

**Bicycle Planning Questionnaire**  
**Texas Department of Transportation - San Antonio District**  
**Tuesday May 15, 2018**

The TxDOT San Antonio District would like to gain information about how bicyclists use State System roadways (usually identified as US, FM, RM or Loop). Please assist the district by being as specific as possible with location information, including road/route name, cross streets or other landmarks, and county name. Feel free to use the maps in the center of the room.

1) What are some of your current challenges or barriers to cycling on the state roadway system?

2) Consider providing examples of specific locations on state roadways where you feel the safest and most comfortable cycling.

3) List your top 3 issues for bicycling on the state system?

Please be as specific as possible with location information, including road/route name, cross streets or other landmarks, and county name. Feel free to use the maps in the center of the room.

4) Which state roads do you currently bicycle on?

5) List the top 3 state roadways where you recommend bicycle facilities. For these three locations, what types of bicycle accommodations would you recommend?
