Safety Never Stops!

District Boundaries

THE RURAL TIP

is list of local projects to be funded within a TxDOT District during the next four years, including those eligible for federal funding.

It can include projects for :

A Rural TIP project is anticipated to be funded within the next 4 years.

It shows regional agreement (community-region-state) on the need of a project.

The Rural TIP process includes opportunities to provide input on the priority of major projects that are listed on it.

Local and small projects around your community dealing with safety and access also get funding through the Rural TIP, for example:

Road expansions

Sidewalks

Bike lanes

Pavement repair or maintenance

New or improved signals

Turning lanes

**You know
your
community
best!**

**Tell us what
project
should come
first and why**

By participating today, you will have the opportunity to provide comments on these projects! Information on how to provide comments will be provided later in the presentation.

Projects are identified and selected by evaluating existing and future needs based on:
current conditions and projections,
statewide and regional plans,
public input regarding transportation priorities

^ This would be you, right now!

For Example:

Selected projects are separated into
2
main categories

1. Regionally Significant Projects

Those with the appropriate scale or reach to be considered as stand-alone projects in a given program year have their own category.

2. Grouped Projects

Those without the scale to stand on their own are grouped into one of 11 sub categories and considered as a single line item in the list.

The Rural TIP is a fiscally constrained list of projects that functions as a budgeting tool for our District.

Funds can come from:

Federal Government

Through the Federal Highway and Transit Administrations

TxDOT

Through its Unified Transportation Program funding categories

Local governments

Who may be required to provide matching funds for federal monies

“Fiscally constrained TIP” means:

It is realistic in terms of the amount of funding available.
