

Project Information

I-20/I-30 Operational Improvements Project I-20 from FM 1187/FM 3325 to Markum Ranch Road I-30 from I-20 to Linkcrest Drive

Purpose: To improve mobility, enhance access, reduce congestion, and improve safety within the project limits.

Proposed improvements:

- Reconstruct frontage roads
- Construct new interchanges at Minor Road 1, Minor Road 2, and the proposed extension of Walsh Ranch Parkway
- Construct operational improvements including proposed ramps, auxiliary lanes, intersection improvements, and frontage road U-turns
- Provide bicycle and pedestrian accommodations along the frontage roads and proposed cross streets within the project limits

Considerations:

- Existing main lane pavement would be maintained where possible and widened as needed to accommodate ramp and auxiliary lane improvements
- Improve the existing facility as needed to meet current design criteria and improve safety
- Evaluate any necessary drainage improvements
