

I-45N Planning & Environmental Linkages Study

Beltway 8 North to Loop 336 South

We want your input!

Do you suggest any changes or additions?

Draft Goals

	Maximize existing ROW		Reduce roadway flooding
	Minimize environmental impacts		Improve transit accessibility and connections to I-45N
	Improve functionality of I-45N as a hurricane evacuation route		Improve bicycle and pedestrian facilities
	Look for cost-effective solutions		Maintain existing I-45N infrastructure
	Encourage public participation throughout study		Promote economic development and strengthen regional economic competitiveness
	Accommodate future technology to promote sustainability		Improve connectivity: <ul style="list-style-type: none"> • Enhance east-west connections • Improve interchanges with I-45N • Improve access to/from I-45N mainlanes • Improve connections to parallel facilities
