

PROJECT FACT SHEET: US 75 Project

From FM 1417 to FM 120, and US 82 Interchange Improvements

PROJECT DETAILS

CSJs: 0047-03-086, 0047-02-146, 0047-18-082

Limits: From FM 1417 to FM 120, and US 82 Interchange Improvements, Cities of Sherman and Denison, Grayson County

Total Length: 12.7 miles

Description: The Ultimate Project has potential for phased implementation and would involve reconstruction of US 75 to add main lanes, continuous frontage roads, and U-turns. Ramps, bridges, and interchanges would be reconstructed as necessary. The proposed improvements to the US 75 and US 82 interchange would involve the addition of frontage road lanes and U-turns at the US 75 and US 82 interchange, as well as intersection improvements at North Travis Street and Loy Lake Road.

Anticipated Project Let: September 2019

PROJECT PURPOSE

The purpose of the proposed project is to improve safety, address congestion, improve traffic operations, and address roadway deficiencies.

PROJECT TIMELINE

The dates shown are preliminary and subject to change.

For more information, visit www.txdot.gov and search "US 75 Project."

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated Dec. 16, 2014, and executed by FHWA and TxDOT.

* Anticipated construction bid date is for the initial phase. The initial phase consists of improvements to the US 75/US 82 interchange, and widening of the US 75 main lanes from 4 to 6 total lanes from approximately FM 1417 to SH 91.
