones.
- Documenta y evalúa la visión futura de la comunidad en lo que se refiere al futuro del transporte además de desarrollar una serie de recomendaciones para mejorar la seguridad y la movilidad del corredor.
- Incluye la recopilación de datos, la participación del público, análisis de las necesidades actuales y futuras de transporte, y la identificación de posibles mejoras.

OBJETIVO Y PROCESO DEL ESTUDIO

El estudio del corredor SH 20 (Alameda Avenue) tendrá 18 meses de duración y el objetivo es:

- Análisis los desafíos y las necesidades actuales y futuras de transporte
- Identificar la visión futura de la comunidad
- Desarrollar un plan de corredor

El estudio estará conducido a través de un proceso de recopilación de datos, análisis de las necesidades actuales y futuras de transporte, y participación pública. El resultado final del estudio será el desarrollo de recomendaciones de diseños de conexiones y una serie de mejoramientos que se implementarán a corto, medio y largo plazo.

El estudio evaluará temas como:

- La seguridad vehicular/pedestrian/ciclista
- La capacidad de la carretera
- Las operaciones del tráfico
- El acceso multimodal
- El drenaje
- Las conexiones a la comunidad
- Placemaking y la estética del corredor
- Los recursos ambientales, cultural, y de la comunidad
- Costos estimados

Estudio Del Corredor SH 20 (Alameda Avenue) - Hoja de Datos
 EL DISTRITO DE EL PASO

COMO PUEDO PARTICIPAR?

La participación del público es un elemento clave para el éxito de este plan de corredor. Coordinación con el público y las partes involucradas será conducida durante todo el año 2018 para ayudar a TxDOT identificar las necesidades, los desafíos, y la visión para la SH 20 (Texas/Alameda/Main) hasta el año 2040, desarrollar, evaluar y seleccionar los diseños conceptuales iniciales, y desarrollar las recomendaciones de los diseños conceptuales finales además de las prioridades de proyectos.

Los invitamos a involucrarse en el estudio y participarse en las reuniones públicas que vienen. La primera serie de reuniones públicas están programadas para el 26 y 27 de junio de 2018, seguido por la segunda serie en el otoño 2018 y la tercera serie en el invierno 2018/2019. Más detalles acerca de estas reuniones públicas serán publicadas en la página web de TxDOT: www.tdot.gov, palabra clave "Alameda Avenue". Se espera completar el estudio en la primavera 2019.

Station 2 – Background Information

Station 2 presented a study location, an exhibit that explained the study timeline and objectives, and exhibits that describe the demographic change projected by the El Paso Metropolitan Planning Organization to occur along the corridor between 2007 and 2040.

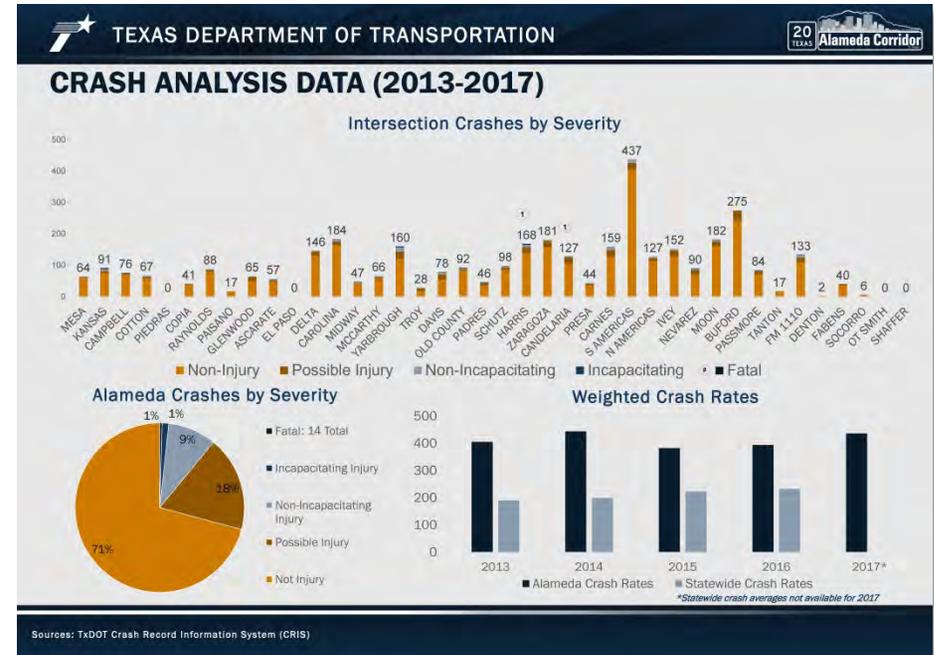

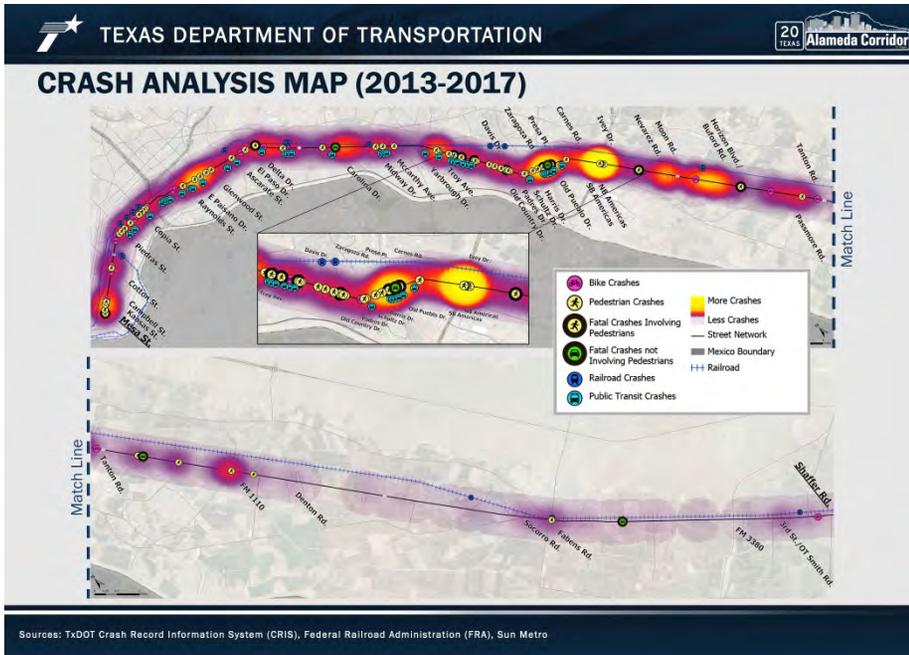

Station 2 – Background Information (continued)

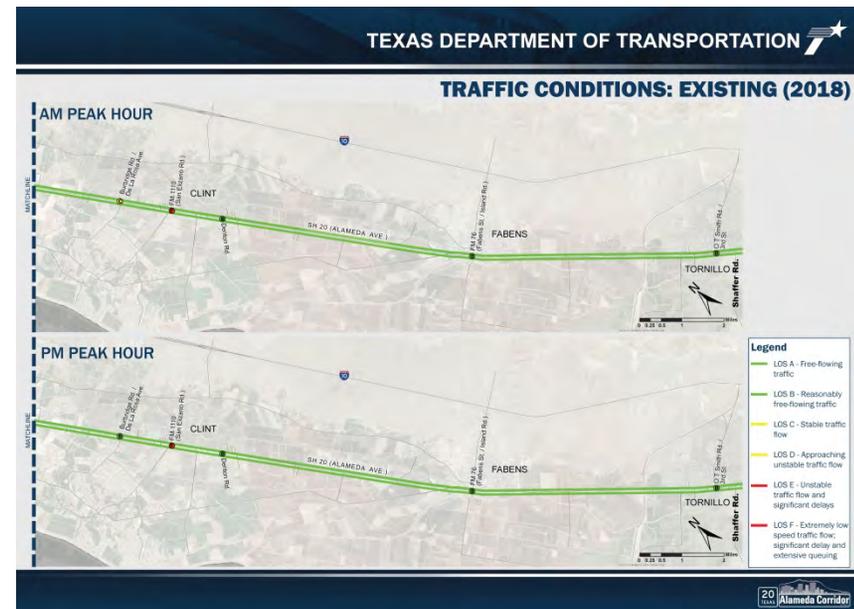

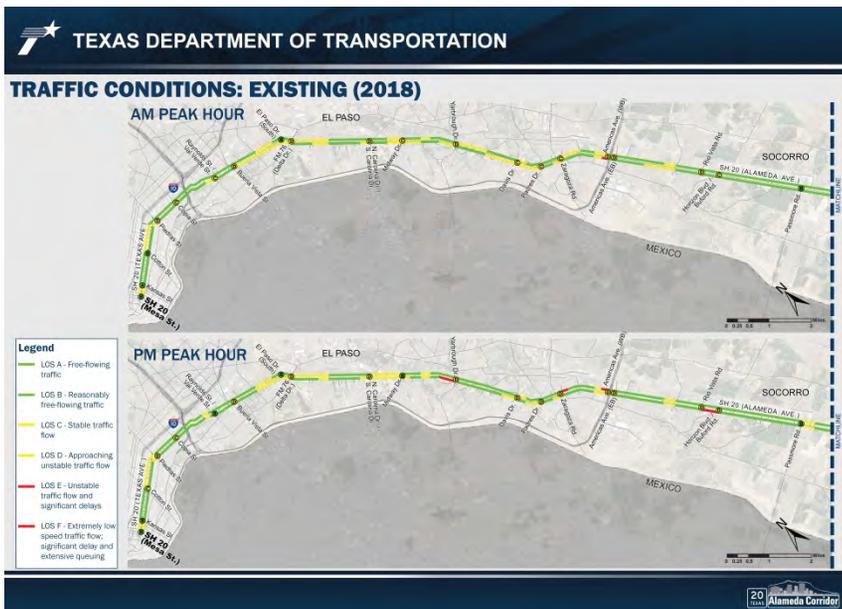

Station 3 – Crash Analysis

Exhibit boards show the location and severity of crashes along the corridor involving vehicles, pedestrians, cyclists, transit vehicles and at railroad crossings.

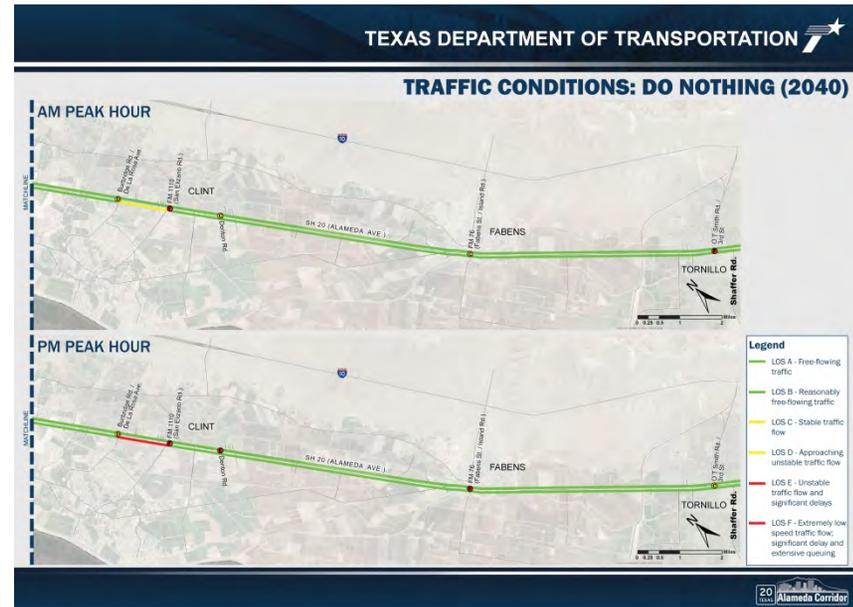

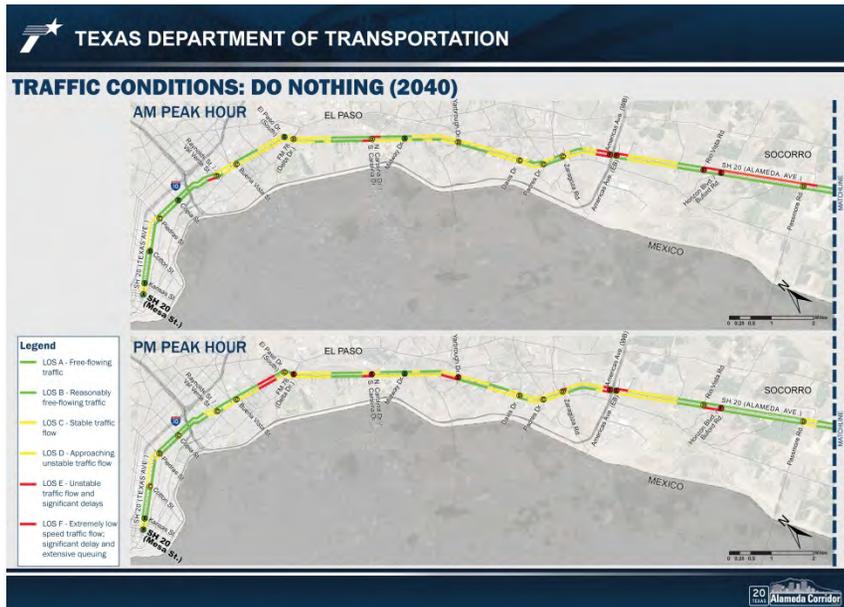

Station 4 – Traffic Conditions

Exhibit boards were used to explain the Existing (2018) and Do Nothing (2040) level of service along the corridor and at key intersections. In addition, an interactive 3D animation was used to illustrate existing traffic patterns (2018) and how traffic would operate in 2040 if no action were taken (Do Nothing).

Station 7 – Needs and Challenges

The corridor was presented to the public on large roll plots with photos/symbology that illustrated the challenges and needs the study team have already learned about the corridor. The map was also visualized on tablets using Google MyMaps. Participants were encouraged to review the maps, ask questions, and provide feedback about any other needs and challenges that the team should know about via sticky notes on the roll plots or through the tablets.

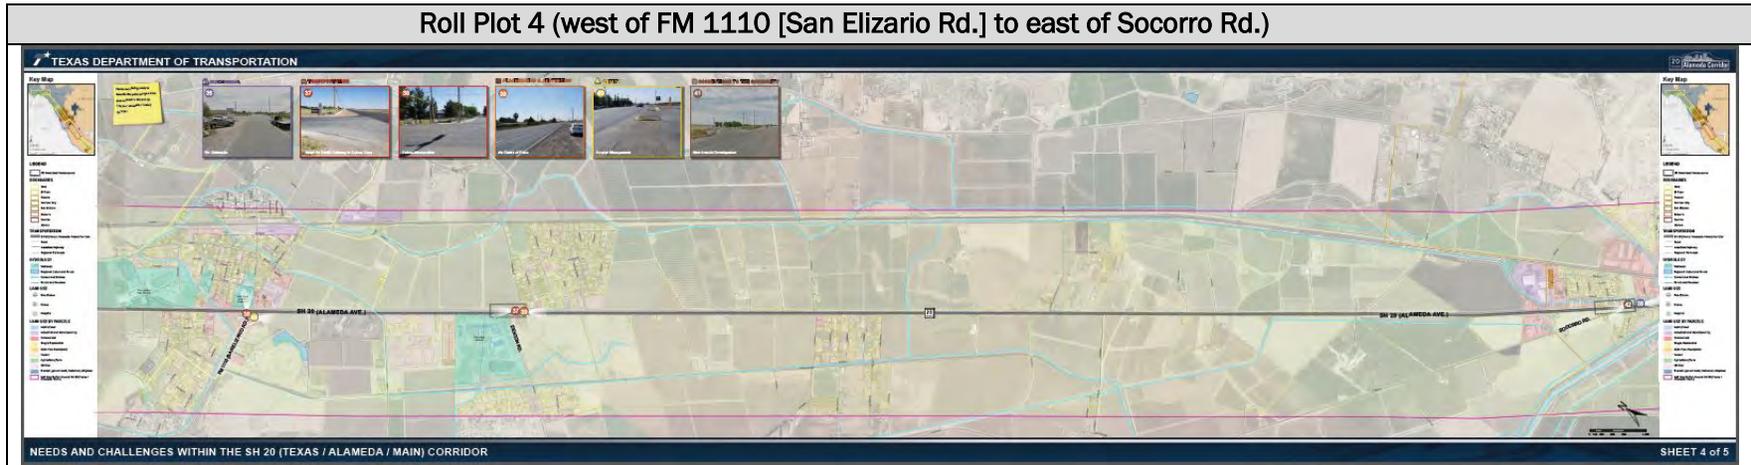

All comments provided via sticky note on the roll plots were then transcribed and entered into the Google MyMaps. Comments made at this station appear in the Comment-Response Matrix (**Attachment A**) and transcribed in Comments Received (**Attachment D**).

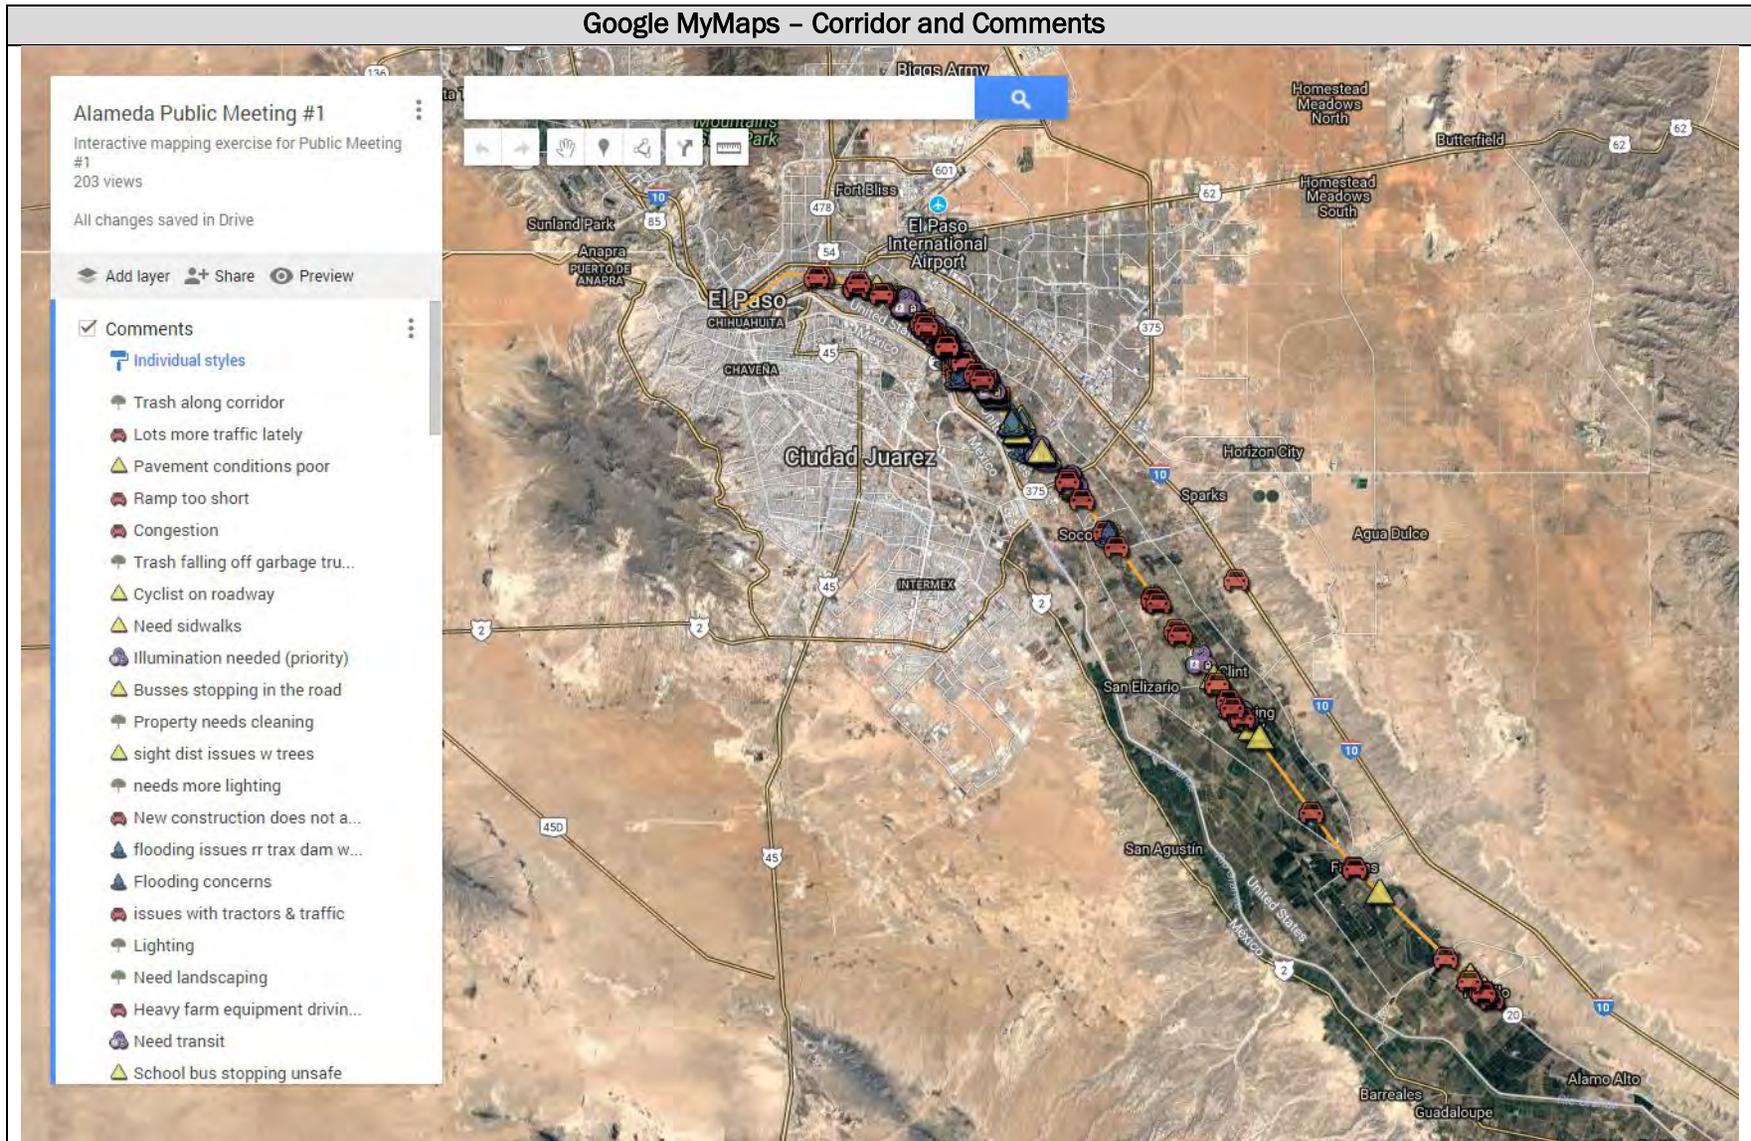

Station 7 - Needs and Challenges (continued)

Station 7 - Needs and Challenges (continued)

Station 7 - Needs and Challenges (continued)

Station 8 – Preliminary Evaluation Criteria

Participants were presented with a set of preliminary evaluation criteria that will be used to evaluate potential improvements/alternatives. Participants were given 3 sticker dots and asked to prioritize the evaluation criteria most important to them or write in other criteria that they thought the team should consider. Evaluation criteria included:

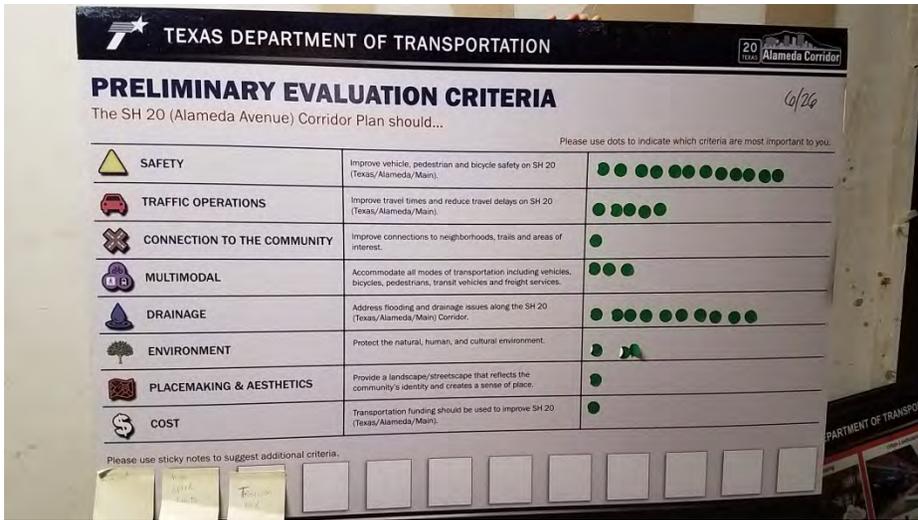

- Safety
- Traffic Operations
- Connection to the Community
- Multimodal
- Drainage
- Environment
- Placemaking & Aesthetics
- Cost

Each meeting presented the same set of exhibit boards.

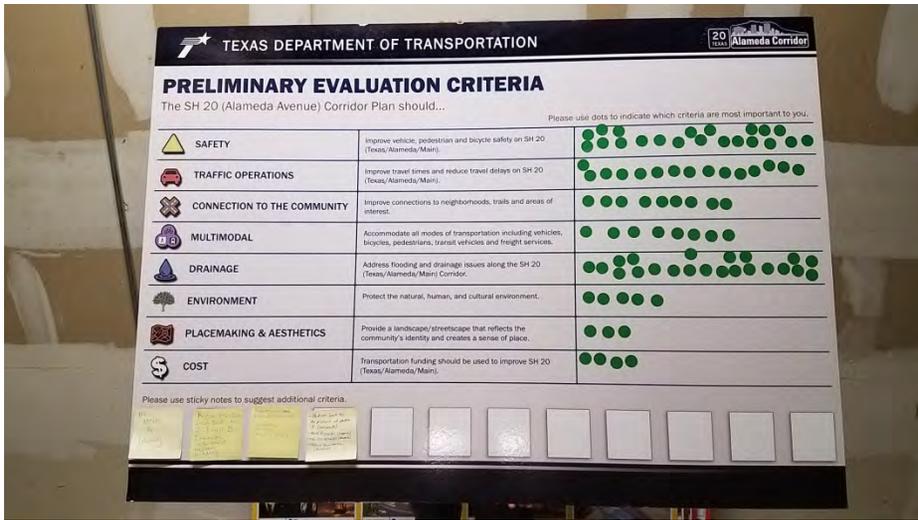

A total of 123 dots were placed on the exhibit boards (both meetings combined). The preliminary evaluation criteria with the highest number of dots overall was *Safety* followed by *Drainage*. The preliminary evaluation criteria with the lowest number of dots overall was *Placemaking & Aesthetics*. The following summarizes the number of dots placed next to each criterion.

Both the results of Agency Working Group Meeting #1 and Public Meeting Series #1 show that *Safety* is the most important criterion for everyone in the community along with *Traffic Operations*. However, the public indicated that *Drainage* was their 2nd highest priority (even outranking *Safety* at the Riverside High School Meeting), while it ranked 6th out of 9 criteria for participants of the Agency Working Group. Agency Working Group participants were more inclined to rank *Multimodal* higher than the public was. However, this does not mean the public did not prioritize *Multimodal* issues since a large portion of the comments received during the public meeting referred to sidewalk/pedestrian issues.

Station 8 – Preliminary Evaluation Criteria (continued)

Clint High School		
	<p>Dots:</p> <ul style="list-style-type: none"> • Safety (12) • Traffic Operations (5) • Connection to the Community (1) • Multimodal (3) • Drainage (10) • Environment (3) • Placemaking & Aesthetics (1) • Cost (1) 	
Written Criteria		
Slow moving farm equipment		
High speed limits		
Trash on road		

Station 8 – Preliminary Evaluation Criteria (continued)

Riverside High School	
	<p>Dots:</p> <ul style="list-style-type: none"> • Safety (21) • Traffic Operations (15) • Connection to the Community (9) • Multimodal (8) • Drainage (22) • Environment (5) • Placemaking & Aesthetics (3) • Cost (4)
Written Criteria	
No access to freeway	
Reconstruction from Delta to Yarbrough: need drainage, sidewalks, medians, and lighting.	
Reconstruction from Delta to Yarbrough: need drainage, sidewalks, medians, and lighting. (Duplicate Comment)	
<ul style="list-style-type: none"> – Median such as on picture at station 9 (Sacramento) – New signage (Phoenix) – New crosswalks (Phoenix) – Active separation (Phoenix) 	

Station 9 – Possible Solutions

Participants were presented with a set of possible solutions to the needs and challenges of the corridor based on the preliminary evaluation criteria. Participants were given 22 sticker dots and asked to prioritize the possible solutions most important to them or write in other solutions that they thought the team should consider. Possible Solutions were divided into multiple categories, which were then divided among the preliminary evaluation criteria. The Possible Solutions categories included:

- **Connection to the Community:**
 - Community Engagement
 - Trail Access
 - Connections to Neighborhoods
 - Type of Parking
- **Placemaking and Aesthetics**
 - Rural Landscaping
 - Urban Landscaping
 - Signage
 - Nodes of Activity
- **Safety**
 - Lighting
 - Traffic Safety
 - Pedestrian Safety
 - Bicycle Safety
- **Traffic Operations**
 - Medians
 - Intersections
 - Signals
 - Pedestrian interface with street
- **Multimodal**
 - Bicycle Facilities: Urban
 - Bicycle Facilities: Rural
 - Sidewalk Facilities: Urban
 - Sidewalk Facilities: Rural
 - Transit Facilities

Each meeting presented the same set of exhibit boards.

A total of 683 dots were placed on the exhibit boards (both meetings combined). Possible Solutions under the *Safety* Preliminary Evaluation Criteria had the highest number of dots overall was followed by *Traffic Operations*. The proposed solution with the most dots was *mid-block crossing* (under *Traffic Operations - Pedestrian Interface with the Street*) The solution with the lowest number of dots overall was *Elevated Pedestrian Walk* (under *Traffic Operations - Pedestrian Interface with the Street*). It is important to note that some solutions were not very popular on one end of the corridor but were very popular on the other end. For example, both Innovative and Complete Street Intersections received no dots during the Clint Public Meeting (eastern end of the corridor) but received 11 and 14 dots, respectively, during the Riverside Public Meeting (western end of the corridor). This indicates that some proposed solutions are context-sensitive and should not be applied uniformly throughout the corridor. The following summarizes the number of dots placed next to each improvement.

Station 9 – Possible Solutions (continued)

Connection to the Community – 104 dots total

Station 10 – Comments

Comments were accepted at the meeting via comment card, by interactive exhibit, and by participating in the online MetroQuest survey as well as after the meeting via mail, email, and online via the MetroQuest survey. Written comments received via comment card, mail, email, the MetroQuest survey, and the comments from the interactive exhibit at the meeting are cataloged in the comment-response matrix (see **Attachment A**) and other ranking and demographic feedback collected from the MetroQuest survey are attached below.

After categorizing the comments received from the public meeting by key word, the top 5 ranking issues were as follows:

1. Drainage & Flooding – 60
2. Sidewalks/Crosswalks/ADA Accessibility – 48
3. Lighting – 27
4. Medians/Turn Lanes/Shoulders – 25
5. Cross Street Safety/Turning/Signals – 16

20 TEXAS Alameda Corridor

HOW TO SUBMIT COMMENTS

1) Today at the Public Meeting:

- Fill out a Comment Form and drop it in the comment box
- Participate in the MetroQuest Survey at the computers

2) After the Public Meeting:

- **Send your Feedback via Mail:**
Texas Department of Transportation
Re: SH 20 (Alameda Avenue) Corridor Plan
c/o Thelma Ramirez - Project Manager
13301 Gateway Boulevard West
El Paso, Texas 79928-5410
- **Send your Feedback via Email:**
Alameda.Study@jacobs.com
- **Send your Feedback Online:**
 - Visit www.txdot.gov, keyword "Alameda Avenue"
 - Participate in the MetroQuest Survey
 - Scan this code with your smart phone or tablet

*All comments must be postmarked by **July 12, 2018** to be part of the official record of Public Meeting Series #1.*
