Keywords: "US 81 at CR 4227/CR 4228"

The Texas Department of Transportation (TxDOT) is proposing intersection improvements and roadway reconstruction to US 81/US 287 near CR 4227/CR 4228 in Wise County, Texas.

The proposed project will include reconstruction of US 81/US 287 from a four-lane rural highway to a four-lane, controlled access highway with a grade separated crossing at NRS Ranch Road. An interim project is proposed which will implement crossover improvements and add acceleration/deceleration lanes to improve safety ahead of the proposed project.

The existing right of way width is 350 feet. The proposed project is anticipated to require approximately 0.6 acres for expansion and realignment of the roadway. No residential or non-residential displacements are anticipated.

TxDOT will host a virtual public meeting to present the proposed project design and receive input on the improvements. The public will be able to view the proposed project layout, a pre-recorded video presentation and learn about the project schedule. Public feedback on the project is strongly encouraged. All materials will be available on the project website.

TxDOT makes every reasonable effort to accommodate the needs of the public. The virtual public meeting will be in English. If you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call (817) 370-6708 no later than July 10, 2020. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.
